Securities Note

for the issuance of

Securities with Single Underlying and Multi Underlying
(with (partial) capital protection)

30 November 2023

This Securities Note has been approved by the Commission de Surveillance du Secteur Financier ("CSSF") as the competent authority under the PR. The CSSF only approves this Securities Note as meeting the standards of completeness, comprehensibility and consistency imposed by the PR. Such approval shall not be considered as an endorsement of the quality of the Securities that are the subject of this Securities Note. Investors should make their own assessment as to the suitability of investing in the Securities.

By approving a prospectus, the CSSF shall give no undertaking as to the economic and financial soundness of the operation or the quality or solvency of the issuer pursuant to Article 6(4) of the Luxembourg act relating to prospectuses for securities dated 16 July 2019 (*Loi du 16 juillet 2019 relative aux prospectus pour valeurs mobilières et portant mise en oeuvre du règlement (UE) 2017/1129*).

Under the Base Prospectus the Issuer may issue new Securities under the Programme or increase the issuing volume of Securities which have already been issued. The Issuer may apply for the admission to trading of Securities on a regulated market, third country market, a multilateral trading system and/or another exchange or another market and/or trading system for Securities.

The validity of the Base Prospectus, comprising this Securities Note and the Registration Document, will expire on 30 November 2024. From this point in time, the obligation to supplement the Securities Note in the event of significant new factors, material mistakes or material inaccuracies does not apply when a prospectus is no longer valid.

This Base Prospectus is the successor of the base prospectus of UniCredit S.p.A. dated 1 December 2022 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection) for the purposes of Article 8 (11) of the Prospectus Regulation.

The information on any website included in the Securities Note do not form part of the Securities Note and has not been scrutinised or approved by the CSSF.

The "**Underlying**" of the Securities may either be a Single-Underlying or a Multi-Underlying.

In case of Securities with "**Single-Underlying**", the Underlying may either be a Share, a Fund Share, a Financial Index, an Inflation Index, a Commodity, a Exchange Traded Commodity or a Currency

Exchange Rate. In the case of Cash Collect Protection Securities and Protection Barrier Securities the Underlying may also be a Reference Rate.

In case of Securities with "**Multi-Underlying**", the Securities may either be issued as Basket-linked Securities or as Hybrid Securities.

In the case of "**Basket-linked Securities**", the Underlying is a basket consisting of several Basket Components. "**Basket Components**" may either be Shares, Financial Indices, Fund Shares, Commodities, Exchange Traded Commodities or Currency Exchanges Rates or a combination of those assets.

In the case of "**Hybrid Securities**", the Securities are linked to two Underlyings. The first Underlying is an Inflation Index and the second Underlying may either be a Financial Index or a Reference Rate.

The Issuers may offer Securities in accordance with HVB's sustainability guidelines (the "**Sustainability Guidelines**"). For further information please see section "*General Information on the Securities*" – "*Information regarding certain Sustainability Criteria*")

The Underlying(s) and the Basket Components are the main influencing factor on the value of the Securities. The influence of the value of the Underlying(s) or of the Basket Components on the value of the Securities is described below in the section "*DESCRIPTION OF THE SECURITIES*" for each Product Type.

No person has been authorised to give any information or to make any representation not contained in or not consistent with the Base Prospectus or any other information supplied in connection with the Programme and, if given or made, such information or representation must not be relied upon as having been authorised by the Issuer.

Neither the Base Prospectus nor any other information supplied in connection with the Programme constitutes a recommendation, an offer or invitation by or on behalf of the Issuer to any person to subscribe for or to purchase any Securities. The delivery of the Base Prospectus does not imply that the information contained therein concerning the Issuer is correct at any time subsequent to the date of the Base Prospectus or that any other information supplied in connection with the Programme is correct as of any time subsequent to the date indicated in the document containing the same. Investors should read *inter alia* the most recent non-consolidated or consolidated financial statements and interim reports, if any, of the Issuer when deciding whether or not to purchase any Securities.

The distribution of the Base Prospectus and the offer or sale of Securities may be restricted by law in certain jurisdictions. Persons into whose possession the Base Prospectus or any Securities come must inform themselves about any such restrictions. In particular, there are restrictions on the distribution of the Base Prospectus and the offer or sale of Securities in the United States of America and on the offer or sale of the Securities in the European Economic Area (see section "*GENERAL INFORMATION*", sub-section "*Selling Restrictions*" below). The Securities have not been and will not be registered under the U.S. Securities Act of 1933, as amended (the "**Securities Act**") and are subject to U.S. tax law requirements. Subject to certain exceptions, Securities may not be offered, sold or delivered within the United States of America or to U.S. persons (see section "*GENERAL INFORMATION*", sub-section "*Selling Restrictions*" below).

RISK FACTORS

Prospective Security Holders of the Securities, should consider the following risk factors, which are specific to the Securities and which are material for taking an informed investment decision and should make such decision only on the basis of the Base Prospectus as a whole (including the Registration Document), the relevant Final Terms and the Issue Specific Summary.

The following risk factors shall be read in conjunction with the material risks that are specific to the Issuer and that may affect the Issuer's ability to fulfil its obligations under the Securities, which are set out within the Registration Document.

The Base Prospectus, including the following risk factors and the risk factors set out within the Registration Document, and the relevant Final Terms of the Securities do not replace a professional consultation with a potential investor's house bank or financial adviser. However, potential investors should carefully consider these risk factors before making a decision to purchase any Securities in any case. An investment in the Securities is only suitable for investors, who understand the nature of such Securities and the extent of the incorporated risk and who have sufficient knowledge, experience and access to professional advisors (including their financial, legal and tax advisors) in order to form their own legal, tax and financial opinion upon the existing risks in relation to the Securities.

Potential investors should be aware that the risks described below may arise separately or cumulatively in combination with other risks and may possibly have mutually reinforcing effects.

The risk factors related to HVB as the Issuer are set out on pages 4 to 9 of the Registration Document I, and the risk factors related to UniCredit as the Issuer are set out on pages 3 to 22 of the Registration Document II.

The risk factors related to the Securities herein are organised into the following three categories below depending on their nature. Unless expressly stated otherwise below, the most material risk factor is mentioned first in each of the following categories:

- 1. Risks related to the Nature of the Securities;*
- 2. Risks related to the Underlying and the Reference Rate;*
- 3. Risks related to the Offer to the Public and/or Admission to Trading.*

*Below only the term "**Underlying**" is used. As the risks described in this section do, however, affect the Basket Components of Securities with Multi-Underlying in the same way, the risk factors described are to be read to also apply to Basket Components and are therefore relevant for potential investors in all Product Types.*

1. RISKS RELATED TO THE NATURE OF THE SECURITIES

1.1. Insolvency risk and risks in relation to resolution measures in relation to the Issuer

The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

The Issuer, as part of the internationally active UniCredit Group, is subject to a variety of risks (see the risk factors related to HVB as the Issuer as set out in the Registration Document I, and the risk factors related to UniCredit as the Issuer as set out in the Registration Document II). These risks may, individually or combined, lead to the Issuer being unable, or only partially able to fulfil its obligations resulting from the Securities or it is unable to do so when they become due. This may occur when the Issuer becomes insolvent or over indebted.

HVB as Issuer

In case insolvency proceedings are opened against the Issuer, Security Holders can only assert their claims pursuant to the German Insolvency Code (*Insolvenzordnung*). The Security Holders will in that case receive an amount which is determined pursuant to the insolvency ratio (*Insolvenzquote*). Although the Securities are non-subordinated obligations of the Issuer, this amount will regularly be substantially

less than the amount the Security Holder has paid for the purchase of the Securities. An insolvency of the Issuer may even lead to the complete loss of the amount paid by the Security Holder for the purchase of the Securities.

Due to its status as a CRR credit institution¹ legal provisions included in

- the European Regulation (EU) No 806/2014² ("**SRM**"), and
- the German Restructuring and Resolution Act (*Sanierungs- und Abwicklungsgesetz* – "**SAG**"),

give the competent resolution authority the right to implement, *inter alia*, the following resolution measures against the Issuer. These measures can be detrimental to the interests of the Security Holders.

The resolution authority in relation to the Issuer is the German Federal Financial Supervisory Authority (*Bundesanstalt für Finanzdienstleistungsaufsicht* – "**BaFin**"). BaFin may, in certain cases which are set out in the SAG, convert claims of the Security Holders resulting from the Securities into shares in the Issuer (e.g. stocks). In that case, Security Holders would bear the same risks as any other shareholder of the Issuer. In such a situation, the price of the Issuer's shares will regularly have fallen significantly beforehand.

The face value or outstanding residual amount of the Securities as well as any interest may be completely or partially reduced. In that case, Security Holders will receive a lower or no repayment of the capital amount paid for the purchase of the Securities. It is also possible that Security Holders receive lower or no interest payments.

The resolution authority may also amend the Terms and Conditions of the Securities. It may for example postpone the redemption of the Securities. In that case, the Security Holders will receive payments under the Securities at a later point in time than originally scheduled in the Terms and Conditions.

The prerequisites for a resolution are met under the SAG when the resolution authority determines that the Issuer is failing or likely to fail.

In case the resolution authority exercises any resolution measures, the Security Holders bear the risk of losing their claims resulting from the Securities. This pertains in particular to claims for payment of the Redemption Amount or payment of interest or other payments under the Securities.

If there is a threat regarding the fulfilment of the obligations of the Issuer, BaFin can take certain measures, including a temporary decree which prohibits further payments by the Issuer. For the duration of the prohibition of payments, the Security Holders cannot claim any payments resulting from the Securities from the Issuer.

This means that there is a substantial risk and that Security Holders will most likely risk to lose their claims resulting from the Securities. This includes the **risk of total loss**.

UniCredit as Issuer

In case insolvency proceedings are opened against the Issuer, you can only assert your claims pursuant to the Legislative Decree No. 14 as implemented on 12 January 2019. You will in that case receive an amount which is determined pursuant to the insolvency ratio.

¹ Within the meaning of section 1 para. 3d sent. 1 of the German Banking Act. "**CRR**" means the European Capital Requirements Regulation (EU) No 575/2013.

² Regulation (EU) No 806/2014 of the European Parliament and of the Council of 15 July 2014 establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund and amending Regulation (EU) No 1093/2010.

The Issuer is subject to the Bank Recovery and Resolution Directive 2014/59/EU as amended from time to time ("**BRRD**") and the Single Resolution Mechanism ("**SRM**") as described in the Registration Document II.

The stated aim of the BRRD is to provide the authority designated by each EU Member State (the "**Resolution Authority**") with a credible set of tools and powers, including the ability to apply the Bail-in Power, to address banking crises pre-emptively in order to safeguard financial stability and minimize taxpayers' exposure to losses. The powers provided to the Resolution Authority under the BRRD and the relevant implementing measures in the relevant Member State and the SRM include statutory write-down and/or conversion power whether relating to the resolution or independent of any resolution action (the "**Bail-in Power**") to ensure that capital instruments and eligible liabilities (including senior debt instruments) absorb losses of the issuing institution that is subject to resolution in accordance with a set order of priority.

Through the exercise of the Bail-in Power, the Nominal Amount of the Securities as well as any other amount payable under the Securities may be completely or partially reduced. In that case, Security Holders will receive a lower or no repayment of the capital amount of the Securities. It is also possible that Security Holders receive lower or no ongoing payments.

The Resolution Authority may also amend the terms and conditions of the Securities. It may for example postpone the redemption of the Securities. In that case, the Security Holders will receive payments under the Securities at a later point in time than originally scheduled. The aforementioned measures may result in a default of all claims under the Securities and thus to a total loss of the investment of the Security Holder. There may be negative effects in the market value of the Securities even before the execution of such rights. In addition, the Issuer's assets may be affected under these measures, which may further adversely affect the ability of the Issuer to meet its payment obligations under the Securities.

It is generally not or only partly possible to predict future regulatory measures and further legislative projects.

Insolvency of the Issuer or the exercise of any resolution measures or other sovereign interventions against the Issuer is associated with considerable risks for the Security Holder. This means that there is a substantial risk of loss for the Security Holder, including a **risk of total loss**.

1.2. Regulatory restrictions with regard to certain types of Securities

The BRRD has been amended by Directive (EU) 2019/879 (the "**BRRD II**"), which has detailed the scope of liabilities that are intended to be eligible for the purposes of the minimum requirement for own funds and eligible liabilities ("**MREL**"). In particular, according to new Article 45b para. 2, certain types of Securities may be considered as eligible liabilities available to meet the MREL Requirements.

Furthermore, it is necessary to specify that, UniCredit is also subject to the provisions of the Regulation 806/2014 (the "**SRMR**" which has been amended by Regulation 877/2019 (the "**SRMR II**")), which, by reproducing exactly Article 45b of BRRD II, defines in Article 12c the eligible liabilities for entities subject to resolution.

As a consequence all the provisions concerning the eligible liabilities set out in the BRRD II, in the SRMR II and in the Regulation 2013/575/EU (the "**CRR**" which has been amended by Regulation 2019/876/EU (the "**CRR II**")), should be deemed applicable for the Securities which have a determined percentage of capital protection (the "**Eligible Securities**").

Therefore as long as such types of Securities are considered Eligible Securities, the redemption and repurchase of such Eligible Securities at the option of UniCredit is subject to compliance by UniCredit with any conditions to such redemption or repurchase prescribed by the MREL Requirements at the relevant time (including the prior permission from the Relevant Resolution Authority as well as any other requirements applicable to such redemption or repurchase due to the qualification of such Securities at such time as eligible liabilities available to meet the then applicable MREL Requirements).

Furthermore, Security Holders are not entitled to set off claims arising from such Eligible Securities against any of UniCredit's claims. No security of whatever kind and no guarantee is, or shall at any time be, provided by UniCredit or any other person securing or guaranteeing rights of the Security Holders, which enhances the seniority of the claims under these Eligible Securities and the respective Eligible Securities are not, or shall not at any time be, subject to any arrangement that enhances the seniority of the claims under these Eligible Securities. Furthermore, termination rights are excluded for the respective Security Holders.

These restrictions may limit the rights of UniCredit and, in particular, of the Security Holders and might expose them to the risk that their investment will have a lower potential return than expected.

Securities that are intended to be Eligible Securities will be subject to additional restrictions in the future, following the full applicability of the relevant provisions arising from the CRR II, the SRMR II and the BRRD II and respective implementation into national law.

1.3. *Risks related to market value-influencing factors*

The market value of the Securities will be affected by a number of factors. These are, *inter alia*, the creditworthiness of the Issuer, the relevant prevailing interest and yield rates, the market for similar securities, the general economic, political and cyclical conditions, the tradability and, if applicable, the remaining term of the Securities as well as additional Underlying-related market value-influencing factors.

The market value of the Securities as well as the amounts distributable under the Securities primarily depend on the price of the Underlying, as the case may be. In general, the value of the Securities falls and the Redemption Amount decreases if the price of the Underlying decreases as well. Conversely, in case of Securities with a Downside feature, a reverse structure applies, i.e. the value of the Securities falls and the Redemption Amount decreases if the price of the Underlying rises. In addition, the potential income from the Securities is limited, because the price of the Underlying can never fall by more than 100%.

It is not possible to predict how the price of the Underlying will develop in the future. The price of the Underlying may also depend on a number of inter-related factors, including cyclical, economic, financial and political events and their general effect on capital markets and on the relevant stock exchanges. The past performance of an Underlying provides no indication of its future performance. The amounts to be distributed under the Securities may therefore be substantially lower than the price of the Underlying may in advance have suggested.

1.4. *Risks related to the Redemption Amount*

The Securities will be redeemed at their maturity at the Redemption Amount specified in the Final Terms. The Redemption Amount may be less than the Issue Price or the purchase price. This means, the Security Holder only achieves a return (subject to the influence of exchange rate and inflation risk) if the Redemption Amount, including ongoing payments, if specified in the relevant Final Terms (see also sub-section "1.6 Risks arising from missing ongoing payments" of this section "RISK FACTORS"), exceeds the individual purchase price of the Security Holder. The Redemption Amount may also be lower than the Nominal Amount of the Securities.

Potential investors should note that the Minimum Amount payable on the Final Payment Date may be less than the Nominal Amount. The Minimum Amount is specified in the Final Terms of the Securities. Furthermore, the Minimum Amount can always be less than the Issue Price or the individual purchase price paid by the Security Holder for the acquisition of the Securities (also taking into account any commissions and acquisition costs). Consequently, the Security Holder may **lose a significant portion of the capital invested** despite the fact that partial capital protection is provided by the Minimum Amount.

If the Final Terms provide for a maximum redemption payment (e.g. a Maximum Amount) the potential return from the Securities is limited in contrast to a direct investment in the Underlying. A participation in a favourable performance of the Underlying beyond such maximum redemption payment is excluded.

1.5. *Inflation Risk*

The Security Holder is subject to an Inflation Risk. This is the risk that the purchasing power of the capital invested in an instrument may be affected by an increase in the general level of consumer product prices over the duration of the investment period. In this respect, the 'real return on an investment' is defined as the inflation-adjusted return, i.e. the nominal return (including the change in value of the invested capital) minus the realised inflation rate. It should therefore be noted that the real return on the instrument, i.e. the inflation-adjusted return measured over the life of the investment, may be negative.

1.6. *Risks related to a Barrier Event*

If a Barrier Event occurs, as specified in the Final Terms, a payment under the Securities may be limited or a more advantageous pay-out formula may be disappplied.

The risk that a Barrier Event occurs depends on whether the Final Terms provide for a date-related barrier observation, a daily barrier observation or a continuous barrier observation (intra day) or a final barrier observation. A daily barrier observation and a continuous barrier observation may even increase the risk of an occurrence of a Barrier Event. The risk of the occurrence of a Barrier Event increases as closer the underlying barrier (which may also lie at or above (or, in case of Downside structures, below) the initial price of the Underlying) lies to the current price of the Underlying. The risk also depends on the length of the respective barrier observation period, on the number of dates on which the Barrier Event may occur and on the volatility of the Underlying.

1.7. *Risks arising from missing ongoing payments*

Unless otherwise specified in the applicable Final Terms, the Securities do not bear interest or grant any other unconditional rights for ongoing payments which could compensate possible losses of principal.

In case where the conditional payment of amounts is specified in the Final Terms, the payment and/or the extent of such amounts depend on the performance of the Underlying or the relevant Reference Rate, as the case may be. Potential investors should be aware that in case of an unfavourable performance of the Underlying no payment of any conditional amount may occur or that any amount may also be very low or even zero or that the payment of a conditional amount may irretrievably lapse for the remaining term of the Securities.

If specified in the Final Terms, certain amounts only may be payable if certain events have occurred (e.g. an Additional Conditional Amount Payment Event or a Final Redemption Event) which depend on having reached a certain threshold or limit (e.g. an Additional Conditional Amount Payment Level or a Final Redemption Level). If the respective threshold or limit, as specified in the Final Terms, has not been reached or if the event has not occurred, the respective Security Holder is not entitled to receive the amount specified in the Final Terms. In addition, thresholds or limits (e.g. a Barrier Level) or the occurrence of certain events (e.g. a Barrier Event) may in particular have a significant influence on the market value of the Securities and amounts to be distributed under the Securities. Investors should only invest their capital into the Securities if they completely understood the mechanism of the applicable pay-out formula.

1.8. *Currency and Currency Exchange Rate risk with respect to the Securities*

If the Securities are denominated in a currency (the "**Specified Currency**") other than the currency of the jurisdiction where a Security Holder is domiciled or where the Security Holder seeks to receive funds, there is a Currency Exchange Rate risk. Furthermore, in the case of Compo Securities, there is a Currency Exchange Rate risk, since the Underlying is traded in a currency other than the Specified Currency and the Currency Exchange Rate risk is not excluded.

Exchange rates between currencies (the "**Currency Exchange Rates**") are determined by factors of supply and demand in the international currency markets and are influenced by macro-economic factors, speculations and interventions by the central banks and governments as well as by political factors (including the imposition of currency controls and restrictions). In addition there are other factors (e.g.

psychological factors) which are almost impossible to predict (e.g. a crisis of confidence in the political regime of a country) and which also may have a material impact on a Currency Exchange Rate.

Currencies may be very volatile. There may be an increased risk in connection with currencies of countries whose standard of development is not comparable to the standard of the Eurozone member states or of other industrialized countries. In the case of any irregularities or manipulations in connection with the fixing of Currency Exchange Rates, this may have a material adverse effect on the Securities. Currencies may also be devalued or replaced by a different currency whose development cannot be predicted.

In cases where the conversion of amounts payable under the Securities is not made directly by application of one Currency Exchange Rate but indirectly by application of two different Currency Exchange Rates (so called *Cross Rate* option), an increased Currency Exchange Rate risk exists. In such cases, the currency of the Underlying will at first be converted into a third currency before it will then be converted into the Specified Currency. Thus, as the amounts to be paid at redemption and, if applicable, at early redemption depend on two different Currency Exchange Rates, investors are exposed to an increased Currency Exchange Rate risk.

An unfavourable development of the respective Currency Exchange Rate may reduce the financial performance of the Securities or lead to financial losses at the Security Holder, even if the respective Underlying of the Securities performs well. In addition, the occurrence of certain events, as specified in the relevant Final Terms, may lead to an adjustment of the Terms and Conditions (see sub-section "1.11 Risks related to Adjustment Events" of this section "RISK FACTORS") or a conversion of the Securities (see sub-section "1.12. Risks related to Conversion Events" of this section "RISK FACTORS").

1.9. Risks related to an Automatic Early Redemption

In the case of Securities with Automatic Early Redemption, the Securities will be automatically early redeemed by payment of the Early Redemption Amount, specified in the Final Terms, if an Early Redemption Event occurs. The Early Redemption Amount may be below the Issue Price or purchase price in which case the Security Holder would suffer a partial loss of her/his invested capital. The occurrence of an Early Redemption Event depends on the performance of the Underlying. In this case, the Security Holder will neither participate in any future favourable performance of the Underlying nor be entitled to further payments under the Securities after an early redemption.

If the Final Terms provide for the payment of an Additional Conditional Amount or an Additional Unconditional Amount, the occurrence of an Early Redemption Event will also mean that no further additional amounts will be paid after the respective Early Redemption Date.

In addition, the Security Holders are exposed to the risk that they may only reinvest the principal received due to an Automatic Early Redemption of the Securities to less favourable conditions (the "**Reinvestment Risk**").

1.10. Risk of redemption of Eligible Securities due to regulatory event

To the extent that certain types of Securities are considered Eligible Securities, any early redemption of the Eligible Securities is subject to compliance by the Issuer with any conditions or restrictions to such redemption prescribed by the applicable regulations at the relevant time.

Therefore, there is a risk that such Eligible Securities cease to qualify as eligible for the purposes of MREL (e.g. based on regulatory changes). In such event, the Issuer may redeem the Eligible Securities and expose the Security Holders to the risk that due to the early redemption their investment may have a lower than expected potential return, and that they may only reinvest the amount received to less favourable conditions.

In addition, the new regulatory framework, set out in Articles 77 and 78a of CRR II, provides that the Relevant Resolution Authority shall grant permission to call, redeem, repay or repurchase liabilities that are eligible to meet the MREL Requirements (Eligible Liabilities Instruments), prior to their contractual maturity provided that one of the following conditions is met:

- (i) on or before such call, redemption, repayment or repurchase (as applicable), the Issuer replaces the relevant Securities with own funds instruments or eligible liabilities instruments of equal or higher quality at terms that are sustainable for its income capacity; or
- (ii) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that its own funds and eligible liabilities would, following such call, redemption, repayment or repurchase, exceed the requirements for own funds and eligible liabilities laid down in the Relevant Regulations by a margin that the Relevant Resolution Authority, in agreement with the competent authority, considers necessary; or
- (iii) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that the partial or full replacement of the relevant Securities with own funds instruments is necessary to ensure compliance with the own funds requirements laid down in the applicable MREL Requirements for continuing authorization,

subject in any event to any different conditions or requirements as may be provided from time to time under the applicable MREL Requirements.

Therefore, as long as certain types of Securities issued under the Programme are considered as Eligible Securities and the provisions set out in Articles 77 and 78a of the CRR should be deemed applicable to such Eligible Securities, any redemption of Eligible Securities is subject to compliance with the then applicable law and regulations, including the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority in accordance with Article 78a of the CRR II and subject in any event to any different conditions or requirements as may be applicable from time to time under the applicable law and regulations, as adopted by the Federal Republic of Germany or by the Republic of Italy.

However, there can be no assurance that the Relevant Resolution Authority will permit such redemption or purchase. Moreover, the Issuer may elect not to exercise any option to redeem any Eligible Securities early or at any time. Security Holders of Eligible Securities should be aware that they may be required to bear the financial risks of an investment in such securities for a period of time in excess of the minimum period.

The BRRD II, the SRMR II and the CRR II have been recently adopted and there is uncertainty as to their implementation and interpretation in the relevant Member States.

1.11. Risks related to a target volatility strategy

A target volatility strategy (the "**Target Vol Strategy**"), if provided for in the Final Terms, dynamically adjusts exposure to the Underlying, as specified in the Final Terms, depending on the volatility of the Underlying.

The performance of the Target Vol Strategy may be substantially different from the performance of the Underlying. The exposure of the Target Vol Strategy to the Underlying can be very low if the volatility of the Underlying is high compared to the target volatility, as specified in the relevant Final Terms, and thus, the Target Vol Strategy's participation in a positive performance of the Underlying is also very low. The realised volatility of the Target Vol Strategy may also be greater than or equal to the target volatility. If the exposure of the Target Vol Strategy to the Underlying is low, then the exposure to the reference rate is high. Potential investors should be aware that a negative reference rate generally has a negative impact on the performance of the Target Vol Strategy. Various fees, as described in the Final Terms, may be applied to the Target Vol Strategy, which shall reflect costs of the Issuer and/or the Calculation Agent in connection with the calculation and management of the Target Vol Strategy. The deduction of the fees will reduce the performance of the Target Vol Strategy over time and therefore lead to a reduced participation in the performance of the Underlying.

The Target Vol Strategy does not necessarily lead to an improved performance of the Securities compared to a direct investment in the Underlying, and the performance of the Securities may even be worse than the performance of the Underlying.

Regulatory developments, in particular the regulation of benchmarks, may result in the reference rate being no longer available during the term of the Securities or only being available under different terms and, accordingly, may have a negative impact on the payments under the Securities or the value of the future performance of the Securities (see sub-section "2.2 Risk related to Indices", "Risks related to the regulation of benchmarks" of this section "RISK FACTORS").

1.12. Risks related to Adjustment Events

In the case of the occurrence of an Adjustment Event as specified in the Final Terms, the Calculation Agent is entitled to carry out adjustments according to the Final Terms in its discretion and/or to replace the Underlying, as the case may be. Although these adjustments aim to preserve the economic situation of the Security Holders to the largest extent possible, it cannot be guaranteed that such an adjustment will result in a minimal economic impact. In fact, this adjustment may also have a negative impact on the value or the future performance of the Securities as well as on the amounts to be distributed under the Securities and can change the structure and/or the risk profile of the Securities. If such adjustments in accordance with the Final Terms are impossible or not reasonable for the Issuer and/or the Security Holders, the Issuer may convert the Securities. As a result, the Security Holder is exposed to the risks as described in the sub-section "Risks related to Conversion Events" below.

1.13. Risks related to Conversion Events

Upon the occurrence of a Conversion Event the Securities are converted, i.e. the Settlement Amount is paid on the Final Payment Date. A Conversion Event exists if certain adjustments pursuant to the Special Conditions are not possible or not justifiable with regard to the Issuer and/or the Security Holders. The Settlement Amount is equal to the market value of the Securities plus interest accrued up to the Final Payment Date at the market rate of interest being traded at that time for liabilities of the Issuer with the same remaining term as the Securities. However, the Security Holder receives at least the Minimum Amount. If the market value of the Securities plus accrued interest at the time of the conversion or, where relevant, the Minimum Amount is less than the purchase price of the Securities, the respective Security Holder will suffer **a partial loss of his/her investment**. In addition, the Security Holder bears the risk that his/her expectations of an increase in the market value of the Securities will no longer be met as a result of the conversion.

1.14. Risks related to Market Disruption Events

If a Market Disruption Event, as specified in the relevant Final Terms, occurs the relevant Calculation Agent may defer valuations of the Underlying, as provided in the Final Terms, and, after a certain period of time, determine such valuations in its discretion. These valuations may, to the detriment of the Security Holder, differ substantially from the actual price of the Underlying. In general, Market Disruption Events also lead to delayed payments on the Securities. In this case, Security Holders are not entitled to demand interest due to such delayed payment.

1.15. Risks related to the Issuer's right of rescission

In the event of obvious typing or calculation errors or similar obvious errors in the Terms and Conditions, the Issuer is entitled to a rescission in accordance with the Terms and Conditions. As a result of a rescission, the Security Holder may demand the refunding of his Acquisition Price. Following payment of the Acquisition Price, all rights derived from the Securities submitted for refunding will cease to exist. As a result, the Security Holder bears a Reinvestment Risk (see sub-section "1.8 Risks related to an Automatic Early Redemption" of this section "RISK FACTORS"). The return achieved by the Security Holder over the original term of the Securities may thus be considerably lower than the return expected at the time of purchase of the Securities or the probability of a loss of the amount paid in connection with a new investment may increase considerably.

1.16. Specific risks related to securities with a Fixed Interest Rate

Potential investors in interest-bearing Securities at a Fixed Interest Rate should be aware that the fair market value of the Securities may be very volatile, depending on the volatility of interest rates on the capital market (the "**Market Rate of Interest**"). The performance of the Market Rate of Interest may depend on a number of interrelated factors, including economic, financial and political events and their

general effect on capital markets and on the respective exchanges. It is not possible to predict how the Market Rate of Interest will change over time. While the interest rate of Securities with Fixed Interest Rate is specified in the Final Terms for the term of the Securities, the Market Rate of Interest is subject to daily changes. If the Market Rate of Interest rises, this normally causes the fair market value of the Securities with Fixed Interest Rate to fall. If the Market Rate of Interest falls, the fair market value of the Securities with Fixed Interest Rate normally rises until it is equal to the level of Securities which provide for an interest rate corresponding to the Market Rate of Interest. As a result, rising Market Rates of Interest may lead to financial losses of the Security Holder.

1.17. Specific risks related to Securities with Floating Interest Rate

Potential investors in Securities with a Floating Interest Rate bear the risk that the Security Holder will achieve only a small or no current yield at all during the term of his investment if the Reference Rate develops unfavourably for the Security Holder. The fluctuation of the respective Reference Rate makes it impossible to predetermine the return on Securities with Floating Interest Rate in advance.

1.18. Specific risks related to Securities with Digital Interest Rate

In the case of Securities with Digital Interest Rate, the interest rate applicable to the Securities depends on the performance of the relevant Reference Rate. The fluctuation of the respective Reference Rate makes it therefore impossible to predetermine the actual return on Securities with Digital Interest Rate in advance. In the case of Securities with a Digital Interest Rate there is the particular risk that even small fluctuations of the Reference Rate may have a significant adverse effect on the actual return of the Securities. Potential investors should therefore consider that Security Holders might only achieve a small or a negative return during the term of their investment if the relevant Reference Rate develops unfavourably for the Security Holder.

1.19. Specific risks in respect of Securities with Additional Conditional Amount (Range Coupon)

For Securities with Additional Conditional Amount (*Range Coupon*), there is the particular risk that the Reference Price of the Underlying or the Reference Rate will not be within a certain range on one or more days, as specified in the Final Terms. As a result, rising or falling prices of the Underlying or a rising or falling Reference Rate, as the case may be, may have an adverse effect on the return of the Securities. Due to this mechanism, even small changes of the Reference Price of the Underlying or the Reference Rate can have a significantly negative effect on the amounts paid.

1.20. Specific risks in respect of Securities with Additional Conditional Amount (Digital)

For Securities with Additional Conditional Amount (*Digital*), there is the particular risk that even small changes of the Reference Price of the Underlying or the Reference Rate can have a significantly negative effect on the amounts paid.

1.21. Specific risks in respect of Securities with Additional Conditional Amount (Accrual)

For Securities with Additional Conditional Amount (*Accrual*), there is the particular risk that the Reference Price of the Underlying or the Reference Rate will not be above or, respectively, below a certain threshold on one or more days, as specified in the Final Terms.

The payment of the Additional Conditional Amount (m) depends decisively on the number of days during the respective observation period on which the Reference Price or the Reference Rate, as the case may be, is either above or below a specified level. The more rarely this is the case, the lower will be the actual return on the Securities. As a result, rising or falling prices of the Underlying or a rising or falling Reference Rate, as the case may be, may have an adverse effect on the return of the Securities. Due to this mechanism, even minor changes of the Reference Price of the Underlying or the Reference Rate can have a significantly negative effect on the amounts paid.

1.22. Specific risks in respect of Securities with Additional Conditional Amount (Range Accrual)

For Securities with Additional Conditional Amount (*Range Accrual*) there is the particular risk that the Reference Price of the Underlying or the Reference Rate will not be within a certain range on one or more days, as specified in the Final Terms.

The payment of the Additional Conditional Amount (m) depends decisively on the number of days during the respective observation period on which the Reference Price or the Reference Rate, as the case may be, is within a specified range. The more rarely this is the case, the lower will be the actual return on the Securities. As a result, rising or falling prices of the Underlying or a rising or falling Reference Rate, as the case may be, may have an adverse effect on the return of the Securities. Due to this mechanism, even minor changes of the Reference Price of the Underlying or the Reference Rate can have a significantly negative effect on the amounts paid.

1.23. Specific risks in relation to Securities with Basket Performance Determination

In the case of Securities with Basket Performance Determination, the redemption and value of the Securities depend on the performance of the Basket, i.e. the sum of the weighted performance of all Basket Components. There is therefore a risk that the negative performance of one Basket Component or of some of the Basket Components may offset the positive performance of other Basket Components, with a negative impact on the redemption or the value of the respective Security. Any possible diversification of risk using the Basket Components is restricted or non-existent in particular if the Basket Components have similar features, e.g. if they are linked to each other in economical or geographical terms.

The weighting of the Basket Components may significantly amplify a negative development of one or more Basket Component and therefore also the negative impact on the value and/or redemption of the Securities. Thus, it cannot be ruled out that Security Holders may incur considerable losses even if one or more Basket Components have developed in a favourable manner.

1.24. Specific Risks related to Securities with Worst-of Performance Determination

The market value and the return of Securities with Worst-of Performance Determination depend primarily on the price or the performance of the Basket Component with the Worst Performance (i.e. the Basket Component with the most unfavourable performance for the investor). This means that there is an increased risk of loss for the Security Holder since the (eventually favourable) performance of the other Basket Components is not taken into account when determining the market value or return of the Securities. Thus, the Security Holder may suffer a loss of her/his invested capital, even if some or all other Basket Components perform favourably.

1.25. Specific Risks related to Hybrid Securities

Payments under Hybrid Securities are linked to two different Underlyings. Therefore the risks related to both Underlyings will apply (see section "2. Risks related to the Underlying and the Reference Rate"). Prospective investors should take particular care on understanding which feature of the Hybrid Securities is linked to which Underlying. The Security Holder may suffer a loss of his/her invested capital even if only one Underlying develops unfavourably.

1.26. Risks in relation to US withholding taxes

Section 871(m) of the U.S. Internal Revenue Code ("**IRC**") and the related provisions stipulate that for certain financial instruments such as for the Securities a withholding tax may be imposed. This means: The Issuer or the custodian of the Security Holder are entitled to withhold a tax amount from the payment or redemption amount or of the interest payments. The amount withheld is then transferred to the U.S. tax authorities. The tax is levied on all payments made to Security Holders that are triggered or determined by dividends from U.S. sources. The term "payments" is used in a broad sense. It includes all other payments of the Issuer to the Security Holder which are triggered or determined by dividends from U.S. sources.

For Securities which have U.S. shares or U.S. indices as Underlying, the following must be applied:

Payments or performances considered as payments from the Issuer in connection with Securities may be treated as equivalent to dividends ("**Dividend Equivalents**"). These Dividend Equivalents are subject to U.S. withholding tax of 30%. The tax rate may be lower if the applicable double taxation agreement applies a lower tax rate.

Thus, it is possible that all Securities under the Base Prospectus may be subject to U.S. withholding tax, in case the Underlying is a U.S. share or is a U.S. index.

Important: A withholding may even be necessary in the following situations: Pursuant to the Terms and Conditions of the Securities no payment is made which is triggered or determined by dividends from U.S. sources. The same applies in cases where no adjustment is made to the Terms and Conditions of the Securities when a dividend from a U.S. source or other distribution is paid.

Also, for **U.S. withholding tax pursuant to section 871(m)** the following is applicable: Interest payments, principal amounts or other payments in connection with the Securities received by the Issuer may be subject to U.S. withholding tax. In that case, payments received by Security Holders will be reduced as a result of that deduction. None of the Issuer, a Paying Agent nor any other person will be obliged to pay compensation amounts to the Security Holders. As a result of the deduction or withholding, Security Holders will receive less interest or principal than expected.

In the worst case, payments to be made in respect of the Securities would be reduced to zero. It might be also the case that the amount of tax due could even exceed the payments to be made in respect of the Securities. If this is the case, Security Holders might have to pay taxes even if they have not received any payments from the Issuer. Security Holders may have to pay taxes even if the Securities expire worthless.

1.27. Risks related to the regulation of benchmarks

An Underlying or the Reference Rate may be a so-called benchmark (the "**Benchmark**") within the meaning of the Regulation (EU) 2016/1011³ (the "**Benchmark Regulation**").

According to the Benchmark Regulation, the Issuer may use a Benchmark as the Underlying or Reference Rate of the Securities only if its administrator (the "**Benchmark Administrator**") or the Benchmark itself is entered in a public register. Exception: For certain Benchmarks which are provided by a Benchmark Administrator located in a third country there is a transition period running which currently ends on 31 December 2025.

This means: There is a risk that a Benchmark may no longer be used as the Underlying for the Securities after the end of the transition period or that its publication will be discontinued. In such event, depending on the particular Benchmark and the applicable terms of the Securities, the Securities could be de-listed (see also the risk as described under sub-section "3.2 Liquidity risk" of this section "**RISK FACTORS**"), adjusted (as described under sub-section "1.11 Risks related to Adjustment Events" of this section "**RISK FACTORS**"), converted (as described under sub-section "1.12 Risks related to Conversion Events" of this section "**RISK FACTORS**") or otherwise impacted.

Any changes to a Benchmark as a result of the Benchmark Regulation could have a material adverse effect on the costs of refinancing a Benchmark or the costs and risks of administering or otherwise participating in the setting of a Benchmark and complying with the Benchmark Regulation. Such factors may have the effect of discouraging market participants from continuing to administer or contribute input data to certain Benchmarks, trigger changes in the rules or methodologies used to determine certain Benchmarks, adversely affect the performance of a Benchmark or lead to the disappearance of certain Benchmarks. Potential investors should be aware that they face the risk that any changes to the relevant Benchmark may have a material adverse effect on the value of and the amount payable under the Securities. Furthermore, the methodology of a Benchmark might be changed in order to comply with the terms of the Benchmark Regulation, and such changes could have an adverse effect on the Security Holders, including but not limited to an unfavourable adjustment of the published price or its volatility. Consequently, it might become necessary to also adjust (as described in sub-section "1.11 Risks related to Adjustment Events" of this section "**RISK FACTORS**") or even convert the Securities

³ Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014.

(as described in sub-section "1.12 Risks related to Conversion Events" of this section "RISK FACTORS").

1.28. Risks related to the optional redemption right of the Issuer

If so specified in the relevant Final Terms, the Issuer may end the term of the Securities early by exercising its option to terminate the Securities ("**Optional Redemption Right**"). In that case, the Securities will be redeemed prior to the scheduled Final Payment Date at the specified Optional Redemption Amount. If the relevant Optional Redemption Amount is lower than the capital amount paid for purchase, the Security Holder will suffer a loss. In addition, the Security Holders bear the Reinvestment Risk (see sub-section "1.8 Risks related to an Automatic Early Redemption" of this section "RISK FACTORS") concerning the Optional Redemption Amount.

In relation to Series of Securities issued in order to satisfy the MREL Requirements, any redemption is subject to compliance by the Issuer with any conditions to such redemption prescribed by the MREL Requirements at the relevant time (see sub-section "1.2 Risk of redemption of Eligible Securities due to regulatory event" of this section "RISK FACTORS").

1.29. Risks related to Securities qualifying as eligible liabilities instruments according to the MREL Requirements which may be subject to modification without the Security Holders' consent

If (i) at any time a MREL Disqualification Event occurs and is continuing in relation to any Series of Securities qualifying as eligible liabilities instruments according to the MREL Requirements and/or (ii) in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, subject to giving any notice required to be given to, and receiving any consent required from, the Competent Authority and/or as appropriate the Relevant Resolution Authority without any consent or approval of the Security Holders of that Series, at any time vary the Terms and Conditions of such Securities in such a way that the Securities remain or, as appropriate, become, Qualifying Securities (as defined below) (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. In the case of Securities governed by German law, the Issuer shall determine in its reasonable discretion (§ 315 BGB) whether a Variation shall be made and the extent of the Variation.

Qualifying Securities are securities issued by the Issuer that, other than in respect of the effectiveness and enforceability pursuant to § 11 of the General Conditions, have terms not materially less favourable to the Security Holders (as reasonably determined by the Issuer, or, in the case of Securities governed by German law, as determined by the Issuer in its reasonable discretion (§ 315 BGB)) than the terms of the Securities qualifying as eligible liabilities instruments according to the MREL Requirements. However, no assurance can be given as to whether any of these changes will negatively affect any particular Security Holders. In addition, the tax and stamp duty consequences of holding such varied Securities could be different for some categories of Security Holders from the tax and stamp duty consequences for them of holding the securities prior to such variation.

1.30. Risks related to Securities offered in accordance with the Sustainability Guidelines

The Issuer may offer Securities in accordance with the sustainability guidelines⁴ (the "**Sustainability Guidelines**") of HVB, a wholly owned subsidiary of the Issuer. The Sustainability Guidelines define self-binding sustainability criteria with regard to the Issuer and the Underlyings or Basket Components of the Securities. For the avoidance of doubt, the offer of Securities in accordance with the Sustainability Guidelines does not involve a specific use of the proceeds for sustainable purposes.

Sustainability Guidelines may change during the term of a Security and have a negative impact on its respective value. The Issuer's allocation of sustainability criteria to the Sustainability Guidelines may differ from product strategies and rulebooks of other market participants based thereon.

⁴ The sustainability guidelines can be found on the following website: <https://www.onemarkets.de/content/dam/onemarkets-relaunch/PDF/esg/082022-esg-brochure-en.pdf>

HVB will continue to develop its voluntary Sustainability Guidelines further over time. Certain sustainability criteria may therefore be adjusted or weighted differently in the Sustainability Guidelines. Sustainability criteria may also change over time and as a result of evolving market practice.

Furthermore, regulatory measures are currently being prepared or implemented at the EU level which, inter alia, will probably have a considerable effect on the future Securities offered in accordance with the Sustainability Guidelines.

Therefore, Security Holders should take into account that any sustainability classification of their Securities may subsequently change due to material changes in the sustainability criteria or formal changes in the context of new regulatory developments.

The sustainability classification may also change if the Issuer loses the status of a sustainable entity in accordance with the requirements in the Sustainability Guidelines or the relevant industry standard, for example the Sustainability Code of the German Structured Securities Association (*Bundesverband für strukturierte Wertpapiere e.V.*, BSW), formerly German Derivatives Association (*Deutscher Derivate Verband*, DDV), or the Underlying loses its status as a sustainable underlying and the sustainability classification of the Securities changes as a result. This also applies in the case that the sustainability criteria of already issued Securities subsequently weaken against the background of regulatory changes or cease to exist altogether.

The Security Holder's sustainability-related expectations, objectives or obligations to invest into securities with particular sustainability purpose may subsequently no longer be met in such cases. In case a Security Holder wishes or would be required to sell its Securities, a secondary market loss cannot be excluded.

2. RISKS RELATED TO THE UNDERLYING AND THE REFERENCE RATE

Within this risk category the risk factors are organised into the following sub-categories depending on the type of the Underlying or the Reference Rate. Therefore, in this risk category, the most material risk factor with respect to the relevant type of Underlying or the Reference Rate is mentioned first in each of the following sub-categories:

2.1. Risks related to Shares

2.2. Risks related to Financial Indices

2.2. Risks related to Inflation Indices

2.3. Risks related to Commodities

2.4. Risks related to Fund Shares

2.5. Risks related to Currency Exchange Rates

2.6. Risks related to Reference Rates

2.1. Risks related to Shares

2.1.1. Similar risks to a direct investment in shares

The market price and the return of Securities linked to shares (including Depository Receipts, as defined below) (the "**Share-linked Securities**") primarily depend on the performance of the respective share. The performance of a share may be subject to factors like the dividend or distribution policy, financial prospects, market position, corporate actions, shareholder structure and risk situation of the issuer of the share, short selling activities and low market liquidity as well as to cyclical, macro-economic or political influences. In particular, dividend payments lead to a fall in the share price and, therefore, may have an adverse effect on the Security Holder and its investment in the Securities. Accordingly, an investment in Share-linked Securities may bear similar risks to a direct investment in the respective shares. Corporate actions and other events in relation to the share or the issuer of the share may result in adjustments to the Securities (as described in sub-section "*1.11 Risks related to Adjustment Events*" of this section "*RISK FACTORS*") or in a conversion of the Securities (as described in sub-section "*1.12 Risks related to Conversion Events*" of this section "*RISK FACTORS*"). Disruptions regarding the trading of the shares may lead to Market Disruption Events (as described in sub-section "*1.13 Risks related to Market Disruption Events*" of this section "*RISK FACTORS*").

2.1.2. Risks related to Depository Receipts

Depository receipts (the "**Depository Receipts**"), e.g. in the form of American Depository Receipts (ADRs) or Regional Depository Receipts (RDRs), may bear additional risks compared with risks related to shares. Depository Receipts are participation certificates in a portfolio of shares normally held in the country of incorporation of the issuer of the underlying shares and represent one or more shares or a fraction of such shares. For Depository Receipts, the legal owner of the underlying share portfolio is the custodian bank, which is at the same time the issuing agent of the Depository Receipts. Depending on the jurisdiction in which the Depository Receipts will be issued and to which jurisdiction the custody agreement is subject, it cannot be ruled out that the respective jurisdiction does not recognise the holder of the Depository Receipts as the actual beneficial owner of the underlying shares. Especially in the event of insolvency of the custodian bank or foreclosure against it, it is possible that shares underlying the Depository Receipts are restricted or that these shares may be sold to realise their value in the case of foreclosure against the custodian bank. If that is the case, the holder of the Depository Receipts loses the rights to the underlying shares certified by the participation certificate and the Depository Receipt becomes worthless.

2.1.3. Risks related to dividend payments

Dividend payments of the Underlying usually lead to a fall in its price and, therefore, may have an adverse effect on the Security Holder and its investment in the Securities. In particular, dividend payments may adversely affect the price of Securities. Furthermore, the Underlying may approach a

certain limit or lead to the occurrence of an event relevant for the Securities (e.g. a Barrier Event) and, therefore, negatively affect the payments of amounts under the Securities.

2.1.4. *Risks related to Group Shares*

In case of shares issued by UniCredit S.p.A. or shares issued by another company belonging to the UniCredit Group (the same group as the Issuer of the Securities) (both types of shares referred to as the "**Group Shares**") as Underlying, there are the following additional risks:

a) *Combination of Credit and Market Risk*

The Issuer of the Securities and the issuer of the Group Shares may be exposed to the same risks, *inter alia*, resulting from a group-wide organization, management and business strategy. Risks materialising with the Issuer of the Securities or the issuer of the Underlying or another entity of the group may simultaneously affect both, the Issuer of the Securities as well as the issuer of the Underlying.

If the creditworthiness of the Issuer is reduced, this may result in a simultaneous reduction of the creditworthiness of the issuer of the Underlying as well. Such reduction of the Issuer's rating would likely result in falling prices of the Underlying and, in addition, in a reduction of the market value of the Securities due to a reduced creditworthiness of the Issuer.

b) *Sector related risks*

If both, the Issuer of the Securities and the issuer of the Group Shares belong to the same economic sector and/or country, a general negative performance of this sector or country might have a cumulated negative impact on the price development of the Securities.

c) *Risks arising from special conflicts of interest on group level*

The Issuer will not consider the interests of Security Holders in its exercise of control with respect to the issuer of the Group Shares. Since both, the Issuer of the Securities and the issuer of the Group Shares are under joint control, conflicting interests might have negative effects on the overall performance of the Securities.

2.2. *Risks related to Financial Indices*

2.2.1. *Similar risks to a direct investment in index components*

The market price and the return of Securities linked to Financial Indices (the "**Index-linked Securities**") depend on the performance of the respective index. The performance of an index depends primarily on the performance of its components (the "**Index Components**"). Changes in the price of the Index Components may have an adverse effect on the index and, likewise, changes to the composition of the index or other factors may also have an adverse effect on the index. Accordingly, an investment in an Index-linked Security may bear similar risks to a direct investment in the Index Components. Generally, an index may at any time be altered, terminated or replaced by any successor index. This may result in adjustments to the Securities (as described in sub-section "*1.11 Risks related to Adjustment Events*" of this section "*RISK FACTORS*") or in a conversion of the Securities (as described in sub-section "*1.12 Risks related to Conversion Events*" of this section "*RISK FACTORS*"). Disruptions regarding the trading of the Index Components may lead to Market Disruption Events (as described in sub-section "*1.13 Risks related to Market Disruption Events*" of this section "*RISK FACTORS*").

2.2.2. *Risks related to Strategy Indices*

Strategy indices represent hypothetical rule-based investment strategies (i.e., no actual trading or investment activities take place) conducted by an index sponsor. As a general rule, strategy indices entitle the index sponsor to extensively exercise its discretion when calculating the index which may lead under certain circumstances to a negative performance of the index.

2.2.3. *Risks related to Reference Strategy Indices*

In the case of Reference Strategy Indices, decisions of the Reference Portfolio Manager with regard to the Investment Strategy may have an adverse effect on the price of the Index for the Security Holder.

The Investment Strategy may be a strategy which is not established in the market or it may even be an unknown or new investment strategy and it may potentially only be partially disclosed to the Security Holders or not at all. The Investment Strategy may turn out to be unsuccessful or may not work due to the prevailing market conditions. Therefore, the Security Holders rely mainly on the ability and reliability of the Reference Strategy Manager with regard to the determination of the Investment Strategy and the management of the Reference Portfolio.

The description of the individual Reference Strategy Index defines the framework, within which the Reference Portfolio Manager has a significant degree of discretion. Thus, decisions of the Reference Portfolio Manager may have a material adverse effect on the Securities.

The Issuer as well as the Calculation Agent act exclusively with respect to the issue of Securities referencing the respective Reference Strategy Index. There is no assessment or evaluation by the Issuer, the Calculation Agent or an independent third party of the Investment Strategy and the professional suitability and reliability of the Reference Portfolio Manager. The Issuer and the Calculation Agent usually have no influence on the Investment Strategy and the management of the Reference Portfolio. This may be the case even if the Issuer or the Calculation Agent act as the Index Sponsor and/or the Index Calculation Agent.

Due to the frequently very extensive degree of discretion of the Reference Portfolio Manager and the persons working for the manager in key positions (key persons), the professional suitability and reliability of the Reference Portfolio Manager and the key persons are crucial for the performance of the Reference Strategy Index.

It is possible that the Reference Portfolio Manager has to suspend its work (e.g. due to regulation), that key persons retire or temporarily or permanently discontinue their work and that thereby the respective expertise of the Reference Portfolio Manager in managing the Reference Portfolio within the Investment Strategy is lost. In this case, there is the risk, that the management of the Reference Portfolio and the calculation of the Reference Strategy Index will be terminated prematurely. In general, neither the Issuer, nor the Calculation Agent, nor any person other than the Reference Portfolio Manager shall continue the management of the Reference Portfolio.

Changes in the composition of the Reference Portfolio and the weighting of its components by the Reference Portfolio Manager may result in losses in value of the Reference Strategy Index, which can be caused by discounts for the dissolution of existing components, premiums for the inclusion of new components or costs and fees, even though the Reference Portfolio is only fictional.

It cannot be excluded that the Securities referencing a Reference Strategy Index and/or the Issuer and/or the Investment Strategy and/or the Reference Portfolio Manager may be subject to regulation for investment funds or other forms of collective investments in some way. This can significantly restrict the possibility to issue or to offer the Securities and can have a material adverse effect for the Security Holders with respect to the purchase, the holding and the sale of the Securities as well as the tax treatment of the proceeds from the Securities.

Further risk factors with respect to individual Indices may be published as a supplement to the Base Prospectus.

2.2.4. Risks related to dividend payments or other distributions

In the case of price-return indices, net-return indices or distributing indices, dividends or other distributions paid out with respect to Index Components will not or only partially be considered when calculating the price of the index and consequently have a negative impact on the price of the index, because the Index Components will as a rule be traded with a discount after the pay-out of dividends or distributions. As a result, dividend payments or other distributions of the Index Components may adversely affect the price of the index and, therefore lead to a financial loss at the Certificate Holder.

2.2.5. Risks related to Excess Return Indices

In the case of excess return indices, the investor may indirectly invest in futures contracts and thus be exposed to the same risks as described in sub-section "2.3 Risk related to Futures Contracts" of this

section "*RISK FACTORS*". The performance of the Index Components is only considered in excess (that means relative) to a benchmark or interest rate. As a result, rising prices of the respective benchmark or interest rate may have a significant adverse effect on the price of the relevant index.

2.2.6. Risks in relation to country or sector related indices

If an index reflects the performance of assets only of certain countries, regions or sectors, this index is affected disproportionately negatively in the case of an unfavourable development in such a country, region or industrial sector.

2.2.7. Risks related to the Index Concept

Each index is based on a specific set of rules (the "**Index Concept**"). In particular, the Index Concept specifies the rules according to which the constituents of an index are selected and weighted, and how the level of the index is determined. Therefore, the Index Concept has a significant impact on the development of the index level. An Index Concept may be incomplete or include errors. It might also be not suitable to achieve the objective of the relevant index. In addition, an Index Concept may be subject to significant modifications over the time (e.g. an increase of the number of index constituents or the criteria to replace one index constituent by another). All these factors may have a significant adverse impact on the development of the index level. Moreover, an incorrect or incomplete Index Concept may result in the index no longer functioning in exceptional market situations so that the calculation of the index level may be discontinued temporarily or permanently.

2.3. Risks related to Inflation Indices

2.3.1. Risks related to the basket of goods

Inflation Indices are usually calculated for a variety of different baskets of goods. In particular, certain goods or services may be disregarded (e.g., tobacco, energy or fuel). The performance of these Inflation Indices for the same country, market or region may therefore differ significantly. Investors should therefore pay close attention to the composition of the respective basket of goods when making their investment decision. The basket of goods underlying a specific Inflation Index may be changed. Such change may have a significant adverse impact on the performance of the Securities.

2.3.2. Risks related to hedging strategies

An Inflation Index is simply a statistical measure, which may differ from the actual price development of the goods and services in the basket (e.g., in a particular region). An investment referred to an Inflation Index may therefore not be suitable for compensating or hedging the actual price development in a specific country, market or region.

2.3.3. Risks related to a revision of the Inflation Index

Inflation Indices can also be calculated on the basis of provisional data. If after its publication it turns out that these data were not accurate, a recalculation and publication of the price of the Inflation Index for the relevant period (revision) may be made. These revisions may be substantial. Before purchasing the Securities, investors should therefore take into account whether the Securities in question are calculated on the basis of the revised or unrevised Inflation Index. If the Securities are calculated on the basis of the unrevised Inflation Index, changes in the price of the Underlying after its initial publication will not be taken into account.

2.3.4. Risks related to a delay in the publication of the index level

Generally, an Inflation Index is calculated on a monthly basis, with a significant time delay for publication. Therefore, the calculation of the payments to be made by the Issuer under the Securities for a certain period of time (e.g. an interest period) is usually based on a price of the Inflation Index that has already been published for a period of time in the past. Due to this time lag, there may be significant differences between the inflation rate used for the relevant calculation and the actual inflation rate for the relevant calculation period.

2.4. **Risks related to Commodities**

2.4.1. *Similar risks as a direct investment in commodities*

The market price and the return of Securities linked to a commodity (the "**Commodity-linked Securities**") primarily depend on the performance of the respective commodity. The performance of a commodity may be subject to factors like supply and demand, speculations in the financial markets, production bottlenecks, delivery difficulties, hardly any market participants, political turmoil, economic downturns, political risks (exporting restrictions, war, terrorist actions), unfavourable weather conditions, natural disasters or pandemics. Changes in the trading conditions at the relevant reference market or other events, affecting the commodity may result in adjustments to the Securities (as described in sub-section "*1.11 Risks related to Adjustment Events*" of this section "**RISK FACTORS**") or in a conversion of the Securities (as described in sub-section "*1.12 Risks related to Conversion Events*" of this section "**RISK FACTORS**"). Disruptions regarding the trading of the commodities may lead to Market Disruption Events (as described in "*1.13 Risks related to Market Disruption Events*" of this section "**RISK FACTORS**").

2.4.2. *Higher risks than other asset classes*

An investment in commodities is associated with higher risks than investments in other asset classes like e.g. debt securities, currencies or stocks; because prices in this asset category are subject to greater fluctuations (volatility) and markets may be less liquid than e.g. stock markets. Changes to bid and offer volumes may have a higher impact on the price and volatility. Commodity markets are also characterised by, among others, the fact that there are only a few active market participants what increases the risk of speculation and pricing inaccuracies.

2.4.3. *Risks arising from the trading in various time zones and on different markets*

Commodities (e.g. oil, gas, wheat, corn, gold, silver) are traded on a global basis almost non-stop in various time zones on different specialised exchanges or markets or directly among market participants (over the counter). This may lead to a publication of different prices for a commodity in different price sources. The Final Terms specify which exchange or market and which timing apply regarding the specification of the price of the relevant commodity. The prices of a commodity displayed at the same time on different price sources can differ e. g. with the result that a more favourable price, which is displayed on a price source, is not used for the calculations or determinations in respect of the Securities.

2.5. **Risks related to Exchange Traded Commodities**

2.5.1. *Risks related to the issuer of Exchange Traded Commodities*

The issuer of an Exchange Traded Commodity ("**ETC Issuer**") might get into payment difficulties or its assets may deteriorate and insolvency or similar proceedings might be opened against its assets. Any interest in the Exchange Traded Commodities ("**ETC Interest**") may be collateralised by certain assets of the ETC Issuer backing the redemption of the ETC Interest. Any decrease in value of the collateral assets might impact the potential proceeds from a collateral liquidation. In any such case, there is a considerable risk that the price of the relevant Exchange Traded Commodity will fall sharply or that the Exchange Traded Commodity will become worthless.

2.5.2. *Risks related to extraordinary events affecting an Exchange Traded Commodity*

Exchange Traded Commodities can be subject to certain extraordinary events. These include, for example, changes made to the structure or terms of the ETC Interest or its risk profile by the ETC Issuer, changes made to the ETC Issuer, regulatory restrictions with respect to the use or distribution of Exchange Traded Commodities, any additional fees, costs, charges or taxes levied for the redemption of the ETC Interest, any early redemption of the ETC Interest by the ETC Issuer or the cessation of the trading in the Exchange Traded Commodities. The occurrence of any such event may significantly affect the risk profile and the price of Exchange Traded Commodities.

2.5.3. *Risk related to the development of the price for Exchange Traded Commodities*

The price of Exchange Traded Commodities can be subject to great fluctuations resulting from the market price of the underlying commodity and the markets for Exchange Traded Commodities as such.

ETCs are generally not actively managed. The following accordingly applies: An adverse development in the ETC Interest is passed on without any reduction and leads to a decrease in the trading price determined on the respective exchange. Moreover, the market for Exchange Traded Commodities might show low or no trading activities or a high volatility. Changes in supply and demand of the underlying commodity and a limited tradability or available market prices for the ETC Interest might adversely affect the price of Exchange Traded Commodities.

2.5.4. Risks related to the early redemption of Exchange Traded Commodities

The ETC Issuer may, depending on the relevant terms and conditions applicable to the ETC Interest, decide to redeem some or all the ETC Interest early. The redemption price determined for such ETC Interest may be substantially lower than the market price of the underlying commodity, for example, due to losses and costs from the liquidation of the underlying commodity or hedging transactions. This may result in losses from an investment in an Exchange Traded Commodity.

2.6. Risks related to Fund Shares

2.6.1. Similar risks to a direct investment in Fund Shares

The market price and the return of Securities linked to a Fund Share, in principle, depend on the performance of the relevant Fund Share or the relevant Fund Shares. The performance of a Fund Share is decisively dependent on the success of the relevant investment fund's investment activities. The latter are affected in turn to a very great extent by the choice of assets acquired by the investment fund and the extent to which the investment risks associated with the acquisition of assets for the investment fund materialise. Therefore, an investment in a Security can be subject to a similar risk to a direct investment in Fund Shares. If an investment fund invests directly or indirectly in assets with a low credit rating (such as, for example, in securities with a rating below investment grade or distressed securities or loans), this will entail significant risks of loss for the relevant investment fund. Investments of this nature may be negatively affected by statutory provisions and other applicable regulations relating, for example, to insolvency proceedings, fraudulent transfers and other voidable transfers or payments, lender liability and the forfeiture of certain rights. In addition, the market prices of these assets are subject to abrupt and unpredictable market movements and above-average price volatility, while the spread between the bid and offer price of such securities may be larger than is usual in other securities markets.

Events affecting the Fund Share may result in adjustments to the Securities (as described in sub-section "1.11 Risks related to Adjustment Events" of this section "RISK FACTORS") or in a conversion of the Securities (as described in sub-section "1.12 Risks related to Conversion Events" of this section "RISK FACTORS"). Disruptions regarding the trading of the fund shares may lead to Market Disruption Events (as described in "1.13 Risks related to Market Disruption Events" of this section "RISK FACTORS").

2.6.2. Legal and tax risk

The legal environment and the publication, accounting, auditing and reporting requirements applying to an investment fund, as well as the tax treatment applying to its members, may change at any time in a way that can neither be predicted nor influenced. In addition, any change may have a negative impact on the value of the investment fund used as the Underlying for the Securities.

In this context, investment funds operating in accordance with the requirements of Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities ("UCITS") are normally subject to stricter requirements relating to risk diversification and the type of permitted assets than investment funds operating in accordance with the requirements of Directive 2011/61/EU of the European Parliament and of the Council of 8 June 2011 on managers of alternative investment funds ("AIFs"). However, this does not entail a guarantee that the investments made will be safer or that the investment activities will be financially successful.

In contrast to UCITS, AIFs are permitted to concentrate their fund investments on a single asset or a few assets, and to invest in complex assets and assets for which there are no properly functioning and transparent markets on which credible prices are quoted at which those assets can be sold at any time

or at least on particular dates. This may be associated with substantial risks, which may have adverse effects on the value of the investment assets and thus on the payments under the Securities.

The distribution of Fund Shares may be subject to restrictions in the respective jurisdiction, which may also apply to the Securities linked to Fund Shares. As a result, a delivery of Fund Shares (as Underlying) at the maturity of the Securities may not be admissible or an investment into the Securities must even be reversed. A Security Holder may be exposed to the risk of not participating in a favourable development of the Underlying, an additional cost burden and a loss of the invested capital.

2.6.3. Risks resulting from commissions and fees

Investment funds usually have to bear certain management and custody fees and further fees and expenses regardless of their performance. These fees usually accrue even if an investment fund's assets decrease in value. Moreover, the regulations of an investment fund typically provides for a performance fee or allocation to its general partner, manager or person serving in an equivalent capacity over and above a basic asset-based management fee. Performance fees or allocations could create an incentive for a manager to choose riskier or more speculative investments than would otherwise be the case. In addition, because performance-based fees or allocations are generally calculated on a basis that includes unrealised appreciation as well as realised gains, an investment fund may pay performance-based compensation to a manager on gains that will never be realised. Certain fund managers may invest on the basis of short-term market considerations. Their turnover rate is expected to be significant, potentially involving substantial brokerage commissions and fees.

In addition, some investment funds may charge fees in relation to the issuance or redemption of their Fund Shares. Prospective Security Holders should be aware that any of these fees may have a negative impact on payments, if any, under the Securities.

2.6.4. Risks relating to valuations of the net asset value and estimates

The Issuer or the Calculation Agent, as the case may be, must rely on the valuation of the relevant assets by the respective investment fund or its contracted service providers. Such valuations are revised from time to time, sometimes materially, and may not be indicative of what the actual fair market value would be in an active, liquid or established market and subject the fund managers to a conflict of interest where their fees are based on such valuations. The valuations provided by investment funds with respect to their illiquid investments and by less liquid sub funds of their overall net asset values may be particularly uncertain. The investment funds' management fees and incentive fees, as well as the amounts due to investors upon share redemption and other financial calculations, may be determined on the basis of estimates. The manager or advisor of an investment fund is usually under no or only limited obligation to revise such estimates.

2.6.5. Risks resulting from the possible effects of redemptions of Fund Shares

Substantial redemption requests could require a fund to liquidate its assets more rapidly than otherwise intended pursuant to its investment program to raise liquidity for making payments to holders of Fund Shares in connection with a redemption request. As result, and due to a reduction of the fund's asset portfolio, the fund may be less diversified. In addition, costs (e.g. transaction costs) have a more significant impact on the value of the fund.

Substantial redemption requests may, in certain circumstances, even lead to a premature dissolution of the fund. In addition, the redemption of Fund Shares could be contemporarily suspended by the fund.

2.6.6. Risks due to possible changes of investment strategies

The investment strategy of an investment fund may change over time. The fund managers may therefore no longer follow the same investment strategy in the future that they applied in the past. In addition, in some cases the specific details of the particular investment strategy may be proprietary, and consequently investors in the investment fund will not have access to the full details of those methods or be able to check whether those methods are being followed. In particular, an investment fund may seek to engage in increasingly less liquid investments in an effort to achieve above-average risk-adjusted returns.

2.6.7. *Risks arising from misconduct by the fund managers*

Misconduct on the part of its fund managers may result in the respective investment fund being exposed to claims for damages by third parties or suffering substantial losses up to and including the total loss of the assets under management. This includes, for example, failure to observe the agreed investment strategies, misappropriation of fund assets, issuing false reports about the investment activities or the discovery of other forms of misconduct. There is also the possibility of breaches of securities laws due to the improper use of confidential information or the falsification of information that is significant for valuation purposes, which could result in some circumstances in substantial liability for damages to third parties or liabilities in connection with payments out of realised income or penalties imposed on the investment fund itself.

2.6.8. *Specific risks involved with investments in volatile and illiquid markets*

If an investment fund invests in markets that are volatile or whose liquidity cannot be guaranteed, it may be impossible or expensive (especially in the event that trading is suspended or in the event of or daily price fluctuation limits in the trading markets or in other cases) for that investment fund to liquidate its positions with a contrary market movement. Alternatively, it may not be possible in certain circumstances for a position to be opened or liquidated immediately (in the event that there is insufficient trading volume in the respective market or in other cases). Moreover, the market prices, if available, of investments subject to statutory or other restrictions on transfer or for which there is no liquid market generally display higher volatility, and in some circumstances it may be impossible to sell the investments at the desired time or to realise their fair value in the event of sale. Investments in securities that are not quoted on a securities exchange or are traded in the over-the-counter market may be less liquid than publicly traded securities due to the absence of a public market for such securities. Furthermore, it may only be possible to sell non-publicly traded securities at a much later time than intended and/or, even though it is possible to resell such securities by means of privately negotiated transactions, the price realised from the sale may be less than the price originally paid. In addition, companies whose securities are not registered or publicly traded are not subject to the same disclosure and other investor protection requirements as companies whose securities are registered or publicly traded.

2.6.9. *Specific risks involved with investments in other investment funds (Fund of Funds)*

Where an investment fund ("**Fund of Funds**") invests in other investment funds ("**Target Funds**"), specific risks apply. The Target Funds in a Fund of Funds portfolio generally invest independently from each other and may from time to time hold economically converse positions. Moreover, the Target Funds may compete with each other for the same positions in certain markets. There can be no guarantee that the selection of a number of Target Funds will be more successful than the selection of only a single Target Fund. The portfolio of a Fund of Funds may also be composed of only a few Target Funds and/or may be focused on particular strategies. Such a concentration on only a few investment managers and/or investment strategies involves particularly high risks and may lead to larger losses than in the case of a broad diversification of assets.

The fund managers of the respective Target Funds act independently from each other. It may therefore happen that different investment funds may pursue the same or opposite investment strategies. This can lead to an accumulation of existing risks and to the neutralisation of potential opportunities to generate profits. In general, the investment manager of a Fund of Funds is not in a position to control the management of the Target Funds.

The Fund of Funds must bear not only its own administration and management fees but also the administration and management fees of the Target Fund. There is therefore generally a doubling of the fees borne by the fund. A Fund of Funds normally pays substantial charges (including the Target Fund managers' fees based on assets under management and performance-related allocations or fees) which, if incurred, are payable irrespective of the overall profitability of the Fund of Funds (as opposed to the profitability of the individual Target Fund). The fees and expenses incurred by a Fund of Funds reduce the net asset value and therefore the performance of such a Fund of Funds. Consequently, the value of a Fund of Funds does not fully reflect the total performance of the Target Funds it is invested in.

Target Funds and their respective fund managers may be subject to varying levels of regulation. Certain investments in funds and accounts opened and maintained may not be subject to comprehensive government regulation.

2.6.10. Specific risks involved with investing exclusively in another investment fund (Feeder Fund)

Where an investment fund ("**Feeder Fund**") invests its assets more or less exclusively in another investment fund ("**Master Fund**"), the value of the investment may, if the Feeder Fund has a relatively small share in the Master Fund, be dependent on the actions of the other investors holding a larger share in the Master Fund, since they have a majority of the votes. Multiple Feeder Funds investing in the same Master Fund can result in an increased risk of conflicts of interest, especially for tax reasons. If a large shareholder redeems its shares in the Master Fund, the expense ratio for the remaining investors will increase. Furthermore, as the redemption of shares will lead to the sale of a significant portion of the Master Fund's assets, the remaining portfolio will be less diversified.

2.6.11. Specific risks associated with exchange traded funds

Exchange traded funds ("**ETFs**") generally aim to replicate the performance of a particular index, basket or individual asset ("**ETF-Benchmark**"). However, the constitutional documents or the investment program of an ETF allow the ETF-Benchmark to be replaced in certain circumstances. As a result, the ETF might not continuously replicate the performance of the original ETF-Benchmark. ETFs may either replicate the performance of an ETF-Benchmark fully by investing directly in the assets included in the relevant ETF-Benchmark or use synthetic replication techniques like swaps or other sampling techniques. The value of ETFs is therefore particularly dependent on the value and performance of the assets and securities used to replicate the ETF-Benchmark. Nevertheless, differences between the unit price of the ETF and the actual value of the ETF-Benchmark cannot be ruled out.

In contrast to other funds ETFs are generally not actively managed. Instead, investment decisions are predetermined by the relevant ETF-Benchmark and its constituent assets. A negative performance of the ETF-Benchmark usually results in a decline of the ETF's net asset value and the unit price determined on the relevant exchange. Moreover, the replication of an ETF-Benchmark typically entails additional risks such as the risk that some ETF-Benchmark constituents may be illiquid or the credit risk relating to swap counterparties; in particular, ETFs using derivatives to replicate or hedge positions may incur disproportionately high losses in the case of an unexpected negative performance by the ETF-Benchmark due to the leverage effect.

There can be no guarantee in the case of ETFs that an admission to trading or quotation can be maintained at all times. The unit price of an ETF is composed of the total value of all the securities in its portfolio, less any liabilities, i.e. the net asset value. A decline in the unit price or value of the fund's securities or other investments while replicating the performance of an ETF-Benchmark will result in losses for the fund and the fund units. Even a wide spread of investments and broad diversification cannot exclude the risk of a decline in the unit prices due to the negative development of particular markets. The unit price of an ETF is determined on the basis of supply and demand. This unit price may differ from the final net asset value published by the investment fund. Divergences may therefore arise between the unit price and the actual net asset value during trading hours.

2.7. Risks related to Currency Exchange Rates

For all Securities with a Currency Exchange Rate as Underlying (the "**Currency-Exchange-Rate-linked Securities**") the same risks apply as described in sub-section "*1.7 Currency and Currency Exchange Rate risk with respect to the Securities*" of this section "**RISK FACTORS**". In addition, potential investors should also consider the following risk factors with respect to Currency Exchange Rates as Underlying:

2.7.1. Similar risks as a direct investment in currencies

Currency-Exchange-Rate-linked Securities are linked to one or more specified currencies. The market price and the return depend on the performance of the underlying currency/ies and may be substantially lower than the amount the Security Holder has initially invested. An investment in Currency-Exchange-Rate-linked Securities may bear similar market risks as a direct investment in the respective underlying

currency/ies. This might especially be the case if the underlying currency is the currency of an emerging market. Such risk may in particular result from a high volatility (exchange rate fluctuations). Therefore, potential investors should be familiar with foreign currencies as investment asset class.

If the currency exchange rate is no longer determined and published, this may result in adjustments to the Securities (as described in sub-section "1.11 Risks related to Adjustment Events" of this section "RISK FACTORS") or in a conversion of the Securities (as described in sub-section "1.12 Risks related to Conversion Events" of this section "RISK FACTORS"). Disruptions regarding the publication of currency exchange rates may lead to Market Disruption Events (as described in "1.13 Risks related to Market Disruption Events" of this section "RISK FACTORS").

It cannot be ruled out that publication of a currency exchange rate will be discontinued. In particular, regulatory requirements (specifically, in respect to the regulation of so-called Benchmarks) may result in a currency exchange rate not being available for the entire term of the Securities (see also sub-section "1.22 Risks related to the regulation of benchmarks" of this section "RISK FACTORS"). Such an event can entitle the Issuer or the Calculation Agent, in particular, to amend the Terms and Conditions of the Security or to convert the Securities.

2.7.2. *Risk arising from an indirect determination of the relevant Currency Exchange Rate*

Potential investors should consider that the relevant Final Terms may specify that the reference price relevant for the calculation or specification of the Redemption Amount is not determined directly from the Currency Exchange Rate defined as Underlying, but indirectly via a computation of two Currency Exchange Rates (e.g. AUD/EUR and EUR/GBP) ("**Cross Currency Exchange Rate**"). This Cross Currency Exchange Rate may differ materially from the reference price used for the calculation or specification of the Redemption Amount published by a recognized financial information provider or by a central bank. This may have a negative effect on the Securities.

In case of Currency-Exchange-Rate-Linked Securities, Security Holders may be subject to an increased risk of substantial loss of the capital invested.

2.8. *Risks related to Debt Securities*

2.8.1. *Credit risk*

In addition to the solvency of the Issuer, payments under a Security linked to a debt security (the "**Bond-linked Securities**") are subject to the ability of the issuer of the respective debt security to fulfil its financial obligations. If the issuer of a debt security is not willing or not able to pay its financial obligations (e.g. in the case of an over indebtedness or insolvency), this might result in falling prices of the debt security and a partial or total default of the interest and/or redemption payments under it.

Even the believe of market participants that the creditworthiness of the issuer of a debt security deteriorates can be sufficient to have a negative impact on the market value. Hence, factors specific to the issuer of a debt security like weaker earnings, market position or a higher distribution policy can negatively impact the debt security's market value.

This may also have a negative impact on the market value and the payments under the Securities.

2.8.2. *Interest rate risk*

The value of a debt security depends primarily on the prevailing market interest rates for similar securities. This means that a change in the market interest rates or even a change in the expectations of the market participants, may cause the price of the Underlying to fall. Market interest rates are not only determined on the basis of supply and demand in the financial markets but are also strongly influenced by other factors that cannot be predicted, in particular the monetary or fiscal policy decisions of a central bank or a government. In times of rising inflation rates, market interest rates will normally rise which may adversely affect the value of the Underlying and therefore the value of and amounts payable under the Securities. The Security Holders are not entitled to receive any interest payments from the Underlying, which could compensate potential losses in the market value of a debt security.

2.8.3. *Liquidity risk*

There is a risk that the debt securities may not be widely distributed and no active trading market may exist or develop. There may also be no market maker providing ongoing prices and/or liquidity in the respective debt securities. Thus, there is no assurance that the Calculation Agent may determine an adequate price for the debt securities at any time which might have a negative effect on the market value and the amounts payable under the Securities.

2.8.4. *Risks related to the price determination*

Due to the structure of the bond markets, the determination of the prices for the Underlying may require a greater degree of discretion by the Calculation Agent than for other assets (e.g. funds or stocks). This may result in a determination to the detriment of the Security Holder and may adversely affect on the value of and payments under the Securities.

2.8.5. *Risks related to an indirect investment in debt securities*

The Security Holder has no direct claim or recourse against the issuer of the Underlying or any right to receive information that the issuer of the Underlying provides to holders of the Underlying. In addition, the issuer of the Underlying does not need to consider the consequences of its actions vis-à-vis the Securities Holders.

Furthermore, the rights of the Security Holders are strictly limited to the rights under the Securities and do not extend to any rights to receive payments under the Underlying. Therefore, any payments made under the Underlying will remain with the Issuer and, therefore, the return for the Security Holder under the Securities may be significantly lower than if the Security Holder had invested directly in the Underlying.

2.8.6. *Risks related to the market price of debt securities*

The development of the market price of a debt security primarily depends on the structure of its coupon payment. For instance, the market price of debt securities with a fixed interest rate or with a zero coupon regularly falls, if market interest rates rise. For debt securities with floating or more complex coupon payments, this may be different. Therefore, Security Holders should make themselves well familiar with the effect of changing market interest rates on the market price of the respective debt securities used as Underlying before investing in the Securities.

2.8.7. *Risks related to High Yield Bonds*

If the Underlying is a debt security with a rating below investment grade or that is unrated or subordinated to other liabilities of the issuer of the respective debt security, there is an increased risk of loss of capital due to a potentially higher price volatility, lower liquidity and increased insolvency risk.

2.9. ***Risks related to Reference Rates***

2.9.1. *Price risk related to Reference Rates*

The market price and the return of Securities linked to Reference Rates depend on the performance of the respective Reference Rate. Reference Rates may be subject to significant fluctuations due to multiple factors such as changes in market interest rates, measures taken by central banks, fiscal inventions, as well as macro-economic or political influences. If the relevant Reference Rate in relation to a Security develops in a manner unfavourable to the Security Holder, this may have a significant adverse effect on the market price and the actual return of the Securities.

2.9.2. *Risks related to the cessation of publication of the Reference Rate*

The final cessation of the publication of the Reference Rate may lead to an adjustment of the Terms and Conditions of the Securities (as described in sub-section "1.11 *Risks related to Adjustment Events*" of this section "*RISK FACTORS*"). The Securities can also be converted (as described in sub-section "1.12 *Risks related to Conversion Events*" of this section "*RISK FACTORS*"). It cannot be ruled out that publication of a Reference Rate will be discontinued. In particular, regulatory requirements (specifically, in respect to the regulation of so-called Benchmarks) may result in a Reference Rate not being available for the entire term of the Securities (see also sub-section "1.22 *Risks related to the*

regulation of benchmarks" of this section "*RISK FACTORS*"). Such an event can entitle the Issuer or the Calculation Agent, in particular, to amend the Terms and Conditions of the Security or to convert the Securities.

2.9.3. *Risks related to the calculation of the Reference Rate*

Changes, errors or manipulation in the calculation of a Reference Rate may have a material adverse effect for the Security Holder on the Reference Rate. The rules for a Reference Rate can be subject to changes from time to time. This may be the case, for example, due to regulatory requirements. In particular, such changes may result in the method by which the Reference Rate is determined no longer being comparable to the method used before the adjustment. Such a change could, for example, affect the source of so-called input data. A change to the rules for a Reference Rate may have a material adverse effect for the Security Holder on the Reference Rate. Moreover, it cannot be excluded that the determination or disclosure of Reference Rates may be subject to inaccuracies or even manipulation by the persons responsible for their determination and/or disclosure or by other market participants. Such inaccuracies or manipulations are difficult or impossible to detect for third parties and may have a material adverse effect on the price of the Reference Rate for the Security Holder.

2.9.4. *Risks related to Risk Free Rates*

Securities for which the Reference Rate is based on an overnight risk free rate (also "**Risk Free Rate**" or "**RFR**") are subject to further specific risks, in addition to the risks set out under "2.9.1. *Price risk related to Reference Rates*" to "2.9.3. *Risks related to the calculation of the Reference Rate*" above which apply accordingly to an RFR as such.

The Reference Rate of the Securities can either directly reference an RFR or indirectly by means of a calculation method for a specific period measuring the return of a compounded interest investment ("**RFR-Compounded Method**"). The Reference Rate can also be based on an RFR-Index which represents a specific RFR-Compounded-Method ("**RFR-Index**").

Interest for such Securities is regularly determined by the Calculation Agent only in arrears at the end of the Interest Period. The RFR-Compounded-Method and the RFR-Index incorporate the value of the underlying RFR on the relevant days. If the RFR is negative, the value of the Interest Rate will be reduced accordingly.

Risk Free Rates have only been available since 2018 and 2019. Therefore, these Risk Free Rates have a limited history. The first RFR-Indices were calculated for the first time in 2020. This has the consequence that:

- it is difficult to predict the future performance of the Risk Free Rates,
- they are currently not yet widely established in the market, so that little experience is available with regard to their development and integration in financial transactions, and uncertainties exist as to whether market participants regard the RFRs or RFR-Indices and specific calculation methods as a suitable substitute for all purposes for which EURIBOR (Euro Interbank Offered Rate) and LIBOR (London Interbank Offered Rate) have been commonly used in the past. It cannot be ruled out that the determination of interest rates for interest-bearing debt securities of the Issuer and other issuers will be based in the future on a different calculation method related to RFRs or on completely different Reference Rates and that a completely different market trend will thus develop. It is also possible that there will be a transition to the use of a not yet developed term RFR for interest-bearing debt securities that can be determined in advance. This may have a negative impact on the market acceptance of RFRs and may also result in the RFR, RFR-Indices or a certain calculation method related to RFR not being widely used,
- since the initial publication of the RFRs, daily changes in the RFRs have for example, on occasion, been more volatile than daily changes in other market rates, such as EURIBOR or LIBOR, within the same time periods. It is not possible to estimate how this will continue to develop in future,
- there is a possibility that the administrators of the RFRs will make changes to the methodology or other changes that cause a change in the value of the RFRs, including changes to the method by

which the RFRs and RFR-Indices are calculated, the selection criteria for transactions used to calculate the RFRs, or the timing of publication of the RFRs, in order to achieve broad market acceptance and

- the securities or investments available on the market with reference to RFR and RFR-Indices may differ substantially, as there is no established market standard. The methods used to determine the interest rates can therefore vary considerably. The various securities or investments may therefore show completely different performances and may not be comparable.

As it is difficult for investors in the Securities to estimate reliably the interest payments, it remains unclear whether in certain circumstances investors are willing and able to trade the Securities.

Any of these factors can potentially have a significantly negative impact on the market value and interest payments on the Securities. In addition, the trading in the Securities can be significantly adversely affected.

3. RISKS RELATED TO THE OFFER TO THE PUBLIC AND/OR ADMISSION TO TRADING

3.1. Risks related to potential conflicts of interests

Conflicts of interest in relation to the relevant Issuer or the persons entrusted with the offer may arise, which may result in a decision to the Security Holder's disadvantage. The Issuer and its affiliates may in the context of interests pursued in their normal course of business enter into transactions or do business that are adverse to or do not take into account the interests of the Security Holders.

3.2. Liquidity risk

There is a risk that the Securities may not be widely distributed and no active trading market (the "**Secondary Market**") may exist and may develop for the Securities.

The Issuer is not obliged to make applications for the Securities to be admitted to the regulated market of any stock exchange or to be listed on any other exchange, market or trading system within the European Economic Area. Even if the Issuer makes such application, there is no assurance that such applications will be accepted or that an active trading will develop or be maintained. If the Securities are not traded on any stock exchange or any other market or trading system, pricing information for the Securities may in addition be more difficult to obtain.

Neither the Issuer nor any Distributor or any of its affiliates is obliged to undertake any Market Making activities. There is also no obligation to appoint a Market Maker or to continue a Market Making during the whole term of the Securities. If there is no Market Maker, or Market Making is only made to a limited extent, the Secondary Market in the Securities may be very limited.

The Issuer may, but is not obliged to, purchase Securities at any time and at any price in the open market, by tender offer or private agreement. Any Securities purchased in this way by the Issuer may be held, resold or cancelled. A repurchase of Securities by the Issuer may adversely affect the liquidity of the Securities.

Neither the Issuer nor any Distributor can therefore assure that a Security Holder will be able to sell her/his Securities at an adequate price prior to their redemption. Even in the case of an existing Secondary Market it cannot be excluded that the Security Holder may not be in a position to dispose of the Securities in the case of an unfavourable development of the Underlying, the Reference Rate or of a Currency Exchange Rate, e.g. if such development occurs outside of the trading hours of the Securities.

The issue volume described in the Final Terms does not allow any conclusion on the volume of the Securities actually issued or outstanding at any time and thus on the liquidity of a potential Secondary Market.

3.3. Risks related to a sale of the Securities

Prior to the redemption of the Securities, the Security Holders may only be able to realise the value, represented by the Securities, through a sale of the Securities in the Secondary Market. The price at which a Security Holder may be able to sell her/his Securities may be substantially lower than the purchase price. In the case of a sale of the Securities at a certain point of time at which the market value of the Securities is below the purchase price paid, the respective Security Holder will be suffering a loss. Costs associated with the sale of the Securities in the Secondary Market (e.g. order fees or trading venue fees) may in addition increase the loss.

3.4. Risks related to the spread between bid and offer prices

During extraordinary market situations or the occurrence of technical disruptions, the Market Maker for the Securities may temporarily suspend the quotation of bid and offer prices for the Securities or increase the spread between bid and offer prices. Should the Market Maker in special market situations be unable to conclude transactions to hedge against price risks resulting from the Securities, or when such transactions are very difficult to conclude, the spread between the bid and offer prices may be expanded in order to limit its economic risk.

3.5. *Risks related to Incidental Costs*

In connection with the purchase, holding and disposal of the Securities, incidental costs (the "**Incidental Costs**") may be incurred beside the purchase or sale price of the Securities.

If the purchase or sale of the Securities is not agreed between the purchaser and the Issuer or the Distributor, as the case may be, at a fixed price (the "**Fixed Price**"), commissions which are either fixed minimum commissions or pro-rata commissions, depending on the order value, will be charged upon the purchase and sale of the Securities. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, for example domestic dealers or brokers in foreign markets, potential investors may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third-party costs).

In addition to such Fixed Price and the costs directly related to the purchase of the Securities (direct costs), potential investors must also take into account any other costs in connection with the holding of the Securities. These include for example custody fees and additional costs if other foreign or domestic entities are involved in the custody.

These Incidental Costs may significantly reduce or even eliminate any profit from the Securities.

3.6. *Risks in connection with a later determination of features*

The Final Terms may provide that either the Issue Price or other features of the Securities may be determined by the Issuer or published at any point of time after the production of the Final Terms. Depending on the time and manner of any such determination, investors in the relevant Securities bear the risk that the potential return which is achievable from an investment in the relevant Securities do not match the expectations of the investor at the time of purchase or the risk profile does not match the risk expectations of the investor.

CONSENT TO THE USE OF THE BASE PROSPECTUS

If the Issuer consents to the use of the Base Prospectus, consent shall be given to the extent and the conditions as set out in the Base Prospectus and the Final Terms during the term of its validity in accordance with Article 12 of the PR. The Issuer reserves the right not to give its consent.

The Issuer accepts responsibility for the information given in the Base Prospectus, in any supplement thereto as well as in the Final Terms also with respect to the subsequent resale or final placement of the Securities by financial intermediaries, who obtained the consent to use the Base Prospectus, any supplement thereto as well as the Final Terms.

Such consent can be given to all (so-called general consent) or only one or several specified financial intermediaries (so-called individual consent) and will be determined in the Final Terms.

Such consent can be given in relation to the following Member States, in which the Base Prospectus is valid or into which it has been notified as specified in the Final Terms:

Austria, Bulgaria, Croatia, the Czech Republic, France, Germany, Hungary, Italy, Grand Duchy of Luxemburg, Poland, Portugal, the Slovak Republic and/or Spain.

The Issuer's consent to the use of the Base Prospectus may be given under the condition that each financial intermediary complies with the applicable selling restrictions and the terms and conditions of the offer. Furthermore, in connection with the consent to the use of the Base Prospectus the Issuer may impose the condition that the financial intermediary using the Base Prospectus commits itself towards its customers to a responsible distribution of the Securities. This commitment is made by the publication of the financial intermediary on its website stating that the prospectus is used with the consent of the Issuer and subject to the conditions set forth with the consent. The consent to the use of the Base Prospectus will be given for the period set out in the Final Terms.

The distribution of the Base Prospectus, any supplement thereto and the Final Terms as well as the offer, sale and the delivery of the Securities may be restricted by law in some jurisdictions. Each financial intermediary and/or each person, who is in the possession of the Base Prospectus, a supplement thereto and the Final Terms, must be informed of and comply with such restrictions. The Issuer reserves the right to withdraw its consent to the use of the Base Prospectus in relation to certain financial intermediaries.

Information on the terms and conditions of the offer by any financial intermediary is to be provided at the time of the offer by the financial intermediary.

Any further financial intermediary using the Base Prospectus shall state on its website that it uses the Base Prospectus in accordance with this consent and the conditions attached to this consent.

In case the Issuer is HVB:

New information with respect to financial intermediaries unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms, as the case may, will be published and will be found on the website of the Issuer (www.onemarkets.de) under "Rechtliches", "Zustimmung zur Prospektnutzung" (or any successor website which the Issuer will publish in accordance with § 6 of the General Conditions).

In case the Issuer is UniCredit:

New information with respect to financial intermediaries unknown at the time of the approval of the Base Prospectus or the filing of the Final Terms, as the case may, will be published and will be found on the website of the Issuer (<http://www.unicreditgroup.eu> and www.investimenti.unicredit.it) (or any successor website which the Issuer will publish in accordance with § 6 of the General Conditions).

INFORMATION ON THE BASE PROSPECTUS

Information on the approval and the notification of the Base Prospectus

This Securities Note has been approved by the CSSF in accordance with the Prospectus Regulation for an offer of Securities to the public in the European Union in accordance with Article 3 (1) of the Prospectus Regulation (the "**Public Offer**") and the admission to trading of the Securities on a regulated market situated or operating in the European Union in accordance with Article 3 (3) of the Prospectus Regulation (the "**Admission to Trading**"). CSSF is the competent authority for the Grand Duchy of Luxembourg for the purposes of the Prospectus Regulation. Where an offer of Securities under this Base Prospectus would be outside the scope of the Prospectus Regulation in accordance with its Article 1 (3), or exempted from the obligation to publish a prospectus in accordance with its Article 1 (4), 1 (5) or 3 (2) (the "**Exempt Offer**" or the "**Private Placement**"), this Base Prospectus shall constitute a voluntary prospectus in the meaning of Article 4 of the Prospectus Regulation and shall entail all the rights and obligations provided for a prospectus required under the Prospectus Regulation and shall be subject to all provisions of the Prospectus Regulation, under the supervision of the CSSF. The relevant Final Terms will specify whether this is the case.

Following the approval of the Securities Note, the Base Prospectus, comprising this Securities Note and the Registration Document, will be valid for public offers or admissions to trading on a regulated market for twelve (12) months, if it is supplemented by Supplements necessary pursuant to Art. 23 of the Prospectus Regulation. Therefore, the Issuer will publish any significant new factor, material mistake or material inaccuracy in relation to information contained in the Base Prospectus which may influence the value of the Securities. The publication will be made in a Supplement pursuant to Article 23 (1) and (2) Prospectus Regulation. As of the publication of the Supplement, the Base Prospectus will have to be read in conjunction with the respective Supplement.

In addition to the Grand Duchy of Luxembourg, Public Offers or the Admission to Trading of Securities pursuant to the Base Prospectus shall be made in Austria, Bulgaria, Croatia, the Czech Republic, France, Germany, Hungary, Italy, Poland, Portugal, the Slovak Republic, and/or Spain. For this purpose, CSSF at the request of the Issuer, has provided an electronic copy of the Base Prospectus and a certificate of its approval to the competent authorities in these countries pursuant to Article 25 Prospectus Regulation (notification). This certificate states that the Base Prospectus has been prepared in accordance with the Prospectus Regulation.

Public Offer and Admission to Trading of Securities issued under the Base Prospectus

Under the Base Prospectus, the Issuer may with respect to Securities issued under the Base Prospectus, commence a new public offer (including an increase of the original issue volume of the Securities), continue or reopen a Public Offer of these Securities or apply for the Admission to Trading of the Securities. The Issuer will in each case prepare and publish Final Terms for these Securities using the form set out in section "*FORM OF FINAL TERMS*" together with a summary of the individual issue (the "**Issue Specific Summary**"), if applicable. These Final Terms are, in particular, to be read in conjunction with the information contained in the sections "*Description of the Securities*" and "*Conditions of the Securities*" set out in this Securities Note, in addition to the other information contained in the Base Prospectus (including the Registration Document).

Public Offer and Admission to Trading of Securities issued under a Previous Base Prospectus

Under the Base Prospectus, the Issuer may with respect to Securities issued under:

- the Base Prospectus of UniCredit S.p.A. dated 24 February 2020 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection),
- the Base Prospectus of UniCredit S.p.A. dated 25 January 2021 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection),
- the Base Prospectus of UniCredit S.p.A. dated 23 July 2021 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection),

- the Base Prospectus of UniCredit S.p.A. dated 20 December 2021 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection),
- the Base Prospectus of UniCredit S.p.A. dated 19 April 2022 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection),
- the Base Prospectus of UniCredit S.p.A. dated 1 December 2022 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection),

(each being herein referred to as a "**Previous Base Prospectus**") open, continue or re-open a Public Offer of Securities, apply for the Admission to Trading of Securities and/or publicly offer an additional Tranche of a Series of Securities (Increase). The Issuer will in each case prepare and publish Final Terms for these Securities using the form set out in section "*Form of Final Terms*", together with an Issue Specific Summary. These Final Terms are, in particular, to be read in conjunction with the information contained in the sections "*Description of the Securities*" and "*Conditions of the Securities*" set out in the respective Previous Base Prospectus, which is incorporated by reference into the Base Prospectus on pages 204 and 464, in addition to the other information contained in the Base Prospectus (including the Registration Document).

Continued Public Offer of Securities after the expiration of Previous Base Prospectus

In accordance with Article 8 (11) of the Prospectus Regulation, under the Base Prospectus an offer of Securities to the public may continue after the expiration of the base prospectus of UniCredit S.p.A. dated 19 April 2022 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection) (the "**Predecessor Base Prospectus**") under which it was commenced. The final terms of such an offer contain a prominent warning on their first page indicating the last day of validity of the Predecessor Base Prospectus and where the succeeding Base Prospectus will be published. For this purpose, the Base Prospectus hereby incorporates by reference the Form of the Final Terms from the relevant Predecessor Base Prospectus and refers to the Final Terms that are relevant for the continuing offer. Such reference is made in the section "*List of Continued Offers*" of this Securities Note. After the expiration of the Predecessor Base Prospectus, the introduction paragraph of the Form of Final Terms so incorporated is no longer valid and the introduction paragraph of the Form of Final Terms of this Base Prospectus must be read instead. A list setting out all information incorporated by reference is provided on page 486.

Publications

The Securities Note, the Registration Document, the Previous Base Prospectuses and potential supplements are available on the website(s) of the Issuer (www.onemarkets.de (for HVB) and www.unicreditgroup.eu (for UniCredit)), under www.investimenti.unicredit.it (in section "Info" and sub-section "Documentazione") and on any other website(s) specified in the respective Final Terms, or on any successor website(s) (see below). The respective Final Terms together with a separate copy of the Issue Specific Summary are available on the websites indicated above, along with the respective product details which may be accessed by typing the ISIN in the search function. In addition, the Base Prospectus, any supplement to the Base Prospectus and, if the relevant Securities are listed on the Luxembourg Stock Exchange, the respective Final Terms will be automatically published on the website of the Luxembourg Stock Exchange (www.luxse.com).

The Issuer does not intend to provide information following an issuance of Securities, unless the Terms and Conditions provide for an obligation to publish notices in certain cases. In such cases, a publication will be made on the Website(s) as specified in the Final Terms in accordance with § 6 of the General Conditions. The Issuer may replace these website(s) by any successor website(s) which again will be published by notice in accordance with § 6 of the General Conditions.

Any websites indicated in this Base Prospectus are for information purposes only and do not form part of the Base Prospectus. The information on such or other websites does not form part of the Base Prospectus and has not been scrutinised or approved by the CSSF, unless it relates to information which has been incorporated by reference into this Base Prospectus.

GENERAL INFORMATION ON THE SECURITIES

Features of the Securities

General

The Securities constitute debt instruments and will be issued as notes or certificates with or without a Nominal Amount. If applicable, the "**Nominal Amount**" will be specified in the relevant Final Terms and shall not be less than EUR 1,000 or an equivalent amount in the respective Specified Currency⁵.

The method of calculating the redemption amount, the additional amount and/or the interest amount of the Securities is based on the Calculation Amount and linked to the value of the relevant Underlying, the relevant Basket Components and/or the relevant Reference Rate at a certain point in time. The "**Calculation Amount**" is either equal to the Nominal Amount or to any other amount in the Specified Currency, as specified in the relevant Final Terms.

Form of the Securities

Securities governed by German law:

In case the Securities are issued under German law, the following applies:

The Securities are bearer debt instruments (*Inhaberschuldverschreibungen*) pursuant to § 793 of the German Civil Code (*Bürgerliches Gesetzbuch*, "**BGB**"). The Securities, as to form and content, and all rights and obligations of the Issuer and the Security Holder shall be governed by the laws of the Federal Republic of Germany.

With respect to the form of the Securities governed by German law one of the following options may be specified in the Final Terms:

Option: Securities in Global Note form

The Securities will be represented by a bearer global note (the "**Global Note**") without interest coupons. The Global Note will be held in custody by the Clearing System. The Clearing System will be specified in the Final Terms. The right to receive Securities in definitive form is excluded. The rights of the Security Holders – including any claims for interest – result from the Global Note. The Securities are transferrable as co-ownership interest in the Global Note pursuant to the relevant regulations of the respective Clearing System. The Issuer may obtain a right in the Terms and Conditions to replace the global note by electronic registration of the Securities pursuant to § 6 (3) of the German Act on Electronic Securities (*Gesetz über elektronische Wertpapiere – eWpG*) without the consent of the Security Holders.

Option: Electronic Securities in the form of Central Register Securities

The Securities will be electronically issued in bearer form as central register securities (*Zentralregisterwertpapiere*) within the meaning of § 4 (2) eWpG and represented by a collective safe custody entry (*Sammeleintragung*) in the central register. The Central Register (also defined as Clearing System herein) will be specified in the Final Terms. The right to receive Securities in definitive form is excluded. The Securities are transferrable as co-ownership interest in the Securities pursuant to the relevant regulations of the respective Clearing System and applicable law. The Issuer may obtain a right in the Terms and Conditions to replace the electronic registration of the Securities by a global note pursuant to § 6 (2) No. 2 eWpG.

Securities governed by Italian law:

In case the Securities are issued under Italian law, the following applies:

The Securities are debt instruments in dematerialized registered form pursuant to the Italian Consolidated Financial Act (*Testo Unico della Finanza*).

The Securities, as to form and content, and all rights and obligations thereunder shall be governed by the laws of the Republic of Italy. The Securities will be represented by book entry and registered in the books of the Clearing System. The transfer of the Securities operates by registration on the relevant accounts opened in the Clearing System. The Security Holders are not entitled to receive definitive Securities.

Currency

The Securities may be issued in different currencies (the "**Specified Currency**"), such as Euro or US-Dollar. That means that all payments out of and under the Securities will be made in the Specified Currency. The Specified Currency will be specified in the Final Terms.

ISIN

An International Security Identification Number (the "**ISIN**") will be assigned to the Securities. The ISIN will be specified in the relevant Final Terms. Additionally, the Final Terms may specify further identifiers or codes for the Securities (such as the German Securities Identification Number (*Wertpapierkennnummer*) "**WKN**").

Underlying

The Underlying of the Securities may either be Single-Underlying or a Multi-Underlying:

Single-Underlying

In the case of Securities with Single-Underlying, the Underlying may either be a Share, a Fund Share, a Financial Index, a Reference Strategy Index, an Inflation Index, a Commodity, an Exchange Traded Commodity or a Currency Exchange Rate. In the case of Cash Collect Protection Securities and Protection Barrier Securities the Underlying may also be a Reference Rate (see section "*Reference Rate*" below).

The term "**Share**" also comprises shares of UniCredit S.p.A. or shares of other entities belonging to the same group as the Issuer (the "**Group Shares**"), provided that such shares are admitted to trading on a regulated market, and securities with the form of depository receipts (e.g. American Depository Receipts (ADRs) or Regional Depository Receipts (RDRs) (respectively "**Depository Receipts**"). "**Group**" means the UniCredit Group, to which UniCredit S.p.A. is the holding company (the "**Holding Company**"). The Group and the Holding Company are further described in the Registration Document. Shares in an investment fund are not comprised by the term. The name of the issuer of the Share that forms the Underlying for the Securities, its ISIN and potentially further information will be specified in the Final Terms.

The term "**Fund Share**" may refer to a unit or a share in an investment fund, including exchange traded funds (the "**ETF**"). Investment funds in the form of ETFs generally replicate the development of a certain index, basket or specified single asset (the "**ETF Underlying**"). Investment funds in the form of ETF in particular are, usually, not actively managed. The name of the Fund Share that forms the Underlying for the Securities, its ISIN (or a similar reference) and potentially further information will be specified in the Final Terms.

A "**Financial Index**" is an index which refers to assets or financial instruments of a certain category (e.g. shares, indices, debt securities, commodities, futures contracts or currency exchange rates). A Financial Index may also be composed by HVB, a legal entity belonging to the same Group as the Issuer. For this purpose HVB has been registered as a Benchmark Administrator in the register kept by the European Securities and Markets Authority (ESMA) in accordance with Article 36 of the Benchmark Regulation (see sub-section "*Information in accordance with Article 29 of the Benchmark Regulation*" below). Except for Indices composed by HVB, no index may be used as Underlying of the Securities, which is composed by the Issuer or any other entity belonging to the Group. If indicated in the Final Terms a Financial Index may also be an index related to Fund Shares (the "**Fund Indices**"). The name of the Financial Index that forms the Underlying for a Security, its ISIN and potentially further information on the Financial Index (e.g. the index sponsor or the index calculation agent) will be specified in the Final Terms.

A "**Reference Strategy Index**" is an index replicating a Reference Portfolio (the "**Reference Portfolio**") which is continuously and actively managed by a third party (the "**Reference Portfolio Manager**") within a specified investment strategy (the "**Investment Strategy**") (e.g. by changing the composition and weighting of the components of the Reference Strategy Index). The Reference Portfolio is purely fictional and exists only in the form of datasets. Actual trading of financial

instruments and actual investment activities do not take place with respect to the Reference Portfolio. The Investment Strategy (e.g., investment universe, strategy, allocation, analysis) is developed and defined exclusively by the Reference Portfolio Manager. The description of the relevant Reference Strategy Index (the "**Index Description**") sets out the method for calculating, fixing and publishing the price of the Reference Strategy Index (the "**Index Concept**") and defines the framework, within which the Reference Portfolio Manager has a significant degree of discretion, i.e. the Reference Portfolio Manager is solely responsible for deciding upon the composition of the Reference Portfolio and the weighting of its components. As the legal basis for the use of the Reference Strategy Index as the Underlying for the Securities, the Index Sponsor, the Reference Portfolio Manager, the Issuer, the Calculation Agent and/or the Index Calculation Agent will enter into an index sponsorship agreement.

A Reference Strategy Index may include, but is not limited to, the following components:

- shares (including securities representing shares),
- indices,
- commodities,
- futures contracts,
- fund shares (including ETFs) and
- structured securities.
- The Index can implement both a buy position (long) and a sell position (short) in the respective components.

A Reference Strategy Index may include, but is not limited to, the following features:

- components denominated in foreign currency,
- a participation factor (leverage),
- a periodic (re-)allocation or weighting,
- events or barriers which trigger a (re-)allocation or weighting,
- adjustments for dividends from the components,
- adjustments for specific events,
- events (e.g. trigger event) that lead to a suspension of the index calculation or to a liquidation of the Reference Portfolio, and
- a deduction of fees or commissions (fixed or variable).

The name of the Reference Strategy Index that forms the Underlying for a Security, its ISIN and potentially further information on the Reference Strategy Index will be specified in the Final Terms.

An "**Inflation Index**" is a statistical value which measures how average prices of consumer goods and services, purchased by private households, (the "**Inflation Rate**") change over the time in a particular country, market or region. The Inflation Rate is regularly calculated on the basis of the value of a specified basket of goods. Changes in the prices of various consumer goods and services in the basket have a direct influence on the relevant Inflation Rate and, as such, on the level of the Inflation Index. Although central banks generally try to achieve a slightly positive Inflation Rate by means of certain interventions (e.g. changes in the key interest rate) (in which case the level of the relevant Inflation Index usually rises), the Inflation Rate (and as such the Level of the Inflation Index) may also fall. The name of the Inflation Index that forms the Underlying for the Securities, its ISIN and potentially further information on the Inflation Index (e.g. the index sponsor or the index calculation agent) will be specified in the Final Terms.

The term "**Commodity**" refers in particular to precious metals, such as gold, silver, platinum and palladium. The term commodity comprises also other primary products, e.g. oil and copper, in relation to which prices (e.g. spot prices) are published frequently by a market or exchange. Commodities may

also be represented by way of Indices. The name of the Commodity that forms the Underlying for the Securities, its ISIN (or a similar reference) and potentially further information (e.g. the reference market) will be specified in the Final Terms.

The term "**Exchange Traded Commodity**" ("**ETC**") refers in particular to a security issued by a special purposes issuer or a structured notes issuer ("**ETC Issuer**") tracking the market value of a specific commodity or a futures contract referencing a specific commodity. The interest in such securities ("**ETC Interest**") is intended to be traded on an exchange enabling an indirect investment in the underlying commodity. ETC Interest may have a limited or unlimited term. The redemption of the ETC Interest may be collateralised by the underlying commodity or other assets or hedging arrangements established by the ETC Issuer.

The name of the ETC that forms the Underlying for the Securities, its ISIN (or a similar reference) and potentially further information (e.g. the ETC Issuer) will be specified in the Final Terms.

The term "**Currency Exchange Rate**" may refer to an exchange rate between two currencies. The name of the Currency Exchange Rate (FX) that forms the Underlying for the Securities and potentially further information will be specified in the Final Terms.

Multi-Underlying

In the case of Securities with Multi-Underlying, the Securities may either be issued as Basket-linked Securities or as Hybrid Securities.

In the case of "**Basket-linked Securities**", the Underlying is a basket consisting of several Basket Components. Basket Components may either be Shares (see definition of "Share" above), Financial Indices (see definition of "Financial Index" above), Fund Shares (see definition of "Fund Share" above), Commodities (see definition of "Commodity" above), Exchange Traded Commodities (see definition of "Exchange Traded Commodity" above), Debt Securities or Currency Exchange Rates (see definition of "Currency Exchange Rate" above).

The term "**Debt Security**" refers to a debt security issued by a public issuer, supranational, agency or company in registered or in bearer form and represented by a certificate or issued in electronic form.

In the case of "**Hybrid Securities**", the Securities are linked to two Underlyings. The first Underlying is an Inflation Index and the second Underlying may either be a Financial Index or a Reference Rate.

Unless the context requires otherwise, the term "Underlying" throughout this Securities Note, shall refer both to an individual Underlying and to a basket consisting of several Basket Components.

The Underlying(s) and the Basket Components are the main influencing factor on the value of the Securities. The influence of the value of the Underlying(s) or of the Basket Components on the value of the Securities is described in the section "*DESCRIPTION OF THE SECURITIES*" for each Product Type.

The deduction of any fees or other price-influencing factors may also influence the actual performance of the Securities.

Neither the Issuer nor any affiliated entity is in any way obliged to buy or hold the Underlying(s) (or its components) or the Basket Components (or its components). The issuance of the Securities does neither limit the Issuer nor its affiliated entities to dispose of, encumber or transfer any rights, claims or assets with regard to the Underlying(s) (or its components) or the Basket Components (or its components) or with regard to derivative contracts linked thereto.

Reference Rate

The Reference Rate may be the Euro Interbank Offered Rate (EURIBOR) or a Constant Maturity Swap (CMS) Rate, as further specified in the relevant Final Terms.

The Final Terms will specify where Information on the Reference Rate may be obtained, including information on where electronic information on past and future developments of the Reference Rate and its volatility may be found and if such Information is available free of charge or not.

Risk Free Rates ("**RFR**") are daily interest rates and are based on transactions that have taken place. RFRs include the Euro Short-Term Rate ("€STR" or "ESTR"), the Secured Overnight Financing Rate for U.S. Dollar Financing ("SOFR"), Overnight Index Average ("SONIA") and Swiss Average Rate OverNight ("SARON").

The RFR specified in the Final Terms may not be covered by the scope of the Benchmark Regulation or subject to a transition period and are therefore not registered in the public register under Article 36 of the Benchmark Regulation.

RFRs can be used as interest reference under the Securities as follows:

- directly as daily published rate,
- indirectly by means of a calculation method for a specific period measuring the return of a compounded interest investment ("**RFR-Compounded Method**"),
- indirectly on the basis of an RFR index which represents a specific RFR-Compounded-Method ("**RFR-Index**").

The Reference Rate calculated on an RFR and RFR-Index is determined by the Calculation Agent in arrears, i.e. the determination takes place retrospectively at the end of an Interest Period.

The following conventions may be used to determine the Reference Rate:

- Calculation based on a backward shifted observation period (so-called Observation Period Shift): the relevant period for the observation of the values of the respective RFR to be taken into account in the formula for the Reference Rate of an Interest Period starts and ends by a certain number of days ahead the respective Interest Period. If a day within the Observation Period RFR is not an applicable banking day, the value of the RFR determined for the previous banking day of the Observation Period RFR will be correspondingly weighted higher, as all calendar days in the Observation Period a RFR re relevant.
- Fixed previous banking day (so-called Lookback): the values of the respective RFR to be taken into account in the formula for the Reference Rate of an Interest Period do not correspond to the value of the RFR of the current day of the Interest Period, but in each case to the value of a specified number of a preceding banking day. If a day within the Interest Period is not an applicable banking day, the value of the RFR determined for the previous banking day of the Interest Period will be correspondingly weighted higher, as all calendar days in the Interest Period are relevant.
- Current day interest determination with locked in values at the end of the Interest Period (so-called Lockout): the values of the respective RFR to be taken into account in the formula for the Reference Rate of an Interest Period correspond to the RFR of the current day of the Interest Period, but for a specified number of days before the end of the Interest Period, a uniform value of the respective RFR for a specified day before the end of the Interest Period is lock in and used for the reminder of the following applicable banking days, so that interest payment can be made on the Interest Payment Date.
- Payment Delay: the values of the respective RFR to be taken into account in the formula for the Reference Rate of an Interest Period correspond to the RFR of the current day of the Interest Period but the interest payments are delayed by a certain number of days and are thus due a couple of days after the end of an Interest Period. As for the last interest period, the lockout convention (s. above) is applicable i.e. the values of the respective RFR to be taken into account in the formula for the Reference Rate of the last Interest Period correspond to the RFR of the current day, but for a specified number of days before the end of the last Interest Period, a uniform value of the respective RFR for a specified day before the end of the Interest Period is locked in and used for the remaining days of the Interest Period.

For the days within the period relevant for the observation of the relevant RFR that are not calculation days, usually the value of the RFR of the immediately preceding applicable banking day is used. In the case of a temporary unavailability of the RFR, the terms and conditions specify how the replacement value of the RFR is to be determined (e.g. the last published value).

In the case of a Reference Rate determined by reference to an RFR-Index, the start value and end value of the RFR-Index determined on the specified days are used in the interest calculation for an Interest Period. If no publication is available for determining the start value or the end value of the RFR-Index, the Terms and Conditions specify how the substitute value is to be determined for such a temporary market disruption.

Information in accordance with Article 29 of the Benchmark Regulation

The relevant Final Terms of the Securities may make reference to one or more Benchmark(s), in relation to which Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 ("**Benchmark Regulation**") applies.

A "**Benchmark**" is a published figure which is referenced to determine payments under a financial instrument (e.g. the Securities). For example, the Underlyings and Basket Components may be Benchmarks. In connection with the Securities, Benchmarks can include:

- a Financial Index,
- a Commodity (with respect to the market price used as a reference),
- a Reference Rate or
- a Currency Exchange Rate.

The Benchmark Regulation sets out the tasks and obligations of all parties contributing to the Benchmark. This includes the so-called "**Benchmark Administrators**" who control the provision of the Benchmarks. In addition, it includes provisions for certain companies that use Benchmarks (for example by issuing Securities which reference a Benchmark as the Underlying). The Issuer can act as a company using a Benchmark. HVB or any third person can act as Benchmark Administrator.

Furthermore, according to the Benchmark Regulation the Issuer is subject to special information duties with regard to the Base Prospectus. This includes the information, whether the benchmark is provided by a Benchmark Administrator who is registered in the register accordance with Article 36 of the Benchmark Regulation (a "**Registered Benchmark Administrator**"). **As at the date of the Base Prospectus EURIBOR is provided by the European Money Markets Institute which is a Registered Benchmark Administrator, and CMS is provided by ICE Benchmark Administration Limited which is not a Registered Benchmark Administrator. In any case where the relevant Securities reference a Benchmark, the Final Terms will specify whether this is the case.**

Term

The Securities have a fixed term, which may be reduced in certain circumstances.

Description of the rights arising from the Securities (including their limitation)

Interest on the Securities

In accordance with section "**DESCRIPTION OF THE SECURITIES**" below, it may be specified in the relevant Final Terms that interest shall be paid on the Securities.

Payment of Additional Conditional Amounts

In accordance with section "**DESCRIPTION OF THE SECURITIES**" below, it may be specified in the relevant Final Terms that one or more Additional Conditional Amounts shall be paid on the Securities. The Additional Conditional Amounts are always conditional and may depend on the performance of the relevant Underlying, the relevant Basket Components or the relevant Reference Rate, as specified in the relevant Final Terms.

Payment of Additional Unconditional Amounts

In accordance with section "**DESCRIPTION OF THE SECURITIES**" below, it may be specified in the relevant Final Terms that one or more Additional Unconditional Amounts shall be paid on the

Securities. The payment of Additional Unconditional Amounts is always unconditional (e.g. not subject to the occurrence of a certain event such as an Additional Conditional Amount Payment Event).

Automatic Early Redemption of the Securities

If specified in the relevant Final Terms, and in accordance with the section "*DESCRIPTION OF THE SECURITIES*" below, the Securities may be redeemed early by payment of the Early Redemption Amount on an Early Payment Date, if an Early Redemption Event occurs. The "**Early Payment Date(s)**" of the Securities will be specified in the relevant Final Terms.

Redemption of the Securities

Unless specified otherwise in the relevant Final Terms and in accordance with the section "*DESCRIPTION OF THE SECURITIES*" below, the Securities will be redeemed by payment of the Redemption Amount on the Final Payment Date. The "**Final Payment Date**" of the Securities will be specified in the relevant Final Terms.

Market Disruptions

During the term of the Securities, Market Disruption Events may occur that affect the Securities.

As a consequence of the occurrence of a Market Disruption Event the Calculation Agent may, for example, postpone an Observation Date specified in the relevant Final Terms or the determination of a Reference Price of the Underlying or a Basket Component by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) (in case of German law Securities) or acting in accordance with relevant market practice and in good faith (in case of Italian law Securities). Under certain circumstances, the subsequent payment dates may be postponed accordingly.

Depending on the type of Underlying or Basket Component, the following events may be considered "**Market Disruption Events**" or "**FX Market Disruption Events**" in respect of the Underlying or, Basket Component or certain derivatives on the underlying or a specific instrument or asset ("**Underlying Linked Derivatives**"):

- The suspension or restriction of trading in the respective Underlying Linked Derivatives on the respective Determining Futures Exchange during its regular trading sessions.
- The restriction on the general ability of market participants to enter into transactions in the Share or to obtain market prices for the Share on the Relevant Exchange during regular trading sessions.
- The restriction on the general ability of market participants to enter into transactions in Underlying Linked Derivatives on the respective Determining Futures Exchange or to obtain market prices there.
- Subject to certain exemptions, an early closing of trading by the respective Relevant Exchange prior to the scheduled closing of trading.
- Subject to certain exemptions, an early closing of trading by the respective Determining Futures Exchange prior to the scheduled closing of trading.

Market Disruption Event with regard to Financial Indices and Reference Strategy Indices

- The failure of the respective Relevant Exchange to open for trading on a scheduled trading day during its regular trading sessions.
- The failure of the respective Determining Futures Exchange to open for trading on a scheduled trading day during its regular trading sessions.
- The suspension or restriction of trading of one or more of the components of the respective Financial Index on the respective Relevant Exchange during its regular trading sessions.
- The suspension or restriction of trading of the Underlying Linked Derivatives in the respective Determining Futures Exchange during its regular trading sessions.
- The restriction on the general ability of market participants to enter into transactions in or obtain market prices for one or more of the securities or components of the Financial Index on the respective Relevant Exchange during regular trading hours.
- The restriction on the general ability of market participants to enter into transactions in or obtain market prices for Underlying Linked Derivatives on the respective Determining Futures Exchange during regular trading hours.
- Subject to certain exemptions, an early closing of trading by the respective Relevant Exchange prior to the scheduled closing of trading.
- Subject to certain exemptions, an early closing of trading by the respective Determining Futures Exchange prior to the scheduled closing of trading.
- The suspension of or failure or the non-publication of the calculation of the Financial Index as a result of a decision by the respective Index Sponsor or the respective Index Calculation Agent.

In case of a Fund Index as Underlying or Basket Components:

- The temporary suspension or restriction of the redemption or issue of shares of the respective Index Constituent Fund at NAV.

Market Disruption Event with regard to Inflation Indices as Underlying

- A Reference Price which is relevant for any calculation or specification under the Securities has not been published or announced by or on behalf of the (Inflation) Index Sponsor by the relevant Observation Date.

Market Disruption Event with regard to Commodities

- The suspension or restriction of trading or price determination of the Commodity on the respective Reference Market.
- The suspension or restriction of trading in a Underlying Linked Derivatives on the respective Determining Futures Exchange.
- Subject to certain exemptions, an early closing of trading by the respective Reference Market prior to the scheduled closing of trading.

- Subject to certain exemptions, an early closing of trading by the respective Determining Futures Exchange prior to the scheduled closing of trading.

Market Disruption Event with regard to Exchange Traded Commodities

- The failure of the respective Relevant Exchange to open for trading on a scheduled trading day during its regular trading sessions.
- The suspension or restriction of trading in the Exchange Traded Commodity on the respective Relevant Exchange.
- The suspension or restriction of trading in the Underlying Linked Derivatives on the respective Determining Futures Exchange.
- Subject to certain exemptions, an early closing of trading by the respective Relevant Exchange prior to the scheduled closing of trading.
- Subject to certain exemptions, an early closing of trading by the respective Determining Futures Exchange prior to the scheduled closing of trading.

Market Disruption Event with regard to Currency Exchange Rates

- The failure of the respective Fixing Sponsor to publish the respective Currency Exchange Rate.
- In general, the suspension or restriction of trading for at least one of the relevant currencies (including options or futures contracts) or the restriction of the convertibility of the currencies quoted in such exchange rate or the effective impossibility of obtaining a quotation of such exchange rate.
- Any other events with commercial effects which are similar to the events listed above.

Market Disruption Event with regard to Debt Securities

- The restriction of trading or the general ability of market participants to enter into transactions in the Debt Security or to obtain market prices for the Debt Security on any exchange, platform or market on which the respective Debt Security is usually traded.
- The suspension or restriction of trading in the Underlying Linked Derivatives of the respective Debt Security on the respective Determining Futures Exchange during its regular trading sessions.
- The failure of the respective Relevant Exchange or the respective Determining Futures Exchange to open for trading on a scheduled trading day during its regular trading sessions.

The relevant Final Terms will specify which of the above events shall constitute Market Disruption Events in respect of the relevant Securities. The Market Disruption Events must be material. The Calculation Agent determines the materiality in its reasonable discretion (§ 315 et seq. BGB) (in case of German law Securities) or acting in accordance with relevant market practice and in good faith (in case of Italian law Securities).

Adjustments to the Terms and Conditions

The Calculation Agent may adjust the Terms and Conditions if a certain adjustment or replacement event occurs. Adjustment or replacement events may have a significant impact on the Securities.

Adjustments with regard to Shares

In respect of Shares, the Terms and Conditions may be adjusted in case of an Adjustment Event.

An "**Adjustment Event**" in respect of a Share is, for example, each of the following events:

Adjustment Event with regard to Shares as Underlying or Basket Component:

- Each measure taken by the company that has issued the Share or by a third party which, as a result of a change in the legal and financial position, affects the Share, for example, share splits, mergers, spin-offs of a business unit to another legally separate entity.
- An adjustment of the respective Determining Futures Exchange of the there traded Underlying Linked Derivatives.
- Any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the Share.

Adjustments with regard to Financial Indices

In respect of Financial Indices, the Terms and Conditions may be adjusted in case of an Adjustment Event. An "**Adjustment Event**" in respect of a Financial Index is for example an Index Replacement Event and any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the Financial Index.

An "**Index Replacement Event**" is for example:

- A certain change to the relevant Index Concept.

Adjustments with regard to Inflation Indices

In respect of Inflation Indices, the Terms and Conditions may be adjusted in case of an Adjustment Event. An "**Adjustment Event**" in respect of an Inflation Index is for example an Inflation Replacement Event and any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the Inflation Index.

An "**Inflation Replacement Event**" is for example:

- A certain change to the relevant methodology.

Adjustments with regard to Commodities

In respect of Commodities, the Terms and Conditions may be adjusted in case of a Reference Market Replacement Event or Reference Price Replacement Event.

A "**Reference Market Replacement Event**" is:

- The indefinite suspension or permanent discontinuation of trading of the Commodity at the respective Reference Market.

A "**Reference Price Replacement Event**" is:

- The indefinite suspension or permanent discontinuation of the publication of the Reference Price by the respective Reference Market.

Adjustments with regard to Exchange Traded Commodities

In respect of Exchange Traded Commodities, the Terms and Conditions may be adjusted in case of a succession of an ETC Issuer by a new issuer.

Adjustments with regard to Fund Shares

In respect of Fund Shares, the Terms and Conditions may be adjusted in case of an Adjustment Event or Fund Replacement Event.

An "**Adjustment Event**" in respect of a Fund Share is, for example, each of the following events:

- The reduction of the number of Fund Shares of a shareholder in the Fund for reasons outside the control of the shareholder.
- A split or split-off with respect to the Fund.

A "**Fund Replacement Event**" is, for example, each of the following events:

- A material change with respect to the risk profile of the Fund Shares or the Fund.
- A material breach by the Fund or the respective Management Company of statutory or regulatory publication requirements.

Adjustments with regard to Currency Exchange Rates

- A not only immaterial modification in the method of determination and/or publication of the relevant Currency Exchange Rates by the respective Fixing Sponsor.

Adjustments with regard to Debt Securities

In respect of Debt Securities, the Terms and Conditions may be adjusted in case of an Adjustment Event. An "**Adjustment Event**" in respect of a Debt Security is for example an Debt Security Replacement Event and any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the Debt Security.

A "**Debt Security Replacement Event**" is, for example, each of the following events:

- A change to the terms and conditions of the Debt Security that result in the terms and conditions of the Debt Security being no longer economically equivalent to the original terms and conditions of the Debt Security.
- The termination, cancellation or repurchase or (early) redemption of the Debt Security.

Depending on the type of Underlying or Basket Component, the Terms and Conditions may provide for further adjustment or replacement related events. The Final Terms will specify the adjustment and/or replacement events applicable to the relevant Securities. The Calculation Agent determines the occurrence of an adjustment and/or replacement event in its reasonable discretion (§ 315 et seq. BGB) (in case of German law Securities) or acting in accordance with relevant market practice and in good faith (in case of Italian law Securities).

If the Calculation Agent determines an adjustment and/or replacement event, the Calculation Agent may adjust the Terms and Conditions (in particular may adjust the Adjustable Product Data based on an adjustment factor specified in the Final Terms, for example the Ratio).

In addition, the Calculation Agent may make the following further adjustments depending on the respective type of Underlying or Basket Component and the applicable adjustment or replacement related event in accordance with the Terms and Conditions:

- The Calculation Agent may determine a Replacement Underlying or Basket Component and, if necessary, make further adjustments to the Terms and Conditions.
- The Calculation Agent may designate a Replacement Reference Market and, if necessary, make further adjustments to the Terms and Conditions.
- The Calculation Agent may redetermine a published NAV, Reference Price, or price of the Underlying or Basket Component if it is subsequently corrected (Replacement Specification).

The relevant Final Terms will specify which of the above measures may be performed by the Calculation Agent with respect to the relevant Securities. The Calculation Agent performs adjustments

in its reasonable discretion (§ 315 et seq. BGB) (in case of German law Securities) or acting in accordance with relevant market practice and in good faith (in case of Italian law Securities). The Calculation Agent shall, if possible, ensure that the economic situation of the Security Holders remains unchanged.

Adjustments with regard to Reference Rates

Adjustments may also occur with respect to Reference Rates (please see sub-section "*Replacement relating to Reference Rates*" in section "*General Information on the Securities – Description of the rights arising from the Securities (including their limitation)*" below).

Conversion of the Securities by the Issuer

Upon the occurrence of one or more Conversion Events, the Issuer may convert the Securities in accordance with the Terms and Conditions and redeem them on the Final Payment Date by payment of the Settlement Amount.

The "**Settlement Amount**" is the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event, as determined by the Calculation Agent. The Settlement Amount is in any case not less than the Minimum Amount.

Depending on the type of Underlying or Basket Component, the following events may, for example, be considered as "**Conversion Events**":

Conversion Events with regard to Shares

- The quotation of the Share on the respective Relevant Exchange is suspended indefinitely or permanently discontinued and no Replacement Exchange is available or could be determined.
- The quotation of the Share at the respective Relevant Exchange no longer occurs in the Underlying Currency or Currency of the respective Basket Component.
- The spin-off of a business unit to another legally separate entity.
- The respective Determining Futures Exchange terminates the there traded Underlying Linked Derivatives early.

Conversion Events with regard to Financial Indices

- An Index Replacement Event has occurred and no suitable Replacement Underlying or Replacement Basket Component is available or could be determined.
- The respective Determining Futures Exchange terminates the there traded Underlying Linked Derivatives early.

In case of a Fund Index as Underlying or Basket Component:

- The restriction of the issue of further shares in the respective Index Constituent Fund.
- The redemption of existing shares in the respective Index Constituent Fund.
- The announcement of such restriction or other non-execution.
- A change with regard to the schedule for the subscription or issue, redemption and/or transfer of the shares in the respective Index Constituent Fund.
- Payments on a redemption of shares in the respective Index Constituent Fund are made wholly or partly in kind or not wholly in cash by no later than the time at which, in accordance with the documents of the Index Constituent Fund, a full payment in cash is customarily to be made.

Conversion Events with regard to Reference Strategy Indices

- The calculation of the Underlying is permanently discontinued.

- The Underlying is no longer calculated or published in the Underlying Currency.
- The Index Sponsor repeatedly and/or materially infringes the provisions of the Index Description.
- An insolvency proceeding or a similar proceeding has been or will be applied for or opened with regard to the Index Sponsor.
- A person employed by the Index Sponsor which is acting as a key person or any other person which is materially involved in the implementation of the Index Description ("**Key Person**") suspends its activities, leaves or is temporarily or definitively unable to perform its duties or an administrative or criminal proceeding is opened against such Key Person which casts serious doubts on the Key Person's reliability.
- No suitable substitute for the Index Sponsor and/or the Index Calculation Agent is available.
- The Reference Price is below a number of index points specified in the Final Terms.
- The occurrence of a Trigger Event, as defined in the relevant Index Description.
- Changes in the index concept made in accordance with the Index Description result in an application of the Underlying, as basis for calculations and determinations under the Terms and Conditions, being no longer reasonable with regard to the Calculation Agent, the Issuer and/or the Security Holders.
- Due to circumstances for which the Issuer is not responsible, the Issuer is no longer entitled to use the Underlying as basis for the calculations or, respectively, specifications described in the Terms and Conditions (an "**Index Usage Event**"); an Index Usage Event is also the termination of the license to use the Underlying due to an unacceptable increase in license fees.

Conversion Events with regard to Inflation Indices

- an Inflation Replacement Event (e.g. the Calculation of the Inflation Index is discontinued) and no suitable Replacement Underlying or Basket Component is available or can be determined.

Conversion Events with regard to Commodities

- The trading of the Commodity on the respective Reference Market is suspended indefinitely or permanently discontinued and no suitable Replacement Reference Market is available or could be determined
- The quotation of the Commodity no longer occurs in the Underlying Currency or the Currency of the respective Basket Component.
- The respective Determining Futures Exchange terminates the there traded Underlying Linked Derivatives early.

Conversion Events with regard to Exchange Traded Commodities

- The quotation of the Exchange Traded Commodity at the respective Relevant Exchange is suspended indefinitely or permanently discontinued and no suitable Replacement Exchange is available or can be determined.
- The quotation of the Exchange Traded Commodity at the respective Relevant Exchange no longer occurs in the Underlying Currency or the Currency of the respective Basket Component.
- The dissolution or liquidation of the ETC Issuer or the initiation of composition, bankruptcy or insolvency proceedings.
- The early redemption or other early termination of the Exchange Traded Commodity.
- Transfers of the Exchange Traded Commodity by the investors holding such Exchange Traded Commodity are legally prohibited.

Conversion Events with regard to Fund Shares

- A Fund Replacement Event occurred and no suitable Replacement Underlying is available or can be determined.
- Payments in respect of a redemption of Fund Shares being made wholly or partly in kind or not wholly in cash.
- An order or valid resolution for a winding-up and/or liquidation or an event with similar effects.
- The initiation of composition, bankruptcy or insolvency proceedings in relation to the relevant Fund.
- A requirement to transfer all the relevant Fund Shares to a trustee, liquidator, insolvency administrator or similar office-holder.
- Transfers of the Fund Shares by the shareholders are legally prohibited.
- A nationalisation of the Fund or the Fund Shares to the extent that the Underlying or Basket Component is thereby affected.
- The quotation of the Fund Shares on the respective Relevant Exchange is discontinued and no Replacement Exchange can be determined.
- The respective Determining Futures Exchange terminates the there traded Underlying Linked Derivatives early.

Conversion Events with regard to Currency Exchange Rates

- A suitable New Fixing Sponsor or Replacement Exchange Rate is not available.

Conversion Events with regard to Debt Securities

- A Debt Security Replacement Event has occurred and no suitable Replacement Underlying or Replacement Basket Component is available or could be determined.
- A voluntary or involuntary liquidation, bankruptcy, insolvency, dissolution or winding-up of or any similar proceeding in respect of the issuer of the Debt Security.
- The imposition of new taxes on income from the Debt Security.

Conversion Events with regard to the Reference Rate

- No suitable Replacement Reference Rate is available.

Depending upon the type of Underlying or Basket Component further possible Conversion Events may be specified in the relevant Final Terms. The Final Terms will specify which of the above events will apply as Conversion Events to the respective Securities. The Calculation Agent determines the existence of a Conversion Event in its reasonable discretion (§ 315 et seq. BGB) (in case of German law Securities) or acting in accordance with relevant market practice and in good faith (in case of Italian law Securities).

Replacements relating to Reference Rates

In case of a Reference Rate Cessation Event on or before an Interest Determination Date or Additional Conditional Amount Observation Date (m), as specified in the relevant Final Terms, the Reference Rate will be replaced by an economically appropriate replacement rate selected by the Calculation Agent in accordance with the Terms and Conditions of the Securities. In addition, the Calculation Agent may, if necessary, make further adjustments to the Terms and Conditions of the Securities and/or determine an interest rate adjustment factor or spread for the purpose of determining or calculating the Interest Rate, Interest Amount or Additional Conditional Amount (m), as applicable.

A "**Reference Rate Cessation Event**" means each of the following events:

- It becomes unlawful for the Issuer to use the Reference Rate as the reference rate for the Securities.
- The Reference Rate Administrator ceases to calculate and publish the Reference Rate on a permanent basis or for an indefinite period of time.
- The Reference Rate Administrator becomes illiquid or an insolvency, bankruptcy, restructuring or similar procedure (regarding the administrator) has been set up by the administrator or the relevant supervisory authority.
- The Reference Rate has been ceased otherwise.
- The relevant central bank or a supervisory authority determines and publishes a statement that the relevant central bank or supervisory authority has determined that such Reference Rate no longer represents the underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored;

whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB) (in case of German law Securities) or acting in accordance with relevant market practice and in good faith (in case of Italian law Securities).

A Reference Rate Cessation Event may also result in a conversion of the Securities by the Issuer. For example, a Reference Rate Conversion Event occurs if no suitable replacement reference rate is available (see sub-section "*Conversion of the Securities by the Issuer*" above).

Early redemption at the option of the Issuer

Option 1: Optional Redemption Right

If so specified in the Final Terms, the Securities may be redeemed in whole but not in part at the option of the Issuer at their Optional Redemption Amount on any Optional Redemption Date. The Optional Redemption Date(s) will be specified in the relevant Final Terms.

Option 2: Regulatory Redemption Right (only for UniCredit as Issuer)

The relevant Final Terms of the Securities may provide for the conditions to exercise the option of the Issuer to terminate the Securities at their Optional Redemption Amount.

In relation to Series of Securities issued in order to satisfy the MREL Requirements, any redemption is subject to compliance by the Issuer with any conditions to such redemption prescribed by the MREL Requirements at the relevant time (including any requirements applicable to such redemption due to the qualification of such Securities at such time as eligible liabilities available to meet the then applicable MREL Requirements).

If so specified in the Final Terms, the Securities may be redeemed at any time in whole but not in part, at the option of the Issuer at their Optional Redemption Amount on or after the date specified in a notice published on the Issuer's website on giving not less than the minimum period nor more than the maximum period of notice specified in the applicable Final Terms to the Paying Agent and, in accordance with General Condition of the Securities § 6 (Notices), the Security Holders (which notice shall be irrevocable), if the Issuer determines that a MREL Disqualification Event has occurred and is continuing.

"**MREL Disqualification Event**" means that, at any time, all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities from the MREL Requirements due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities from the MREL Requirements as a result of such

Securities being purchased by or on behalf of the Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.

"MREL Requirements" means the laws, regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group, from time to time (including any applicable transitional or grandfathering provisions), including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities adopted by the Federal Republic of Germany or the Republic of Italy, a Relevant Resolution Authority or the European Banking Authority from time to time (whether or not such requirements, guidelines or policies are applied generally or specifically to the Issuer and/or the Group), as any of the preceding laws, regulations, requirements, guidelines, rules, standards, policies or interpretations may be amended, supplemented, superseded or replaced from time to time.

"Group" means the UniCredit Banking Group, registered with the Register of Banking Groups held by the Bank of Italy pursuant to Article 64 of the Legislative Decree No. 385 of 1 September 1993 of the Republic of Italy, under number 02008.1;

"Relevant Regulations" means any requirements contained in the regulations, rules, guidelines and policies of the competent authority or the Relevant Resolution Authority, or of the European Parliament and Council then in effect in the Federal Republic of Germany or the Republic of Italy, relating to capital adequacy and applicable to the Issuer and/or the Group from time to time (including any applicable transitional or grandfathering provisions), (including, but not limited to, as at the Issue Date of the relevant Series of Securities, the rules contained in, or implementing, CRD IV and the BRRD, delegated or implementing acts adopted by the European Commission and guidelines issued by the European Banking Authority);

"Relevant Resolution Authority" means the German resolution authority, the Italian resolution authority, the Single Resolution Board (SRB) established pursuant to the SRM Regulation and/or any other authority entitled to exercise or participate in the exercise of any bail-in power from time to time.

Conditions to redemption and purchase of Securities (only for UniCredit as Issuer)

According to the new regulatory framework set out in CRR II, the redemption or purchase of Securities qualifying as eligible liabilities instruments according to the MREL Requirements could be subject to different regulatory conditions.

In particular, if Articles 77 and 78a of the CRR II should be deemed applicable to such Securities and to the extent that such Securities qualify as liabilities that are eligible to meet the MREL Requirements (eligible liabilities instruments), any call, redemption, repayment or purchase (including, for the avoidance of doubt, any substitution in accordance with General Condition of the Securities § 5 and any modification or variation in accordance with General Condition of the Securities § 9) of such Securities is subject to compliance with the then applicable law and regulations, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority in accordance with Article 78a of the CRR II, provided that one of the following conditions is met:

- (a) on or before such call, redemption, repayment or repurchase (as applicable), the Issuer replaces the relevant Securities with own funds instruments or eligible liabilities instruments of equal or higher quality at terms that are sustainable for its income capacity; or
- (b) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that its own funds and eligible liabilities would, following such call, redemption, repayment or repurchase, exceed the requirements for own funds and eligible liabilities laid down in the Relevant Regulations by a margin that the Relevant Resolution Authority, in agreement with the competent authority, considers necessary; or

- (c) the Issuer has demonstrated to the satisfaction of the Relevant Resolution Authority that the partial or full replacement of the relevant Securities with own funds instruments is necessary to ensure compliance with the own funds requirements laid down in the Relevant Regulations for continuing authorisation,

subject in any event to any different conditions or requirements as may be applicable from time to time under the applicable law and regulations (even in the case of redemption of such Securities qualify at such time as liabilities that are eligible to meet the MREL Requirements before the occurrence of the MREL Disqualification Event).

The Relevant Resolution Authority may grant a general prior permission, for a specified period which shall not exceed one year, to effect calls, redemptions, repayments or repurchases (including for market making purposes) of Securities qualifying as eligible liabilities instruments according to the MREL Requirements, in the limit of a predetermined amount, subject to criteria that ensure that any such redemption or purchase will be in accordance with the conditions set out in sub-paragraphs (a) or (b) of the preceding paragraph.

Rescission by the Issuer / Corrections

Obvious typing and calculation errors or similar obvious errors in the Terms and Conditions of German law Securities entitle the Issuer to rescission vis-à-vis the Security Holders. The Issuer may combine the declaration of rescission with an offer to continue the Securities under amended Terms and Conditions.

Furthermore, the Issuer is entitled to correct or amend incomplete or inconsistent provisions in the Terms and Conditions in its reasonable discretion (§ 315 et seq. BGB) (in case of German law Securities) or acting in accordance with relevant market practice and in good faith (in case of Italian law Securities).

If in such case a public offer has not yet been closed or admission of the Securities for trading is planned, the Issuer will publish a corrected version of the Final Terms of the respective Securities and, if the legal requirements are fulfilled (in particular, a material inaccuracy of the Base Prospectus), publish in advance a supplement to the Registration Document and/or the Base Prospectus pursuant to Article 23 of the Prospectus Regulation.

Variations (only for UniCredit as Issuer)

In relation to Securities qualifying as eligible liabilities instruments according to the MREL Requirements, if (i) at any time a MREL Disqualification Event occurs and is continuing in relation to any Series of Securities qualifying as eligible liabilities instruments according to the MREL Requirements and/or (ii) in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, subject to giving any notice required to be given to, and receiving any consent required from, the competent authority and/or as appropriate the Relevant Resolution Authority, without any consent or approval of the Security Holders of that Series, at any time vary the Terms and Conditions of the Securities in such a way that the Securities remain or, as appropriate, become, Qualifying Securities (as defined below) (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. In the case of Securities governed by German law, the Issuer shall determine in its reasonable discretion (§ 315 BGB) whether a Variation shall be made and the extent of the Variation.

Qualifying Securities are securities issued by the Issuer that, other than in respect of the effectiveness and enforceability pursuant to § 11 of the General Conditions, have terms not materially less favourable to the Security Holders (as reasonably determined by the Issuer, or, in the case of Securities governed by German law, as determined by the Issuer in its reasonable discretion (§ 315 BGB)) than the terms of the Securities qualifying as eligible liabilities instruments according to the MREL Requirements.

Tax

Payments under the Securities will be made only after deduction and withholding of present or future taxes, to the extent that such deduction or withholding is required by law.

In this context, the term "**Tax**" includes taxes, levies and state fees of any kind that are levied under any applicable legal system or in any country claiming tax jurisdiction, by or on behalf of a territorial authority or authority of the country responsible for collecting the tax is authorized, imposed, collected or collected, including a withholding tax under Section 871 (m) of the United States Internal Revenue Code of 1986, as amended ("**871(m) Withholding Tax**").

In any case, the Issuer is entitled to use the maximum applicable tax rate (plus value added tax if applicable) in respect of 871(m) Withholding Tax in connection with the Terms and Conditions. Under no circumstances will the Issuer be required to make any compensation in respect of any taxes deducted, withheld or otherwise claimed.

Presentation Period

The presentation period for German law securities provided for in § 801 (1) sentence 1 BGB (i.e. the extinction of a claim under the Securities) is reduced to ten years for the Securities.

Governing law of the Securities

The Securities, as to form and content, and all rights and obligations of the Issuer and the Security Holder may either be governed by the laws of the Federal Republic of Germany or by the laws of the Republic of Italy, as specified in the relevant Final Terms.

Status of the Securities, Ranking in case of a resolution of the Issuer

Status

In the case of HVB as issuer the following applies:

The Securities constitute direct, unconditional and unsecured obligations of the Issuer. The Securities rank *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer. Exception: obligations which have a preference or subordination under the law.

In the case of UniCredit as issuer the following applies:

The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.

Ranking in case of a resolution of an Issuer

The recovery and resolution laws applicable to the Issuer comprising the

- Regulation (EU) No 806/2014 ("**SRM**") and Directive 2014/59/EU of 15 May 2014 ("**BRRD**"),
- in Germany, the Restructuring and Resolution Act (*Sanierungs- und Abwicklungsgesetz – "SAG"*) implementing the BRRD, and the German Banking Act (*Kreditwesengesetz – "KWG"*), and in Italy Legislative Decree No 193 of 8 November 2021 implementing the BRRD.

provide for regulatory requirements and administrative powers for the restructuring and resolution of a credit institution and their groups ("**Institutions**").

According to the SRM and the SAG, shareholders and creditors, which have purchased financial instruments issued by those Institutions, may participate in an Institution's losses and the costs of the resolution; so-called instruments of creditor participation (in Germany called *Gläubigerbeteiligung*).

This means, that the Securities of the Issuer, as an Institution, are also subject to the instrument of creditor participation.

The prerequisites for a resolution are met under the SRM, BRRD or SAG, when the relevant resolution authority (for example, BaFin in Germany) makes the following determinations:

- that the Issuer is failing or likely to fail,
- that in order to achieve one or more resolution objectives, exercising a resolution measure is necessary and proportionate,
- that the failure of the Issuer cannot be remedied within the given timeframe with any other measure.

If, according to the determinations of the relevant resolution authority, these prerequisites are met with regard to an Institution, the resolution authority can – even before the insolvency of the Institution – undertake comprehensive measures, which can be detrimental to creditors (such as the Security Holders). The resolution authority can, for example, transfer shares in the Institution or parts or the entirety of the assets of the Institution, including its liabilities, to a bridge institution, an asset management company or another suitable third party and thereby compromise the Institution's ability to honour its payment and delivery obligations towards the creditors of the financial instruments it has issued – and therefore towards the Security Holders of the Securities issued by the Issuer.

Furthermore, in accordance with the SRM, BRRD or SAG the resolution authority is entitled to write down the claims of holders of unsecured Securities of the Issuer described in this Securities Note partially or completely or to convert them into equity (stock or other forms of shares) in the Issuer (so-called bail-in) in order to stabilise the Issuer as an Institution.

The resolution authority can also suspend the payment and delivery obligations of the Issuer as an Institution, e.g. resulting from the Terms and Conditions towards the Security Holders. Furthermore, the resolution authority can suspend the option of the Security Holders to exercise any termination or any similar rights (like in Germany, *Gestaltungsrechte*) according to the Terms and Conditions of the Securities. The suspension takes effect until the end of the banking day following the publication of the resolution order. Under certain circumstances, the resolution authority can also amend contractual provisions regarding the obligations of the Institution. The amendment can in particular include the Terms and Conditions of the Securities issued by the Issuer. The resolution authority can also order the cancellation or suspension of security trading of the Issuer on a regulated market or the listing.

If a resolution authority takes a measure in accordance with the SAG, the Security Holder is not entitled based on this measure alone, to terminate the Securities or to exercise other contractual rights. This restriction applies as long as the Issuer as an Institution is still performing its main obligations resulting from the Terms and Conditions, including its payment and delivery obligations.

For the purposes of a bail-in, the claims of the creditors of the Issuer as an Institution, like the holders of the unsecured Securities of the Issuer described in this Securities Note, will be divided into several groups and will participate according to a fixed ranking (the "**Liability Cascade**").

As the first in the Liability Cascade, owners of the Issuer as an Institution (i.e. holders of stock and other shares) must be held liable. **Then** the creditors of Additional Tier 1 instruments or of Tier 2 instruments and creditors of unsecured subordinated liabilities (this includes for example subordinated loans and participation rights) of the Issuer are affected.

The **next category** consists of **unsecured, unsubordinated liabilities** which also includes debt liabilities such as bearer bonds and, in respect of Germany, order bonds (*Orderschuldverschreibungen*), registered bonds (*Namensschuldverschreibungen*) and *Schuldscheindarlehen*. Exception: covered deposits or indemnifiable (*entschädigungsfähig*) deposits.

Within this category, there are non-structured debt instruments which get assigned a lower ranking in case of insolvency proceedings than other unsecured, unsubordinated liabilities. The lower ranking can be based on statutory regulation or an explicit provision by the borrower in the terms. These so-called **non-preferred debt instruments** rank above the other unsecured, unsubordinated liabilities pursuant to the Liability Cascade.

The Securities described in this Securities Note rank below the non-preferred debt instruments pursuant to the Liability Cascade. Accordingly, in the case of a bail-in, you will be impacted only after the holders of these non-preferred debt instruments.

Quanto and Compo elements

Non-Quanto Securities are Securities where the Underlying Currency or the Currency of the Basket Components is the same as the Specified Currency. Quanto Securities are Securities where the Underlying Currency is not the same as the Specified Currency and where a currency protection element is provided. In the case of Quanto Securities, one unit of the Underlying Currency or the Currency of the Basket Component is equal to one unit of the Specified Currency.

Compo Securities are Securities where the Underlying Currency is not the same as the Specified Currency and no currency protection element is provided. In the case of Compo Securities, the Redemption Amount is converted into the Specified Currency before payment is made using the exchange rate (FX). The Security Holder therefore bears the entire exchange rate risk during the term of the Securities.

Representative of Security Holders

There shall be no representative of the Security Holders.

Payments

Under the Securities, payments of the Issuer to the Security Holders are made as follows: All payments shall be calculated by the Calculation Agent in accordance with the Terms and Conditions. The Issuer then pays the amounts due to the Principal Paying Agent (see sub-section "*AGENTS*" in the section "*GENERAL INFORMATION*"). The Principal Paying Agent shall pay the amounts due to the Clearing System (see sub-section "*CLEARING SYSTEM*" in the section "*GENERAL INFORMATION*"). The Clearing System credits these payments to the respective accounts of the depository banks. The depository banks then credit the payments to the respective accounts of the Security Holders. The payment to the Clearing System will discharge the Issuer from its obligations under the Securities in the amount of such a payment.

Information regarding certain Sustainability Criteria

1. General Information

As part of its sustainability strategy, HVB has introduced an ESG-Strategy in Structured Investment Products (the "**Sustainability Guidelines**")⁶. The Sustainability Guidelines define self-binding sustainability criteria with regard to the Issuer and the Underlyings or Basket Components of the Securities.

Under this Base Prospectus also UniCredit may offer Securities in accordance with the Sustainability Guidelines and will in this case apply them *mutatis mutandis*.

For the avoidance of doubt, the offer of Securities in accordance with the Sustainability Guidelines does not involve a specific use of the proceeds for sustainable purposes.

2. Information on the Sustainability Guidelines

The Sustainability Guidelines are internal guidelines of HVB which are not subject to any statutory requirements (e.g. the EU Taxonomy Regulation⁷) and are not reviewed or approved by any regulatory authority. However, the Sustainability Guidelines represent internal self-binding guidelines that require consistent observance if Securities are offered in accordance with them.

⁶ The Sustainability Guidelines are available on the following website: <https://www.onemarkets.de/content/dam/onemarkets-relaunch/PDF/esg/082022-esg-brochure-en.pdf>.

⁷ Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088.

The Sustainability Guidelines take into account industry standards for securitised derivatives, such as the sustainability concept of various associations of the German banking industry⁸ ("**Associations Concept**") and the Sustainable Finance Code of Conduct ("**Sustainability Code**") of the German Structured Securities Association (*Bundesverband für strukturierte Wertpapiere e.V.*, BSW ("**BSW**")), formerly known as German Derivatives Association (*Deutscher Derivate Verband*, DDV).⁹

The classification of the Securities on the basis of sustainability criteria is still at an early stage of development and in ongoing coordination between associations and the supervisory authorities. These will be taken into account as part of the adjustments / further developments of the current Associations Concept and HVB's product strategy. In addition, further adjustments may become necessary in the context of current or future legislative procedures. The Sustainability Guidelines are consequently subject to further development and may be subject to future amendments.

The Sustainability Guidelines require that the following sustainability criteria are met with regard to both, the Issuer and the respective Underlying or Basket Component, as the case may be:

The Sustainability Guidelines require that the following sustainability criteria are met with regard to both, the Issuer and the respective Underlying or Basket Component, as the case may be:

a) Sustainability criteria relating to the Issuer

- Consideration of the United Nations Global Compact

The Issuer has to take into account the United Nations Global Compact ("**UN Global Compact**")¹⁰.

As part of the UniCredit Group, the Issuer has joined the UN Global Compact and, by joining, commits itself to comply with a set of ten core values if within its control.

The ten core values of the UN Global Compact can be categorised within the categories "human rights", "labour standards", "environment" and "prevention of corruption". They include, for example, supporting and respecting the protection of international human rights, advocating for the elimination of all forms of forced labour, taking initiatives to promote greater environmental awareness and working against corruption in all its forms, including extortion and bribery.

- Consideration of the United Nations Principles for Responsible Banking

In addition, the Issuer has to take into account the United Nations Principles for Responsible Banking ("**UN PRB**")¹¹.

UniCredit Group participated in the launch of the UN PRB in 2019 and became a member of the initial signatories.

⁸ The German Banking Industry (*Deutsche Kreditwirtschaft* abbrev. *DK*) is the association representing the interests of the Federal Association of German Cooperative Banks (*Bundesverband der Deutschen Volksbanken und Raiffeisenbanken*), the Federal Association of German Banks (*Bundesverband deutscher Banken*), the Federal Association of German Public Sector Banks (*Bundesverband Öffentlicher Banken Deutschlands*), the German Savings Banks and Giro Association (*Deutscher Sparkassen -und Giroverband*) and the Association of German Mortgage Bond Banks (*Verband deutscher Pfandbriefbanken*).

⁹ The Associations Concept is available on the following website: https://die-dk.de/media/files/211213_ESG_Verb%C3%A4ndekonzeptENG_final.pdf. The Sustainability Code is available on the following website: <https://www.derbsw.de/EN/MediaLibrary/Document/Code%20of%20Conduct/22%2008%2001%20DDV%20Aachhaltigkeitskodex%20englisch.pdf>.

¹⁰ Further information, in particular on the ten core values, is available on the following website: <https://www.globalcompact.de/en/about-us/united-nations-global-compact>.

¹¹ Further information, in particular on the six principles, is available on the following website: <https://www.unepfi.org/banking/bankingprinciples/>.

The six principles of the UN PRB are: "Alignment", "Impact and Target Setting", "Clients and Consumers", "Stakeholders", "Governance and Culture" and "Transparency and Accountability".

Reporting on UniCredit Group's commitment and progress in implementing the UN PRB takes the form of a specific report ("**Principles for Responsible Banking Report**") based on the UN Environment Programme Financial Initiative template (UNEP FI template) for reporting and self-assessment. The Principles for Responsible Banking Report is regularly audited by an external auditor and published on the UniCredit Group website.¹²

- Status as sustainability company

The Issuer or UniCredit Group shall achieve the status as a sustainable company with at least one recognised rating agency.

UniCredit Group has been rated as a sustainable company by different rating agencies.¹³

- Consideration of Principal Adverse Impacts

The Issuer is required to consider principal adverse impacts ("**PAI**") on certain sustainability factors at company's level. The consideration of PAIs does not focus on the promotion of a particular environmental goal or social objective, but rather on preventing damages, to the extent possible, in relation to one or more of the following sustainability indicators:

- greenhouse gas emissions,
- biodiversity,
- water,
- waste,
- social and employee matters.

The PAIs to be considered have been determined in accordance with the Sustainability Code. They are not based on any statutory sustainability requirements (e.g. the EU Taxonomy Regulation).

b) Sustainability criteria relating to the Underlying

Depending on its type (e.g. single share, share basket, index, fund, fund index, interest rate or currency), the respective Underlying or Basket Component, as the case may be, shall meet certain criteria set out in the Sustainability Guidelines. In particular, this means that the corporations eligible as issuer of the respective Underlying or Basket Component stand out from other corporations in a clearly defined way with regard to ESG factors. Certain corporations are excluded as issuer, including:

- companies that exceed certain thresholds regarding the production and / or distribution of arms (>10% of turnover) or coal (>30% of turnover),
- companies that produce or distribute banned weapons,
- companies whose tobacco production exceeds 5% of turnover,
- companies that commit serious violations of the UN Global Compact (without a positive perspective),

¹³ The sustainability ratings are available on the following website: <https://www.unicreditgroup.eu/en/esg-and-sustainability/esg-sustainability-policies-and-ratings.html>.

Agricultural commodities are also excluded as Underlying or Basket Component.

3. Identification of the Securities

Product-specific information on whether the Securities are offered in accordance with the Sustainability Guidelines can be found on the relevant website of the Issuer www.onemarkets.de (for investors in the Federal Republic of Germany and Luxembourg), www.onemarkets.at (for investors in Austria), www.onemarkets.bg (for investors in Bulgaria), www.onemarkets.hr (for investors in Croatia), www.onemarkets.cz (for investors in the Czech Republic), www.bourse.unicredit.fr (for investors in France), www.onemarkets.hu (for investors in Hungary), www.investimenti.unicredit.it (for investors in Italy), www.onemarkets.pl (for investors in Poland), www.bolsa.unicredit.pt (for investors in Portugal), www.bolsa.unicredit.es (for investors in Spain) and www.onemarkets.sk (for investors in the Slovak Republic) (under the respective product details which can be found by entering the respective ISIN of the Securities in the search function). In this case, the Issuer will specify "C" with respect to the sustainability preferences in the product data on the website.

A classification of the Securities under the Sustainability Guidelines is performed in relation to the Issuer as well as in relation to the respective Underlying or Basket Component, as the case may be, based on the sustainability analysis undertaken in accordance with the Sustainability Guidelines. Thereby the Issuer may also rely on the sustainability analysis of third parties.

In order to comply with the above-mentioned Sustainability Code, the Issuer focuses on investment products according to the BSW product classification when offering respective Securities. Therefore, leveraged Securities and Securities that profit from a downward movement of the Underlying or Basket Component, as the case may be (also called reverse securities), are excluded from being offered in accordance with the Sustainability Guidelines. Consequently, the following product may not be offered as such:

- All Securities that are issued as Downside Securities pursuant to this Securities Note;
- All Securities with a participation in the performance of the Underlying or a single Basket Component higher than 1:1;
- Twin-Win Protection Securities (Product Type 6);
- Win-Win Protection Securities (Product Type 7);
- Twin-Win Protection Securities with Multi-Underlying (Product Type 18); and
- Win-Win Protection Securities with Multi-Underlying (Product Type 19).

INFORMATION ON THE OFFER AND THE ADMISSION TO TRADING

Method and time limits for paying up and for delivery of the Securities

The Securities are delivered in terms of co-ownership of the Global Note which will be kept in custody, in case of Securities governed by German law.

The Securities are delivered in terms of ownership of an account held with an account holder which is an intermediary opening an account with and adhering to the Clearing System, in case of Securities governed by Italian law.

Delivery is provided for against payment or free of payment or any other delivery method as specified in the Final Terms.

Issue Price

If the Issue Price per Security is specified prior to the start of the Public Offer, it will be set out in the Final Terms.

If the Issue Price per Security is determined after the start of the Public Offer, the Final Terms will specify that it will be determined by the Issuer on the basis of the product parameters and the current market situation (in particular the price of the Underlying, the implied volatility, interest rates, dividend expectations and lending fees). In this case the Issue Price will be published after its specification on the website(s) as specified in the relevant Final Terms.

Pricing

In case the Securities are offered without a Subscription Period, the Issue Price per Security will regularly be specified in the Final Terms.

In case the Securities are offered during a Subscription Period, the Issue Price determined by the Issuer will apply to all Securities subscribed during the Subscription Period and allocated after the end of the Subscription Period. The Issue Price per Security will be specified in the Final Terms.

In case the Issue Price per Security is not yet determined at the time of the issuance of the Securities or cannot be specified in the Final Terms for any other reason, the Issue Price per Security will be determined by the Issuer on the basis of the product parameters and the current market situation (in particular the price of the Underlying, the implied volatility, interest rates, dividend expectations and lending fees). The Issue Price and the continuous offer price of the Securities will be published by the Issuer after their determination in accordance with the Final Terms.

The Issue Price as well as the bid and offer prices quoted by the Issuer during the term of the Securities are based on internal pricing models of the Issuer. They may contain, beside upfront and placement commissions, an expected margin for the Issuer. Generally, the margin may contain costs, which, e.g., cover the Issuer's costs for structuring the Securities, risk hedging of the Issuer and the distribution.

The placement commissions are indicated in the respective Final Terms as a fixed amount of the Issue Price, or as an amount within a range or as a maximum amount only. The Issuer may also indicate a placement commission equal to one fixed amount referring to a certain number of Securities to be placed, providing that such commission may vary up to a maximum amount, based on prevailing market conditions, in the event that the aggregate number of Securities placed at the end of the Offer Period were higher or less than the amount indicated in the Final Terms.

When the placement commissions are not expressed as a fixed amount, the final amount will be communicated to the public by way of a notice published on the Issuer's website specified in the respective Final Terms at the end of the Offer Period.

Selling concession or other commissions

Selling concessions or other commissions may be charged as set out in the Final Terms.

In the case of Securities offered to Italian consumers the Final Terms will also state the presumable value at which the Security Holders may liquidate the Securities in the case of divestment the day after the Issue Date.

Placing and Distribution

The Securities may be distributed by the Issuer or through financial intermediaries as agreed between the Issuer and the relevant financial intermediary and as stated in the applicable Final Terms.

In the case of UniCredit as Issuer, the following applies:

HVB, Arabellastraße 12, 81925 Munich, Germany, may operate as the sole Distributor of the Securities (as defined below). Therefore, the Issuer may grant a mandate relating to the Securities by way of transmission of a confirmation prepared for the purposes of the individual offering of the Securities under the Master Agreement for Intragroup Services and Certificate Distribution between UniCredit and HVB dated 31 March 2021 (the "**Master Agreement**").

Under the terms of the Master Agreement, HVB is authorized to enter into one or more master agreements with third party sub-distributors or underwriting and/or distribution agreements and/or firm commitment agreements relating to the Securities (the "**Distribution Agreements**"). In this context, HVB may also appoint sub-distributors in accordance with Distribution Agreements existing prior to the date of the Master Agreement. In such event, in relation to each individual offering and in accordance with the terms of the relative Distribution Agreement, any sub-distributors appointed by HVB shall act as sub-distributors of the Securities.

HVB is also authorized to enter into one or more purchase and resale agreements with third party purchasers (the "**Purchase and Resale Agreements**"). In this case, the relevant third party purchaser purchases and subscribes the Securities in its own name and for its own account and intends to subsequently offer, distribute or resell the Securities. HVB may also appoint third party purchasers in accordance with Purchase and Resale Agreements existing prior to the date of the Master Agreement.

If applicable, the relevant Final Terms may indicate further details on (i) the name and address of the coordinator(s) of the global offer and of single parts of the offer (the "**Manager**") and, to the extent known to the Issuer, of the placers in the various countries where the offer takes place (the "**Placers**") and (ii) the entities agreeing to underwrite the issue on a firm commitment basis, or to place the issue without a firm commitment or under 'best efforts' arrangements.

If applicable, the relevant Final Terms will (i) indicate the material features of the underwriting agreements, including the quotas, (ii) where not all of the issue is underwritten, a statement of the portion not covered and (iii) the date of the relevant underwriting agreement.

Admission to Trading and listing of the Securities

Application may be made to the Luxembourg Stock Exchange for the Securities issued under the Programme to be listed on the official list of the Luxembourg Stock Exchange and to be admitted to trading on the Luxembourg Stock Exchange's regulated market (as contemplated by Directive 2014/65/EU), including the professional segment of the regulated market of the Luxembourg Stock Exchange. Application may also be made to list and trade Securities to be issued under the Programme on the markets or trading systems as set out in the Final Terms. In addition, the relevant Final Terms will specify all the regulated or other equivalent markets, on which, to the knowledge of the Issuer, securities of the same class of securities are already admitted to trading.

The Issuer may also make an application to listing or trading of the Securities on another stock exchange (including any professional segment thereof), another market and/or trading system (including a multilateral trading facility). In this case the Final Terms may indicate the respective other stock exchange, other market and/or other trading system and the earliest date (if known) on which the Securities are or will likely be listed or traded on.

The Securities may also be issued without being admitted to trading, listed or traded on any regulated or other equivalent market, any other stock exchange, any other market and/or trading system.

Even if the Issuer makes such application there is no guarantee that this application will be granted or that an active trading will occur or develop. Furthermore, in case of an Admission to Trading may only be single-sided (bid or ask prices).

The Issuer can engage one of its affiliates or another third party to provide liquidity in secondary trading for the relevant Security (Market Making). The Issuer may also act itself as Market Maker. There is however no obligation to do so. The Market Maker will, in accordance with the relevant rules of the respective trading markets, regularly submit bid and ask prices (purchase and selling prices) during the normal trading hours for the Securities under normal market conditions. If the Issuer engages intermediaries in secondary trading, the names and addresses of these institutions will be set out in the Final Terms. This information will only be given if intermediaries engage in secondary trading on the basis of a binding commitment. The publication in the Final Terms then describes the main conditions for the intermediary's commitment.

Potential investors

The Securities may be offered to qualified investors and/or retail investors and/or institutional investors as stated in the Final Terms.

If the offer is being made simultaneously in the markets of two or more countries and if a tranche has been or is being reserved for certain of these, such information will be given in the Final Terms.

Terms and conditions of the offer

If applicable, the following details regarding the terms and conditions of the offer will be indicated in the Final Terms:

- (i) day of the first public offer;
- (ii) start of the new public offer;
- (iii) information about the continuance of a public offer of Securities which have already been issued;
- (iv) information about the increase of Securities which have already been issued;
- (v) information about the manner and date in which results of the offer are to be made public;
- (vi) a subscription period;
- (vii) a minimum subscription amount;
- (viii) a maximum subscription amount;
- (ix) the country(ies) where the offer(s) to the public takes place;
- (x) smallest transferable and/or tradable unit or amount;
- (xi) the conditions for the offer of the Securities;
- (xii) possibility of an early termination or withdrawal of the public offer;
- (xiii) the condition for the offer in relation to an admission for trading prior to the Issue Date;
- (xiv) information on a consumer withdrawal right;
- (xv) MiFID II product governance / target market;
- (xvi) prohibition of sales to EEA retail investors;
- (xvii) information on the prices at which a continuous offer will be made.

Distributors

Under the Base Prospectus, the Issuer may from time to time issue Securities to one or more financial intermediaries acting as a distributor (each a "**Distributor**" and together the "**Distributors**") as set out in the Final Terms. The Distributors may underwrite the Securities with a firm underwriting commitment or place the Securities without a firm underwriting commitment or under a best efforts arrangement as agreed in a subscription agreement.

In the case of Securities offered to Italian consumers, the Issuer or the Distributor is the intermediary responsible for the placement of the Securities (*'Responsabile del Collocamento'*), as defined in article

93-bis of the Italian Legislative Decree 24 February 1998, n. 58 (as subsequently amended and supplemented).

Offer during a subscription period

The Securities may be offered to the public during a Subscription Period. For the purpose of acquisition, a potential investor has to make a subscription order to be forwarded to the Issuer during the Subscription Period. If specified in the Final Terms, the Securities may be offered continuously thereafter. The Issuer reserves the right to extend or shorten the subscription period or to withdraw the issue prior to the Issue Date during the Subscription Period for any reason. The Issuer has the right to accept, reject or reduce the subscription orders of potential investors in whole or in part, irrespective of whether or not the intended volume of the Securities to be placed is reached. The Issuer has the right to make allocations at its own discretion; whether and to what extent the Issuer exercises such right is subject to its own discretion. Potential investors who made purchase offers in the form of subscription orders may presumably be informed by the Issuer from the first Banking Day onwards following the end of the Subscription Period on the number of Securities allocated to them. Trading in the Securities may start prior to the notification of the allocation. In the case of Securities being offered to Italian consumers, the Final Terms may specify that subscription orders are subject to revocation rights applicable to the "door to door selling" and the "long distance technique selling" and the conditions of such revocation right.

Method for calculating the yield

The yield cannot be calculated for any of the Securities described in the Base Prospectus at the time of the issue of the Securities.

MiFID II Product Governance

MiFID II product governance / target market – The Final Terms in respect of any Securities may include a legend entitled "MiFID II Product Governance" which may outline the target market assessment in respect of the Securities and which channels for distribution of the Securities are appropriate. Any person subsequently offering, selling or recommending the Securities (a "**Distributor**") should take into consideration the target market assessment; however, a Distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Securities (by either adopting or refining the target market assessment) and determining appropriate distribution channels.

A determination will be made in relation to each issue about whether, for the purpose of the MiFID Product Governance rules under EU Delegated Directive 2017/593 (the "**MiFID Product Governance Rules**"), any dealer subscribing for any Securities is a manufacturer in respect of such Securities, but otherwise neither the arranger nor the dealers nor any of their respective affiliates will be a manufacturer for the purpose of the MiFID Product Governance Rules.

Prohibition of sales to EEA retail investors

If the Final Terms in respect of any Securities includes a legend entitled "Prohibition of Sales to EEA Retail Investors", the Securities are not intended to be offered, sold or otherwise made available to and should not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU ("**MiFID II**"); (ii) a customer within the meaning of Directive 2016/97/EU ("**IDD**"), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (iii) not a qualified investor as defined in the Prospectus Directive. Consequently no key information document required by Regulation (EU) No 1286/2014 as amended (the "**PRIIPs Regulation**") for offering or selling the Securities or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Securities or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

Publications after completed issuance of the Securities

The Issuer will not publish any information about the Securities and the relevant Underlying or the Basket Components, as the case may be, after issuing the Securities. Exemption: The Terms and Conditions provide for the publication of a notice in certain situations. For example in cases where an Adjustment Event occurs. In these situations, the publication will take place pursuant to § 6 of the General Conditions to the Securities of the websites set forth in the Final Terms. The Issuer is entitled to replace these websites by a corresponding successor website communicated pursuant to § 6 of the General Conditions to the Securities. The Issuer will publish significant new factors, material mistakes or important new circumstances or material inaccuracies with regard to the information contained in the Base Prospectus. The publication will be made in a supplement to the Registration Document and or the Base Prospectus pursuant to Article 23 of the Prospectus Regulation.

DESCRIPTION OF THE SECURITIES

A. SECURITIES WITH SINGLE-UNDERLYING

1. GENERAL DESCRIPTION OF THE PRODUCT TYPES WITH SINGLE-UNDERLYING

1.1. Product Type 1: Protection Performance Securities

General

Protection Performance Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. However, the Redemption Amount will in no event be lower than the Minimum Amount.

Protection Performance Securities may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Protection Performance Securities:

In the case of Upside Protection Performance Securities, the value of the Securities regularly rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Subtype 2 – Downside Protection Performance Securities:

In the case of Downside Protection Performance Securities, the value of the Securities regularly rises if the price of the Underlying falls and falls if the price of the Underlying rises.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities may be interest-bearing or non interest-bearing. If the Securities are interest-bearing, one of the following options may be specified in the relevant Final Terms:

- Fixed Interest Rate;
- Floating Interest Rate (*Floater*);
- Floating Interest Rate (*Spread Floater*); or
- Digital Interest Rate (*Digital Upside / Downside*).

For further information on the Interest Feature, see section "A. 6. Interest" below.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "A. 4. Automatic Early Redemption" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

Subtype 1: Upside Protection Performance Securities:

In the case of Upside Protection Performance Securities, at the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Performance of the Underlying (final) multiplied by the Final Participation Factor.

Subtype 2: Downside Protection Performance Securities:

In the case of Downside Protection Performance Securities, at the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Downside Performance of the Underlying (final) multiplied by the Final Participation Factor.

However, the Redemption Amount will in no event be lower than the Minimum Amount.

With respect to the determination of the Upside and Downside Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or
- Worst-in Observation (*Upside / Downside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside / Downside*); or
- Worst-out Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Compo Feature;
- Cap Feature and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.2. Product Type 2: All Time High Protection Securities

General

All Time High Protection Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. However, the Redemption Amount will in no event be lower than the Minimum Amount.

All Time High Protection Securities will be issued as Upside Securities. This means:

If the price of the Underlying rises the value of the Securities regularly rises. If the price of the Underlying falls the value of the Securities regularly falls.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities may be interest-bearing or non interest-bearing. If the Securities are interest-bearing, one of the following options may be specified in the relevant Final Terms:

- Fixed Interest Rate;
- Floating Interest Rate (*Floater*);
- Floating Interest Rate (*Spread Floater*); or
- Digital Interest Rate (*Digital Upside*).

For further information on the Interest Feature, see section "A. 6. Interest" below.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Redemption

On the Final Payment Date the Redemption Amount is equal to the product of the Calculation Amount and the sum of

- (i) (1) the Performance of the Underlying multiplied by the Final Participation Factor, or (2) the Best Performance of the Underlying multiplied by the Participation Factor_{best} minus the Strike_{best}, depending on which of these amounts is the higher one; and
- (ii) the Floor Level.

The Redemption Amount is in no case less than the Minimum Amount.

With respect to the determination of the Performance of the Underlying see section "A. 7. Performance Determination" below.

Best Performance of the Underlying means the quotient of $R(\text{final})_{\text{best}}$, as the numerator, and $R(\text{initial})$, as the denominator.

$R(\text{final})_{\text{best}}$ means the highest Reference Price on the dates specified in the respective Final Terms.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= $R(\text{initial})$), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside*); or
- Worst-in Observation (*Upside*).

With respect to the determination of the Final Reference Price (= $R(\text{final})$), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside*); or
- Worst-out Observation (*Upside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right
- Regulatory Redemption Right

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Compo Feature;
- Cap Feature; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.3. Product Type 3: Cash Collect Protection Securities

General

Cash Collect Protection Securities provide for the payment of Interest, an Additional Conditional Amount and/or an Additional Unconditional Amount. The Redemption Amount may either be fixed at the Minimum Amount or may depend on the price of the Underlying.

Cash Collect Protection Securities may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Cash Collect Protection Securities:

In the case of Upside Cash Collect Protection Securities, the value of the Securities regularly rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Subtype 2 - Downside Cash Collect Protection Securities:

In the case of Downside Cash Collect Protection Securities, the value of the Securities regularly rises if the price of the Underlying falls and falls if the price of the Underlying rises.

In the case of Securities with an Additional Conditional Amount (*Range Coupon or Range Accrual*), a rising level of the Underlying as well as a falling level of the Underlying may lead to a decline in the value of the Securities.

Interest

The Securities may be interest-bearing or non interest-bearing. If the Securities are interest-bearing, one of the following options may be specified in the relevant Final Terms:

- Fixed Interest Rate (only in combination with an Additional Conditional Amount or an Additional Unconditional Amount each as described below);
- Floating Interest Rate (*Floater*);
- Floating Interest Rate (*Spread Floater*); or
- Digital Interest Rate (*Digital Upside / Downside*).

For further information on the Interest Feature, see section "A. 6. Interest" below.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Geoscope*);
- Additional Conditional Amount (*Geoscope with Barrier Observation*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "A. 4. Automatic Early Redemption" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

At the Final Payment Date the Redemption Amount is equal to the Minimum Amount.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or
- Worst-in Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount; and
- Protection Lock-in Feature

For further information on the additional features, please see section "A. 3. Additional Features".

1.4. Product Type 4: Protection Barrier Securities

General

Protection Barrier Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. However, the Redemption Amount will in no event be lower than the Minimum Amount. With respect to the determination of the Redemption Amount, Protection Barrier Securities consider two cases depending on whether a Barrier Event has occurred or not.

Protection Barrier Securities may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Protection Barrier Securities:

In the case of Upside Protection Barrier Securities, the value of the Securities regularly rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Subtype 2 - Downside Protection Barrier Securities:

In the case of Downside Protection Barrier Securities, the value of the Securities regularly rises if the price of the Underlying falls and falls if the price of the Underlying rises.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities may be interest-bearing or non interest-bearing. If the Securities are interest-bearing, one of the following options may be specified in the relevant Final Terms:

- Fixed Interest Rate;
- Floating Interest Rate (*Floater*);
- Floating Interest Rate (*Spread Floater*); or
- Digital Interest Rate (*Digital Upside / Downside*).

For further information on the Interest Feature, see section "A. 6. Interest" below.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Geoscope*);
- Additional Conditional Amount (*Geoscope with Barrier Observation*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "A. 4. Automatic Early Redemption" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

With respect to the determination of the Redemption Amount, one of the following options may be specified in the relevant Final Terms:

Subtype 1: Upside Protection Barrier Securities:

If no Barrier Event has occurred, the Redemption Amount is determined as follows:

Option 1:

- The Redemption Amount is equal to the Final Redemption Amount.

Option 2:

The Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Performance of the Underlying (final) multiplied by the Final Participation Factor.

In this event, the Redemption Amount is not lower than the Minimum Amount.

Option 3:

- The Redemption Amount is equal to the Adjusted Maximum Amount or Adjusted Calculation Amount, as specified in the relevant Final Terms.

If a Barrier Event has occurred, the Redemption Amount is determined as follows:

Option 4:

- The Redemption Amount is equal to the Minimum Amount or Bonus Amount as specified in the relevant Final Terms.

Option 5a:

- The Redemption Amount is equal to the Calculation Amount multiplied by the Performance of the Underlying (final).

The Redemption Amount will not be lower than the Minimum Amount.

Option 5b:

- The Redemption Amount is equal to the Calculation Amount multiplied by the Performance of the Underlying (final) and the Final Participation Factor.

The Redemption Amount will not be lower than the Minimum Amount.

Option 6:

- The Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Final Participation Factor multiplied by the Performance of the Underlying (final).

The Redemption Amount will not be lower than the Minimum Amount.

Option 7:

- The Redemption Amount is equal to the Adjusted Calculation Amount multiplied by the Performance of the Underlying (final).

The Redemption Amount will not be higher than the Adjusted Calculation Amount.

Subtype 2: Downside Protection Barrier Securities:

If no Barrier Event has occurred, the Redemption Amount is determined as follows:

Option 1:

- The Redemption Amount is equal to the Final Redemption Amount.

Option 2:

- The Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Final Participation Factor multiplied by the Downside Performance of the Underlying (final).

In this event, the Redemption Amount is not lower than the Minimum Amount.

If a Barrier Event has occurred, the Redemption Amount is determined as follows:

Option 3:

- The Redemption Amount is equal to the Minimum Amount or Bonus Amount as specified in the relevant Final Terms.

Option 4:

- The Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor and the Downside Performance of the Underlying (final).

However, the Redemption Amount will not be lower than the Minimum Amount.

Option 5:

- The Redemption Amount is equal to the Calculation Amount multiplied by the difference between (a) the Floor Level plus the Final Participation Factor and (b) the Performance of the Underlying (final) multiplied by the Final Participation Factor.

However, the Redemption Amount will not be lower than the Minimum Amount.

With respect to the determination of the Upside and Downside Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following may be specified in the relevant Final Terms:

- Final Barrier Observation (*Upside / Downside*);
- Final Double Barrier Observation;
- Date-related Barrier Observation (*Upside / Downside*);
- Date-related Double Barrier Observation;
- Daily Barrier Observation (*Upside / Downside*);
- Daily Double Barrier Observation;
- Continuous Barrier Observation (*Upside / Downside*);
- Final Barrier Observation (*Upside Reference Rate / Downside Reference Rate*); or
- Geoscope Barrier Observation (*Upside / Downside*).

For further information on the Barrier Observation, see section "A. 5. Barrier Observation" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or
- Worst-in Observation (*Upside / Downside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside / Downside*); or
- Worst-out Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature;
- Instalment Payment (only in the case of Upside Protection Barrier Securities in combination with Option 3 or 7); and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.5. Product Type 5: Protection Lock-in Securities

General

Protection Lock-in Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. However, the Redemption Amount will in no event be lower than the Minimum Amount. With respect to the determination of the Redemption Amount, Protection Lock-in Securities consider different cases depending on whether a Lock-in Event has occurred or not.

Protection Lock-in Securities will be issued as Upside Securities. This means:

If the price of the Underlying rises the value of the Securities regularly rises. If the price of the Underlying falls the value of the Securities regularly falls.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities may be interest-bearing or non interest-bearing. If the Securities are interest-bearing, one of the following options may be specified in the relevant Final Terms:

- Fixed Interest Rate;
- Floating Interest Rate (*Floater*);
- Floating Interest Rate (*Spread Floater*); or
- Digital Interest Rate (*Digital Upside / Downside*).

For further information on the Interest Feature, see section "A. 6. Interest" below.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Geoscope*);
- Additional Conditional Amount (*Geoscope with Barrier Observation*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

Option 1:

- If a Lock-in Event has occurred, the Redemption Amount corresponds to the Final Redemption Amount.
- If a Lock-in Event has not occurred, the Redemption Amount at the Final Payment Date is equal to the Calculation Amount multiplied by the Performance of the Underlying (final).

However, in this case the Redemption Amount is not lower than the Minimum Amount.

Option 2:

- If a Lock-in Event has occurred, the Redemption Amount corresponds to the Final Redemption Amount.
- If no Lock-in Event and no Barrier Event has occurred, the Redemption Amount corresponds to the Final Redemption Amount.
- If a Lock-in Event has not occurred but a Barrier Event has occurred, the Redemption Amount at the Final Payment Date is equal to the Calculation Amount multiplied by the Performance of the Underlying (final).

However, in this case the Redemption Amount is not lower than the Minimum Amount.

With respect to the determination of the Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Lock-in Event

With respect to the determination of a Lock-in Event, one of the following options may be specified in the relevant Final Terms:

Option 1:

Lock-in Event means that $R(m)$ is either (i) equal to or greater, or (ii) greater than the Lock-in Level, as specified in the relevant Final Terms.

Option 2:

Lock-in Event means that $R(m)$ is either (i) equal to or lower, or (ii) lower than the Lock-in Level, as specified in the relevant Final Terms.

Option 3:

Lock-in Event means that the Geometric Average Performance of the Underlying (m) on any Additional Conditional Amount Observation Date (m) is either (i) equal to or greater, or (ii) greater than the Lock-in Level.

Option 4:

Lock-in Event means that the Geometric Average Performance of the Underlying (m) on any Additional Conditional Amount Observation Date (m) is either (i) equal to or lower, or (ii) lower than the Lock-in Level.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following may be specified in the relevant Final Terms:

- Final Barrier Observation (*Upside / Downside*);
- Final Double Barrier Observation;
- Date-related Barrier Observation (*Upside / Downside*);
- Date-related Double Barrier Observation;
- Daily Barrier Observation (*Upside / Downside*);
- Daily Double Barrier Observation;

- Continuous Barrier Observation (*Upside / Downside*);
- Final Barrier Observation (*Upside Reference Rate / Downside Reference Rate*); or
- Geoscope Barrier Observation (*Upside / Downside*).

For further information on the Barrier Observation, see section "A. 5. Barrier Observation" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside*); or
- Worst-in Observation (*Upside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside*); or
- Worst-out Observation (*Upside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount; and
- Cap Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.6. Product Type 6: Twin-Win Protection Securities

General

Twin-Win Protection Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. However, the Redemption Amount will in no event be lower than the Minimum Amount. With respect to the determination of the Redemption Amount, Twin-Win Protection Securities consider different cases depending on whether the Final Reference Price is higher, equal to or lower than the Strike and/or whether a Barrier Event has occurred or not.

Twin-Win Protection Securities may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Twin-Win Protection Securities:

In the case of Upside Twin-Win Protection Securities, in principle, the value of the Securities rises if the price of the Underlying rises or falls moderately, and falls if the price of the Underlying falls sharply.

Subtype 2 – Downside Twin-Win Protection Securities:

In the case of Downside Twin-Win Protection Securities, in principle, the value of the Securities rises if the price of the Underlying falls or rises moderately, and falls if the price of the Underlying rises sharply.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Geoscope*);
- Additional Conditional Amount (*Geoscope with Barrier Observation*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "A. 4. Automatic Early Redemption" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

The Redemption Amount is determined as follows:

Subtype 1 - Upside Twin-Win Protection Securities:

Option 1:

- If no Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the absolute Performance of the Underlying multiplied by the Final Participation Factor.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount, as specified in the relevant Final Terms, multiplied by the total of (i) the Floor Level and (ii) the Performance of the Underlying (final) multiplied by the Final Participation Factor.

However, the Redemption Amount is in no event lower than the Minimum Amount.

Absolute Performance of the Underlying means that the absolute value of the Performance of the Underlying (final) is used for the purposes of the rest of the calculation.

Absolute value means that the value is used for the purposes of the rest of the calculation without taking into account any preceding minus sign (-).

With respect to the determination of the Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Option 2:

- If R (final) is equal to or higher than the Strike, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Up and (ii) the difference of (x) R (final) divided by the Strike and (y) one.
- If R (final) is lower than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Down and (ii) the difference of (x) one and (y) R (final) divided by the Strike.
- If R (final) is lower than the Strike and a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor and the quotient of R (final) and the Strike.

However, the Redemption Amount is in no event lower than the Minimum Amount.

Option 3:

- If R (final) is equal to or higher than the Strike, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Up and (ii) the difference of (x) R (final) divided by the Strike and (y) one.
- If R (final) is lower than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Down and (ii) the difference of (x) one and (y) R (final) divided by the Strike.
- If R (final) is lower than the Strike and a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.

The Redemption Amount is in no event lower than the Minimum Amount.

Option 4:

- If R (final) is equal to or higher than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Up and (ii) the difference of (x) R (final) divided by the Strike and (y) one.
- If R (final) is lower than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Down and (ii) the difference of (x) one and (y) R (final) divided by the Strike.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.

Subtype 2 - Downside Twin-Win Protection Securities:

- If R (final) is equal to or lower than the Strike, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Down and (ii) the difference of (x) one and (y) R (final) divided by the Strike.
- If R (final) is higher than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Up and (ii) the difference of (x) R (final) divided by the Strike and (y) one.
- If R (final) is higher than the Strike and a Barrier Event has occurred, the Redemption Amount is equal to:

Option 1:

the Minimum Amount.

Option 2:

the Calculation Amount multiplied by the Final Participation Factor and the difference between 2 and the ratio between R (final) and the Strike.

However, the Redemption Amount is not lower than the Minimum Amount.

Option 3:

the Calculation Amount multiplied by the difference between (a) 1 plus the Final Participation Factor and (b) the ratio, multiplied by the Final Participation Factor, between R (final) and the Strike.

However, the Redemption Amount is not lower than the Minimum Amount.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following may be specified in the relevant Final Terms:

- Final Barrier Observation (*Upside / Downside*);
- Final Double Barrier Observation;
- Date-related Barrier Observation (*Upside / Downside*);
- Date-related Double Barrier Observation;
- Daily Barrier Observation (*Upside / Downside*);
- Daily Double Barrier Observation;
- Continuous Barrier Observation (*Upside / Downside*); or
- Geoscope Barrier Observation (*Upside / Downside*).

For further information on the Barrier Observation, see section "A. 5. Barrier Observation" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or
- Worst-in Observation (*Upside / Downside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside / Downside*); or
- Worst-out Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.7. Product Type 7: Win-Win Protection Securities

General

Win-Win Protection Securities are Securities where the Redemption Amount and the value of the Securities depend on the absolute performance of the Underlying. However, the Redemption Amount will in no event be lower than the Minimum Amount.

Win-Win Protection Securities will be issued as Upside Securities. This means:

In principle, the value of the Securities rises if the price of the Underlying rises or falls and falls if the price of the Underlying stagnates.

Interest

The Securities do not bear interest.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

At the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the absolute Performance of the Underlying multiplied by the Final Participation Factor.

The Redemption Amount is not lower than the Minimum Amount.

Absolute Performance of the Underlying means that the absolute value of the Performance of the Underlying (final) is used for the purposes of the rest of the calculation.

Absolute value means that the value is used for the purposes of the rest of the calculation without taking into account any preceding minus sign (-).

With respect to the determination of the Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside*); or
- Worst-in Observation (*Upside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside*); or
- Worst-out Observation (*Upside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.8. Product Type 8: Protection Express Securities

General

Protection Express Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. However, the Redemption Amount will in no event be lower than the Minimum Amount.

Protection Express Securities may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Protection Express Securities:

In the case of Upside Protection Express Securities, the value of the Securities regularly rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Subtype 2 - Downside Protection Express Securities:

In the case of Downside Protection Express Securities, the value of the Securities regularly rises if the price of the Underlying falls and falls if the price of the Underlying rises.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

If an Early Redemption Event (n) has occurred, the Securities are automatically early redeemed on the immediately following Early Payment Date (n) by payment of the respective Early Redemption Amount (n).

For further information on the Early Redemption Observation, see section "A. 4. Automatic Early Redemption Feature" below.

Redemption as at the Final Payment Date

Provided that no Conversion Event and no Early Redemption Event (n) has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

With respect to the determination of the Redemption Amount, one of the following options may be specified in the relevant Final Terms:

Subtype 1 - Upside Protection Express Securities:

Option 1:

- If a Final Redemption Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Final Redemption Event has not occurred, the Redemption Amount is equal to:
 - (i) if a Barrier Event has not occurred, the Final Redemption Amount;
 - (ii) if a Barrier Event has occurred, the Calculation Amount multiplied by the Final Participation Factor and the Performance of the Underlying (final).

However, in this case the Redemption Amount is not lower than the Minimum Amount.

Option 2:

- If a Final Redemption Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Final Redemption Event has not occurred, the Redemption Amount is equal to:
 - (i) if a Barrier Event has not occurred, the Final Redemption Amount;
 - (ii) if a Barrier Event has occurred, the Minimum Amount.

Option 3:

- If a Final Redemption Event and no Barrier Event have occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Final Redemption Event has not occurred and no Barrier Event has occurred, the Redemption Amount is equal to the Final Redemption Amount.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.

Option 4:

- If no Barrier Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.

Option 5:

- If no Barrier Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the Performance of the Underlying (final).

However, in this case, the Redemption Amount is not lower than the Minimum Amount and not greater than the Calculation Amount.

Option 6:

- If no Barrier Event has occurred, the Redemption Amount is equal to the Adjusted Maximum Amount.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Adjusted Calculation Amount multiplied by the Performance of the Underlying (final).

However, in this case, the Redemption Amount is not lower than the Adjusted Minimum Amount and not greater than the Adjusted Calculation Amount.

Option 7:

- If no Barrier Event has occurred, the Redemption Amount is equal to a sum. The sum is built from the Calculation Amount and a product. The product is built from the Calculation Amount

and (i) the Floor Level or (ii) a product, depending on which has the greater value. The product is built from the Performance of the Underlying (final) and the Participation Factor Up.

- If a Barrier Event has occurred, the Redemption Amount is equal to a difference. The difference is built from the Calculation Amount and a product. The product is built from the Calculation Amount the Downside Performance of the Underlying (final) and the Participation Factor Down.

The Redemption Amount will not be lower than the Minimum Amount.

Final Redemption Event means that the Reference Price is equal to or greater than the Final Redemption Level on the Final Observation Date.

Subtype 2 - Downside Protection Express Securities:

Option 1:

- If a Final Redemption Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Final Redemption Event has not occurred, the Redemption Amount is equal to:
 - (i) if a Barrier Event has not occurred, the Final Redemption Amount;
 - (ii) if a Barrier Event has occurred, the Calculation Amount multiplied by the Final Participation Factor and the Downside Performance of the Underlying (final).

However, in this case the Redemption Amount is not lower than the Minimum Amount.

Option 2:

- If a Final Redemption Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Final Redemption Event has not occurred, the Redemption Amount is equal to:
 - (i) if a Barrier Event has not occurred, the Final Redemption Amount;
 - (ii) if a Barrier Event has occurred, the Calculation Amount multiplied by the difference between (a) 1 plus the Final Participation Factor and (b) the Performance of the Underlying (final) multiplied by the Final Participation Factor.

However, in this case the Redemption Amount is not lower than the Minimum Amount.

Option 3:

- If a Final Redemption Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Final Redemption Event has not occurred, the Redemption Amount is equal to:
 - (i) if a Barrier Event has not occurred, the Final Redemption Amount;
 - (ii) if a Barrier Event has occurred, the Minimum Amount.

Final Redemption Event means that the Reference Price is equal to or lower than the Final Redemption Level on the Final Observation Date.

With respect to the determination of the Upside and Downside Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following may be specified in the relevant Final Terms:

- Final Barrier Observation (*Upside / Downside*);

- Final Double Barrier Observation;
- Date-related Barrier Observation (*Upside / Downside*);
- Date-related Double Barrier Observation;
- Daily Barrier Observation (*Upside / Downside*);
- Daily Double Barrier Observation;
- Continuous Barrier Observation (*Upside / Downside*); or
- Geoscope Barrier Observation (*Upside / Downside*).

For further information on the Barrier Observation, see section "A. 5. Barrier Observation" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or
- Worst-in Observation (*Upside / Downside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside / Downside*); or
- Worst-out Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Instalment Payment (only in the case of Upside Protection Express Securities in combination with Option 6); and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.9. Product Type 9: Protection Bonus Securities

General

Protection Bonus Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. With respect to the determination of the Redemption Amount, Protection Bonus Securities consider two cases depending on whether a Barrier Event has occurred or not. If no Barrier Event has occurred the Redemption Amount is not lower than the Bonus Amount or Maximum Amount, as specified in the relevant Final Terms. If a Barrier Event has occurred the Redemption Amount will at least be equal to the Minimum Amount.

Protection Bonus Securities may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Protection Bonus Securities:

In the case of Upside Protection Bonus Securities, the value of the Securities regularly rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Subtype 2 - Downside Protection Bonus Securities:

In the case of Downside Protection Bonus Securities, the value of the Securities regularly rises if the price of the Underlying falls and falls if the price of the Underlying rises.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "A. 4. Automatic Early Redemption" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

Subtype 1 - Upside Protection Bonus Securities:

If no Barrier Event has occurred, the Redemption Amount is determined as follows:

In the case of **Option 1a**, the following applies:

- the Redemption Amount is equal to the Calculation Amount multiplied by the Performance of the Underlying (final).

However, the Redemption Amount is not lower than the Bonus Amount.

In the case of **Option 1b**, the following applies:

- the Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor and the Performance of the Underlying (final).

However, the Redemption Amount is not lower than the Bonus Amount.

In the case of **Option 1c**, the following applies:

- the Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor Up and the Performance of the Underlying (final).

However, the Redemption Amount is not lower than the Bonus Amount.

In the case of **Option 2**, the following applies:

- The Redemption Amount is equal to the Maximum Amount.

If a Barrier Event has occurred, the Redemption Amount is determined as follows:

In the case of **Option 3a**, the following applies:

- The Redemption Amount is equal to the Calculation Amount multiplied by the Performance of the Underlying (final).

In this case, the Redemption Amount is not lower than the Minimum Amount.

In the case of **Option 3b**, the following applies:

- The Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor and the Performance of the Underlying (final).

In this case, the Redemption Amount is not lower than the Minimum Amount.

In the case of **Option 3c**, the following applies:

- The Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor Down and the Performance of the Underlying (final).

In this case, the Redemption Amount is not lower than the Minimum Amount.

In the case of **Option 4**, the following applies:

- The Redemption Amount is equal to the Minimum Amount.

In the case of **Option 5**, the following applies:

- The Redemption Amount is equal to the Calculation Amount multiplied by the sum of (i) the Floor Level and (ii) the product of (a) the Final Participation Factor and (b) the Performance of the Underlying (final).

In this case, the Redemption Amount is not lower than the Minimum Amount.

Subtype 2 - Downside Protection Bonus Securities:

If no Barrier Event has occurred, the Redemption Amount is determined as follows:

In the case of **Option 1**, the following applies:

- The Redemption Amount is equal to the Calculation Amount multiplied by the Downside Performance of the Underlying (final).

However, the Redemption Amount is not lower than the Bonus Amount.

In the case of **Option 2**, the following applies:

- The Redemption Amount is equal to the Maximum Amount.

If a Barrier Event has occurred, the Redemption Amount is calculated as follows:

In the case of **Option 3**, the following applies:

- The Redemption Amount is equal to the Calculation Amount multiplied by the Downside Performance of the Underlying (final).

However, the Redemption Amount is not lower than the Minimum Amount.

In the case of **Option 4**, the following applies:

- The Redemption Amount is equal to the Calculation Amount multiplied by the difference between (a) 1 plus the Final Participation Factor and (b) the Performance of the Underlying (final), multiplied by the Final Participation Factor.

However, the Redemption Amount is not lower than the Minimum Amount.

In the case of **Option 5**, the following applies:

- The Redemption Amount is equal to the Minimum Amount.

With respect to the determination of the Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following may be specified in the relevant Final Terms:

- Final Barrier Observation (*Upside / Downside*);
- Final Double Barrier Observation;
- Date-related Barrier Observation (*Upside / Downside*);
- Date-related Double Barrier Observation;
- Daily Barrier Observation (*Upside / Downside*);
- Daily Double Barrier Observation;
- Continuous Barrier Observation (*Upside / Downside*); or
- Geoscope Barrier Observation (*Upside / Downside*).

For further information on the Barrier Observation, see section "A. 5. Barrier Observation" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or
- Worst-in Observation (*Upside / Downside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;

- Final Average Observation;
- Best-out Observation (*Upside / Downside*); or
- Worst-out Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.10. Product Type 10: Protection Securities

General

Protection Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. With respect to the determination of the Redemption Amount, Protection Securities consider different cases depending on whether the Final Reference Price is higher, equal to or lower than the Initial Reference Price. However, the Redemption Amount will not be lower than the Minimum Amount.

Protection Securities may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Protection Securities:

In the case of Upside Protection Securities, the value of the Securities regularly rises if the price of the Underlying rises and falls if the price of the Underlying falls.

Subtype 2 - Downside Protection Securities:

In the case of Downside Protection Securities, the value of the Securities regularly rises if the price of the Underlying falls and falls if the price of the Underlying rises.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "A. 4. Automatic Early Redemption" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

At the Final Payment Date, the Redemption Amount is determined as follows:

Subtype 1 - Upside Protection Securities:

- if R (final) is higher than or equal to R (initial), the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) 1 and (ii) the Participation Factor Up multiplied by the Performance of the Underlying (final).
- If the R (final) is lower than R (initial):

In the case of **Option 1**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied the Final Participation Factor and the quotient of R (final) (as the numerator) and the Strike (as the denominator). In this case, the Redemption Amount is at least equal to the Minimum Amount.

In the case of **Option 2**, the following applies:

the Redemption Amount is equal to the Minimum Amount.

In the case of **Option 3**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Performance of the Underlying (final) multiplied by the Final Participation Factor. In this case, the Redemption Amount is at least equal to the Minimum Amount.

Subtype 2 - Downside Protection Securities:

- If the R (final) is lower than or equal to R (initial), the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) 1 and (ii) the Participation Down multiplied by the quotient of (a) the difference between R (initial) and R (final) (as the numerator) and (b) the Strike (as the denominator).
- If the R (final) is higher than R (initial)

In the case of **Option 1**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied by the difference, multiplied by the Final Participation Factor, between (a) 2 and (b) the quotient of R (final) (as the numerator) and the Strike (as the denominator). In this case, the Redemption Amount is at least equal to the Minimum Amount.

In the case of **Option 2**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied by the difference between (a) 1 plus the Final Participation Factor and (b) the quotient, multiplied by the Final Participation Factor, of R (final) (as the numerator) and the Strike (as the denominator). In this case, the Redemption Amount is at least equal to the Minimum Amount.

In the case of **Option 3**, the following applies:

the Redemption Amount is equal to the Minimum Amount.

With respect to the determination of the Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or

- Worst-in Observation (*Upside / Downside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside / Downside*); or
- Worst-out Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

1.11. Product Type 11: Protection Switch Securities

General

Protection Switch Securities are Securities where the Redemption Amount and the value of the Securities depend on the price of the Underlying. However, the Redemption Amount will in no event be lower than the Minimum Amount. With respect to the determination of the Redemption Amount, Protection Switch Securities consider two cases depending on whether a Switch Event has occurred or not. In addition, Protection Switch Securities provide for the payment of an Additional Conditional Amount and/or an Additional Unconditional Amount.

Protection Switch Securities will be issued as Upside Securities. This means:

If the price of the Underlying rises, the value of the Securities regularly rises. If the price of the Underlying falls, the value of the Securities regularly falls.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Accrual*);
- Additional Conditional Amount (*Range Accrual*);
- Additional Conditional Amount (*Cliquet*);
- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Switch Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Switch Memory*);
- Additional Conditional Amount (*Performance*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "A. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "A. 4. Automatic Early Redemption" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

In the case of Option 1, the following applies:

- If no Switch Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Final Participation Factor multiplied by the Performance of the Underlying (final). The Redemption Amount will not be lower than the Minimum Amount.

- If a Switch Event has occurred, the Redemption Amount is equal to the Final Redemption Amount.

*In the case of **Option 2**, the following applies:*

- If a Switch Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Final Participation Factor multiplied by the Performance of the Underlying (final). The Redemption Amount will not be lower than the Minimum Amount.
- If no Switch Event has occurred, the Redemption Amount is equal to the Final Redemption Amount.

With respect to the determination of the Performance of the Underlying (final) see section "A. 7. Performance Determination" below.

Switch Event means that, on an Additional Conditional Amount Observation Date (m), R (m) is either equal to or greater than the Switch Level.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= R (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside*); or
- Worst-in Observation (*Upside*).

With respect to the determination of the Final Reference Price (= R (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside*); or
- Worst-out Observation (*Upside*).

For further information on the Reference Price Determination, see section "A. 8. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "A. 3. Additional Features".

2. ADDITIONAL CONDITIONAL AMOUNTS

In accordance with section "A. 1. General Description of the Product Types with Single-Underlying" above, the following Additional Conditional Amounts may be specified in the relevant Final Terms.

2.1. Additional Conditional Amount (*Accrual*)

If an Additional Conditional Amount (*Accrual*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m) an Additional Conditional Amount Payment Event (*Accrual*) has occurred, the respective Additional Conditional Amount (*Accrual*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Accrual*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m) an Additional Conditional Amount Payment Event (*Accrual*) has not occurred, the respective Additional Conditional Amount (*Accrual*) (m) will not be paid.

With respect to the determination of an Additional Conditional Amount (*Accrual*) (m) one of the following options may be specified in the relevant Final Terms:

Fixed Amount:

The Additional Conditional Amount (*Accrual*) (m) on the respective Additional Conditional Amount Observation Date (*Accrual*) (m) is equal to the Fixed Amount (*Accrual*) (m) multiplied by d (*Accrual*) (m) and divided by D (*Accrual*) (m).

Variable Amount (only in the case of Upside Securities):

The Additional Conditional Amount (*Accrual*) (m) on the respective Additional Conditional Amount Observation Date (*Accrual*) (m) is equal to the Variable Amount (*Accrual*) (m) multiplied by d (*Accrual*) (m) and divided by D (*Accrual*) (m).

In the case of Upside Securities, the following applies:

"d (*Accrual*) (m)" means, with respect to an Additional Conditional Amount Observation Period (*Accrual*) (m), the number of days during the relevant Additional Conditional Amount Observation Period (*Accrual*) (m) on which the (i) Reference Price or (ii) the Reference Rate is (i) equal to or greater, or (ii) greater than the respective Additional Conditional Amount Payment Level (*Accrual*) (m), as specified in the relevant Final Terms.

In the case of Downside Securities, the following applies:

"d (*Accrual*) (m)" means, with respect to an Additional Conditional Amount Observation Period (*Accrual*) (m), the number of days during the relevant Additional Conditional Amount Observation Period (*Accrual*) (m) on which the (i) Reference Price or (ii) the Reference Rate is (i) equal to or lower, or (ii) lower than the respective Additional Conditional Amount Payment Level (*Accrual*) (m), as specified in the relevant Final Terms.

"D (*Accrual*) (m)" means, with respect to an Additional Conditional Amount Observation Period (*Accrual*) (m), the total number of days of the relevant Additional Conditional Amount Observation Period (*Accrual*) (m).

If a Maximum Additional Conditional Amount (*Accrual*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Accrual*) (m) is not greater than the Maximum Additional Conditional Amount (*Accrual*) (m).

If a Minimum Additional Conditional Amount (*Accrual*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Accrual*) (m) is not lower than the Minimum Additional Conditional Amount (*Accrual*) (m).

If applicable, Variable Amount (*Accrual*) (m) means, with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m), the Variable Amount (*Accrual*) (m) as calculated by the Calculation Agent in accordance with the following formula:

Option 1:

Variable Amount (*Accrual*) (m) = Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Accrual*) (m)

Option 2:

Variable Amount (*Accrual*) (m) = (Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Accrual*) (m)) - Sum of Additional Conditional Amounts (m),

whereas:

Sum of Additional Conditional Amounts (*Accrual*) (m) means, with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m), the sum of all Additional Conditional Amounts (*Accrual*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Accrual*) (m).

If a Maximum Variable Amount (*Accrual*) (m) is specified in the relevant Final Terms, the Variable Amount (*Accrual*) (m) is not greater than the Maximum Variable Amount (*Accrual*) (m).

If a Minimum Variable Amount (*Accrual*) (m) is specified in the relevant Final Terms, the Variable Amount (*Accrual*) (m) is not lower than the Minimum Variable Amount (*Accrual*) (m).

With respect to the determination of an Additional Conditional Amount Payment Event (*Accrual*) one of the following options may be selected in the relevant Final Terms:

In the case of Upside Securities, the following applies:

Date-related Observation:

An Additional Conditional Amount Payment Event (*Accrual*) occurs, if the respective R (m) is (i) equal to or greater, or (ii) greater than the Additional Conditional Amount Payment Level (*Accrual*) (m), as specified in the relevant Final Terms.

Daily Observation:

An Additional Conditional Amount Payment Event (*Accrual*) occurs, if (i) any Reference Price or (ii) the Reference Rate on any Interest Determination Date during the respective Additional Conditional Amount Observation Period (*Accrual*) (m) is (i) equal to or greater, or (ii) greater than the Additional Conditional Amount Payment Level (*Accrual*) (m), as specified in the relevant Final Terms.

In the case of Downside Securities, the following applies:

Date-related Observation:

An Additional Conditional Amount Payment Event (*Accrual*) occurs, if the respective R (m) is (i) equal to or lower, or (ii) lower than the Additional Conditional Amount Payment Level (*Accrual*) (m), as specified in the relevant Final Terms.

Daily Observation:

An Additional Conditional Amount Payment Event (*Accrual*) occurs, if (i) any Reference Price or (ii) the Reference Rate on any Interest Determination Date during the respective Additional Conditional Amount Observation Period (*Accrual*) (m) is (i) equal to or lower, or (ii) lower than the Additional Conditional Amount Payment Level (*Accrual*) (m), as specified in the relevant Final Terms.

With respect to the determination of the Performance of the Underlying (*Accrual*) (m) one of the following options may be selected in the relevant Final Terms:

Option 1:

The Performance of the Underlying (*Accrual*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m), equal to (i) the quotient of R (m) as the numerator and the Strike as the denominator minus (ii) the number one (1).

Option 2:

The Performance of the Underlying (*Accrual*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m), equal to (i) the quotient of the Reference Price on the Additional Conditional Amount Observation Date (*Accrual*) (m) (= R (m)) as the numerator and the Strike as the denominator to the power of the fraction of (a) one (1) and (b) the total number of Additional Conditional Amount Payment Dates (*Accrual*) (m) (= M) less (ii) the number one (1). Expressed as a formula this means:

$$(R(m)/Strike)^{M-1}$$

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

Depending on d (m) and the Variable Amount (*Accrual*) (m) (if applicable), and subject to a Minimum Additional Conditional Amount (*Accrual*) (m), the Additional Conditional Amount (*Accrual*) (m) may also be equal to zero (0).

2.2. Additional Conditional Amount (*Range Accrual*)

If an Additional Conditional Amount (*Range Accrual*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m) an Additional Conditional Amount Payment Event (*Range Accrual*) has occurred, the respective Additional Conditional Amount (*Range Accrual*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Range Accrual*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m) an Additional Conditional Amount Payment Event (*Range Accrual*) has not occurred, the respective Additional Conditional Amount (*Range Accrual*) (m) will not be paid.

With respect to the determination of an Additional Conditional Amount (*Range Accrual*) (m) one of the following options may be specified in the relevant Final Terms:

Fixed Amount:

The Additional Conditional Amount (*Range Accrual*) (m) on the respective Additional Conditional Amount Observation Date (*Range Accrual*) (m) is equal to the Fixed Amount (*Range Accrual*) (m) multiplied by d (*Range Accrual*) (m) and divided by D (*Range Accrual*) (m).

Variable Amount:

The Additional Conditional Amount (*Range Accrual*) (m) on the respective Additional Conditional Amount Observation Date (*Range Accrual*) (m) is equal to the Variable Amount (*Range Accrual*) (m) multiplied by d (*Range Accrual*) (m) and divided by D (*Range Accrual*) (m).

"d (*Range Accrual*) (m)" means, with respect to an Additional Conditional Amount Observation Period (*Range Accrual*) (m), the number of days during the relevant Additional Conditional Amount Observation Period (*Range Accrual*) (m) on which the (i) Reference Price or (ii) the Reference Rate is (i) equal to or greater, or (ii) greater than the Lower Accrual Level (m) and (i) lower than or (ii) lower than or equal to the Upper Accrual Level (m), as specified in the relevant Final Terms.

"D (*Range Accrual*) (m)" means, with respect to an Additional Conditional Amount Observation Period (*Range Accrual*) (m), the total number of days of the relevant Additional Conditional Amount Observation Period (*Range Accrual*) (m).

If a Maximum Additional Conditional Amount (*Range Accrual*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Range Accrual*) (m) is not greater than the Maximum Additional Conditional Amount (*Range Accrual*) (m).

If a Minimum Additional Conditional Amount (*Range Accrual*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Range Accrual*) (m) is not lower than the Minimum Additional Conditional Amount (*Range Accrual*) (m).

If applicable, Variable Amount (*Range Accrual*) (m) means, with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m), the Variable Amount (*Range Accrual*) (m) as calculated by the Calculation Agent in accordance with the following formula:

Option 1:

Variable Amount (*Range Accrual*) (m) = Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Range Accrual*) (m)

Option 2:

Variable Amount (*Range Accrual*) (m) = (Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Range Accrual*) (m)) - Sum of Additional Conditional Amounts (*Range Accrual*) (m),

whereas:

Sum of Additional Conditional Amounts (*Range Accrual*) (m) means, with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m), the sum of all Additional Conditional Amounts (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Range Accrual*) (m).

If a Maximum Variable Amount (*Range Accrual*) (m) is specified in the relevant Final Terms, the Variable Amount (*Range Accrual*) (m) is not greater than the Maximum Variable Amount (*Range Accrual*) (m).

If a Minimum Variable Amount (*Range Accrual*) (m) is specified in the relevant Final Terms, the Variable Amount (*Range Accrual*) (m) is not lower than the Minimum Variable Amount (*Range Accrual*) (m).

With respect to the determination of an Additional Conditional Amount Payment Event (*Range Accrual*) one of the following options may be selected in the relevant Final Terms:

Date-related Observation:

An Additional Conditional Amount Payment Event (*Range Accrual*) occurs, if the respective R (m) is (i) equal to or greater, or (ii) greater than the Lower Accrual Level (m) and (i) equal to or lower, or (ii) lower than the Upper Accrual Level (m), as specified in the relevant Final Terms.

Daily Observation:

An Additional Conditional Amount Payment Event (*Range Accrual*) occurs, if (i) any Reference Price or (ii) the Reference Rate on any Interest Determination Date during the respective Additional Conditional Amount Observation Period (*Range Accrual*) (m) is (i) equal to or greater, or (ii) greater than the Lower Accrual Level (m) and (i) equal to or lower, or (ii) lower than the Upper Accrual Level (m), as specified in the relevant Final Terms.

With respect to the determination of the Performance of the Underlying (*Range Accrual*) (m) one of the following options may be selected in the relevant Final Terms:

Option 1:

The Performance of the Underlying (*Range Accrual*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m), equal to (i) the quotient of R (m) as the numerator and the Strike as the denominator minus (ii) the number one (1).

Option 2:

The Performance of the Underlying (*Range Accrual*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m), equal to (i) the quotient of the Reference Price on the Additional Conditional Amount Observation Date (*Range Accrual*) (m) as the numerator and the Strike as the denominator to the power of the fraction of (a) one (1) and (b) the total number of Additional Conditional Amount Payment Dates (*Range Accrual*) (m) (= M) less (ii) the number one (1). Expressed as a formula this means:

$$(R(m)/Strike)^{1/M}-1$$

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

Depending on d (m) and the Variable Amount (*Range Accrual*) (m) (if applicable), and subject to a Minimum Additional Conditional Amount (*Range Accrual*) (m), the Additional Conditional Amount (*Range Accrual*) (m) may also be equal to zero (0).

2.3. Additional Conditional Amount (*Cliquet*)

If an Additional Conditional Amount (*Cliquet*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Cliquet*) (m) an Additional Conditional Amount Payment Event (*Cliquet*) has occurred, the respective Additional Conditional Amount (*Cliquet*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Cliquet*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Cliquet*) (m) an Additional Conditional Amount Payment Event (*Cliquet*) has not occurred, the respective Additional Conditional Amount (*Cliquet*) (m) will not be paid.

With respect to the determination of the Additional Conditional Amount (*Cliquet*) one of the following options may be specified in the relevant Final Terms:

Option 1 (Additional Conditional Amount *Cliquet*):

The Additional Conditional Amount (*Cliquet*) (m) with respect to each Additional Conditional Amount Observation Date (*Cliquet*) (m) will be specified in the relevant Final Terms.

Option 2 (Additional Conditional Amount *Cliquet* Performance):

The Additional Conditional Amount (*Cliquet*) (m) on the respective Additional Conditional Amount Observation Date (*Cliquet*) (m) is equal to the Calculation Amount multiplied by (i) the Participation Factor (m) and (ii) the Performance of the Underlying (*Cliquet*) (m).

If a Maximum Additional Conditional Amount (*Cliquet*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Cliquet*) (m) is not greater than the Maximum Additional Conditional Amount (*Cliquet*) (m).

If a Minimum Additional Conditional Amount (*Cliquet*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Cliquet*) (m) is not lower than the Minimum Additional Conditional Amount (*Cliquet*) (m).

With respect to the determination of the Performance of the Underlying (*Cliquet*) (m) one of the following options may be specified in the relevant Final Terms:

Option 1:

The Performance of the Underlying (*Cliquet*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Cliquet*) (m), equal to the quotient of (i) the Reference Price on the Additional Conditional Amount Observation Date (*Cliquet*) (m) (= R (m)) minus the Reference Price on the immediately preceding Additional Conditional Amount Observation Date (*Cliquet*) (m) (= R (m-1)) as the numerator and (ii) R (m-1) as the denominator. For the

first Additional Conditional Amount Observation Date (*Cliquet*) (m), R (m-1) corresponds to R (initial).

Option 2:

The Performance of the Underlying (*Cliquet*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Cliquet*) (m), equal to the quotient of (i) the Reference Price on the Additional Conditional Amount Observation Date (*Cliquet*) (m) (= R (m)) minus the product of the Strike Level (m) and the Reference Price on the immediately preceding Additional Conditional Amount Observation Date (*Cliquet*) (m) (= R (m-1)) as the numerator and (ii) R (m-1) as the denominator. For the first Additional Conditional Amount Observation Date (*Cliquet*) (m), R (m-1) corresponds to R (initial).

Depending on the Performance of the Underlying (*Cliquet*) (m) and subject to a Minimum Additional Conditional Amount (*Cliquet*) (m), the Additional Conditional Amount (*Cliquet*) (m) may also be equal to zero (0).

With respect to the determination of an Additional Conditional Amount Payment Event (*Cliquet*) (m) one of the following options may be specified in the relevant Final Terms:

Option 1:

An Additional Conditional Amount Payment Event (*Cliquet*) (m) occurs, if the Reference Price on the Additional Conditional Amount Observation Date (*Cliquet*) (m) (= R (m)) is (i) equal to or greater, or (ii) greater than the Reference Price on the preceding Additional Conditional Amount Observation Date (*Cliquet*) (m) (= R (m-1)), as specified in the relevant Final Terms.

Option 2:

An Additional Conditional Amount Payment Event (*Cliquet*) (m) occurs, if the Reference Price on the Additional Conditional Amount Observation Date (*Cliquet*) (m) (= R (m)) is (i) equal to or lower, or (ii) lower than the Reference Price on the preceding Additional Conditional Amount Observation Date (*Cliquet*) (m) (= R (m-1)), as specified in the relevant Final Terms.

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

2.4. Additional Conditional Amount (*Coupon*)

If an Additional Conditional Amount (*Coupon*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the respective Additional Conditional Amount (*Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Coupon*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has not occurred, the respective Additional Conditional Amount (*Coupon*) (m) will not be paid.

Option 1: Consolidation Feature:

However, if with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the Additional Conditional Amount (*Coupon*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Coupon*) (m) will be paid on each Additional Conditional Amount Payment Date (*Coupon*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Coupon*) has occurred. In this case the Additional Conditional Amount (*Coupon*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) occurs.

Option 2: Lock-in Feature:

If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) a Lock-in Event occurs, the respective Additional Conditional Amount (*Coupon*) (m) will be paid on each subsequent Additional Conditional Amount Payment Date (*Coupon*) (m), regardless of whether an Additional Conditional Amount Payment Event (*Coupon*) has occurred. In this case the Additional Conditional Amount (*Coupon*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) occurs.

Option 1:

A Lock-in Event occurs if R (m) is either (i) equal to or greater, or (ii) greater than the Lock-in Level, as specified in the relevant Final Terms.

Option 2:

A Lock-in Event occurs if R (m) is either (i) equal to or lower, or (ii) lower than the Lock-in Level, as specified in the relevant Final Terms.

The Additional Conditional Amount (*Coupon*) (m) with respect to each Additional Conditional Amount Observation Date (*Coupon*) (m) will be specified in the relevant Final Terms.

With respect to the determination of the occurrence of an Additional Conditional Amount Payment Event (*Coupon*), one of the following options may be specified in the relevant Final Terms:

In the case of *Upside Securities*, the following applies:

An Additional Conditional Amount Payment Event (*Coupon*) occurs, if the respective R (m) is (i) equal to or greater, or (ii) greater than the corresponding Additional Conditional Amount Payment Level (m), as specified in the relevant Final Terms.

In the case of *Downside Securities*, the following applies:

An Additional Conditional Amount Payment Event (*Coupon*) occurs, if the respective R (m) is (i) equal to or lower, or (ii) lower than the corresponding Additional Conditional Amount Payment Level (m), as specified in the relevant Final Terms.

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

2.5. Additional Conditional Amount (*Range Coupon*)

If an Additional Conditional Amount (*Range Coupon*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has occurred, the respective Additional Conditional Amount (*Range Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Range Coupon*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has not occurred, the respective Additional Conditional Amount (*Range Coupon*) (m) will not be paid.

Option: Consolidation Feature:

However, if with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has occurred, the Additional Conditional Amount (*Range Coupon*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Range Coupon*) (m) will be paid on each Additional Conditional Amount Payment Date (*Coupon*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Range Coupon*) has occurred. In this case the Additional Conditional Amount (*Range Coupon*) (m) will be paid only once, even if on any following Additional Conditional

Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) occurs.

The Additional Conditional Amount (*Range Coupon*) (m) with respect to each Additional Conditional Amount Observation Date (*Range Coupon*) (m) will be specified in the relevant Final Terms.

An Additional Conditional Amount Payment Event (*Range Coupon*) occurs, if on an Additional Conditional Amount Observation Date (*Range Coupon*) (m) the respective R (m) is (i) equal to or greater, or (ii) greater than the Additional Conditional Amount Payment Level (low) (*Range Coupon*) (m) and equal to or lower than the Additional Conditional Amount Payment Level (high) (*Range Coupon*) (m), as specified in the relevant Final Terms.

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

2.6. Additional Conditional Amount (*Switch Coupon*)

If an Additional Conditional Amount (*Switch Coupon*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Switch Coupon*) (m) an Additional Conditional Amount Payment Event (*Switch Coupon*) has occurred and if with respect to any Additional Conditional Amount Observation Date (*Switch Coupon*) (m) no Switch Event has occurred, the respective Additional Conditional Amount (*Switch Coupon*) (m) will be paid on the respective Additional Conditional Amount Payment Date (*Switch Coupon*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Switch Coupon*) (m) an Additional Conditional Amount Payment Event (*Switch Coupon*) (m) has not occurred, or if with respect to any Additional Conditional Amount Observation Date (*Switch Coupon*) (m) a Switch Event has occurred, the respective Additional Conditional Amount (*Switch Coupon*) (m) will not be paid.

The Additional Conditional Amount (*Switch Coupon*) (m) with respect to each Additional Conditional Amount Observation Date (*Switch Coupon*) (m) will be specified in the relevant Final Terms.

An Additional Conditional Amount Payment Event (*Switch Coupon*) (m) occurs, if the respective R (m) is (i) equal to or lower, or (ii) lower than the corresponding Additional Conditional Amount Payment Level (*Switch Coupon*) (m), as specified in the relevant Final Terms.

A Switch Event occurs, if the Reference Price on any Additional Conditional Amount Observation Date (*Switch Coupon*) (m) is equal to or greater than the Switch Level.

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

2.7. Additional Conditional Amount (*Digital*)

If an Additional Conditional Amount (*Digital*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) an Additional Conditional Amount Payment Event (high) (*Digital*) (m) has occurred, an Additional Conditional Amount (high) (*Digital*) (m) is paid on the respective Additional Conditional Amount Payment Date (*Digital*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) an Additional Conditional Amount Payment Event (low) (*Digital*) (m) has occurred, an Additional Conditional Amount (low) (*Digital*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Digital*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) no Additional Conditional Amount Payment Event (high) (*Digital*) (m) and no Additional

Conditional Amount Payment Event (low) (*Digital*) (m) has occurred, neither the respective Additional Conditional Amount (high) (*Digital*) (m) nor the respective Additional Conditional Amount (low) (*Digital*) (m) will be paid.

The Additional Conditional Amount (high) (*Digital*) (m) with respect to each Additional Conditional Amount Observation Date (*Digital*) (m) will be specified in the relevant Final Terms.

The Additional Conditional Amount (low) (*Digital*) (m) with respect to each Additional Conditional Amount Observation Date (*Digital*) (m) will be specified in the relevant Final Terms.

An Additional Conditional Amount Payment Event (high) (*Digital*) (m) occurs, if the respective R (m) is equal to or greater than the corresponding Additional Conditional Amount Payment Level (high) (*Digital*) (m).

An Additional Conditional Amount Payment Event (low) (*Digital*) (m) occurs, if the respective R (m) is equal to or greater than the Additional Conditional Amount Payment Level (low) (*Digital*) (m) and lower than the respective Additional Conditional Amount Payment Level (high) (*Digital*) (m).

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

2.8. Additional Conditional Amount (*Geoscope*)

If an Additional Conditional Amount (*Geoscope*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) has occurred, the respective Additional Conditional Amount (*Geoscope*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Geoscope*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) has not occurred, the respective Additional Conditional Amount (*Geoscope*) (m) will not be paid.

Option: Lock-in Feature:

If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) a Lock-in Event occurs, the respective Additional Conditional Amount (*Geoscope*) (m) will be paid on each subsequent Additional Conditional Amount Payment Date (*Geoscope*) (m), regardless of whether an Additional Conditional Amount Payment Event (*Geoscope*) has occurred. In this case the Additional Conditional Amount (*Geoscope*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) occurs.

Option 1:

A Lock-in Event occurs if R (m) is either (i) equal to or greater, or (ii) greater than the Lock-in Level, as specified in the relevant Final Terms.

Option 2:

A Lock-in Event occurs if R (m) is either (i) equal to or lower, or (ii) lower than the Lock-in Level, as specified in the relevant Final Terms.

The Additional Conditional Amount (*Geoscope*) (m) is equal to the Calculation Amount multiplied by Participation Factor (m) and the difference between the Geometric Average Performance of the Underlying (m) and the Strike Level (m).

In the case of Securities with a Minimum Additional Conditional Amount (*Geoscope*) (m), the Additional Conditional Amount (*Geoscope*) (m) is not lower than the respective Minimum Additional Conditional Amount (*Geoscope*) (m).

In the case of Securities with a Maximum Additional Conditional Amount (*Geoscope*) (m), the Additional Conditional Amount (*Geoscope*) (m) is not greater than the respective Maximum Additional Conditional Amount (*Geoscope*) (m).

Additional Conditional Amount Payment Event (*Geoscope*) means that the Geometric Average Performance of the Underlying (m) is (i) equal to or greater, or (ii) greater than the respective Additional Conditional Amount Payment Level (*Geoscope*) (m), as specified in the relevant Final Terms.

The Geometric Average Performance of the Underlying (m) is the n^{th} (when "n" depends on the respective D (*Geoscope*) (m)) root of the Performance of the Underlying (*Geoscope*) (m).

The Performance of the Underlying (*Geoscope*) (m) is the quotient between the Reference Price on the respective Additional Conditional Amount Observation Date (*Geoscope*) (m) (= R (m)), as the numerator, and R (initial) as denominator.

D (*Geoscope*) (m) is specified on the respective Final Terms.

Depending on the Geometric Average Performance of the Underlying (m) and subject to a Minimum Additional Conditional Amount (*Geoscope*) (m), the Additional Conditional Amount (*Geoscope*) (m) may also be equal to zero (0).

2.9. Additional Conditional Amount (*Geoscope with Barrier Observation*)

If an Additional Conditional Amount (*Geoscope with Barrier Observation*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) has occurred and no Barrier Event (*with Geoscope Observation*) has occurred on the respective Additional Conditional Amount Observation Date (*Geoscope*) (m) or on any previous Additional Conditional Amount Observation Date (*Geoscope*) (m), the respective Additional Conditional Amount (*Geoscope*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Geoscope*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) has not occurred and no Barrier Event (*with Geoscope Observation*) has occurred on the respective Additional Conditional Amount Observation Date (*Geoscope*) (m) or on any previous Additional Conditional Amount Observation Date (*Geoscope*) (m), the respective Additional Conditional Amount (*Geoscope*) (m) will not be paid.
- However, if a Barrier Event (*with Geoscope Observation*) has occurred on a Additional Conditional Amount Observation Date (*Geoscope*) (m) or on any previous Additional Conditional Amount Observation Date (*Geoscope*) (m), the Rebate Amount will be paid on the respective Additional Conditional Amount Payment Date (*Geoscope*) (m) and on any following Additional Conditional Amount Payment Date (*Geoscope*) (m) regardless of whether an Additional Conditional Amount Payment Event (*Geoscope*) has occurred. In this case, the Rebate Amount will only be paid once on each Additional Conditional Amount Payment Date (*Geoscope*) (m), even if on any Additional Conditional Amount Observation Date (*Geoscope*) (m) following the occurrence of a Barrier Event (*with Geoscope Observation*) an Additional Conditional Amount Payment Event (*Geoscope*) has occurred.

With respect to the determination of the Additional Conditional Amount (*Geoscope*) (m) one of the following options may be specified in the relevant Final Terms:

Option 1:

- The Additional Conditional Amount (*Geoscope*) (m) is equal to the Calculation Amount multiplied by the difference between the Geometric Average Performance of the Underlying (m) and the Strike Level (m).

Option 2:

- The Additional Conditional Amount (*Geoscope*) (m) is equal to the Calculation Amount multiplied by Participation Factor (m) and the difference between the Geometric Average Performance of the Underlying (m) and the Strike Level (m).

In the case of Securities with a Minimum Additional Conditional Amount (*Geoscope*) (m), the Additional Conditional Amount (*Geoscope*) (m) is not lower than the respective Minimum Additional Conditional Amount (*Geoscope*) (m).

In the case of Securities with a Maximum Additional Conditional Amount (*Geoscope*) (m), the Additional Conditional Amount (*Geoscope*) (m) is not greater than the respective Maximum Additional Conditional Amount (*Geoscope*) (m).

Additional Conditional Amount Payment Event (*Geoscope*) (m) means that the Geometric Average Performance of the Underlying (m) is (i) equal to or greater, or (ii) greater than the respective Additional Conditional Amount Payment Level (*Geoscope*) (m), as specified in the relevant Final Terms.

For further information on the Determination of a Barrier Event (*with Geoscope Observation*) see section "A. 5. Barrier Observation" below.

Depending on the Geometric Average Performance of the Underlying (m) and subject to a Minimum Additional Conditional Amount (*Geoscope*) (m), the Additional Conditional Amount (*Geoscope*) (m) may also be equal to zero (0).

2.10. Additional Conditional Amount (*Memory*)

If an Additional Conditional Amount (*Memory*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has occurred, the respective Additional Conditional Amount (*Memory*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Memory*) (m), less the sum of all Additional Conditional Amounts (*Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) (m) has not occurred, the respective Additional Conditional Amount (*Memory*) (m) will not be paid.

Option 1: Consolidation Feature:

If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has occurred, the Additional Conditional Amount (*Memory*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Memory*) (m) less the sum of all Additional Conditional Amounts (*Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m) will be paid on each Additional Conditional Amount Payment Date (*Memory*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Memory*) has occurred. In this case the Additional Conditional Amount (*Memory*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) occurs.

Option 2: Lock-in Feature:

If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) a Lock-in Event occurs, the respective Additional Conditional Amount (*Memory*) (m) less the sum of all Additional Conditional Amounts (*Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m) will be paid on each subsequent Additional Conditional Amount Payment Date (*Memory*) (m), regardless of whether an Additional Conditional Amount Payment Event (*Memory*) has occurred. In this case the Additional Conditional Amount

(*Memory*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) occurs.

Option 1:

A Lock-in Event occurs if R (m) is either (i) equal to or greater, or (ii) greater than the Lock-in Level, as specified in the relevant Final Terms.

Option 2:

A Lock-in Event occurs if R (m) is either (i) equal to or lower, or (ii) lower than the Lock-in Level, as specified in the relevant Final Terms.

The Additional Conditional Amount (*Memory*) (m) with respect to each Additional Conditional Amount Observation Date (*Memory*) (m) will be specified in the relevant Final Terms.

With respect to the determination of the occurrence of an Additional Conditional Amount Payment Event (*Memory*), one of the following options may be specified in the relevant Final Terms:

In the case of Upside Securities, the following applies:

An Additional Conditional Amount Payment Event (*Memory*) (m) occurs, if the respective R (m) is (i) equal to or greater, or (ii) greater than the corresponding Additional Conditional Amount Payment Level (*Memory*), as specified in the relevant Final Terms.

In the case of Downside Securities, the following applies:

An Additional Conditional Amount Payment Event (*Memory*) (m) occurs, if the respective R (m) is (i) equal to or lower, or (ii) lower than the corresponding Additional Conditional Amount Payment Level (*Memory*).

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

2.11. Additional Conditional Amount (*Switch Memory*)

If an Additional Conditional Amount (*Switch Memory*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Switch Memory*) (m) an Additional Conditional Amount Payment Event (*Switch Memory*) has occurred and if with respect to any Additional Conditional Amount Observation Date (*Switch Memory*) no Switch Event has occurred, the respective Additional Conditional Amount (*Switch Memory*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Switch Memory*) (m), less the sum of all Additional Conditional Amounts (*Switch Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Switch Memory*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Switch Memory*) (m) no Additional Conditional Amount Payment Event (*Switch Memory*) has occurred, or if with respect to any Additional Conditional Amount Observation Date (*Switch Memory*) (m) a Switch Event has occurred, the respective Additional Conditional Amount (*Switch Memory*) will not be paid.

The Additional Conditional Amount (*Switch Memory*) (m) with respect to each Additional Conditional Amount Observation Date (*Switch Memory*) (m) will be specified in the relevant Final Terms.

An Additional Conditional Amount Payment Event (*Switch Memory*) (m) occurs, if the respective R (m) is (i) equal to or lower, or (ii) lower than the respective Additional Conditional Amount Payment Level (m), as specified in the relevant Final Terms.

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

2.12. Additional Conditional Amount (*Performance*)

If an Additional Conditional Amount (*Performance*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) an Additional Conditional Amount Payment Event (*Performance*) has occurred, the respective Additional Conditional Amount (*Performance*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Performance*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) an Additional Conditional Amount Payment Event (*Performance*) has not occurred, the respective Additional Conditional Amount (*Performance*) (m) will not be paid.

With respect to the determination of the Additional Conditional Amount (*Performance*) (m) one of the following options may be specified in the relevant Final Terms:

In the case of Upside Securities, the following applies:

Option 1:

The Additional Conditional Amount (*Performance*) (m) on the respective Additional Conditional Amount Observation Date (*Performance*) (m) is equal to the Calculation Amount multiplied by (i) the Participation Factor (m) and (ii) the Performance of the Underlying (*Performance*) (m).

Option 2:

The Additional Conditional Amount (*Performance*) (m) on the respective Additional Conditional Amount Observation Date (*Performance*) (m) is equal to the Calculation Amount multiplied by (i) the Participation Factor (m) and (ii) R (m). In addition, a Spread may be added to or deducted from R (m), if specified in the relevant Final Terms.

In the case of Downside Long Securities, the following applies:

The Additional Conditional Amount (*Performance*) (m) on the respective Additional Conditional Amount Observation Date (*Performance*) (m) is equal to the Calculation Amount multiplied by (i) the Participation Factor (m) and (ii) the Downside Performance of the Underlying (*Performance*) (m).

If a Maximum Additional Conditional Amount (*Performance*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Performance*) (m) is not greater than the Maximum Additional Conditional Amount (*Performance*) (m).

If a Minimum Additional Conditional Amount (*Performance*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Performance*) (m) is not lower than the Minimum Additional Conditional Amount (*Performance*) (m).

With respect to the determination of the occurrence of an Additional Conditional Amount Payment Event (*Performance*), one of the following options may be specified in the relevant Final Terms:

In the case of Upside Securities, the following applies:

An Additional Conditional Amount Payment Event (*Performance*) occurs, if R (m) is (i) equal to or greater, or (ii) greater than the respective Additional Conditional Amount Payment Level (*Performance*) (m), as specified in the relevant Final Terms.

In the case of Downside Securities, the following applies:

An Additional Conditional Amount Payment Event (*Performance*) occurs, if R (m) is (i) equal to or lower, or (ii) lower than the respective Additional Conditional Amount Payment Level (*Performance*) (m), as specified in the relevant Final Terms.

With respect to the determination of the Performance of the Underlying (*Performance*) (m) one of the following options may be specified in the relevant Final Terms:

Option 1:

The Performance of the Underlying (*Performance*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Performance*) (m), equal to the quotient of (i) the Reference Price on the Additional Conditional Amount Observation Date (*Performance*) (m) minus the Strike as the numerator and (ii) R (initial) as the denominator.

Option 2:

The Performance of the Underlying (*Performance*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Performance*) (m), equal to the difference of (i) the quotient of the Reference Price on the Additional Conditional Amount Observation Date (*Performance*) (m) as the numerator and R (initial) as the denominator and (ii) the Strike Level (m).

Option 3:

The Performance of the Underlying (*Performance*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Performance*) (m), equal to the difference of (i) the quotient of the Reference Price on the Additional Conditional Amount Observation Date (*Performance*) (m) as the numerator and the Strike as the denominator and (ii) the number one (1).

Option 4:

The Performance of the Underlying (*Performance*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Performance*) (m), equal to the quotient of (i) the Reference Price on the Additional Conditional Amount Observation Date (*Performance*) (m) as the numerator and (ii) R (initial) as the denominator.

With respect to the Downside Performance of the Underlying (*Performance*) (m), one of the following options may be specified in the relevant Final Terms:

Option 1:

- The Downside Performance of the Underlying (*Performance*) (m) is equal to 2 minus the quotient of (i) R (m) as the numerator and (ii) the Strike as the denominator.

Option 2:

- The Downside Performance of the Underlying (*Performance*) (m) is equal to the quotient of (i) the Strike minus R (m) as the numerator and (ii) R (initial) as the denominator.

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

Depending on the Performance of the Underlying (*Performance*) (m) or the Downside Performance of the Underlying (*Performance*) (m), as the case may be and subject to a Minimum Additional Conditional Amount (*Performance*) (m), the Additional Conditional Amount (*Performance*) (m) may also be equal to zero (0).

2.13. Additional Conditional Amount (*Telescope*)

If an Additional Conditional Amount (*Telescope*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Telescope*) (m) an Additional Conditional Amount Payment Event (*Telescope*) has occurred, the respective Additional Conditional Amount (*Telescope*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Telescope*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Telescope*) (m) an Additional Conditional Amount Payment Event (*Telescope*) has not occurred, the respective Additional Conditional Amount (*Telescope*) (m) will not be paid.

The Additional Conditional Amount (*Telescope*) (m) on the respective Additional Conditional Amount Observation Date (*Telescope*) (m) is equal to the Calculation Amount multiplied by (i) the Participation Factor (m), (ii) the Performance of the Underlying (*Telescope*) (m) and (iii) the number one (1) divided by D (*Telescope*) (m).

If a Maximum Additional Conditional Amount (*Telescope*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Telescope*) (m) is not greater than the Maximum Additional Conditional Amount (*Telescope*) (m).

If a Minimum Additional Conditional Amount (*Telescope*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Telescope*) (m) is not lower than the Minimum Additional Conditional Amount (*Telescope*) (m).

An Additional Conditional Amount Payment Event (*Telescope*) occurs, if the respective R (m) on an Additional Conditional Amount Observation Date (*Telescope*) (m) is (i) equal to or greater, or (ii) greater than the respective Additional Conditional Amount Payment Level (*Telescope*) (m), as specified in the relevant Final Terms.

The Performance of the Underlying (*Telescope*) (m) is, with respect to an Additional Conditional Amount Observation Date (*Telescope*) (m), equal to the difference between (i) the quotient of R (m), as the numerator, and R (initial), as the denominator, and (ii) the Strike Level (m).

For each Additional Conditional Amount Observation Date (*Telescope*) (m), D (*Telescope*) (m) will be specified in the relevant Final Terms.

For further information on the Determination of R (m), see section "A. 8. Reference Price Determination" below.

Depending on the Performance of the Underlying (*Telescope*) (m) and subject to a Minimum Additional Conditional Amount (*Telescope*) (m), the Additional Conditional Amount (*Telescope*) (m) may also be equal to zero (0).

3. ADDITIONAL FEATURES

In accordance with section "A. 1. General Description of the Product Types with Single-Underlying" above, the following additional features may be specified in the relevant Final Terms.

3.1. Additional Unconditional Amount

In the case of Securities where an Additional Unconditional Amount is specified in the relevant Final Terms, the respective Additional Unconditional Amount (l) will be paid on the corresponding Additional Unconditional Amount Payment Date (l).

3.2. Cap Feature

In the case of Securities where the Cap Feature is specified in the relevant Final Terms, the Redemption Amount is in no event higher than the Maximum Amount, the Maximum Amount Up or the Maximum Amount Down, as specified in the relevant Final Terms.

3.3. Compo Feature

In the case of Securities where the Compo Feature is specified in the relevant Final Terms, the development of the applicable FX Exchange Rate will be considered in the formula to determine the Redemption Amount.

3.4. Instalment Payment

An Instalment Payment may be specified in the relevant Final Terms. If this is the case, the Security Holders are entitled to receive payment of the respective Instalment Amount (f) on each of the Instalment Payment Dates (f), subject to the occurrence of an Early Redemption Event (n), if applicable.

3.5. Protection Lock-in Feature

In the case of Securities where the Protection Lock-in Feature is specified in the relevant Final Terms, the following applies:

If a Protection Lock-in Event has occurred in relation to (i) any or (ii) all Protection Lock-in Dates (k) as specified in the relevant Final Terms, the following applies, as specified in the relevant Final Terms:

The Floor Level, the Strike Level and/or the Final Strike Level will be equal to the respective Protection Lock-in (k).

The Minimum Amount will be equal to the Calculation Amount multiplied by the respective Protection Lock-in (k).

A Protection Lock-in Event will occur if T (k), on a Protection Lock-in Date (k) is (i) greater than or equal to or (ii) lower than or equal to the Protection (k), as specified in the relevant Final Terms.

If a Protection Lock-in Event has occurred on more than one Protection Lock-in Date (k), it will be taken into consideration only the Protection Lock-in (k) related to the last Protection Lock-in Date (k) on which a Protection Lock-in Event has occurred, if so specified in the relevant Final Terms.

T (k) means the Reference Price on the respective Protection Lock-in Date (k).

4. AUTOMATIC EARLY REDEMPTION FEATURE

In the case of Securities where the Automatic Early Redemption Feature is specified in the relevant Final Terms, the following applies:

If an Early Redemption Event (n) has occurred, the Securities are automatically early redeemed on the immediately following Early Payment Date (n) by payment of the respective Early Redemption Amount (n). The Early Redemption Amount (n) is specified in the respective Final Terms.

The Early Redemption Amount (n) will be equal to or higher than 100% of the Calculation Amount.

With respect to the observation if an Early Redemption Event (n) has occurred, one of the following options may be specified in the relevant Final Terms:

4.1. Date-related Early Redemption Observation (*Upside*)

In the case of Securities where Date-related Early Redemption Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Early Redemption Event (n) means that R (n) is equal to or greater than the Early Redemption Level (n).

For further information on the Determination of R (n), see section "A. 8. Reference Price Determination" below.

4.2. Date-related Early Redemption Observation (*Downside*)

In the case of Securities where Date-related Early Redemption Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Early Redemption Event (n) means that R (n) is equal to or lower than the Early Redemption Level (n).

For further information on the Determination of R (n), see section "A. 8. Reference Price Determination" below.

4.3. Average Early Redemption Observation (*Upside*)

In the case of Securities where Average Early Redemption Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Early Redemption Event (n) means that the equally weighted average of the Reference Prices on the Averaging Observation Dates (n) is equal to or greater than the Early Redemption Level (n).

4.4. Average Early Redemption Observation (*Downside*)

In the case of Securities where Average Early Redemption Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Early Redemption Event (n) means that the equally weighted average of the Reference Prices on the Averaging Observation Dates (n) is equal to or lower than the Early Redemption Level (n).

4.5. Daily Early Redemption Observation (*Upside*)

In the case of Securities where Daily Early Redemption Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Early Redemption Event (n) means that R (n) is equal to or greater than the Early Redemption Level (n).

For further information on the Determination of R (n), see section "A. 8. Reference Price Determination" below.

4.6. Daily Early Redemption Observation (*Downside*)

In the case of Securities where Daily Early Redemption Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Early Redemption Event (n) means that R (n) is equal to or lower than the Early Redemption Level (n).

For further information on the Determination of R (n), see section "A. 8. Reference Price Determination" below.

5. BARRIER OBSERVATION

In accordance with section "A. 1. General Description of the Product Types with Single-Underlying" above, the following barrier observation methods may be specified in the relevant Final Terms.

5.1. Final Barrier Observation (*Upside*)

In the case of Securities where Final Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that R (final) is either (i) equal to or lower, or (ii) lower than the Barrier, as specified in the relevant Final Terms.

5.2. Final Barrier Observation (*Downside*)

In the case of Securities where Final Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that R (final) is either (i) equal to or greater, or (ii) greater than the Barrier, as specified in the relevant Final Terms.

5.3. Final Double Barrier Observation

In the case of Securities where Final Double Barrier Observation is specified in the relevant Final Terms, the following applies:

Barrier Event means that R (final) is either (i) lower than the Barrier Down or (ii) greater than the Barrier Up.

5.4. Date-related Barrier Observation (*Upside*)

In the case of Securities where Date-related Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Reference Price on any Barrier Observation Date is either (i) equal to or lower, or (ii) lower than the Barrier, as specified in the relevant Final Terms.

5.5. Date-related Barrier Observation (*Downside*)

In the case of Securities where Date-related Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Reference Price on any Barrier Observation Date is either (i) equal to or greater, or (ii) greater than the Barrier, as specified in the relevant Final Terms.

5.6. Date-related Double Barrier Observation

In the case of Securities where Date-related Double Barrier Observation is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Reference Price on any Barrier Observation Date is either (i) lower than the Barrier Down or (ii) greater than the Barrier Up.

5.7. Daily Barrier Observation (*Upside*)

In the case of Securities where Daily Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that any Reference Price is either (i) equal to or lower, or (ii) lower than the Barrier during the Barrier Observation Period, as specified in the relevant Final Terms.

5.8. Daily Barrier Observation (*Downside*)

In the case of Securities where Daily Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that any Reference Price is either (i) equal to or greater, or (ii) greater than the Barrier during the Barrier Observation Period, as specified in the relevant Final Terms.

5.9. Daily Double Barrier Observation

In the case of Securities where Daily Double Barrier Observation is specified in the relevant Final Terms, the following applies:

Barrier Event means that any Reference Price is either (i) lower than the Barrier Down or (ii) greater than the Barrier Up during the Barrier Observation Period.

5.10. Continuous Barrier Observation (*Upside*)

In the case of Securities where Continuous Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that any published price or rate of the Underlying, as the case may be, is either (i) equal to or lower, or (ii) lower than the Barrier during the Barrier Observation Period in the case of continuous observation, as specified in the relevant Final Terms.

5.11. Continuous Barrier Observation (*Downside*)

In the case of Securities where Continuous Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that any published price or rate of the Underlying, as the case may be, is either (i) equal to or greater, or (ii) greater than the Barrier during the Barrier Observation Period in the case of continuous observation, as specified in the relevant Final Terms.

5.12. Final Barrier Observation (*Upside Reference Rate*)

In the case of Securities where Final Barrier Observation (*Upside Reference Rate*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Reference Rate on the Final Observation Date is either (i) equal to or lower, or (ii) lower than the Barrier, as specified in the relevant Final Terms.

5.13. Final Barrier Observation (*Downside Reference Rate*)

In the case of Securities where Final Barrier Observation (*Downside Reference Rate*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Reference Rate is either (i) equal to or greater, or (ii) greater than the Reference Rate Barrier, as specified in the relevant Final Terms.

5.14. Geoscope Barrier Observation (*Upside*)

In the case of Securities where Geoscope Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Geometric Average Performance of the Underlying (m) on any Additional Conditional Amount Observation Date (*Geoscope*) (m) is equal to or lower than the Barrier Level.

For further information on the Determination of Geometric Average Performance of the Underlying (m), see section "A. 7. Performance Determination" below.

5.15. Geoscope Barrier Observation (*Downside*)

In the case of Securities where Geoscope Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Geometric Average Performance of the Underlying (m) on any Additional Conditional Amount Observation Date (*Geoscope*) (m) is equal to or greater than the Barrier Level.

For further information on the Determination of Geometric Average Performance of the Underlying (m), see section "A. 7. Performance Determination" below.

6. INTEREST

6.1. Fixed Interest Rate

The Securities may be interest-bearing at a fixed Interest Rate, if so specified in the relevant Final Terms. The specified Interest Rate may be equal or different for each Interest Period.

6.2. Floating Interest Rate

Option 1 (*Floater*):

The Securities may be interest-bearing at a floating Interest Rate, if so specified in the relevant Final Terms. The Interest Rate depends on the Reference Rate as determined on each Interest Determination Date. A Factor, a Positive Spread and/or a Negative Spread may be applied to the floating Interest Rate.

Option 2 (*Spread Floater*):

The Securities may be interest-bearing at a Spread between two Reference Rates, if so specified in the relevant Final Terms. In this case, the Interest Rate depends on the difference of the Reference Rate₁ and the Reference Rate₂ as determined on each Interest Determination Date. A Factor, a Positive Spread and/or a Negative Spread may be applied to the Interest Rate.

Minimum Interest Rate

The Interest Rate may be subject to a Minimum Interest Rate, if so specified in the relevant Final Terms.

Maximum Interest Rate

The Interest Rate may be subject to a Maximum Interest Rate, if so specified in the relevant Final Terms.

6.3. Digital Interest Rate

Option 1 (*Digital Upside*):

The Securities may be interest-bearing at a digital Interest Rate. The Interest Rate depends on the Reference Rate. If, with respect to an Interest Period, the Reference Rate, as determined on each Interest Determination Date, is (i) greater than or equal to or (ii) greater than the Interest Rate Threshold, as specified in the relevant Final Terms, the Fixed Interest Rate₁ will apply with respect to the relevant Interest Period. Otherwise the Fixed Interest Rate₂ will apply. The Fixed Interest Rate₂ may be very low or even equal to zero (0), as specified in the relevant Final Terms.

Option 2 (*Digital Downside*):

The Securities may be interest-bearing at a digital Interest Rate. The Interest Rate depends on the Reference Rate. If, with respect to an Interest Period, the Reference Rate, as determined on each Interest Determination Date, is (i) lower than or equal to or (ii) lower than the Interest Rate Threshold, as specified in the relevant Final Terms, the Fixed Interest Rate₁ will apply with respect to the relevant Interest Period. Otherwise the Fixed Interest Rate₂ will apply. The Fixed Interest Rate₂ may be very low or even equal to zero (0), as specified in the relevant Final Terms.

6.4. Interest Amount

The respective Interest Amount will be calculated under consideration of the respective Interest Rate and the Day Count Fraction, as specified in the relevant Final Terms.

The respective Interest Amount falls due for payment on the relevant Interest Payment Date.

7. PERFORMANCE DETERMINATION

7.1. Performance of the Underlying (final)

In accordance with section "A. 1. General Description of the Product Types with Single-Underlying" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Performance of the Underlying (final):

Option 1:

Performance of the Underlying (final) means R (final) divided by R (initial).

Option 2:

Performance of the Underlying (final) means R (final) divided by the Final Strike.

Option 3:

Performance of the Underlying (final) means the difference of (i) the quotient of R (final) as the numerator and R (initial) as the denominator and (ii) the Final Strike Level.

Option 4:

Performance of the Underlying (final) means the difference of (i) the Final Strike Level and (ii) the quotient of R (final) as the numerator and R (initial) as the denominator.

Option 5:

Performance of the Underlying (final) means (i) the difference of R (final) and the Final Strike (ii) divided by the Final Strike.

Option 6:

Performance of the Underlying (final) means (i) the difference of R (final) and the Final Strike (ii) divided by R (initial).

7.2. Downside Performance of the Underlying (final)

Where applicable, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Downside Performance of the Underlying (final):

Option 1:

Downside Performance of the Underlying (final) means the difference of (i) the number two (2) and (ii) R (final) divided by the R (initial).

Option 2:

Downside Performance of the Underlying (final) means the difference of (i) the number two (2) and (ii) R (final) divided by the Final Strike.

Option 3:

Downside Performance of the Underlying (final) means the difference of (i) the Final Strike Level and (ii) R (final) divided by R (initial).

Option 4:

Downside Performance of the Underlying (final) means (i) the difference of the Final Strike and R (final) (ii) divided by the Final Strike.

Option 5:

Downside Performance of the Underlying (final) means (i) the difference of the Final Strike and R (final) (ii) divided by R (initial).

7.3. Geometric Average Performance of the Underlying (m)

The Geometric Average Performance of the Underlying (m) is the n^{th} (when "n" depends on the respective D (*Geoscope*) (m)) root of the Performance of the Underlying (*Geoscope*) (m).

The Performance of the Underlying (*Geoscope*) (m) is the quotient between the Reference Price on the respective Additional Conditional Amount Observation Date (*Geoscope*) (m), as the numerator, and R (initial) as denominator.

D (*Geoscope*) (m) is specified on the respective Final Terms.

8. REFERENCE PRICE DETERMINATION

8.1. Determination of the Initial Reference Price

In accordance with section "A. 1. General Description of the Product Types with Single-Underlying" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Initial Reference Price (= R (initial)):

(a) *Initial Reference Price Specification:*

R (initial) means R (initial), as specified in the respective Final Terms.

(b) *Initial Reference Price Observation:*

With respect to the Initial Reference Price Observation, one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (initial) means the Reference Price on the Initial Observation Date.

Option 2:

R (initial) means the value of the product of the Reference Price and the Reference Price Adjustment Factor on the Initial Observation Date.

(c) *Initial Average Observation:*

With respect to the Initial Average Observation, one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (initial) means the equally weighted average (arithmetic average) of the Reference Prices determined on the Initial Observation Dates.

Option 2:

R (initial) means the equally weighted average (arithmetic average) of the products of Reference Prices and Reference Price Adjustment Factors, determined on the Initial Observation Dates.

(d) *Best-in Observation (Upside):*

With respect to the Best-in Observation (Upside), one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (initial) means the lowest Reference Price on the dates or the period specified in the respective Final Terms.

Option 2:

R (initial) means the lowest value of the product of the Reference Price and the Reference Price Adjustment Factor during the Best-in Period.

(e) *Best-in Observation (Downside):*

With respect to the Best-in Observation (Downside), one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (initial) means the highest Reference Price on the dates or the period specified in the respective Final Terms.

Option 2:

R (initial) means the highest value of the product of the Reference Price and the Reference Price Adjustment Factor during the Best-in Period.

(f) *Worst-in Observation (Upside):*

With respect to the Worst-in Observation (Upside), one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (initial) means the highest Reference Price on the dates or the period specified in the respective Final Terms.

Option 2:

R (initial) means the highest value of the product of the Reference Price and the Reference Price Adjustment Factor during the Worst-in Period.

(g) *Worst-in Observation (Downside):*

With respect to the Worst-in Observation (Downside), one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (initial) means the lowest Reference Price on the dates or the period specified in the respective Final Terms.

Option 2:

R (initial) means the lowest value of the product of the Reference Price and the Reference Price Adjustment Factor during the Worst-in Period.

8.2. Determination of the Final Reference Price

In accordance with section "1. General Description of the Product Types with Single-Underlying" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Final Reference Price (= R (final)):

(a) *Final Reference Price Observation:*

With respect to the Final Reference Price Observation, one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (final) means the Reference Price on the Final Observation Date.

Option 2:

R (final) means the value of the product of the Reference Price and the Reference Price Adjustment Factor on the Final Observation Date.

(b) *Final Average Observation:*

With respect to the Final Average Observation, one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (final) means the equally weighted average (arithmetic average) of the Reference Prices determined on the Final Observation Dates.

Option 2:

R (final) means the equally weighted average (arithmetic average) of the products of Reference Prices and Reference Price Adjustment Factors, determined on the Final Observation Dates.

(c) *Best-out Observation (Upside):*

With respect to the Best-out Observation (Upside), one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (final) means the highest Reference Price on the dates or the period specified in the respective Final Terms.

Option 2:

R (final) means the highest value of the product of the Reference Price and the Reference Price Adjustment Factor during the Best-out Period.

(d) *Best-out Observation (Downside):*

With respect to the Best-out Observation (Downside), one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (final) means the lowest Reference Price on the dates or the period specified in the respective Final Terms.

Option 2:

R (final) means the lowest value of the product of the Reference Price and the Reference Price Adjustment Factor during the Best-out Period.

(e) *Worst-out Observation (Upside):*

With respect to the Worst-out Observation (Upside), one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (final) means the lowest Reference Price on the dates or the period specified in the respective Final Terms.

Option 2:

R (final) means the lowest value of the product of the Reference Price and the Reference Price Adjustment Factor during the Worst-out Period.

(f) *Worst-out Observation (Downside):*

With respect to the Worst-out Observation (Downside), one of the following Options may be specified in the relevant Final Terms:

Option 1:

R (final) means the highest Reference Price on the dates or the period specified in the respective Final Terms.

Option 2:

R (final) means the highest value of the product of the Reference Price and the Reference Price Adjustment Factor during the Worst-out Period.

8.3. Determination of R (m)

In accordance with section "1. General Description of the Product Types with Single-Underlying" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of R (m):

(a) *Reference Price Observation:*

With respect to the determination of R (m) one of the following options may be specified in the relevant Final Terms:

Option 1:

R (m) means the Reference Price on the relevant Additional Conditional Amount Observation Date (m).

Option 2:

R (m) means the Reference Rate on the relevant Additional Conditional Amount Observation Date (m).

Option 3:

R (m) means the difference of the Reference Rate₁ and the Reference Rate₂ on the relevant Additional Conditional Amount Observation Date (m).

For further information on the Reference Rate see section "*General Information on the Securities*" – "*Features of the Securities*" – "*Reference Rate*" above.

(b) *Average Observation:*

R (m) means, with respect to an Additional Conditional Amount Observation Date (m), the equally weighted average of the Reference Prices on the Averaging Observation Dates (m).

8.4. Determination of R (n)

In accordance with section "1. General Description of the Product Types with Single-Underlying" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of R (n):

(a) *Reference Price Observation:*

R (n) means the Reference Price on the relevant Observation Date (n).

(b) *Average Observation:*

R (n) means, with respect to an Observation Date (n), the equally weighted average of the Reference Prices on the Averaging Observation Dates (n).

8.5. Reference Price Adjustment Factor***Reference Price Adjustment Factor***

The respective Final Terms may provide for the usage of a Reference Price Adjustment Factor. The Reference Price Adjustment Factor is a factor determined by the Calculation Agent. Its purpose is to take into account distributions made by the Underlying (after deduction of tax or other duties, retention, deductions or other charges) when calculating the Redemption Amount.

B. BASKET-LINKED SECURITIES

1. GENERAL DESCRIPTION OF THE PRODUCT TYPES OF BASKET-LINKED SECURITIES

1.1. Product Type 12: Protection Performance Securities with Multi-Underlying

General

Protection Performance Securities with Multi-Underlying are Securities where the Redemption Amount and the value of the Securities depend on the price of the Basket Components. However, the Redemption Amount will in no event be lower than the Minimum Amount.

The Underlying of the Securities is a Basket consisting of the Basket Components_i.

Protection Performance Securities with Multi-Underlying may be issued as (i) Securities with Basket Performance Determination, (ii) Securities with Best-of Performance Determination, (iii) Securities with Worst-of Performance Determination, (iv) Securities with Rainbow Performance Determination or (v) Securities with Dispersion Performance Determination (see section "B. 6. Performance Determination" below).

Protection Performance Securities with Multi-Underlying may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Protection Performance Securities with Multi-Underlying:

In the case of Upside Protection Performance Securities with Multi-Underlying and Basket Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying. The performance of the Underlying will be calculated as the sum of the performances of the Basket Components_i, which are taken into account according to their Weightings_i (Relevant Performance).

In the case of Upside Protection Performance Securities with Multi-Underlying and Best-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the best performance (Relevant Performance).

In the case of Upside Protection Performance Securities with Multi-Underlying and Worst-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the worst performance (Relevant Performance).

In the case of Upside Protection Performance Securities with Multi-Underlying and Rainbow Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying (Relevant Performance). The performance of the Underlying will be calculated as the sum of the performances of the Basket Components_i, which are taken into account according to their sorted weightings (= Weighting_{i best}).

In the case of Upside Protection Performance Securities with Multi-Underlying and Dispersion Performance Determination, the value of the Securities during their term depends decisively on the Dispersion of the Underlying (Relevant Performance). The Dispersion of the Underlying will be calculated as the sum of the Dispersion of the Basket Components_i (final) (as described below), which are taken into account according to their Weightings_i (= W_i).

The value of Upside Protection Performance Securities with Multi-Underlying regularly rises if the Relevant Performance rises and regularly falls if the Relevant Performance falls.

Subtype 2 - Downside Protection Performance Securities with Multi-Underlying:

In the case of Downside Protection Performance Securities with Multi-Underlying and Basket Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying. The performance of the Underlying will be calculated as the sum of the downside performances of the Basket Components_i, which are taken into account according to their Weightings_i (Relevant Performance).

In the case of Downside Protection Performance Securities with Multi-Underlying and Best-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component; with the best performance (Relevant Performance).

In the case of Downside Protection Performance Securities with Multi-Underlying and Worst-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component; with the worst performance (Relevant Performance).

The value of Downside Protection Performance Securities with Multi-Underlying regularly rises if the Relevant Performance falls and regularly falls if the Relevant Performance rises.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Step-up Memory*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "B. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "B. 4. Automatic Early Redemption Feature" below.

Redemption

If no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following automatic exercise on the Exercise Date.

In the case of Option 1, the following applies:

At the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor and the Relevant Performance (final). The Redemption Amount is not lower than the Minimum Amount.

In the case of Option 2, the following applies:

At the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Relevant Performance (final). The Redemption Amount is not lower than the Minimum Amount.

In the case of Option 3, the following applies:

At the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Relevant Performance (final) multiplied by the Final Participation Factor. The Redemption Amount is not lower than the Minimum Amount.

In the case of Option 4, the following applies:

At the Final Payment Date the Redemption Amount is equal to the Nominal Amount multiplied by the total of (i) the Floor Level and (ii) the difference, multiplied by the Final Participation Factor, between the Relevant Performance (final) and the Final Strike Level. The Redemption Amount is not lower than the Minimum Amount.

Performance Determination

In the case of Upside Protection Performance Securities with Multi-Underlying and Basket Performance Determination, the Relevant Performance (final) corresponds to the Performance of the Underlying (final).

In the case of Downside Protection Performance Securities with Multi-Underlying and Basket Downside Performance Determination, the Relevant Performance (final) corresponds to the Downside Performance of the Underlying (final).

In the case of Protection Performance Securities with Multi-Underlying and Best-of Performance Determination, the Relevant Performance (final) corresponds to the Best Performance (final).

In the case of Protection Performance Securities with Multi-Underlying and Worst-of Performance Determination, the Relevant Performance (final) corresponds to the Worst Performance (final).

In the case of Protection Performance Securities with Multi-Underlying and Rainbow Performance Determination the Relevant Performance (final) corresponds to the Performance of the Underlying (final).

In the case of Upside Protection Performance Securities with Multi-Underlying and Dispersion Performance Determination, the Relevant Performance (final) corresponds to the Dispersion of the Underlying (final).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= K_i (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or
- Worst-in Observation (*Upside / Downside*).

With respect to the determination of the Final Reference Price (= K_i (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside / Downside*); or
- Worst-out Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "B. 7. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "B. 3. Additional Features" below.

1.2. Product Type 13: Cash Collect Protection Securities with Multi-Underlying

General

Cash Collect Protection Securities with Multi-Underlying provide for the payment of an Additional Conditional Amount and/or an Additional Unconditional Amount.

The Securities will be issued as Upside Securities. This means:

The Underlying of the Securities is a Basket consisting of the Basket Components_i. In this context, the Securities may be issued as (i) Securities with Basket Performance Determination, (ii) Securities with Best-of Performance Determination or (iii) Securities with Worst-of Performance Determination (see section "B. 6. Performance Determination" below).

In the case of Securities with Basket Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying. The performance of the Underlying will be calculated as the sum of the performances of the Basket Components_i, which are taken into account according to their Weightings_i. The value of the Securities regularly rises, if the performance of the Underlying rises and regularly falls, if the performance of the Underlying falls.

In the case of Securities with Best-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the best performance. The value of the Securities regularly rises, if the price of Basket Component_i with the best performance rises and regularly falls, if the price of the Basket Component_i with the best performance falls.

In the case of Securities with Worst-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the worst performance. The value of the Securities regularly rises, if the price of Basket Component_i with the worst performance rises and regularly falls, if the price of the Basket Component_i with the worst performance falls.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Step-up Memory*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "B. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "B. 4. Automatic Early Redemption Feature" below.

Redemption

If no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following automatic exercise on the Exercise Date.

At the Final Payment Date the Redemption Amount is equal to the Minimum Amount.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= K_i (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside*); or
- Worst-in Observation (*Upside*).

For further information on the Reference Price Determination, see section "B. 7. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "B. 3. Additional Features" below.

1.3. Product Type 14: Protection Securities with Multi-Underlying

General

The Securities will be issued as Upside Securities. This means:

The Underlying of the Securities is a Basket consisting of the Basket Components_i. In this context, the Securities may be issued as (i) Securities with Basket Performance Determination, (ii) Securities with Best-of Performance Determination or (iii) Securities with Worst-of Performance Determination (see section "B. 6. Performance Determination" below).

In the case of Securities with Basket Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying. The performance of the Underlying will be calculated as the sum of the performances of the Basket Components_i, which are taken into account according to their Weightings_i. The value of the Securities regularly rises, if the performance of the Underlying rises and regularly falls, if the performance of the Underlying falls.

In the case of Securities with Best-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the best performance. The value of the Securities regularly rises, if the price of Basket Component_i with the best performance rises and regularly falls, if the price of the Basket Component_i with the best performance falls.

In the case of Securities with Worst-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the worst performance. The value of the Securities regularly rises, if the price of Basket Component_i with the worst performance rises and regularly falls, if the price of the Basket Component_i with the worst performance falls.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Step-up Memory*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "B. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "B. 4. Automatic Early Redemption Feature" below.

Redemption

If no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following automatic exercise on the Exercise Date.

- If the Relevant Performance (final) is equal to or higher than the Final Strike Level, the Redemption Amount corresponds to the Calculation Amount multiplied by a sum. The sum is formed from the Strike Level and a product. The product is formed from the Participation Factor Up and a difference. The difference is formed by subtracting the Strike Level from the Relevant Performance (final).
- If the Relevant Performance (final) is lower than the Final Strike Level, the Redemption Amount corresponds to the Calculation Amount multiplied by a sum. The sum is formed from the Strike Level and a product. The product is formed from the Participation Factor Down and a difference. The difference is formed by subtracting the Strike Level from the Relevant Performance (final).

The Redemption Amount is not lower than the Minimum Amount.

In addition, the Redemption Amount is not higher than the Maximum Amount, if so specified in the relevant Final Terms.

Performance Determination

In the case of Securities with Basket Performance Determination, the Relevant Performance (final) corresponds to the Performance of the Underlying (final).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (final) corresponds to the Best Performance (final).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (final) corresponds to the Worst Performance (final).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= K_i (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside*); or
- Worst-in Observation (*Upside*).

With respect to the determination of the Final Reference Price (= K_i (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside*); or
- Worst-out Observation (*Upside*).

For further information on the Reference Price Determination, see section "B. 7. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature; and
- Protection Lock-in Feature.

For further information on the additional features, please see section "B. 3. Additional Features" below.

1.4. Product Type 15: Protection Barrier Securities with Multi-Underlying

General

Protection Barrier Securities with Multi-Underlying are Securities where the Redemption Amount and the value of the Securities depend on the price of the Basket Components. However, the Redemption Amount will in no event be lower than the Minimum Amount.

The Underlying of the Securities is a Basket consisting of the Basket Components. In this context, the Securities may be issued as (i) Securities with Basket Performance Determination, (ii) Securities with Best-of Performance Determination or (iii) Securities with Worst-of Performance Determination (see section "B. 6. Performance Determination" below).

Protection Barrier Securities with Multi-Underlying may be issued as Upside Securities or Downside Securities. This means:

Subtype 1 - Upside Protection Barrier Securities with Multi-Underlying:

In the case of Upside Protection Barrier Securities with Multi-Underlying and Basket Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying. The performance of the Underlying will be calculated as the sum of the performances of the Basket Components, which are taken into account according to their Weightings (Relevant Performance).

In the case of Upside Protection Barrier Securities with Multi-Underlying and Best-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component with the best performance (Relevant Performance).

In the case of Upside Protection Barrier Securities with Multi-Underlying and Worst-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component with the worst performance (Relevant Performance).

The value of Upside Protection Barrier Securities with Multi-Underlying regularly rises if the Relevant Performance rises and regularly falls if the Relevant Performance falls.

Subtype 2 - Downside Protection Barrier Securities with Multi-Underlying:

In the case of Downside Protection Barrier Securities with Multi-Underlying and Basket Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying. The performance of the Underlying will be calculated as the sum of the performances of the Basket Components, which are taken into account according to their Weightings (Relevant Performance).

In the case of Downside Protection Barrier Securities with Multi-Underlying and Best-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component with the best performance (Relevant Performance).

In the case of Downside Protection Barrier Securities with Multi-Underlying and Worst-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component with the worst performance (Relevant Performance).

The value of Downside Protection Barrier Securities with Multi-Underlying regularly rises if the Relevant Performance falls and regularly falls if the Relevant Performance rises.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*);

- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Step-up Memory*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "B. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

The Automatic Early Redemption Feature may be specified in the relevant Final Terms. For further information on the Automatic Early Redemption Feature, see section "B. 4. Automatic Early Redemption Feature" below.

Redemption

If no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following automatic exercise on the Exercise Date.

At the Final Payment Date the Redemption Amount depends on the occurrence of a Barrier Event.

Subtype 1 - Upside Protection Barrier Securities with Multi-Underlying:

If no Barrier Event has occurred, one of the following options may be specified in the relevant Final Terms:

In the case of Option 1, the following applies:

The Redemption Amount is equal to the Maximum Amount.

In the case of Option 2, the following applies:

The Redemption Amount is equal to the Calculation Amount.

In the case of Option 3, the following applies:

The Redemption Amount is equal to the Adjusted Calculation Amount.

If a Barrier Event has occurred, one of the following options may be specified in the relevant Final Terms:

In the case of Option 4, the following applies:

The Redemption Amount is equal to the Calculation Amount multiplied by the Relevant Performance (final) divided by the Final Strike Level. However, the Redemption Amount is not greater than the Calculation Amount and not lower than the Minimum Amount.

In the case of Option 5, the following applies:

The Redemption Amount is equal to the Adjusted Calculation Amount multiplied by the Relevant Performance (final) divided by the Final Strike Level. However, the Redemption Amount is not greater than the Adjusted Calculation Amount and not lower than the Adjusted Minimum Amount.

In the case of Option 6, the following applies:

The Redemption Amount is equal to the Calculation Amount multiplied by the sum of (i) the Floor Level and (ii) the product of (a) the Final Participation Factor and (b) the Relevant Performance (final). However, the Redemption Amount is not greater than the Calculation Amount and not lower than the Minimum Amount.

In the case of Option 7, the following applies:

The Redemption Amount is equal to the Calculation Amount multiplied by a sum. The sum is formed from the Floor Level and a product. The product is formed from the Final Participation Factor and a difference. The difference is formed by subtracting the Final Strike Level from the Relevant Performance (final). However, the Redemption Amount is not greater than the Maximum Amount and not lower than the Minimum Amount.

Subtype 2 - Downside Protection Barrier Securities with Multi-Underlying:

If no Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount.

If a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the difference between (a) 2 and (b) the quotient of the Relevant Performance (final) as numerator and the Final Strike Level as denominator. The Redemption Amount will not be less than the Minimum Amount.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following may be specified in the relevant Final Terms:

- Final Barrier Observation (*Upside / Downside*);
- Final Double Barrier Observation;
- Date-related Barrier Observation (*Upside / Downside*);
- Date-related Double Barrier Observation;
- Daily Barrier Observation (*Upside / Downside*);
- Daily Double Barrier Observation; or
- Continuous Barrier Observation (*Upside / Downside*).

For further information on the Barrier Observation, see section "B. 5. Barrier Observation" below.

Performance Determination

In the case of Securities with Basket Performance Determination, the Relevant Performance (b) corresponds to the Performance of the Underlying (b) and the Relevant Performance (final) corresponds to the Performance of the Underlying (final).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (b) corresponds to the Best Performance (b) and the Relevant Performance (final) corresponds to the Best Performance (final).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (b) corresponds to the Worst Performance (b) and the Relevant Performance (final) corresponds to the Worst Performance (final).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= K_i (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside / Downside*); or
- Worst-in Observation (*Upside / Downside*).

With respect to the determination of the Final Reference Price (= K_i (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside / Downside*); or
- Worst-out Observation (*Upside / Downside*).

For further information on the Reference Price Determination, see section "B. 7. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Instalment Payment (only in the case of Options 3 and 5); and
- Protection Lock-in Feature.

For further information on the additional features, please see section "B. 3. Additional Features" below.

1.5. Product Type 16: Protection Express Securities with Multi-Underlying

General

The Securities will be issued as Upside Securities. This means:

The Underlying of the Securities is a Basket consisting of the Basket Components_i. In this context, the Securities may be issued as (i) Securities with Basket Performance Determination, (ii) Securities with Best-of Performance Determination or (iii) Securities with Worst-of Performance Determination (see section "B. 6. Performance Determination" below).

In the case of Securities with Basket Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying. The performance of the Underlying will be calculated as the sum of the performances of the Basket Components_i, which are taken into account according to their Weightings_i. The value of the Securities regularly rises, if the performance of the Underlying rises and regularly falls, if the performance of the Underlying falls.

In the case of Securities with Best-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the best performance. The value of the Securities regularly rises, if the price of Basket Component_i with the best performance rises and regularly falls, if the price of the Basket Component_i with the best performance falls.

In the case of Securities with Worst-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the worst performance. The value of the Securities regularly rises, if the price of Basket Component_i with the worst performance rises and regularly falls, if the price of the Basket Component_i with the worst performance falls.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Step-up Memory*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "B. 2. Additional Conditional Amounts" below.

Automatic Early Redemption

If an Early Redemption Event (n) has occurred, the Securities are automatically early redeemed on the immediately following Early Payment Date (n) by payment of the respective Early Redemption Amount (n).

For further information on the Automatic Early Redemption Feature, see section "B. 4. Automatic Early Redemption Feature" below.

Redemption as at the Final Payment Date

Provided that no Conversion Event and no Early Redemption Event (n) has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

Option 1:

If a Final Redemption Event and no Barrier Event have occurred, the Redemption Amount is equal to the Maximum Amount.

If no Final Redemption Event and no Barrier Event have occurred, the Redemption Amount is equal to the Final Redemption Amount.

If a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the quotient of the Relevant Performance (final) as numerator and the Final Strike Level as denominator. However, in this case the Redemption Amount is not greater than the Maximum Amount or Calculation Amount, as specified in the relevant Final Terms, and not lower than the Minimum Amount.

Option 2:

If no Barrier Event has occurred, the Redemption Amount corresponds to the Maximum Amount.

If a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount, as specified in the relevant Final Terms, multiplied by the quotient of the Relevant Performance (final) as numerator and the Final Strike Level as denominator. However, in this case the Redemption Amount is not greater than the Maximum Amount or Calculation Amount, as specified in the relevant Final Terms, and not lower than the Minimum Amount.

Option 3:

If no Barrier Event has occurred, the Redemption Amount corresponds to the Adjusted Maximum Amount.

If a Barrier Event has occurred, the Redemption Amount is equal to the Adjusted Calculation Amount multiplied by the quotient of the Relevant Performance (final) as numerator and the Final Strike Level as denominator. However, in this case the Redemption Amount is not greater than the Adjusted Maximum Amount or Adjusted Calculation Amount, as specified in the relevant Final Terms, and not lower than the Adjusted Minimum Amount.

Option 4:

If a Final Redemption Event and no Barrier Event have occurred, the Redemption Amount is equal to the Maximum Amount.

If no Final Redemption Event and no Barrier Event have occurred, the Redemption Amount is equal to the Final Redemption Amount.

If a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.

Option 5:

If no Barrier Event has occurred, the Redemption Amount is equal to the Maximum Amount.

If a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.

Final Redemption Event means that the Relevant Performance (final) is equal to or greater than the Final Redemption Level.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following may be specified in the relevant Final Terms:

- Final Barrier Observation (*Upside*);

- Final Double Barrier Observation;
- Date-related Barrier Observation (*Upside*);
- Date-related Double Barrier Observation;
- Daily Barrier Observation (*Upside*);
- Daily Double Barrier Observation; or
- Continuous Barrier Observation (*Upside*).

For further information on the Barrier Observation, see section "B. 5. Barrier Observation" below.

Performance Determination

In the case of Protection Express Securities with Multi-Underlying and Basket Performance Determination, the Relevant Performance (final) corresponds to the Performance of the Underlying (final).

In the case of Protection Express Securities with Multi-Underlying and Best-of Performance Determination, the Relevant Performance (final) corresponds to the Best Performance (final).

In the case of Protection Express Securities with Multi-Underlying and Worst-of Performance Determination, the Relevant Performance (final) corresponds to the Worst Performance (final).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= K_i (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside*); or
- Worst-in Observation (*Upside*).

With respect to the determination of the Final Reference Price (= K_i (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;
- Final Average Observation;
- Best-out Observation (*Upside*); or
- Worst-out Observation (*Upside*).

For further information on the Reference Price Determination, see section "B. 7. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount;
- Cap Feature;
- Instalment Payment (only in the case of Option 3); and
- Protection Lock-in Feature.

For further information on the additional features, please see section "B. 3. Additional Features" below.

1.6. Product Type 17: Twin-Win Protection Securities with Multi-Underlying

General

The Securities will be issued as Upside Securities. This means:

The Underlying of the Securities is a Basket consisting of the Basket Components_i. In this context, the Securities may be issued as (i) Securities with Basket Performance Determination, (ii) Securities with Best-of Performance Determination or (iii) Securities with Worst-of Performance Determination (see section "B. 6. Performance Determination" below).

In the case of Securities with Basket Performance Determination, the value of the Securities during their term depends decisively on the performance of the Underlying. The performance of the Underlying will be calculated as the sum of the performances of the Basket Components_i, which are taken into account according to their Weightings_i. The value of the Securities regularly rises, if the performance of the Underlying rises or falls moderately, and falls if the performance of the Underlying falls sharply.

In the case of Securities with Best-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the best performance. The value of the Securities regularly rises, if the price of the Basket Component_i with the best performance rises or falls moderately, and falls if the price of Basket Component_i with the best performance falls sharply.

In the case of Securities with Worst-of Performance Determination, the value of the Securities during their term depends decisively on the performance of the Basket Component_i with the worst performance. The value of the Securities regularly rises, if the price of the Basket Component_i with the worst performance rises or falls moderately, and falls if the price of Basket Component_i with the worst performance falls sharply.

The consideration of an Additional Conditional Amount may have a reinforcing or opposing effect.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following options may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*);
- Additional Conditional Amount (*Digital*);
- Additional Conditional Amount (*Memory*);
- Additional Conditional Amount (*Performance*);
- Additional Conditional Amount (*Range Coupon*);
- Additional Conditional Amount (*Step-up Memory*); and
- Additional Conditional Amount (*Telescope*).

For further information on the Additional Conditional Amounts, see section "B. 2. Additional Conditional Amounts" below.

Redemption

If no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following automatic exercise on the Exercise Date.

At the Final Payment Date the Redemption Amount depends on the occurrence of a Barrier Event.

- If no Barrier Event has occurred and if the Relevant Performance (final) is equal to or higher than the Strike Level, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) the number 1 (one) and (b) the product of the (i) Participation Factor Up and (ii) the difference

of the Relevant Performance (final) and the number 1 (one). However, in this case the Redemption Amount will not be lower than the Minimum Amount.

- If no Barrier Event has occurred and if the Relevant Performance (final) is lower than the Strike Level, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) the number 1 (one) and (b) the product of the (i) Participation Factor Down and (ii) the difference of the number 1 (one) and the Relevant Performance (final). However, in this case the Redemption Amount will not be lower than the Minimum Amount.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following may be specified in the relevant Final Terms:

- Final Barrier Observation (*Upside*);
- Final Double Barrier Observation;
- Date-related Barrier Observation (*Upside*);
- Date-related Double Barrier Observation;
- Daily Barrier Observation (*Upside*);
- Daily Double Barrier Observation; or
- Continuous Barrier Observation (*Upside*).

For further information on the Barrier Observation, see section "B. 5. Barrier Observation" below.

Performance Determination

In the case of Securities with Basket Performance Determination, the Relevant Performance (b) corresponds to the Performance of the Underlying (b) and the Relevant Performance (final) corresponds to the Performance of the Underlying (final).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (b) corresponds to the Best Performance (b) and the Relevant Performance (final) corresponds to the Best Performance (final).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (b) corresponds to the Worst Performance (b) and the Relevant Performance (final) corresponds to the Worst Performance (final).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= K_i (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification;
- Initial Reference Price Observation;
- Initial Average Observation;
- Best-in Observation (*Upside*); or
- Worst-in Observation (*Upside*).

With respect to the determination of the Final Reference Price (= K_i (final)), one of the following options may be specified in the relevant Final Terms:

- Final Reference Price Observation;

- Final Average Observation;
- Best-out Observation (*Upside*); or
- Worst-out Observation (*Upside*).

For further information on the Reference Price Determination, see section "B. 7. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Additional Unconditional Amount; and
- Cap Feature.

For further information on the additional features, please see section "B. 3. Additional Features" below.

1.7. Product Type 18: Protection Securities linked to Target Vol Strategies with Locally Floored/Capped Asian Out

General

The value of the Securities linked to Target Vol Strategies with Locally Floored/Capped Asian Out depends on the Level of the Target Vol Strategy which in turn depends on the performance of the Underlying and the level of the Reference Rate.

If the Level of the Target Vol Strategy rises, the market value of the Securities regularly rises. On the other hand, if the Level of the Target Vol Strategy falls, the value of the Securities regularly falls: for the Security Holder, investing in Securities linked to Target Vol Strategies with Locally Floored / Capped Asian Out means taking a position comprised of two dynamically linked elements where the participation in the Underlying and in the Reference Rate varies depending on the volatility of the Underlying. This entails opportunities and risks.

The market value of the Securities linked to Target Vol Strategies with Locally Floored/Capped Asian Out during their term depends decisively on the Level of the Target Vol Strategy. If the Level of the Target Vol Strategy rises in relation to the Strike, the market value of the Securities linked to Target Vol Strategies with Locally Floored/Capped Asian Out regularly rises. On the other hand, if the Level of the Target Vol Strategy falls, the market value of the Securities linked to Target Vol Strategies with Locally Floored/Capped Asian Out regularly falls. In addition, other factors may influence the market value of the Securities linked to Target Vol Strategies with Locally Floored/Capped Asian Out. Such factors include: a change regarding general interest rates, etc.

Interest

The Securities do not bear interest.

Redemption

Securities linked to Target Vol Strategies with Locally Floored/Capped Asian Out will be redeemed on the Final Payment Date. The Security Holder receives the Redemption Amount in the Specified Currency which is calculated by multiplying the Calculation Amount by a sum. The sum is formed by adding the Floor Level to a product. The product is formed by multiplying the Participation Factor with a difference. The difference is formed by subtracting the Strike from the Modified Average Performance. Expressed with a formula, that means:

$$\text{Redemption Amount} = \text{Calculation Amount} \times (\text{Floor Level} + \text{Participation Factor} \times (\text{Modified Average Performance} - \text{Strike}))$$

The Redemption Amount will not be **lower** than the Minimum Amount.

Optional additional feature: Cap

The Redemption Amount will not be **greater** than the Maximum Amount.

Modified Average Performance calculation

With regard to the Modified Average Performance, one of the following options may be selected in the Final Terms:

Option 1: Locally Floored

The Modified Average Performance is calculated by multiplying a quotient (formed by dividing one (1) by L) with a sum. The sum (from l=1 to L) is formed from the greater of either the Local Floor (l) (as specified in the Final Terms) or a quotient. This quotient is formed by dividing R (l) by the Initial Reference Price. Expressed with a formula, that means:

$$\frac{1}{L} \times \sum_{l=1}^L \max \left(\text{Local Floor (l)}, \frac{R(l)}{\text{Initial Reference Price}} \right)$$

The Modified Average Performance is calculated as the arithmetic average performance of the Underlying on the observation dates (l) but with the modification that the value of the specified

Local Floor(l) is considered for the average calculation in case that the Local Floor (l) is higher than the performance.

Option 2: Locally Floored and Capped

The Modified Average Performance is calculated by multiplying a quotient (formed by dividing one (1) by L) with a sum. The sum (from l=1 to L) is formed from the smaller of either the Local Cap (l) (as specified in the Final Terms) or another value. This value is the greater of either the Local Floor (l) (as specified in the Final Terms) or a quotient. This quotient is formed by dividing R (l) by the Initial Reference Price. Expressed with a formula, that means:

$$\frac{1}{L} \times \sum_{l=1}^L \min \left(\text{Local Cap (l)}, \max \left(\text{Local Floor (l)}, \frac{R(l)}{\text{Initial Reference Price}} \right) \right)$$

The Modified Average Performance is calculated as the arithmetic average performance of the Underlying on the observation dates (l) but with the modification that (i) the value of the specified Local Floor(l) is considered for the average calculation in case that the Local Floor (l) is higher than the performance and (ii) the value of the specified Local Cap (l) is considered for the average calculation in case the Local Cap (l) is lower than the performance.

L means the number of Observation Dates (l).

R (l) means Level of the Target Vol Strategy on the Observation Date (l).

Initial reference price calculation

With regard to the determination of the Initial Reference Price, one of the following options may be selected in the Final Terms:

Option 1: Initial Determination

Initial Reference Price means the Level of the Target Vol Strategy specified in the respective Final Terms.

Option 2: Initial Reference Price Observation

Initial Reference Price means the Level of the Target Vol Strategy determined on the Initial Observation Date.

Level of the Target Vol Strategy calculation

The Level of the Target Vol Strategy on each Calculation Date_t will be calculated by the Calculation Agent as the product of (a) the Level of the Target Vol Strategy with respect to the Calculation Date immediately preceding Calculation Date_t and (b) the sum of (i) one and (ii) the dynamically weighted Return of the Underlying with respect to the Calculation Date_t and (iii) the dynamically weighted daily fraction (Act/360) of the Reference Rate (as specified in the Final Terms).

The Reference Rate used for the calculation of the Level of the Target Vol Strategy will be the Reference Rate of the immediately preceding period.

Return of the Underlying means the Performance of the Underlying minus one (1).

The Performance of the Underlying depends on the Reference Price of the Underlying on the Calculation Date divided by the Reference Price on the preceding Calculation Date.

Dynamic Weight calculation

On each Calculation Date_t, the Dynamic Weight_t (DW_t) is calculated by dividing the Target Volatility (as specified in the Final Terms) by the Underlying Volatility_t.

The Dynamic Weight will **not be lower** than the Minimum Weight and **not be greater** than the Maximum Weight.

Optional additional feature fees

The Final Terms may specify that the following fees will be taken into account (individually or cumulatively) when calculating the Level of the Target Vol Strategy (TVL_t):

Option 1:

Fee_{TVL}

Option 2:

Fee_{Underlying}

Option 3:

Fee_{RateFix}

Option 4:

Fee_{RateVariable}

Option 5:

Fee_{StratFix}

Option 6:

Fee_{StratVariable}

The parameters of those fees will be specified in the Final Terms.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

1.8. Product Type 19: Protection Telescope Securities linked to Target Vol Strategies

General

The value of the Telescope Securities linked to Target Vol Strategies depends on the Level of the Strategy which in turn depends on the performance of the Underlying and the level of the Reference Rate.

If the Level of the Strategy rises, the market value of the Securities regularly rises. On the other hand, if the Level of the Strategy falls, the value of the Securities regularly falls: for the Security Holder, investing in Telescope Securities linked to Target Vol Strategies means taking a position comprised of two dynamically linked elements where the participation in the Underlying and in the Reference Rate varies depending on the volatility of the Underlying. This entails opportunities and risks.

Influence of the Underlying on the market value of the Telescope Securities linked to Target Vol Strategies

The market value of the Telescope Securities linked to Target Vol Strategies during their term depends decisively on the Level of the Strategy. If the Level of the Strategy rises in relation to the Strike Level, the market value of the Telescope Securities linked to Target Vol Strategies regularly rises. On the other hand, if the Level of the Strategy falls in relation to the Strike Level, the market value of the Telescope Securities linked to Target Vol Strategies regularly falls. In addition, other factors may influence the market value of the Telescope Securities linked to Target Vol Strategies. Such factors include: a change regarding general interest rates, etc.

Interest

The Securities do not bear interest.

Additional Conditional Amount (m)

With regard to the Additional Conditional Amount (m) one of the following options may be selected in the Final Terms:

Option 1: Additional Conditional Amount (m)

- (A) On an Observation Date (m), the Performance of the Strategy is **greater** than the Strike Level (as specified in the Final Terms). The Security Holder will receive the Additional Conditional Amount (m) on the respective Additional Conditional Amount Payment Date (m). The Additional Conditional Amount (m) is calculated by multiplying the Calculation Amount by the Participation Factor and a quotient. The quotient is formed by dividing a difference by D (*Telescope*) (m) (as specified in the Final Terms). The difference is formed by subtracting the Strike Level from the Performance of the Strategy (m). Expressed with a formula, that means:

$$\text{Additional Conditional Amount (m)} = \text{Calculation Amount} \times \text{Participation Factor} \times \frac{\text{Performance of the Strategy (m)} - \text{Strike Level}}{\text{D (Telescope) (m)}}$$

- (B) On an Observation Date (m), the Performance of the Strategy is **lower than or equal to** the Strike Level. The Security Holder will not receive any Additional Conditional Amount (m) on the respective Additional Conditional Amount Payment Date (m).

Option 2: Additional Unconditional Amount (m)

The Security Holder will receive the Additional Unconditional Amount (m) on the respective Additional Unconditional Amount Payment Date (m). The Additional Unconditional Amount (m) is calculated by multiplying the Calculation Amount by the Participation Factor and a quotient. The quotient is formed by dividing a difference by D (*Telescope*) (m) (as specified in the Final Terms). The difference is formed by subtracting the Strike Level from the Performance of the Strategy (m). Expressed with a formula, that means:

$$\text{Additional Unconditional Amount (m)} = \text{Calculation Amount} \times \text{Participation Factor} \times$$

$$\frac{\text{Performance of the Strategy (m)} - \text{Strike Level}}{D (\text{Telescope})(m)}$$

The Additional Unconditional Amount (m) will **not be lower** than the Minimum Unconditional Additional Amount (m).

Optional additional feature: Maximum Additional Amount (m)

Regardless of which one of the two options above is chosen, the Final Terms may specify that the Additional Conditional Amount (m) or, respectively, the Additional Unconditional Amount (m) will **not be greater** than the Maximum Additional Conditional Amount (m) or the Maximum Additional Unconditional Amount (m).

Performance of the Strategy (m) calculation

The Performance of the Strategy (m) is equal to the quotient of the Level of the Strategy on the respective Observation Date (S (m)) and the Start Level of the Strategy (S (initial), as specified in the Final Terms).

With regard to the Level of the Strategy, one of the following options may be selected in the Final Terms:

Option 1: Excess Return

The Level of the Strategy on any given Strategy Calculation Date is calculated based on (i) the Strategy Level on the immediately preceding Strategy Calculation Date, (ii) the Dynamic Weight on the immediately preceding Strategy Calculation Date, (iii) the difference between the Return of the Underlying and the Reference Rate on the respective Strategy Calculation Date, (iv) the Reference Rate determined in relation to the immediately preceding Strategy Calculation Date, taking into account any Strategy Fee (based on the Level of the Strategy) (Fee_{Strat}) and any Strategy Fee (based on the Underlying) (Fee_{UL}). For details on the fees, please see section VII.A.2 above.

Option 2: Total Return with consideration of a Reference Rate

The Level of the Strategy on any given Strategy Calculation Date is calculated based on (i) the Strategy Level on the immediately preceding Strategy Calculation Date, (ii) the Dynamic Weight on the immediately preceding Strategy Calculation Date, (iii) the Return of the Underlying on the respective Strategy Calculation Date, (iv) the Reference Rate determined in relation to the immediately preceding Strategy Calculation Date, taking into account the difference between 100% and the Dynamic Weight_t (DW_t) and any Strategy Fee (based on the Level of the Strategy) (Fee_{Strat}) and any Strategy Fee (based on the Underlying) (Fee_{UL}). For details on the fees, please see section VII.A.2 above.

Option 3: Total Return without consideration of a Reference Rate

The Level of the Strategy on any given Strategy Calculation Date is calculated based on (i) the Strategy Level on the immediately preceding Strategy Calculation Date, (ii) the Dynamic Weight on the immediately preceding Strategy Calculation Date, (iii) the Return of the Underlying on the respective Strategy Calculation Date, taking into account any Strategy Fee (based on the Underlying) (Fee_{UL}).

The Dynamic Weight corresponds to the quotient between the Target Volatility and the realized Underlying Volatility in respect of any given Strategy Calculation Date.

The Underlying Volatility is calculated based on the Return of the Underlying.

The Return of the Underlying corresponds to the difference between the Reference Price of the Underlying on any given Strategy Calculation Date (R (t_i)) and the Reference Price of the Underlying on the immediately preceding Strategy Calculation Date (R (t_{i-1})), divided by (R (t_{i-1})). The Dynamic Weight will not be greater than the Maximum Weight and not be lower than the Minimum Weight.

Dynamic Weight calculation

On each Strategy Calculation Date_i, the Dynamic Weight (DW_i) is calculated by dividing the Target Volatility (as specified in the Final Terms) by the Underlying Volatility in relation to the Strategy Calculation Date_i (Vol_i).

The Dynamic Weight will **not be lower** than the Minimum Weight and **not be greater** than the Maximum Weight.

Redemption

Telescope Securities linked to Target Vol Strategies will be redeemed on the Final Payment Date. The Security Holder receives the Redemption Amount in the Specified Currency which is equal to the Minimum Amount.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

1.9. Product Type 20: Protection Securities linked to Target Vol Strategies

General

The Securities will be issued as Upside Securities. This means:

The value of the Securities during their term depends decisively on the Level of the Target Vol Strategy. If the Level of the Target Vol Strategy rises, the value of the Securities regularly rises. If the Level of the Target Vol Strategy falls, the value of the Securities regularly falls.

Redemption on the Final Payment Date depends on the performance of the Level of the Target Vol Strategy, which is linked to the performance of the Underlying A and the Underlying B under consideration of a Dynamic Weighting. The Dynamic Weighting depends on the volatility of the Underlying relative to the Target Volatility. The Underlying B is taken into account with a weight at the difference between 100% and the Dynamic Weighting. This means (without considering the deduction of the Fees, if any): If the volatility of the Underlying A is higher than the Target Volatility then the Level of the Target Vol Strategy participates with less than 100% in the performance of the Underlying A, subject to a Minimum Weight, and the Underlying B is taken into account with a positive weight. If the volatility of the Underlying A is less than the Target Volatility then the Level of the Target Vol Strategy participates with more than 100% in the performance of the Underlying A, subject to a Maximum Weight, and the Underlying B is taken into account with a negative weight. The Security Holder participates in the performance of the Level of the Target Vol Strategy under consideration of the Participation Factor, benefiting from a rising Level of the Target Vol Strategy in relation to the Strike, as specified in the relevant Final Terms. The Security Holder receives at least the Minimum Amount. The Minimum Amount may be equal to, less than or greater than the Calculation Amount.

In the case of Protection Securities Linked to Target Vol Strategies with Maximum Amount, then the Redemption Amount is in no case higher than the Maximum Amount.

Underlying A may be linked to Shares, Financial Indices, Fund Shares or commodities.

Underlying B may either be a Reference Rate or a Fund Share.

The Securities are always issued as Securities with cash settlement.

The Securities may be issued as non-Quanto or Quanto Securities.

Interest

The Securities do not bear interest.

Additional Unconditional Amount

The following option may be specified in the relevant Final Terms:

- Additional Unconditional Amount.

For further information on the Additional Unconditional Amounts, see section "B. 3.1. Additional Unconditional Amount" below.

Redemption

If no Conversion Event has occurred, the Securities are redeemed on the Final Payment Date at the Redemption Amount.

If no Barrier Event has occurred, the Redemption Amount is equal to

- (i) the Calculation Amount
- (ii) multiplied by the Floor Level plus
 - (a) the Participation Factor multiplied by
 - (b) the maximum between
 - (1) the difference between the quotient of R (final), as the numerator, and R (initial) as the denominator, and the Strike,

and

(2) zero.

If a Barrier Event has occurred, the Redemption Amount is equal to

- (i) the Calculation Amount
- (ii) multiplied by the quotient of R (final), as the numerator, and R (initial) as the denominator.

The Redemption Amount is in no event less than the Minimum Amount.

The Redemption Amount is in no event higher than the Maximum Amount (if applicable).

The Floor Level will be specified in the relevant Final Terms. In the case of Securities linked to Target Vol Strategies with Protection Lock-in feature, the Floor Level will be equal to: (i) the percentage specified in the respective Final Terms, if a Protection Lock-in Event has not occurred on any Protection Lock-in Date (k), or (ii) the Protection Lock-in (k) related to the last Protection Lock in Date (k) on which a Protection Lock-in Event has occurred.

The Strike will be specified in the relevant Final Terms. In the case of Securities linked to Target Vol Strategies with Protection Lock-in feature, the Strike will be equal to: (i) the percentage specified in the respective Final Terms, if a Protection Lock-in Event has not occurred on any Protection Lock-in Date (k), or (ii) the Protection Lock-in (k) related to the last Protection Lock in Date (k) on which a Protection Lock-in Event has occurred.

In the case of Securities linked to Target Vol Strategies with Protection Lock-in feature, a Protection Lock-in Event will occur if T (k), on a Protection Lock-in Date (k) is greater than or equal to the Protection Lock-in Level (k). If a Protection Lock-in Event has occurred the Protection Lock-in (k) will be the Floor Level and the Strike for the purposes of the determination of the Redemption Amount.

If a Protection Lock-in Event has occurred on more than one Protection Lock-in Date (k), it will be taken into consideration only the Protection Lock-in (k) related to the last Protection Lock-in Date (k) on which a Protection Lock-in Event has occurred.

T (k) means the Level of the Target Vol Strategy on the respective Protection Lock-in Date (k).

The Protection Lock-in (k) (if applicable) will be specified in the relevant Final Terms.

A Barrier Event means the fact that R (final) is lower than the Barrier.

The Barrier or the method of its determination is specified in the respective Final Terms.

R (initial) means, as specified in the respective Final Terms:

- the Level of the Target Vol Strategy on the Initial Observation Date or
- the equally weighted average (arithmetic average) of the Levels of the Target Vol Strategy determined on the Initial Observation Dates.

R (final) means, as specified in the respective Final Terms:

- for Securities with final Reference Price observation, the Level of the Target Vol Strategy on the Final Observation Date, or for Securities with final average observation, R (final) means the equally weighted average (arithmetic average) of the Levels of the Target Vol Strategy on the Final Observation Dates.

The Level of the Target Vol Strategy on each Calculation Date_t will be calculated by the Calculation Agent as the product of (a) the Level of the Target Vol Strategy with respect to the Calculation Date immediately preceding Calculation Date_t and (b) the sum of (i) one, (ii) the dynamically weighted Return of Underlying A with respect to the Calculation Date_t and (iii) the dynamically weighted daily fraction (Act/360) of the Return of Underlying B. The Final Terms may specify a Fee_{ULA}, Fee_{TVL}, a Fee_{ULB} and/or a Fee_{Strat} to be taken into account by way of deduction.

"Return of Underlying A" means, with respect to a Calculation Date_t, as the Reference Price of the Underlying A on the Calculation Date_t minus the Reference Price of the Underlying A on the

Calculation Date immediately preceding the respective Calculation Date_t and divided by the Reference Price of the Underlying A on the Calculation Date immediately preceding the respective Calculation Date_t.

"Return of the Underlying B" means, with respect to a Calculation Date_t, as specified in the relevant Final Terms:

- the Reference Rate determined on the Reference Rate Reset Date with respect to the Calculation Date immediately preceding the respective Calculation Date_t, or

the Reference Price of the Underlying B on the Calculation Date_t minus the Reference Price of the Underlying B on the Calculation Date immediately preceding the respective Calculation Date_t and divided by the Reference Price of the Underlying B on the Calculation Date immediately preceding the respective Calculation Date_t, Fee_{ULA} (if applicable), Fee_{TVL} (if applicable), Fee_{ULB} (if applicable), Fee_{Strat} (if applicable), Minimum Amount, Minimum Weight, Maximum Weight, Participation Factor, Maximum Amount (if applicable), Underlying B, Strike Target Volatility, Barrier and Floor Level are specified in the respective Final Terms.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

1.10. Product Type 21: Protection Securities linked to Target Vol Basket Strategies

General

The Securities will be issued as Upside Securities. This means:

The value of the Securities linked to Target Vol Basket Strategies depends on the Level of the Target Vol Strategy which in turn depends on the performance of the Underlying and the level of the Reference Rate.

If the Level of the Target Vol Strategy rises, the market value of the Securities regularly rises. On the other hand, if the Level of the Target Vol Strategy falls, the value of the Securities regularly falls: for the Security Holder, investing in Securities linked to Target Vol Basket Strategies means taking a position comprised of two dynamically linked elements where the participation in the Underlying and in the Reference Rate varies depending on the volatility of the Underlying. This entails opportunities and risks.

The market value of the Securities linked to Target Vol Basket Strategies during their term depends decisively on the Level of the Target Vol Strategy. If the Level of the Target Vol Strategy rises in relation to the Strike, the market value of the Securities linked to Target Vol Basket Strategies regularly rises. On the other hand, if the Level of the Target Vol Strategy falls, the market value of the Securities linked to Target Vol Basket Strategies regularly falls. In addition, other factors may influence the market value of the Securities linked to Target Vol Basket Strategies. Such factors include: a change regarding general interest rates, etc.

Interest

The Securities do not bear interest.

Redemption

Securities linked to Target Vol Basket Strategies will be redeemed on the Final Payment Date. The Security Holder receives the Redemption Amount in the Specified Currency which is calculated by multiplying the Calculation Amount by a sum. The sum is formed by adding the Floor Level to a product. The product is formed by multiplying the Participation Factor with a difference. The difference is formed by subtracting the Strike from a quotient. The quotient is formed by dividing the Final Reference Price by the Initial Reference Price. Expressed with a formula, that means:

$$\text{Redemption Amount} = \text{Calculation Amount} \times \left(\text{Floor Level} + \text{Participation Factor} \times \left(\frac{\text{Final Reference Price}}{\text{Initial Reference Price}} - \text{Strike} \right) \right)$$

The Redemption Amount will not be **lower** than the Minimum Amount.

Initial reference price calculation

With regard to the determination of the Initial Reference Price, one of the following options may be selected in the Final Terms:

Option 1: Initial Determination

Initial Reference Price means the Level of the Target Vol Strategy specified in the respective Final Terms.

Option 2: Initial Reference Price Observation

Initial Reference Price means the Level of the Target Vol Strategy determined on the Initial Observation Date.

Option 3: Initial Average Observation

Initial Reference Price means the equally weighted average of the Levels of the Target Vol Strategy determined on the Initial Observation Dates.

Final reference price calculation

With regard to the determination of the Final Reference Price, one of the following options may be selected in the Final Terms:

Option 1: Final Reference Price Observation

Final Reference Price means the Level of the Target Vol Strategy determined on the Final Observation Date.

Option 2: Final Average Observation

Final Reference Price means the equally weighted average of the Levels of the Target Vol Strategy determined on the Final Observation Dates.

Level of the Target Vol Strategy calculation

The Level of the Target Vol Strategy on each Calculation Date_t will be calculated by the Calculation Agent as the product of (a) the Level of the Target Vol Strategy with respect to the Calculation Date immediately preceding Calculation Date_t and (b) the sum of (i) one, (ii) the dynamically weighted Return of the Basket with respect to the Calculation Date_t and (iii) the dynamically weighted daily fraction (Act/360) of the Reference Rate (as specified in the Final Terms) with respect to the Calculation Date_t.

The Reference Rate used for the calculation of the Level of the Target Vol Strategy will be the Reference Rate of the immediately preceding period. The Reference Rate with respect to the Calculation Date_t is determined as specified in the Final Terms.

Return of Basket means the sum of the weighted Performances of the Basket Components minus one (1). The Weighting_i (W_i) of the relevant Basket Component will be specified in the Final Terms.

The Performance of the Basket Component depends on the Reference Price the respective Basket Component on the Calculation Date_t divided by the Reference Price on the preceding Calculation Date.

Dynamic Weight calculation

On each Calculation Date_t, the Dynamic Weight_t (DW_t) is calculated by dividing the Target Volatility (as specified in the Final Terms) by the Basket Volatility_t.

The Dynamic Weight will **not be lower** than the Minimum Weight and **not be greater** than the Maximum Weight.

Optional additional feature fees

The Final Terms may specify that the following fees will be taken into account (individually or cumulatively) when calculating the Level of the Target Vol Strategy (TVL_t):

Option 1:

Fee_{TVL}

Option 2:

Fee_{Basket}

Option 3:

Fee_{Rate}

Option 4:

Fee_{Strat}

The parameters of those fees will be specified in the Final Terms.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

1.11. Product Type 22: Protection Securities linked to Target Vol Basket Strategies with Locally Floored/Capped Asian Out

General

The Securities will be issued as Upside Securities. This means:

The value of the Securities linked to Target Vol Basket Strategies with Locally Floored/Capped Asian Out depends on the Level of the Target Vol Strategy which in turn depends on the performance of the Underlying and the level of the Reference Rate.

If the Level of the Target Vol Strategy rises, the market value of the Securities regularly rises. On the other hand, if the Level of the Target Vol Strategy falls, the value of the Securities regularly falls: for the Security Holder, investing in Securities linked to Target Vol Basket Strategies with Locally Floored / Capped Asian Out means taking a position comprised of two dynamically linked elements where the participation in the Underlying and in the Reference Rate varies depending on the volatility of the Underlying. This entails opportunities and risks.

The market value of the Securities linked to Target Vol Basket Strategies with Locally Floored/Capped Asian Out during their term depends decisively on the Level of the Target Vol Strategy. If the Level of the Target Vol Strategy rises in relation to the Strike, the market value of the Securities linked to Target Vol Basket Strategies with Locally Floored/Capped Asian Out regularly rises. On the other hand, if the Level of the Target Vol Strategy falls, the market value of the Securities linked to Target Vol Basket Strategies with Locally Floored/Capped Asian Out regularly falls. In addition, other factors may influence the market value of the Securities linked to Target Vol Basket Strategies with Locally Floored/Capped Asian Out. Such factors include: a change regarding general interest rates, etc.

Interest

The Securities do not bear interest.

Redemption

Securities linked to Target Vol Basket Strategies with Locally Floored/Capped Asian Out will be redeemed on the Final Payment Date. The Security Holder receives the Redemption Amount in the Specified Currency which is calculated by multiplying the Calculation Amount by a sum. The sum is formed by adding the Floor Level to a product. The product is formed by multiplying the Participation Factor with a difference. The difference is formed by subtracting the Strike from the Modified Average Performance. Expressed with a formula, that means:

$$\text{Redemption Amount} = \text{Calculation Amount} \times (\text{Floor Level} + \text{Participation Factor} \times (\text{Modified Average Performance} - \text{Strike}))$$

The Redemption Amount will not be **lower** than the Minimum Amount.

Modified Average Performance calculation

With regard to the Modified Average Performance, one of the following options may be selected in the Final Terms:

Option 1: Locally Floored

The Modified Average Performance is calculated by multiplying a quotient (formed by dividing one (1) by L) with a sum. The sum (from l=1 to L) is formed from the greater of either the Local Floor (l) (as specified in the Final Terms) or a quotient. This quotient is formed by dividing R (l) by the Initial Reference Price. Expressed with a formula, that means:

$$\frac{1}{L} \times \sum_{l=1}^L \max \left(\text{Local Floor (l)}, \frac{R(l)}{\text{Initial Reference Price}} \right)$$

The Modified Average Performance is calculated as the arithmetic average performance of the Underlying on the observation dates (l) but with the modification that the value of the specified Local Floor(l) is considered for the average calculation in case that the Local Floor (l) is higher than the performance.

Option 2: Locally Floored and Capped

The Modified Average Performance is calculated by multiplying a quotient (formed by dividing one (1) by L) with a sum. The sum (from l=1 to L) is formed from the smaller of either the Local Cap (l) (as specified in the Final Terms) or another value. This value is the greater of either the Local Floor (l) (as specified in the Final Terms) or a quotient. This quotient is formed by dividing R (l) by the Initial Reference Price. Expressed with a formula, that means:

$$\frac{1}{L} \times \sum_{l=1}^L \min \left(\text{Local Cap (l)}, \max \left(\text{Local Floor (l)}, \frac{R(l)}{\text{Initial Reference Price}} \right) \right)$$

The Modified Average Performance is calculated as the arithmetic average performance of the Underlying on the observation dates (l) but with the modification that (i) the value of the specified Local Floor(l) is considered for the average calculation in case that the Local Floor (l) is higher than the performance and (ii) the value of the specified Local Cap (l) is considered for the average calculation in case the Local Cap (l) is lower than the performance.

L means the number of Observation Dates (l).

R (l) means Level of the Target Vol Strategy on the Observation Date (l).

Initial reference price calculation

With regard to the determination of the Initial Reference Price, one of the following options may be selected in the Final Terms:

Option 1: Initial Determination

Initial Reference Price means the Level of the Target Vol Strategy specified in the respective Final Terms.

Option 2: Initial Reference Price Observation

Initial Reference Price means the Level of the Target Vol Strategy determined on the Initial Observation Date.

Level of the Target Vol Strategy calculation

The Level of the Target Vol Strategy on each Calculation Date_t will be calculated by the Calculation Agent as the product of (a) the Level of the Target Vol Strategy with respect to the Calculation Date immediately preceding Calculation Date_t and (b) the sum of (i) one and (ii) the dynamically weighted Return of the Basket with respect to the Calculation Date_t and (iii) the dynamically weighted daily fraction (Act/360) of the Reference Rate (as specified in the Final Terms).

The Reference Rate used for the calculation of the Level of the Target Vol Strategy will be the Reference Rate of the immediately preceding period.

Return of Basket means the sum of the weighted Performances of the Basket Components minus one (1). The Weighting_i (W_i) of the relevant Basket Component will be specified in the Final Terms.

The Performance of the Basket Component depends on the Reference Price of the Basket Component on the Calculation Date_t divided by the Reference Price on the preceding Calculation Date.

Dynamic Weight calculation

On each Calculation Date_t, the Dynamic Weight (DW_t) is calculated by dividing the Target Volatility (as specified in the Final Terms) by the Basket Volatility_t.

The Dynamic Weight will **not be lower** than the Minimum Weight and **not be greater** than the Maximum Weight.

Optional additional feature fees

The Final Terms may specify that the following fees will be taken into account (individually or cumulatively) when calculating the Level of the Target Vol Strategy (TVL_t):

Option 1:

Fee_{TVL}

Option 2:

Fee_{Basket}

Option 3:

Fee_{Rate}

Option 4:

Fee_{RateVariable}

Option 5:

Fee_{Strat}

Option 6:

Fee_{StratFix}

Option 7:

Fee_{StratVariable}

The parameters of those fees will be specified in the Final Terms.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

2. ADDITIONAL CONDITIONAL AMOUNTS

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, the following Additional Conditional Amounts (m) may be specified in the relevant Final Terms.

2.1. Additional Conditional Amount (*Coupon*)

If an Additional Conditional Amount (*Coupon*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the respective Additional Conditional Amount (*Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Coupon*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has not occurred, the respective Additional Conditional Amount (*Coupon*) (m) will not be paid.

Option: Consolidation Feature:

However, if with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the Additional Conditional Amount (*Coupon*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Coupon*) (m) will be paid on each Additional Conditional Amount Payment Date (*Coupon*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Coupon*) has occurred. In this case the Additional Conditional Amount (*Coupon*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) occurs.

The Additional Conditional Amount (*Coupon*) (m) with respect to each Additional Conditional Amount Observation Date (*Coupon*) (m) will be specified in the relevant Final Terms.

With respect to the determination of the occurrence of an Additional Conditional Amount Payment Event (*Coupon*), one of the following options may be specified in the relevant Final Terms:

In the case of Upside Securities, the following applies:

An Additional Conditional Amount Payment Event (*Coupon*) occurs, if the Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level (*Coupon*) (m).

In the case of Downside Securities, the following applies:

An Additional Conditional Amount Payment Event (*Coupon*) occurs, if the Relevant Performance (m) is equal to or lower than the Additional Conditional Amount Payment Level (*Coupon*) (m).

In the case of Securities with Basket Performance Determination, the Relevant Performance (m) corresponds to the Performance of the Underlying (m).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (m) corresponds to the Best Performance (m).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (m) corresponds to the Worst Performance (m).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

2.2. Additional Conditional Amount (*Range Coupon*)

If an Additional Conditional Amount (*Range Coupon*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has occurred, the respective

Additional Conditional Amount (*Range Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Range Coupon*) (m).

- If with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has not occurred, the respective Additional Conditional Amount (*Range Coupon*) (m) will not be paid.

The Additional Conditional Amount (*Range Coupon*) (m) with respect to each Additional Conditional Amount Observation Date (*Range Coupon*) (m) will be specified in the relevant Final Terms.

An Additional Conditional Amount Payment Event (*Range Coupon*) occurs, if the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level (low) (*Range Coupon*) (m) and equal to or lower than the Additional Conditional Amount Payment Level (high) (*Range Coupon*) (m).

In the case of Securities with Basket Performance Determination, the Relevant Performance (m) corresponds to the Performance of the Underlying (m).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (m) corresponds to the Best Performance (m).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (m) corresponds to the Worst Performance (m).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

2.3. Additional Conditional Amount (*Digital*)

If an Additional Conditional Amount (*Digital*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) an Additional Conditional Amount Payment Event (high) (*Digital*) has occurred, the respective Additional Conditional Amount (high) (*Digital*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Digital*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) an Additional Conditional Amount Payment Event (low) (*Digital*) has occurred, the respective Additional Conditional Amount (low) (*Digital*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Digital*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) no Additional Conditional Amount Payment Event (high) (*Digital*) and no Additional Conditional Amount Payment Event (low) (*Digital*) has occurred, neither the respective Additional Conditional Amount (high) (*Digital*) (m) nor the respective Additional Conditional Amount (low) (*Digital*) (m) will be paid.

The Additional Conditional Amount (high) (*Digital*) (m) with respect to each Additional Conditional Amount Observation Date (*Digital*) (m) will be specified in the relevant Final Terms.

The Additional Conditional Amount (low) (*Digital*) (m) with respect to each Additional Conditional Amount Observation Date (*Digital*) (m) will be specified in the relevant Final Terms.

An Additional Conditional Amount Payment Event (high) (*Digital*) occurs, if the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level (high) (*Digital*) (m).

An Additional Conditional Amount Payment Event (low) (*Digital*) (m) occurs, if the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level (low) (*Digital*) (m) and lower than the Additional Conditional Amount Payment Level (high) (*Digital*) (m).

In the case of Securities with Basket Performance Determination, the Relevant Performance (m) corresponds to the Performance of the Underlying (m).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (m) corresponds to the Best Performance (m).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (m) corresponds to the Worst Performance (m).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

2.4. Additional Conditional Amount (*Memory*)

If an Additional Conditional Amount (*Memory*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has occurred, the respective Additional Conditional Amount (*Memory*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Memory*) (m) less the sum of all Additional Conditional Amounts (*Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has not occurred, the respective Additional Conditional Amount (*Memory*) (m) will not be paid.

Option: Consolidation Feature:

If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has occurred, the Additional Conditional Amount (*Memory*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Memory*) (m) less the sum of all Additional Conditional Amounts (*Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m) will be paid on each Additional Conditional Amount Payment Date (*Memory*) (m) thereafter, without consideration of the occurrence of an Additional Conditional Amount Payment Event (*Memory*). In this case the Additional Conditional Amount (*Memory*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) occurs.

The Additional Conditional Amount (*Memory*) (m) with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) will be specified in the relevant Final Terms.

With respect to the determination of the occurrence of an Additional Conditional Amount Payment Event (*Memory*), one of the following options may be specified in the relevant Final Terms:

In the case of *Upside Securities*, the following applies:

An Additional Conditional Amount Payment Event (*Memory*) occurs, if the respective Relevant Performance (m) is equal to or greater than the corresponding Additional Conditional Amount Payment Level (*Memory*) (m).

In the case of *Downside Securities*, the following applies:

An Additional Conditional Amount Payment Event (*Memory*) occurs, if the respective Relevant Performance (m) is equal to or lower than the corresponding Additional Conditional Amount Payment Level (*Memory*) (m).

In the case of Securities with Basket Performance Determination, the Relevant Performance (m) corresponds to the Performance of the Underlying (m).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (m) corresponds to the Best Performance (m).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (m) corresponds to the Worst Performance (m).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

2.5. Additional Conditional Amount (*Performance*)

If an Additional Conditional Amount (*Performance*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) an Additional Conditional Amount Payment Event (*Performance*) has occurred, the respective Additional Conditional Amount (*Performance*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Performance*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) an Additional Conditional Amount Payment Event (*Performance*) has not occurred, the respective Additional Conditional Amount (*Performance*) (m) will not be paid.

The Additional Conditional Amount (*Performance*) (m) on the respective Additional Conditional Amount Observation Date (*Performance*) (m) is equal to the Calculation Amount multiplied by the Participation Factor (m) and the Relevant Performance (m).

If a Maximum Additional Conditional Amount (*Performance*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Performance*) (m) is not greater than the Maximum Additional Conditional Amount (*Performance*) (m).

If a Minimum Additional Conditional Amount (*Performance*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Performance*) (m) is not lower than the Minimum Additional Conditional Amount (*Performance*) (m).

An Additional Conditional Amount Payment Event (*Performance*) occurs, if the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level (*Performance*) (m).

In the case of Securities with Basket Performance Determination, the Relevant Performance (m) corresponds to the Performance of the Underlying (m).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (m) corresponds to the Best Performance (m).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (m) corresponds to the Worst Performance (m).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

Depending on the Performance of the Underlying (m) and subject to a Minimum Additional Conditional Amount (m), the Additional Conditional Amount (m) may also be equal to zero (0).

2.6. Additional Conditional Amount (*Step-up Memory*)

If an Additional Conditional Amount (*Step-up Memory*) is specified in the relevant Final Terms, the following applies:

If with respect to an Additional Conditional Amount Observation Date (*Step-up Memory*) (m) any of the following events occurs, the respective Additional Conditional Amount (*Step-up Memory*) (m) will be paid on the respective Additional Conditional Amount Payment Date (*Step-up Memory*) (m).

- If the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level₁ (*Step-up Memory*) (m), the Additional Conditional

Amount (*Step-up Memory*) (m) is equal to the Additional Conditional Amount₁ (*Step-up Memory*) (m) less all the Additional Conditional Amounts₁ (*Step-up Memory*) (m) paid on the preceding Additional Conditional Amount Payment Dates (*Step-up Memory*) (m).

- If the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level₂ (*Step-up Memory*) (m), the Additional Conditional Amount (*Step-up Memory*) (m) is equal to the Additional Conditional Amount₁ (*Step-up Memory*) (m) plus the Additional Conditional Amount₂ (*Step-up Memory*) (m) less all the Additional Conditional Amounts₁ (*Step-up Memory*) (m) and all the Additional Conditional Amounts₂ (*Step-up Memory*) (m) paid on the preceding Additional Conditional Amount Payment Dates (*Step-up Memory*) (m).
- If the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level₃ (*Step-up Memory*) (m), the Additional Conditional Amount (*Step-up Memory*) (m) is equal to the Additional Conditional Amount₁ (*Step-up Memory*) (m) plus the Additional Conditional Amount₂ (*Step-up Memory*) (m) plus the Additional Conditional Amount₃ (*Step-up Memory*) (m) less all the Additional Conditional Amounts₁ (*Step-up Memory*) (m), all the Additional Conditional Amounts₂ (*Step-up Memory*) (m) and all the Additional Conditional Amounts₃ (*Step-up Memory*) (m) paid on the preceding Additional Conditional Amount Payment Dates (*Step-up Memory*) (m).

Otherwise, no Additional Conditional Amount (*Step-up Memory*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Step-up Memory*) (m).

The Additional Conditional Amount (*Step-up Memory*) (m) with respect to an Additional Conditional Amount Observation Date (*Step-up Memory*) (m) will be specified in the relevant Final Terms.

In the case of Securities with Basket Performance Determination, the Relevant Performance (m) corresponds to the Performance of the Underlying (m).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (m) corresponds to the Best Performance (m).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (m) corresponds to the Worst Performance (m).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

2.7. Additional Conditional Amount (*Telescope*)

If an Additional Conditional Amount (*Telescope*) is specified in the relevant Final Terms, the following applies:

- If with respect to an Additional Conditional Amount Observation Date (*Telescope*) (m) an Additional Conditional Amount Payment Event (*Telescope*) has occurred, the respective Additional Conditional Amount (*Telescope*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Telescope*) (m).
- If with respect to an Additional Conditional Amount Observation Date (*Telescope*) (m) an Additional Conditional Amount Payment Event (*Telescope*) has not occurred, the respective Additional Conditional Amount (*Telescope*) (m) will not be paid.

The Additional Conditional Amount (*Telescope*) (m) is equal to the Calculation Amount multiplied by (i) the respective Relevant Performance (*Telescope*) (m), (ii) the Participation Factor (m) and (iii) the number one (1) divided by the respective D (*Telescope*) (m).

If a Maximum Additional Conditional Amount (*Telescope*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Telescope*) (m) is also not higher than the relevant Maximum Additional Conditional Amount (*Telescope*) (m).

If a Minimum Additional Conditional Amount (*Telescope*) (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Telescope*) (m) is not lower than the Minimum Additional Conditional Amount (*Telescope*) (m).

An Additional Conditional Amount Payment Event (*Telescope*) (m) occurs, if the respective Relevant Performance (*Telescope*) (m) is equal to or greater than the corresponding Additional Conditional Amount Payment Level (*Telescope*) (m).

For each Additional Conditional Amount Observation Date (*Telescope*) (m), D (*Telescope*) (m) will be specified in the relevant Final Terms.

In the case of Securities with Basket Performance Determination, the Relevant Performance (m) corresponds to difference between (i) the Performance of the Underlying (m) and the Strike Level.

In the case of Securities with Best-of Performance Determination, the Relevant Performance (m) corresponds to difference between (i) the Best Performance (m) and the Strike Level.

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (m) corresponds to difference between (i) the Worst Performance (m) and the Strike Level.

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

3. ADDITIONAL FEATURES

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, the following additional features may be specified in the relevant Final Terms.

3.1. Additional Unconditional Amount

In the case of Securities where an Additional Unconditional Amount is specified in the relevant Final Terms, the respective Additional Unconditional Amount (l) will be paid on the corresponding Additional Unconditional Amount Payment Date (l).

3.2. Cap Feature

In the case of Securities with Cap Feature, the Redemption Amount is in no event higher than the Maximum Amount.

3.3. Instalment Payment

An Instalment Payment may be specified in the relevant Final Terms. If this is the case, the Security Holders are entitled to receive payment of the respective Instalment Amount (f) on each of the Instalment Payment Dates (f), subject to the occurrence of an Early Redemption Event (n), if applicable.

3.4. Protection Lock-in Feature

In the case of Securities where the Protection Lock-in Feature is specified in the relevant Final Terms, the following applies as specified:

If a Protection Lock-in Event has occurred in relation to (i) any or (ii) all Protection Lock-in Dates (k), as specified in the relevant Final Terms, the following applies, as specified in the relevant Final Terms:

The Floor Level and/or the Final Strike Level will be equal to the respective Protection Lock-in (k).

The Minimum Amount will be equal to the Calculation Amount multiplied by the respective Protection Lock-in (k).

A Protection Lock-in Event will occur if the Relevant Performance (k), on a Protection Lock-in Date (k) is (i) equal to or greater, or (ii) equal to or lower than the Protection Lock-in Level (k), as specified in the relevant Final Terms.

If a Protection Lock-in Event has occurred on more than one Protection Lock-in Date (k), it will be taken into consideration only the Protection Lock-in (k) related to the last Protection Lock-in Date (k) on which a Protection Lock-in Event has occurred, if so specified in the relevant Final Terms.

In the case of Securities with Basket Performance Determination, the Relevant Performance (k) corresponds to the Performance of the Underlying (k).

In the case of Securities with Basket Downside Performance Determination, the Relevant Performance (k) corresponds to the Performance of the Underlying (k).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (k) corresponds to the Best Performance (k).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (k) corresponds to the Worst Performance (k).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

4. AUTOMATIC EARLY REDEMPTION FEATURE

In the case of Securities where the Automatic Early Redemption Feature is specified in the relevant Final Terms, the following applies:

If an Early Redemption Event (n) has occurred, the Securities are automatically early redeemed on the respective Early Payment Date (n) by payment of the respective Early Redemption Amount (n).

The Early Redemption Amount (n) will be equal to or higher than 100% of the Calculation Amount.

In the case of Securities with Basket Performance Determination, the Relevant Performance (n) corresponds to the Performance of the Underlying (n).

In the case of Securities with Best-of Performance Determination, the Relevant Performance (n) corresponds to the Best Performance (n).

In the case of Securities with Worst-of Performance Determination, the Relevant Performance (n) corresponds to the Worst Performance (n).

4.1. Date-related Early Redemption Observation (*Upside*)

In the case of Securities where Date-related Early Redemption Observation (Upside) is specified in the relevant Final Terms, the following applies:

Early Redemption Event (n) means that the Relevant Performance (n) is equal to or greater than the respective Early Redemption Level (n).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

4.2. Date-related Early Redemption Observation (*Downside*)

In the case of Securities where Date-related Early Redemption Observation (Downside) is specified in the relevant Final Terms, the following applies:

Early Redemption Event (n) means that the Relevant Performance (n) is equal to or lower than the respective Early Redemption Level (n).

For further information on the Performance Determination see section "B. 6. Performance Determination" below.

5. BARRIER OBSERVATION

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, the following barrier observation methods may be specified in the relevant Final Terms.

5.1. Final Barrier Observation (*Upside*)

In the case of Securities where Final Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Relevant Performance (final) is lower than the Barrier Level.

5.2. Final Barrier Observation (*Downside*)

In the case of Securities where Final Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Relevant Performance (final) is higher than the Barrier Level.

5.3. Final Double Barrier Observation

In the case of Securities where Final Double Barrier Observation is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Relevant Performance (final) is either (i) lower than the Barrier Level Down or (ii) greater than the Barrier Level Up.

5.4. Date-related Barrier Observation (*Upside*)

In the case of Securities where Date-related Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Relevant Performance (b) on the Barrier Observation Date is lower than the Barrier Level.

5.5. Date-related Barrier Observation (*Downside*)

In the case of Securities where Date-related Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Relevant Performance (b) on the Barrier Observation Date is higher than the Barrier Level.

5.6. Date-related Double Barrier Observation

In the case of Securities where Date-related Double Barrier Observation is specified in the relevant Final Terms, the following applies:

Barrier Event means that the Relevant Performance (b) on the Barrier Observation Date is either (i) lower than the Barrier Level Down or (ii) greater than the Barrier Level Up.

5.7. Daily Barrier Observation (*Upside*)

In the case of Securities where Daily Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that any Reference Price of at least one Basket Component_i is either (i) equal to or lower, or (ii) lower than the respective Barrier_i during the Barrier Observation Period, as specified in the relevant Final Terms.

5.8. Daily Barrier Observation (*Downside*)

In the case of Securities where Daily Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that any Reference Price of at least one Basket Component_i is either (i) equal to or higher, or (ii) higher than the respective Barrier_i during the Barrier Observation Period, as specified in the relevant Final Terms.

5.9. Daily Double Barrier Observation

In the case of Securities where Daily Double Barrier Observation is specified in the relevant Final Terms, the following applies:

Barrier Event means that any Reference Price of at least one Basket Component_i is either (i) lower than the respective Barrier Level_{i,1} or (ii) greater than the respective Barrier Level_{i,2} during the Barrier Observation Period.

5.10. Continuous Barrier Observation (*Upside*)

In the case of Securities where Continuous Barrier Observation (*Upside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that any published price of at least one Basket Component_i is either equal to or lower than the respective Barrier_i during the Barrier Observation Period in the case of continuous observation.

5.11. Continuous Barrier Observation (*Downside*)

In the case of Securities where Continuous Barrier Observation (*Downside*) is specified in the relevant Final Terms, the following applies:

Barrier Event means that any published price of at least one Basket Component_i is equal to or greater than the respective Barrier_i during the Barrier Observation Period in the case of continuous observation.

6. PERFORMANCE DETERMINATION

6.1. Determination of the Performance of the Basket Component_i (m)

With respect to the determination of the Performance of the Basket Component_i (m) one of the following options may be specified in the relevant Final Terms:

Option 1:

The Performance of the Basket Component_i (m) is equal to the quotient of (i) K_i (m) minus the Strike_i as the numerator and (ii) K_i (initial) as the denominator.

Option 2:

The Performance of the Basket Component_i (m) is equal to the difference of (i) the quotient of K_i (m) as the numerator and K_i (initial) as the denominator and (ii) the Strike Level.

Option 3:

The Performance of the Basket Component_i (m) is equal to the difference of (i) the quotient of K_i (m) as the numerator and the Strike_i as the denominator and (ii) the number one (1).

Option 4:

The Performance of the Basket Component_i (m) is equal to the quotient of (i) K_i (m) as the numerator and (ii) K_i (initial) as the denominator.

6.2. Determination of the Relevant Performance (b)

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Relevant Performance (b):

(a) *Basket Performance Determination (b):*

The Relevant Performance (b) corresponds to the Performance of the Underlying (b).

The Performance of the Underlying (b) is the sum of the Performances of the Basket Components_i (b), which are taken into account according to their Weightings_i (= W_i).

The Performance of the Basket Component_i (b) is equal to K_i (b) divided by K_i (initial).

K_i (b) means, with respect to the Basket Component_i, the Reference Price_i on the respective Barrier Observation Date.

(b) *Best-of Performance Determination (b):*

The Relevant Performance (b) corresponds to the Best Performance (b).

In the case of Upside Securities, the following applies:

The Best Performance (b) is the highest Performance of the Basket Component_i (b) on the respective Barrier Observation Date.

In the case of Downside Securities, the following applies:

The Best Performance (b) is the lowest Performance of the Basket Component_i (b) on the respective Barrier Observation Date.

The Performance of the Basket Component_i (b) corresponds to K_i (b) divided by K_i (initial).

K_i (b) means, with respect to the Basket Component_i, the Reference Price_i on the respective Barrier Observation Date.

(c) *Worst-of Performance Determination (b):*

The Relevant Performance (b) corresponds to the Worst Performance (b).

In the case of Upside Securities, the following applies:

The Worst Performance (b) is the lowest Performance of the Basket Component_i (b) on the respective Barrier Observation Date.

*In the case of **Downside Securities**, the following applies:*

The Worst Performance (b) is the highest Performance of the Basket Component_i (b) on the respective Barrier Observation Date.

The Performance of the Basket Component_i (b) corresponds to K_i (b) divided by K_i (initial).

K_i (b) means, with respect to the Basket Component_i, the Reference Price_i on the respective Barrier Observation Date.

6.3. Determination of the Relevant Performance (final)

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Relevant Performance (final):

(a) *Basket Performance Determination (final):*

The Relevant Performance (final) corresponds to the Performance of the Underlying (final).

With respect to the determination of the Performance of the Underlying (final) one of the following options may be selected in the relevant Final Terms:

Option 1:

The Performance of the Underlying (final) is the sum of the Performances of the Basket Components_i (final), which are taken into account according to their Weightings_i (= W_i).

Option 2:

The Performance of the Underlying (final) is the difference of (i) the sum of the Performances of the Basket Components_i (final), which are taken into account according to their Weightings_i (= W_i), and (ii) the Final Strike Level.

With respect to the determination of the Performance of the Basket Component_i (final) one of the following options may be selected in the relevant Final Terms:

Option 1:

The Performance of the Basket Component_i (final) is equal to K_i (final) divided by K_i (initial).

Option 2:

The Performance of the Basket Component_i (final) is equal to the ratio from (i) the difference between K_i (final) and the Strike_i and (ii) K_i (initial).

Option 3:

The Performance of the Basket Component_i (final) is equal to the ratio from (i) the difference between K_i (final) and the Strike_i and (ii) the Strike_i.

Option 4:

The Performance of the Basket Component_i (final) is equal to K_i (final) divided by the Strike_i.

The Performance of the Basket Component_i may be floored at zero (0) in the relevant Final Terms.

Strike_i means the Strike for the relevant Basket Component_i as specified in the relevant Final Terms.

(b) *Basket Downside Performance Determination (final):*

The Relevant Performance (final) corresponds to the Downside Performance of the Underlying (final).

The Downside Performance of the Underlying (final) is the sum of the Downside Performances of the Basket Components_i (final), which are taken into account according to their Weightings_i (= W_i).

With respect to the determination of the Downside Performance of the Basket Component_i (final) one of the following options may be selected in the relevant Final Terms:

Option 1:

The Downside Performance of the Basket Component_i is equal to the ratio from (i) the difference between the Strike_i and K_i (final) and (ii) K_i (initial).

Option 2:

The Downside Performance of the Basket Component_i is equal to the ratio from (i) the difference between the Strike_i and K_i (final) and (ii) the Strike_i.

Option 3:

The Downside Performance of the Basket Component_i is equal to the difference between (i) the Strike_i and (ii) the ratio from K_i (final) and K_i (initial).

Strike_i means the Strike for the relevant Basket Component_i as specified in the relevant Final Terms.

If so specified in the relevant Final Terms, the Downside Performance of the Basket Component_i is, however, in no event lower than zero (0).

(c) *Best-of Performance Determination (final):*

The Relevant Performance (final) corresponds to the Best Performance (final).

*In the case of **Upside Securities**, the following applies:*

Option 1:

Best Performance (final) is the highest Performance of the Basket Component_i (final).

Option 2:

Best Performance (final) is the highest Performance of the Basket Component_i (final) minus the Final Strike Level.

*In the case of **Downside Securities**, the following applies:*

Option 1:

Best Performance (final) is the lowest Performance of the Basket Component_i (final).

Option 2:

Best Performance (final) is the Final Strike Level – the lowest Performance of the Basket Component_i (final).

The Performance of the Basket Component_i (final) corresponds to K_i (final) divided by K_i (initial).

(d) *Worst-of Performance Determination (final):*

The Relevant Performance (final) corresponds to the Worst Performance (final).

*In the case of **Upside Securities**, the following applies:*

Option 1:

Worst Performance (final) is the lowest Performance of the Basket Component_i (final).

Option 2:

Worst Performance (final) is the lowest Performance of the Basket Component_i (final) minus the Final Strike Level.

In the case of **Downside Securities**, the following applies:

Option 1:

Worst Performance (final) is the highest Performance of the Basket Component_i (final).

Option 2:

Worst Performance (final) is the Final Strike Level - the highest Performance of the Basket Component_i (final).

The Performance of the Basket Component_i (final) corresponds to K_i (final) divided by K_i (initial).

(e) *Rainbow Performance Determination (final):*

The Relevant Performance (final) corresponds to the Performance of the Underlying (final).

Performance of the Underlying (final) means the sum of the Performances of the Basket Components_i multiplied by their respective Weightings_{i Best}.

Performance of the Basket Component_i means, with respect to a Basket Component_i, the quotient of K_i (final) divided by K_i (initial).

The respective Weighting_i attributable to a Basket Component_i will be determined as follows:

The Basket Components_i are sorted by their performances (i.e. Performance of the Basket Component_i) in descending order: The Basket Component with the best performance (i.e. Basket Component_{i best} (with $i = 1$)) will be assigned the highest weighting (Weighting_{i best} (with $i = 1$)), as specified in the relevant Final Terms. The Basket Component with the second best performance (i.e. Basket Component_{i best} (with $i = 2$)) will be assigned the second highest weighting (Weighting_{i best} (with $i = 2$)) and so forth.

$K_{i best}$ (initial) means K_i (initial) of the Basket Component_{i best}.

$K_{i best}$ (final) means K_i (final) of the Basket Component_{i best}.

(f) *Dispersion Performance Determination (final):*

The Relevant Performance (final) corresponds to the Dispersion of the Underlying (final).

Dispersion of the Underlying (final) means the sum of the Dispersion of the Basket Components_i (final), which are taken into account according to their Weightings_i (= W_i).

Dispersion of the Basket Component_i (final) means, with respect to the Basket Component_i, the absolute value of the difference between the Performance of the Basket Component_i (final) and the Performance of the Underlying (final).

Absolute value means that the value is used for the purposes of the rest of the calculation without taking into account any preceding minus sign (-).

The Performance of the Basket Component_i (final) is, with respect to the Basket Component_i, equal to K_i (final) divided by K_i (initial).

Performance of the Underlying (final) means the sum of the Performances of the Basket Components_i (final) which are taken into account according to their Weightings_i (= W_i).

6.4. Determination of the Relevant Performance (k)

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Relevant Performance (k):

(a) *Basket Performance Determination (k):*

The Relevant Performance (k) corresponds to the Performance of the Underlying (k).

The Performance of the Underlying (k) is the sum of the Performances of the Basket Components_i (k), which are taken into account according to their Weightings_i (= W_i).

The Performance of the Basket Component_i (k) is equal to K_i (k) divided by K_i (initial).

K_i (k) means, with respect to the Basket Component_i, the Reference Price_i on the respective Protection Lock-in Date (k).

(b) *Basket Downside Performance Determination (k):*

The Relevant Performance (k) corresponds to the Performance of the Underlying (k).

The Performance of the Underlying (k) is the sum of the Performances of the Basket Components_i (k), which are taken into account according to their Weightings_i (= W_i).

The Performance of the Basket Component_i (k) is equal to K_i (k) divided by K_i (initial).

K_i (k) means, with respect to the Basket Component_i, the Reference Price_i on the respective Protection Lock-in Date (k).

(c) *Best-of Performance Determination (k):*

The Relevant Performance (k) corresponds to the Best Performance (k).

*In the case of **Upside Securities**, the following applies:*

The Best Performance (k) is the highest Performance of the Basket Component_i (k) on the respective Protection Lock-in Date (k).

*In the case of **Downside Securities**, the following applies:*

The Best Performance (k) is the lowest Performance of the Basket Component_i (k) on the respective Protection Lock-in Date (k).

The Performance of the Basket Component_i (k) corresponds to K_i (k) divided by K_i (initial).

K_i (k) means, with respect to the Basket Component_i, the Reference Price_i on the respective Protection Lock-in Date (k).

(d) *Worst-of Performance Determination (k):*

The Relevant Performance (k) corresponds to the Worst Performance (k).

*In the case of **Upside Securities**, the following applies:*

The Worst Performance (k) is the lowest Performance of the Basket Component_i (k) on the respective Protection Lock-in Date (k).

*In the case of **Downside Securities**, the following applies:*

The Worst Performance (k) is the highest Performance of the Basket Component_i (k) on the respective Protection Lock-in Date (k).

The Performance of the Basket Component_i (k) corresponds to K_i (k) divided by K_i (initial).

K_i (k) means, with respect to the Basket Component_i, the Reference Price_i on the respective Protection Lock-in Date (k).

6.5. Determination of the Relevant Performance (m)

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Relevant Performance (m):

(a) *Basket Performance Determination (m):*

The Relevant Performance (m) corresponds to the Performance of the Underlying (m).

With respect to the determination of the Performance of the Underlying (m) one of the following options may be selected in the relevant Final Terms:

Option 1:

The Performance of the Underlying (m) is the sum of the Performances of the Basket Components_i (m), which are taken into account according to their Weightings_i (= W_i).

Option 2:

The Performance of the Underlying (m) is the difference of (i) the sum of the Performances of the Basket Components_i (m), which are taken into account according to their Weightings_i (= W_i), and (ii) the Strike Level.

(b) *Best-of Performance Determination (m):*

The Relevant Performance (m) corresponds to the Best Performance (m).

In the case of Upside Securities, the following applies:

The Best Performance (m) is the highest Performance of the Basket Component_i (m) on the respective Additional Conditional Amount Observation Date (m).

In the case of Downside Securities, the following applies:

The Best Performance (m) is the lowest Performance of the Basket Component_i (m) on the respective Additional Conditional Amount Observation Date (m).

(c) *Worst-of Performance Determination (m):*

The Relevant Performance (m) corresponds to the Worst Performance (m).

In the case of Upside Securities, the following applies:

The Worst Performance (m) is the lowest Performance of the Basket Component_i (m) on the respective Additional Conditional Amount Observation Date (m).

In the case of Downside Securities, the following applies:

The Worst Performance (m) is the highest Performance of the Basket Component_i (m) on the respective Additional Conditional Amount Observation Date (m).

6.6. Determination of the Relevant Performance (n)

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Relevant Performance (n):

(d) *Basket Performance Determination (n):*

The Relevant Performance (n) corresponds to the Performance of the Underlying (n).

The Performance of the Underlying (n) is the sum of the Performances of the Basket Components_i (n), which are taken into account according to their Weightings_i (= W_i).

The Performance of the Basket Component_i (n) is equal to K_i (n) divided by K_i (initial).

K_i (n) means, with respect to the Basket Component_i, the Reference Price_i on the respective Observation Date (n).

(e) *Best-of Performance Determination (n):*

The Relevant Performance (n) corresponds to the Best Performance (n).

In the case of Upside Securities, the following applies:

The Best Performance (n) is the highest Performance of the Basket Component_i (n) on the respective Observation Date (n).

In the case of **Downside Securities**, the following applies:

The Best Performance (n) is the lowest Performance of the Basket Component_i (n) on the respective Observation Date (n).

The Performance of the Basket Component_i (n) corresponds to $K_i(n)$ divided by $K_i(\text{initial})$.

$K_i(n)$ means, with respect to the Basket Component_i, the Reference Price_i on the respective Observation Date (n).

(f) *Worst-of Performance Determination (n):*

The Relevant Performance (n) corresponds to the Worst Performance (n).

In the case of **Upside Securities**, the following applies:

The Worst Performance (n) is the lowest Performance of the Basket Component_i (n) on the respective Observation Date (n).

In the case of **Downside Securities**, the following applies:

The Worst Performance (n) is the highest Performance of the Basket Component_i (n) on the respective Observation Date (n).

The Performance of the Basket Component_i (n) corresponds to $K_i(n)$ divided by $K_i(\text{initial})$.

$K_i(n)$ means, with respect to the Basket Component_i, the Reference Price_i on the respective Observation Date (n).

7. REFERENCE PRICE DETERMINATION

7.1. Determination of the Initial Reference Price

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Initial Reference Price (= K_i (initial)):

(a) *Initial Reference Price Specification:*

K_i (initial) means, with respect to the Basket Component_{*i*}, K_i (initial), as specified in the respective Final Terms.

(b) *Initial Reference Price Observation:*

K_i (initial) means, with respect to the Basket Component_{*i*}, the Reference Price_{*i*} on the Initial Observation Date.

(c) *Initial Average Observation:*

K_i (initial) means, with respect to the Basket Component_{*i*}, the equally weighted average (arithmetic average) of the Reference Prices_{*i*} on the Initial Observation Dates.

(d) *Best-in Observation (Upside):*

K_i (initial) means, with respect to the Basket Component_{*i*}, the lowest Reference Price_{*i*} on the dates or the period specified in the respective Final Terms.

(e) *Best-in Observation (Downside):*

K_i (initial) means, with respect to the Basket Component_{*i*}, the highest Reference Price_{*i*} on the dates or the period specified in the respective Final Terms.

(f) *Worst-in Observation (Upside):*

K_i (initial) means, with respect to the Basket Component_{*i*}, the highest Reference Price_{*i*} on the dates or the period specified in the respective Final Terms.

(g) *Worst-in Observation (Downside):*

K_i (initial) means, with respect to the Basket Component_{*i*}, the lowest Reference Price_{*i*} on the dates or the period specified in the respective Final Terms.

7.2. Determination of the Final Reference Price

In accordance with section "B. 1. General Description of the Product Types of Basket-linked Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of the Final Reference Price (= K_i (final)):

(a) *Final Reference Price Observation:*

K_i (final) means, with respect to the Basket Component_{*i*}, the Reference Price_{*i*} on the Final Observation Date.

(b) *Final Average Observation:*

K_i (final) means, with respect to the Basket Component_{*i*}, the equally weighted average (arithmetic average) of the Reference Prices_{*i*} on the Final Observation Dates.

(c) *Best-out Observation (Upside):*

K_i (final) means, with respect to the Basket Component_{*i*}, the highest Reference Price_{*i*} on the dates or the period specified in the respective Final Terms.

(d) *Best-out Observation (Downside):*

K_i (final) means, with respect to the Basket Component_{*i*}, the lowest Reference Price_{*i*} on the dates or the period specified in the respective Final Terms.

(e) *Worst-out Observation (Upside):*

K_i (final) means, with respect to the Basket Component_{*i*}, the lowest Reference Price_{*i*} on the dates or the period specified in the respective Final Terms.

(f) *Worst-out Observation (Downside):*

K_i (final) means, with respect to the Basket Component_{*i*}, the highest Reference Price_{*i*} on the dates or the period specified in the respective Final Terms.

C. HYBRID SECURITIES

1. GENERAL DESCRIPTION OF THE PRODUCT TYPES OF HYBRID SECURITIES

1.1. Product Type 23: Hybrid Protection Securities

General

The Securities are linked to the performance of two Underlyings. One Underlying is an Inflation Index. The other Underlying is a Financial Index.

The Securities will be issued as Upside Securities. This means:

The value of the Securities during their term depends decisively on the price of the Underlyings. If the price of the Underlyings rises, the value of the Securities regularly rises. If the price of the Underlyings falls, the value of the Securities regularly falls.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following feature will be specified in the relevant Final Terms:

- Additional Conditional Amount (*Cliquet*). The Additional Conditional Amount (*Cliquet*) is linked to the performance of the Inflation Index.

In addition, the following optional feature may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*). The Additional Conditional Amount (*Coupon*) is linked to the performance of the Financial Index.

For further information on the Additional Conditional Amounts, see section "C. 2. Additional Conditional Amounts" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

At the Final Payment Date the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Performance of the Financial Index (final) multiplied by the Final Participation Factor.

The Redemption Amount will not be lower than the Minimum Amount.

With respect to the determination of the Performance of the Financial Index (final) see section "C. 4. Performance Determination" below.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= $R_{\text{Inflation}}$ (initial) and R_{Index} (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification; or
- Initial Reference Price Observation.

With respect to the determination of the Final Reference Price (= R_{Index} (final)), the following applies:

- Final Reference Price Observation.

For further information on the Reference Price Determination, see section "C. 5. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Cap Feature; and
- Additional Unconditional Amount.

For further information on the additional features, please see section "C. 3. Additional Features" below.

1.2. Product Type 24: Hybrid Cash Collect Protection Securities

General

The Securities are linked to the performance of two Underlyings. One Underlying is an Inflation Index. The other Underlying is either a Financial Index or a Reference Rate.

The Securities will be issued as Upside Securities. This means:

The value of the Securities during their term depends decisively on the price of the Underlyings. If the price of the Underlyings rises, the value of the Securities regularly rises. If the price of the Underlyings falls, the value of the Securities regularly falls.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following feature will be specified in the relevant Final Terms:

- Additional Conditional Amount (*Cliquet*). The Additional Conditional Amount (*Cliquet*) is linked to the performance of the Inflation Index.

In addition, the following optional feature may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*). The Additional Conditional Amount (*Coupon*) is linked to the performance of the Financial Index or the Reference Rate.

For further information on the Additional Conditional Amounts, see section "C. 2. Additional Conditional Amounts" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

At the Final Payment Date the Redemption Amount is equal to the Minimum Amount.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= $R_{\text{Inflation}}(\text{initial})$, $R_{\text{Index}}(\text{initial})$) and $R_{\text{Rate}}(\text{initial})$) one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification; or
- Initial Reference Price Observation.

For further information on the Reference Price Determination, see section "C. 5. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional feature may be specified in the relevant Final Terms:

- Additional Unconditional Amount.

For further information on the additional features, please see section "C. 3. Additional Features" below.

1.3. Product Type 25: Hybrid Protection Barrier Securities

General

The Securities are linked to the performance of two Underlyings. One Underlying is an Inflation Index. The other Underlying is a Financial Index.

The Securities will be issued as Upside Securities. This means:

The value of the Securities during their term depends decisively on the price of the Underlyings. If the price of the Underlyings rises, the value of the Securities regularly rises. If the price of the Underlyings falls, the value of the Securities regularly falls.

Interest

The Securities do not bear interest.

Additional Conditional Amount

The following feature will be specified in the relevant Final Terms:

- Additional Conditional Amount (*Cliquet*). The Additional Conditional Amount (*Cliquet*) is linked to the performance of the Inflation Index.

In addition, the following optional feature may be specified in the relevant Final Terms:

- Additional Conditional Amount (*Coupon*). The Additional Conditional Amount (*Coupon*) is linked to the performance of the Financial Index.

For further information on the Additional Conditional Amounts, see section "C. 2. Additional Conditional Amounts" below.

Redemption

Provided that no Conversion Event has occurred, the Securities will be redeemed on the Final Payment Date at the Redemption Amount following an automatic exercise on the Exercise Date.

- If no Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Final Participation Factor multiplied by the Performance of the Financial Index (final).

The Redemption Amount will not be lower than the Minimum Amount.

With respect to the determination of the Performance of the Financial Index (final) see section "C. 4. Performance Determination" below.

Barrier Observation

With respect to the observation if a Barrier Event has occurred, the following applies:

Barrier Event means that R_{Index} (final) is either (i) equal to or lower, or (ii) lower than the Barrier, as specified in the relevant Final Terms.

Reference Price Determination

With respect to the determination of the Initial Reference Price (= $R_{\text{Inflation}}$ (initial) and R_{Index} (initial)), one of the following options may be specified in the relevant Final Terms:

- Initial Reference Price Specification; or
- Initial Reference Price Observation.

With respect to the determination of the Final Reference Price (= R_{Index} (final)), the following applies:

- Final Reference Price Observation.

For further information on the Reference Price Determination, see section "C. 5. Reference Price Determination" below.

Exercise

The Securities are deemed automatically exercised on the Exercise Date.

Conversion Event

Upon the occurrence of a Conversion Event, the Securities will be redeemed on the Final Payment Date at the Settlement Amount.

Early Redemption at the option of the Issuer

Any of the following early redemption features at the option of the Issuer may be specified in the relevant Final Terms:

- Optional Redemption Right; or
- Regulatory Redemption Right.

For further information on the early redemption at the option of the Issuer, please see sub-section "*Early redemption at the option of the Issuer*" in section "*General Information on the Securities*" - "*Description of the rights arising from the Securities*" above.

Additional Features

The following additional features may be specified in the relevant Final Terms:

- Cap Feature; and
- Additional Unconditional Amount.

For further information on the additional features, please see section "C. 3. Additional Features" below.

2. ADDITIONAL CONDITIONAL AMOUNTS

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, the following Additional Conditional Amounts (m) may be specified in the relevant Final Terms.

2.1. Additional Conditional Amount (*Cliquet*)

If an Additional Conditional Amount (*Cliquet*) is specified in the relevant Final Terms, the following applies:

Option 1:

- If, with respect to an Additional Conditional Amount Observation Date (m), an Additional Conditional Amount Payment Event (*Cliquet*) (m) has occurred, the Additional Conditional Amount (*Cliquet*) (m) is paid on the respective Additional Conditional Amount Payment Date (m).

Option 2:

- If, with respect to an Additional Conditional Amount Observation Date (m), no Additional Conditional Amount Payment Event (*Coupon*) (m) has occurred and if an Additional Conditional Amount Payment Event (*Cliquet*) (m) has occurred, the Additional Conditional Amount (*Cliquet*) (m) is paid on the respective Additional Conditional Amount Payment Date (m).
- Otherwise, no Additional Conditional Amount (*Cliquet*) (m) is paid on the respective Additional Conditional Amount Payment Date (m).

An Additional Conditional Amount Payment Event (*Cliquet*) (m) occurs on an Additional Conditional Amount Observation Date (m), if $R_{\text{Inflation}}(m)$ is greater than or equal to $R_{\text{Inflation}}(m-1)$.

For further information on the Reference Price Determination, see section "C. 5. Reference Price Determination" below.

The Additional Conditional Amount (*Cliquet*) (m) on the respective Additional Conditional Amount Observation Date (m) is equal to the Calculation Amount multiplied by (i) the Participation Factor (m) and (ii) the Performance of the Inflation Index (m).

The Performance of the Inflation Index (m) is equal to the quotient of (i) $R_{\text{Inflation}}(m)$ minus $R_{\text{Inflation}}(m-1)$ as the numerator and (ii) $R_{\text{Inflation}}(m-1)$ as the denominator. For the first Additional Conditional Amount Observation Date (m), $R_{\text{Inflation}}(m-1)$ corresponds to $R_{\text{Inflation}}(\text{initial})$.

If a Maximum Additional Conditional Amount (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Cliquet*) (m) is not greater than the Maximum Additional Conditional Amount (m).

If a Minimum Additional Conditional Amount (m) is specified in the relevant Final Terms, the Additional Conditional Amount (*Cliquet*) (m) is not lower than the Minimum Additional Conditional Amount (m).

Depending on the Performance of the Inflation Index (m) and subject to a Minimum Additional Conditional Amount (m), the Additional Conditional Amount (*Cliquet*) (m) may also be equal to zero (0).

2.2. Additional Conditional Amount (*Coupon*)

If an Additional Conditional Amount (*Coupon*) is specified in the relevant Final Terms, the following applies:

- If, with respect to an Additional Conditional Amount Observation Date (m), an Additional Conditional Amount Payment Event (*Coupon*) (m) has occurred, an Additional Conditional Amount (*Coupon*) (m) is paid on the respective Additional Conditional Amount Payment Date (m).

- Otherwise, no Additional Conditional Amount (*Coupon*) (m) is paid on the respective Additional Conditional Amount Payment Date (m).

An Additional Conditional Amount Payment Event (*Coupon*) (m) occurs, if R_{Index} (m) or R_{Rate} (m), as specified in the relevant Final Terms, is equal to or greater than the Additional Conditional Amount Payment Level (*Coupon*) (m).

For further information on the Reference Price Determination, see section "C. 5. Reference Price Determination" below.

The Additional Conditional Amount (*Coupon*) (m) with respect to each Additional Conditional Amount Observation Date (m) will be specified in the relevant Final Terms.

3. ADDITIONAL FEATURES

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, the following additional feature may be specified in the relevant Final Terms.

3.1. Cap Feature

In the case of Securities with Cap the Redemption Amount is in no event higher than the Maximum Amount.

3.2. Additional Unconditional Amount

In the case of Securities where an Additional Unconditional Amount (1) is specified in the relevant Final Terms, an Additional Unconditional Amount (1) will be paid on the respective Additional Unconditional Amount Payment Date (1).

4. PERFORMANCE DETERMINATION

4.1. Performance of the Inflation Index (m)

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, the following applies with respect to the determination of the Performance of the Inflation Index (m):

The Performance of the Inflation Index (m) is equal to the quotient of (i) $R_{\text{Inflation}}(m)$ minus $R_{\text{Inflation}}(m-1)$ as the numerator and (ii) $R_{\text{Inflation}}(m-1)$ as the denominator. For the first Additional Conditional Amount Observation Date (m), $R_{\text{Inflation}}(m-1)$ corresponds to $R_{\text{Inflation}}(\text{initial})$.

4.2. Performance of the Financial Index (final)

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, the following applies with respect to the determination of the Performance of the Financial Index (final):

Performance of the Underlying means the difference of (i) the quotient of $R_{\text{Index}}(\text{final})$ as the numerator and $R_{\text{Index}}(\text{initial})$ as the denominator and (ii) the Final Strike Level.

5. REFERENCE PRICE DETERMINATION

5.1. Determination of the Initial Reference Price

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of $R_{\text{Inflation}}(\text{initial})$:

(a) *Initial Reference Price Specification:*

$R_{\text{Inflation}}(\text{initial})$ means, with respect to the Inflation Index, $R_{\text{Inflation}}(\text{initial})$, as specified in the respective Final Terms.

(b) *Initial Reference Price Observation:*

$R_{\text{Inflation}}(\text{initial})$ means, with respect to the Inflation Index and the Initial Observation Date, the Reference Price of the Inflation Index with respect to the Initial Observation Date.

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of $R_{\text{Index}}(\text{initial})$:

(a) *Initial Reference Price Specification:*

$R_{\text{Index}}(\text{initial})$ means, with respect to the Financial Index, $R_{\text{Index}}(\text{initial})$, as specified in the respective Final Terms.

(b) *Initial Reference Price Observation:*

$R_{\text{Index}}(\text{initial})$ means, with respect to the Financial Index and the Initial Observation Date, the Reference Price of the Financial Index on the Initial Observation Date.

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of $R_{\text{Rate}}(\text{initial})$:

(c) *Initial Reference Price Specification:*

$R_{\text{Rate}}(\text{initial})$ means, with respect to the Reference Rate, $R_{\text{Rate}}(\text{initial})$, as specified in the respective Final Terms.

(d) *Initial Reference Price Observation:*

$R_{\text{Rate}}(\text{initial})$ means, with respect to the Reference Rate and the Initial Observation Date, the value of the Reference Rate on the Initial Observation Date.

5.2. Determination of the Reference Price (m)

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of $R_{\text{Inflation}}(m)$:

$R_{\text{Inflation}}(m)$ means, with respect to the Inflation Index and an Additional Conditional Amount Observation Date (m), the Reference Price for the Reference Month (m).

$R_{\text{Inflation}}(m-1)$ means, with respect to the Inflation Index and an Additional Conditional Amount Observation Date (m), the Reference Price on the Additional Conditional Amount Observation Date (m) immediately preceding that Additional Conditional Amount Observation Date (m). For $R_{\text{Inflation}}(m)$ (where $m = 1$), $R_{\text{Inflation}}(m-1)$ is equal to $R_{\text{Inflation}}(\text{initial})$.

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of $R_{\text{Index}}(m)$:

$R_{\text{Index}}(m)$ means, with respect to the Financial Index and an Additional Conditional Amount Observation Date (m), the Reference Price on the relevant Additional Conditional Amount Observation Date (m).

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of $R_{\text{Rate}}(m)$:

$R_{\text{Rate}}(m)$ means, with respect to the Reference Rate and an Additional Conditional Amount Observation Date (m), the value of the Reference Rate on the relevant Additional Conditional Amount Observation Date (m).

5.3. Determination of the Final Reference Price

In accordance with section "C. 1. General Description of the Product Types of Hybrid Securities" above, one of the following options may be specified in the relevant Final Terms with respect to the determination of $R_{\text{Index}}(\text{final})$:

$R_{\text{Index}}(\text{final})$ means, with respect to the Financial Index and the Final Observation Date, the Reference Price of the Financial Index on the Final Observation Date.

D. DESCRIPTION OF THE SECURITIES INCORPORATED BY REFERENCE IN THE BASE PROSPECTUS

The following information is hereby incorporated by reference into the Base Prospectus:

- The information contained in the section "*Description of the Securities*" set out on pages 41 to 139 of the previous Base Prospectus of UniCredit S.p.A. dated 24 February 2020 for the issuance of Securities with Single Underlying and Multi Underlying (with partial capital protection);

A list setting out all information incorporated by reference is provided on page 486.

CONDITIONS OF THE SECURITIES

GENERAL INFORMATION

Part A – General Conditions of the Securities (the "**General Conditions**") must be read together with Part B – Product and Underlying Data (the "**Product and Underlying Data**") as well as Part C – Special Conditions of the Securities (the "**Special Conditions**") (together, the "**Conditions**").

The Special Conditions are divided into the Special Conditions which apply to particular product types and Special Conditions which apply to all product types.

A completed version of the Conditions describes the terms and conditions of the respective Tranche of Securities (the "**Terms and Conditions**") which are part of the relevant Global Note in case of Securities governed by German law.

For each Tranche of Securities the Final Terms will be published as a separate document and will contain:

- (a) either (i) a consolidated version of the General Conditions^{*)} or (ii) information on the relevant options contained in the General Conditions^{**)},
- (b) a consolidated version of the Product and Underlying Data,
- (c) a consolidated version of the Special Conditions,

reflecting the Terms and Conditions of the Securities.

^{*)} In case of consolidated General Conditions in the Final Terms, such consolidated General Conditions will be part of the relevant Final Terms and such consolidated General Conditions will be filed with or sent to any competent authority.

^{**)} In case of non-consolidated General Conditions in the Final Terms, upon request, a consolidated version of the General Conditions may be delivered together with the relevant Final Terms. Such consolidated General Conditions will not be part of the relevant Final Terms, neither as an annex nor as an integral part of the Final Terms and such consolidated General Conditions will not be filed with or sent to any competent authority.

STRUCTURE OF THE CONDITIONS

Part A – General Conditions of the Securities

[Option 1: In the case of Securities governed by German law and issued in a Global Note form, the following applies:]

- § 1 Form, Clearing System, Global Note, Custody[, Replacement by Electronic Securities]
- § 2 Principal Paying Agent, Paying Agent, Calculation Agent
- § 3 Taxes
- § 4 Status
- § 5 Substitution of the Issuer
- § 6 Notices
- § 7 Issuance of additional Securities, Repurchase
- § 8 Presentation Period
- § 9 Partial Invalidity, Corrections[, Variations]
- § 10 Applicable Law, Place of Performance, Place of Jurisdiction
- [§ 11 Contractual recognition of statutory bail-in powers]

[Option 2: In the case of Securities governed by German law and issued as electronic Securities in a Central Register Securities form, the following applies:]

- § 1 Form, Central Register, Registrar, Specific Terms[, Replacement by Global Note]
- § 2 Principal Paying Agent, Paying Agent, Calculation Agent
- § 3 Taxes
- § 4 Status

PART A – GENERAL CONDITIONS OF THE SECURITIES

PART A - GENERAL CONDITIONS OF THE SECURITIES

(the "General Conditions")

[Option 1: In the case of Securities governed by German law and issued in a Global Note form, the following applies:]

§ 1

Form, Clearing System, Global Note, Custody[, Replacement by Electronic Securities]

[In the case of Securities without a Nominal Amount, the following applies:]

- (1) *Form:* This tranche (the "**Tranche**") of securities (the "**Securities**") of [UniCredit S.p.A.] [UniCredit Bank AG] (the "**Issuer**") will be issued as [notes] [certificates] in bearer form pursuant to these Terms and Conditions in the Specified Currency.]

[In the case of Securities with a Nominal Amount, the following applies:]

- (1) *Form:* This tranche (the "**Tranche**") of securities (the "**Securities**") of [UniCredit S.p.A.] [UniCredit Bank AG] (the "**Issuer**") will be issued as [notes] [certificates] in bearer form pursuant to these Terms and Conditions in the Specified Currency in a denomination equal to the Nominal Amount.]

[In the case of Securities with a permanent Global Note from the Issue Date, the following applies:]

- (2) *Global Note:* The Securities are represented by a global note (the "**Global Note**") without interest coupons, which bears the manual or facsimile signatures of two authorised signatories of the Issuer [In the case of an Issuing Agent, the following applies: as well as the manual signature of a control officer of the Issuing Agent]. The Security Holders are not entitled to receive definitive Securities. The Securities [as co-ownership interests in the Global Note] may be transferred pursuant to the relevant regulations of the Clearing System. [In the case of interest-bearing Securities, the following applies: The right to receive interest is represented by the Global Note.]]

[In the case of Securities with a Temporary Global Note which will be exchangeable for a Permanent Global Note, the following applies:¹

- (2) *Temporary Global Note, Exchange:* The Securities are initially represented by a temporary global note (the "**Temporary Global Note**") without interest coupons. The Temporary Global Note will be exchangeable for a permanent global note without interest coupons (the "**Permanent Global Note**", and, together with the Temporary Global Note, the "**Global Notes**") on or after the 40th day after the Issue Date (the "**Exchange Date**") only upon delivery of certifications, to the effect that the beneficial owner or owners of the Securities represented by the Temporary Global Note is not a U.S. person or are not U.S. persons (other than certain

¹ The text found in § 1(2) is known as the "TEFRA D legend". This footnote provides a very brief synopsis of the so-called Excise Tax Exemption (formerly known as TEFRA) rules under the tax code of the United States of America ("U.S."). Generally, debt instruments in non-registered form (bearer securities) which have a maturity of longer than 365 days may be subject to U.S. tax penalties if the issuance of such instruments does not comply with either the TEFRA C or TEFRA D rules. TEFRA C is highly restrictive and may be used only if, among other things, the instruments will not be offered or issued to persons in the U.S. and its possessions, as defined under the U.S. Internal Revenue Code, and the issuer does not "significantly engage in interstate commerce with respect to the issuance." In this case a TEFRA legend is not required. The TEFRA D rules, which are more mechanical than the TEFRA C rules, impose, during a "restricted period", certain restrictions on (i) the offer and sale of the instruments to "U.S. persons" or to persons within the U.S. and its possessions and (ii) the delivery of the instruments in the U.S. The TEFRA D rules also generally require that the owner of an instrument certify as to non-U.S. beneficial ownership and that the instrument contain a "TEFRA D legend" with specific language on its face. Compliance with TEFRA D provides for a safe harbour if instruments are inadvertently issued to U.S. persons. To the extent that Securities have debt characteristics, such as "principal protection", TEFRA C and TEFRA D rules may apply. IF THERE IS ANY DOUBT WHETHER A SECURITY MAY BE CONSIDERED DEBT, U.S. LEGAL AND TAX COUNSEL MUST BE CONSULTED.

financial institutions or certain persons holding Securities through such financial institutions) (the "**Non-U.S. Beneficial Ownership Certificates**"). The Global Notes bear the manual or facsimile signatures of two authorised representatives of the Issuer [*In the case of an Issuing Agent, the following applies*: as well as the manual signature of a control officer of the Issuing Agent]. [*If CBL and Euroclear Bank are specified as Clearing System, the following applies*: The details of such exchange shall be entered into the records of the ICSDs.] The Security Holders are not entitled to receive definitive Securities. The Securities [as co-ownership interests in the Global Notes] may be transferred pursuant to the relevant regulations of the Clearing System. [*In the case of interest-bearing Securities, the following applies*: The right to receive interest is represented by the Global Note.]

"**U.S. persons**" means such persons as defined in *Regulation S* of the *United States Securities Act of 1933* and particularly includes residents of the United States as well as American stock corporations and private companies.]

[In the case of Securities, where CBF is specified in the Final Terms as Clearing System, the following applies:

- (3) *Custody*: The Global Note will be kept in custody by Clearstream Banking AG, Frankfurt, Mergenthalerallee 61, 65760 Eschborn ("**CBF**").]

[In the case of Securities, where CBL and Euroclear Bank is specified in the Final Terms as Clearing System, the following applies:

- (3) *Custody*: The Global Notes will be issued in classical global note form and will be kept in custody by a common depository on behalf of both ICSDs.]

[In the case of Securities, where Euroclear France is specified in the Final Terms as Clearing System, the following applies:

- (3) *Custody*: The Global Note will be kept in custody by or on behalf of the Clearing System.]

[In the case of Securities, where "Other" is specified in the Final Terms as Clearing System, the following applies:

- (3) *Custody*: The Global Note will be kept in custody by or on behalf of the Clearing System.]

[(4) *Replacement by electronic securities*: The Issuer reserves the right to replace the Securities represented by the Global Note without the consent of the Security Holders with identical Securities represented by an electronic registration of the Securities pursuant to § 6 paragraph 3 of the German Act on Electronic Securities (*Gesetz über elektronische Wertpapiere*, "**eWpG**"). The Issuer will give notice to the Securities Holder about the intended replacement pursuant to § 6 of the General Conditions.

In such a case, the following applies:

- (a) The electronic Securities will be registered in the central register (the "**Central Register**") as central register securities (*Zentralregisterwertpapiere*) within the meaning of § 4 paragraph 2 of the German Act on Electronic Securities (*Gesetz über elektronische Wertpapiere*, "**eWpG**") and identified by their registered [WKN] [and] [ISIN]. The Securities will be represented by a collective safe custody entry (*Sammeleintragung*) in the Central Register. The Central Register will be maintained by the Registrar in its capacity as central securities depository ("**Clearing System**"). The Registrar in its capacity as central securities depository is registered as the bearer of the Securities within the meaning of §§ 3 paragraph 1, 8 paragraph 1 no. 1 eWpG (the "**Bearer**"). The Bearer holds the Securities as trustee for the benefit of the respective Security Holders, but not as beneficiary of the Securities (§ 9 paragraph 2 sentence 1 eWpG). The co-ownership interests in the Securities may be transferred pursuant to the relevant regulations of the Clearing System and applicable law.

- (b) The "**Registrar**" shall be [Clearstream Banking AG, Frankfurt, Mergenthalerallee 61, 65760 Eschborn ("**CBF**")][*insert other*] or any other registrar as notified by the Issuer in advance pursuant to § 6 of the General Conditions.
- (c) "**Securities**" shall mean the identical [notes] [certificates] electronically issued in bearer form as central register securities (*Zentralregisterwertpapiere*) within the meaning of § 4 paragraph 2 eWpG and represented by a collective safe custody entry (*Sammeleintragung*) in the Central Register in the name of the Clearing System.
- "**Security Holder**" shall mean each holder of a co-ownership interest in the Securities pursuant to §§ 3 paragraph 2, 9 paragraph 1 eWpG, which may be transferred pursuant to the relevant regulations of the Clearing System and applicable law.
- "**Terms and Conditions**" shall mean the terms and conditions of these Securities as set out in the General Conditions (Part A), the Product and Underlying Data (Part B) and the Special Conditions (Part C) as deposited with the Registrar.
- (d) These Terms and Conditions shall be applied and interpreted in accordance with this paragraph (4) and the eWpG. With respect to adjustment and amendment rights of the Issuer pursuant to these Terms and Conditions, the Issuer shall be deemed to be authorised vis-à-vis the Registrar within the meaning of §§ 5 paragraph 2 no. 3, 14 paragraph 1 no. 2 lit. c) eWpG to issue instructions, in order to authorise the necessary amendments to the then deposited Terms and Conditions and to the registration particulars set-out in § 13 paragraph 1 no. 1 and 4 eWpG.]

§ 2

Principal Paying Agent, Paying Agent, Calculation Agent

- (1) *Paying Agents:* The "**Principal Paying Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich, Germany] [UniCredit S.p.A., Piazza Gae Aulenti 3 - Tower A - 20154 Milan, Italy] [Citibank, N.A., London Branch, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, United Kingdom] [*Insert name and address of other paying agent*]. [The French Paying Agent for Euroclear France S.A. is CACEIS Bank S.A., 1-3 rue place Valhubert, 75206 Paris Cedex 13, France (the "**French Paying Agent**").] The Issuer may appoint additional paying agents (the "**Paying Agents**") and revoke such appointment. The appointment and revocation shall be published pursuant to § 6 of the General Conditions.
- (2) *Calculation Agent:* The "**Calculation Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich] [UniCredit S.p.A., Piazza Gae Aulenti 3 - Tower A - 20154 Milan, Italy] [*Insert name and address of other calculation agent*].
- (3) *Transfer of functions:* Should any event occur which results in the Principal Paying Agent[, French Paying Agent] or Calculation Agent being unable to continue in its function as Principal Paying Agent[, French Paying Agent] or Calculation Agent, the Issuer is obliged to appoint another bank of international standing as Principal Paying Agent[, French Paying Agent] or another person or institution with the relevant expertise as Calculation Agent. Any such transfer of the functions of the Principal Paying Agent[, French Paying Agent] or Calculation Agent shall be notified by the Issuer without undue delay pursuant to § 6 of the General Conditions.
- (4) *Agents of the Issuer:* In connection with the Securities, the Principal Paying Agent[, the French Paying Agent], the Paying Agents and the Calculation Agent act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Security Holders. The Principal Paying Agent[, the French Paying Agent] and the Paying Agents shall be exempt from the restrictions of § 181 German Civil Code (*Bürgerliches Gesetzbuch*, "**BGB**").

§ 3

Taxes

No gross up: Payments in respect of the Securities shall only be made after deduction and withholding of current or future taxes, to the extent that such deduction or withholding is required by law. In this regard the term "**Taxes**" includes taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, including a withholding tax pursuant to Section 871(m) of the United States Internal Revenue Code of 1986 ("**871(m) Withholding Tax**").

The Issuer shall in any case be entitled to take into consideration the 871(m) Withholding Tax by applying the maximum tax rate as a flat rate (plus value added tax, if applicable). In no case is the Issuer obliged to compensate with respect to any Taxes deducted or withheld.

The Issuer shall report on the deducted and withheld Taxes to the competent government agencies, except, these obligations are imposed upon any other person involved, subject to the legal and contractual requirements of the respective applicable tax rules.

§ 4

Status

[In the case of HVB as Issuer, the following applies:

The obligations under the Securities constitute direct, unconditional, and unsecured obligations of the Issuer and rank, unless provided otherwise by law, at least *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer [that have the higher rank in insolvency proceedings of the Issuer as determined by § 46 f subsection (5) of the German Banking Act [(so called Senior Preferred Securities)]]].

[In the case of UniCredit as Issuer, the following applies:

- (1) The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and ratably without any preference among themselves.
- [(2) The Security Holders unconditionally and irrevocably waive any right of set-off, netting, counterclaim, abatement or other similar remedy which they might otherwise have under the laws of any jurisdiction or otherwise in respect of such Securities.]
- [(3) Claims arising from Securities are neither secured, nor subject to a guarantee or any other arrangement that enhances the seniority of the claims.]
- [(4) The value of the claim arising from Securities in cases of the insolvency and of the resolution of the Issuer is fixed or increasing, and does not exceed the initially paid-up amount of the Securities, under all relevant laws and regulations amended from time to time, which are and will be applicable to the Issuer.]
- [(5) The Security Holders are not entitled to accelerate the payments under the Securities, other than in the case of the insolvency or liquidation of the Issuer, under all relevant laws and regulations amended from time to time, which are and will be applicable to it. For the avoidance of doubt, resolution proceeding(s) or *moratoria* imposed by a resolution authority in respect of the Issuer

shall not constitute an event of default for the Securities for any purpose and shall not entitle to accelerate the payments under the Securities.]

[(6) There is no negative pledge in respect of the Securities.]]

§ 5

Substitution of the Issuer

- (1) The Issuer may without the consent of the Security Holders, if no payment of principal or interest on any of the Securities is in default, at any time substitute the Issuer for any Affiliate of the Issuer as principal debtor in respect of all obligations of the Issuer under the Securities (the "**New Issuer**"), provided that
- (a) the New Issuer assumes all obligations of the Issuer in respect of the Securities;
 - (b) the Issuer and the New Issuer have obtained all necessary authorisations and may transfer to the Principal Paying Agent in the currency required hereunder and without being obligated to deduct or withhold taxes or other duties of whatever nature levied by the country, in which the New Issuer or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Securities;
 - (c) the New Issuer has agreed to indemnify and hold harmless each Security Holder against any tax, duty or other governmental charge imposed on such Security Holder in respect of such substitution[;] [and]
 - (d) the Issuer guarantees proper payment of the amounts due under these Terms and Conditions[.]; [and]
 - [(e) (i) the proceeds are immediately available to the New Issuer, without limitation (ii) each Security Holder is treated as if the Substitution of the Issuer had not taken place [and (iii) the competent supervisory authority or resolution authority has granted its prior consent (if and to the extent required by law)].]

For purposes of this § 5 (1) "**Affiliate**" means an affiliated company (*verbundenes Unternehmen*) within the meaning of Section 15 of the German Stock Corporation Act (*Aktiengesetz*).

- (2) *Notice*: Any such substitution shall be notified in accordance with § 6 of the General Conditions.
- (3) *References*: In the event of any such substitution, any reference in these Terms and Conditions to the Issuer shall be deemed to refer to the New Issuer. Furthermore, any reference to the country, in which the Issuer is domiciled or resident for taxation purposes shall be deemed to refer to the country of domicile or residence for taxation purposes of the New Issuer.

§ 6

Notices

- [(1)] To the extent these Terms and Conditions provide for a notice pursuant to this § 6, these will be published on the Website for Notices (or another website communicated by the Issuer with at least six weeks advance notice in accordance with these provisions) and become effective vis-à-vis the Security Holders through such publication unless the notice provides for a later effective date. If and to the extent that binding provisions of effective law or stock exchange provisions provide for other forms of publication, such publications must be made in addition and as provided for.

Other publications with regard to the Securities are published on the Website of the Issuer (or any successor website, which is notified by the Issuer in accordance with the above paragraph).

[In the case of Securities admitted to trading on the regulated market of, or listed on the official list of the Luxembourg Stock Exchange, the following applies:]

All notices concerning the Securities shall also be published in electronic form on the website of the Luxembourg Stock Exchange (www.luxse.com.)]

- [(2) In addition, the Issuer may deliver all notices concerning the Securities to the Clearing System for communication by the Clearing System to the Security Holders. Any such notice shall be deemed to have been given to the Security Holders on the [seventh] [●] [day] [Banking Day] after the day on which the said notice was given to the Clearing System.

For the avoidance of doubt, any notice published on the Website for Notices which has become effective shall prevail the notice via the Clearing System.]

§ 7

Issuance of additional Securities, Repurchase

- (1) *Issuance of additional Securities:* The Issuer reserves the right from time to time without the consent of the Security Holders to issue additional Securities with identical terms and conditions (except for the issue date and the issue price), so that the same shall be consolidated and form a single series (the "**Series**") with this Tranche. The term "*Securities*" shall, in the event of such increase, also comprise all additionally issued Securities.
- (2) *Repurchase:* The Issuer shall be entitled at any time to purchase Securities in the market or otherwise and at any price [subject to compliance with the then applicable MREL Requirements (including, without limitation, having obtained the prior permission of the competent supervisory authority or the resolution authority, if required)]. Securities repurchased by the Issuer may, at the Issuer's discretion, be held, resold or forwarded to the Principal Paying Agent for cancellation.

§ 8

Presentation Period

The presentation period provided in § 801 paragraph 1 sentence 1 BGB is reduced to ten years for the Securities.

§ 9

Partial Invalidity, Corrections[, Variations]

- (1) *Invalidity:* Should any provision of these Terms and Conditions be or become invalid or unenforceable in whole or in part, the remaining provisions are not affected thereby. Any gap arising as a result of invalidity or unenforceability of these Terms and Conditions is to be filled with a provision that corresponds to the meaning and intent of these Terms and Conditions and is in the interest of the parties.
- (2) *Corrections of manifest errors:* The Issuer may correct manifest errors in these Terms and Conditions. The correction is made by correcting the error with the obviously correct content. Manifest errors are recognisable typing errors as well as other comparable obvious inaccuracies. The Issuer will give notice to the Securities Holders about the correction pursuant to § 6 of the General Conditions.
- (3) *Incomplete or inconsistent provisions:* The Issuer is entitled to correct or amend incomplete or inconsistent provisions in these Terms and Conditions in its reasonable discretion (§ 315 et seq.

BGB). Only corrections and amendments that are reasonable for the Security Holders taking into account the interests of the Issuer and that in particular do not materially impair the legal and financial situation of the Security Holders will be permitted. The Security Holders will be informed of such corrections and supplementations pursuant to § 6 of the General Conditions.

- (4) *Adherence to corrected Terms and Conditions:* If the Security Holder was aware of typing or calculation errors or similar errors in these Terms and Conditions when purchasing the Securities, the Issuer is entitled to adhere to these Terms and Conditions amended accordingly irrespective of paragraphs (2) to (3) above.
- [(5) *Variation of the Terms and Conditions of the Securities:* If at any time a MREL Disqualification Event occurs, and/or in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, without consent or approval of the Security Holders, at any time vary these Terms and Conditions in such a way that the Securities remain Qualifying Securities (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall determine in its reasonable discretion (§ 315 BGB) whether a Variation shall be made and the extent of the Variation. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Securities Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). The Variation Notice shall be irrevocable and include details on the extent of the Variation and the date of its coming into effect.

"**Qualifying Securities**" means securities issued by the Issuer that:

- (a) other than in respect of the effectiveness and enforceability pursuant to §11 of the General Conditions, have terms not materially less favourable to the Security Holders (as determined by the Issuer in its reasonable discretion (§ 315 BGB)) than the terms of the Securities, and they shall also (A) contain terms which at such time result in such securities being eligible to count towards fulfilment of the Issuer's and/or the UniCredit Group's (as applicable) minimum requirements for own funds and eligible liabilities under the then applicable MREL Requirements; (B) include a ranking at least equal to that of the Securities; (C) have the same payment rights as the Securities; (D) preserve any existing rights of the Security Holders under the Securities to any accrued but unpaid amount in respect of the period from (and including) the payment date immediately preceding the effective date of the Variation and the date the Variation is coming into effect; and (E) are assigned (or maintain) the same or higher credit ratings as were assigned to the Securities immediately prior to such Variation, unless any negative effect on the ranking of, rating of or rights under the Securities as referred to in (B) to (E) is solely attributable to the effectiveness and enforceability of § 11 of the General Conditions; and
- (b) are listed on a recognised stock exchange if the Securities were listed immediately prior to such Variation.]
- [(6) For avoidance of doubt, any Variation pursuant to § 9 (5) of the General Conditions is subject to compliance by the Issuer with any conditions prescribed by the MREL Requirements at the relevant time, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority.]

§ 10

Applicable Law, Place of Performance, Place of Jurisdiction

- (1) *Applicable law:* The Securities, as to form and content, and all rights and obligations of the Issuer and the Security Holder shall be governed by the laws of the Federal Republic of Germany.
- (2) *Place of performance:* Place of performance is Munich.

- (3) *Place of jurisdiction:* To the extent permitted by law, all legal disputes arising from or in connection with the matters governed by these Terms and Conditions shall be brought before the court in Munich.

[§ 11

Contractual Recognition of statutory bail-in powers

- (1) By the acquisition of the Securities, each Security Holder acknowledges and agrees to be bound by the exercise of any Bail-in Power by the Relevant Resolution Authority that may result in the write-down or cancellation of all or a portion of the amounts payable with respect to the Securities and/or the conversion of all or a portion of the amounts payable with respect to the Securities into ordinary shares or other obligations of the Issuer or another person, including by means of a Variation to these Terms and Conditions pursuant to § 9 of the General Conditions to give effect to the exercise by the Relevant Resolution Authority of such Bail-in Power. Each Security Holder further agrees that the rights of the Security Holders are subject to, and will be varied if necessary pursuant to § 9 of the General Conditions so as to give effect to, the exercise of any Bail-in Power by the Relevant Resolution Authority.

Upon the Issuer being informed or notified by the Relevant Resolution Authority of the actual exercise of the date from which the Bail-in Power is effective with respect to the Securities, the Issuer shall notify the Security Holders without delay pursuant to § 6 of the General Conditions. Any delay or failure by the Issuer to give notice shall not affect the validity and enforceability of the Bail-in Power nor the effects on the Securities described in this § 11.

- (2) The exercise of the Bail-in Power by the Relevant Resolution Authority with respect to the Securities shall not entitle the Security Holder to terminate the Securities for good cause (*aus wichtigem Grund*) in accordance with § 314 BGB or to request adjustments or to rescind in accordance with § 313 BGB and these Terms and Conditions shall continue to apply in relation to the redemption amounts payable with respect to the Securities subject to any modification of the amount of distributions or other ongoing payments payable to reflect the reduction of the redemption amounts payable, and any further modification of these Terms and Conditions that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of the Issuer and/or entities of the Group incorporated in the relevant Member State.

"Bail-in Power" means any statutory write-down, transfer and/or conversion power existing from time to time under any laws, regulations, rules or requirements, whether relating to the resolution or independent of any resolution action, of credit institutions, investment firms and/or entities of the Group incorporated in the relevant Member State in effect and applicable in the relevant Member State to the Issuer or other entities of the Group, including (but not limited to) any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of any European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms and/or within the context of a relevant Member State resolution regime or otherwise, pursuant to which liabilities of the Issuer and/or any entities of the Group can be reduced, cancelled and/or converted into shares or obligations of the obligor or any other person.

"Group" means the UniCredit Banking Group, registered with the Register of Banking Groups held by the Bank of Italy pursuant to Article 64 of the Legislative Decree No. 385 of 1 September 1993 of the Republic of Italy, under number 02008.1;

"Relevant Resolution Authority" means the German resolution authority, the Italian resolution authority, the Single Resolution Board (SRB) established pursuant to the SRM Regulation and/or any other authority entitled to exercise or participate in the exercise of any bail-in power from time to time.]]

[Option 2: In the case of Securities governed by German law and issued as electronic Securities in a Central Register Securities form, the following applies:]

§ 1

Form, Central Register, Registrar, Specific Terms[, Replacement by Global Note]

[In the case of Securities without a Nominal Amount, the following applies:]

- (1) *Form:* This tranche (the "**Tranche**") of securities (the "**Securities**") of [UniCredit S.p.A.] [UniCredit Bank AG] (the "**Issuer**") will be issued as [notes] [certificates] in bearer form pursuant to these Terms and Conditions in the Specified Currency.]

[In the case of Securities with a Nominal Amount, the following applies:]

- (1) *Form:* This tranche (the "**Tranche**") of securities (the "**Securities**") of [UniCredit S.p.A.] [UniCredit Bank AG] (the "**Issuer**") will be issued as [notes] [certificates] in bearer form pursuant to these Terms and Conditions in the Specified Currency in a denomination equal to the Nominal Amount.]
- (2) *Central register:* The electronic Securities are registered in the central register (the "**Central Register**") as central register securities (*Zentralregisterwertpapiere*) within the meaning of § 4 paragraph 2 of the German Act on Electronic Securities (*Gesetz über elektronische Wertpapiere*, "**eWpG**") and identified by their registered [WKN] [and] [ISIN]. The Securities are represented by a collective safe custody entry (*Sammeleintragung*) in the Central Register. The Central Register is maintained by the Registrar in its capacity as central securities depository ("**Clearing System**"). The Registrar in its capacity as central securities depository is registered as the bearer of the Securities within the meaning of §§ 3 paragraph 1, 8 paragraph 1 no. 1 eWpG (the "**Bearer**"). The Bearer holds the Securities as trustee for the benefit of the respective Security Holders, but not as beneficiary of the Securities (§ 9 paragraph 2 sentence 1 eWpG). The co-ownership interests in the Securities may be transferred pursuant to the relevant regulations of the Clearing System and applicable law.
- (3) *Registrar:* The "**Registrar**" shall be [Clearstream Banking AG, Frankfurt, Mergenthalerallee 61, 65760 Eschborn ("**CBF**")][*insert other*] or any other registrar as notified by the Issuer in advance pursuant to § 6 of the General Conditions.
- (4) *Specific terms:* With respect to the electronic registration, the terms

"**Securities**" shall mean the identical [notes] [certificates] electronically issued in bearer form as central register securities (*Zentralregisterwertpapiere*) within the meaning of § 4 paragraph 2 eWpG and represented by a collective safe custody entry (*Sammeleintragung*) in the Central Register in the name of the Clearing System.

"**Security Holder**" shall mean each holder of a co-ownership interest in the Securities pursuant to §§ 3 paragraph 2, 9 paragraph 1 eWpG, which may be transferred pursuant to the relevant regulations of the Clearing System and applicable law.

"**Terms and Conditions**" shall mean the terms and conditions of these Securities as set out in the General Conditions (Part A), the Product and Underlying Data (Part B) and the Special Conditions (Part C) as deposited with the Registrar.]

- [(5) *Replacement by global note:* The Issuer reserves the right to replace the electronic Securities without the consent of the Security Holders with identical Securities represented by a global note. The Issuer will give notice to the Securities Holder about the intended replacement pursuant to § 6 of the General Conditions.

In such a case, the following applies:

- (a) The Securities will be represented by a global note (the "**Global Note**") without interest coupons, which bears the manual or facsimile signatures of two authorised signatories of the Issuer [*In the case of an Issuing Agent, the following applies:* as well as the manual signature of a control officer of the Issuing Agent]. The Security Holders are

not entitled to receive definitive Securities. The Securities as co-ownership interests in the Global Note may be transferred pursuant to the relevant regulations of the Clearing System. [In the case of interest-bearing Securities, the following applies: The right to receive interest is represented by the Global Note.]

[In the case of Securities where CBF is specified in the Final Terms as Clearing System, the following applies:

- (b) The Global Note will be kept in custody by Clearstream Banking AG, Frankfurt, Mergenthalerallee 61, 65760 Eschborn ("**CBF**").]

[In the case of Securities where CBL and Euroclear Bank is specified in the Final Terms as Clearing System, the following applies:

- (b) The Global Notes will be issued in classical global note form and will be kept in custody by a common depository on behalf of both ICSDs.]

[In the case of Securities where Euroclear France is specified in the Final Terms as Clearing System, the following applies:

- (b) The Global Note will be kept in custody by or on behalf of the Clearing System.]
- (c) Any reference to eWpG, Securities, Security Holder and Terms and Conditions herein shall be interpreted in such way as it is customary for securities represented by a global note and Clearing System shall mean [insert applicable definition from Part C].]

§ 2

Principal Paying Agent, Paying Agent, Calculation Agent

- (1) *Paying Agents:* The "**Principal Paying Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich, Germany] [UniCredit S.p.A., Piazza Gae Aulenti 3 - Tower A - 20154 Milan, Italy] [Citibank, N.A., London Branch, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, United Kingdom] [Insert name and address of other paying agent]. [The French Paying Agent for Euroclear France S.A. is CACEIS Bank S.A., 1-3 rue place Valhubert, 75206 Paris Cedex 13, France (the "**French Paying Agent**").] The Issuer may appoint additional paying agents (the "**Paying Agents**") and revoke such appointment. The appointment and revocation shall be published pursuant to § 6 of the General Conditions.
- (2) *Calculation Agent:* The "**Calculation Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich] [UniCredit S.p.A., Piazza Gae Aulenti 3 - Tower A - 20154 Milan, Italy] [Insert name and address of other calculation agent].
- (3) *Transfer of functions:* Should any event occur which results in the Principal Paying Agent[, French Paying Agent] or Calculation Agent being unable to continue in its function as Principal Paying Agent[, French Paying Agent] or Calculation Agent, the Issuer is obliged to appoint another bank of international standing as Principal Paying Agent[, French Paying Agent] or another person or institution with the relevant expertise as Calculation Agent. Any such transfer of the functions of the Principal Paying Agent[, French Paying Agent] or Calculation Agent shall be notified by the Issuer without undue delay pursuant to § 6 of the General Conditions.
- (4) *Agents of the Issuer:* In connection with the Securities, the Principal Paying Agent[, the French Paying Agent], the Paying Agents and the Calculation Agent act solely as agents of the Issuer and do not assume any obligations towards or relationship of agency or trust for or with any of the Security Holders. The Principal Paying Agent[, the French Paying Agent] and the Paying Agents shall be exempt from the restrictions of § 181 German Civil Code (Bürgerliches Gesetzbuch, "**BGB**").

§ 3

Taxes

No gross up: Payments in respect of the Securities shall only be made after deduction and withholding of current or future taxes, to the extent that such deduction or withholding is required by law. In this regard the term "**Taxes**" includes taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, including a withholding tax pursuant to Section 871(m) of the United States Internal Revenue Code of 1986 ("**871(m) Withholding Tax**").

The Issuer shall in any case be entitled to take into consideration the 871(m) Withholding Tax by applying the maximum tax rate as a flat rate (plus value added tax, if applicable). In no case is the Issuer obliged to compensate with respect to any Taxes deducted or withheld.

The Issuer shall report on the deducted and withheld Taxes to the competent government agencies, except, these obligations are imposed upon any other person involved, subject to the legal and contractual requirements of the respective applicable tax rules.

§ 4

Status

[In the case of HVB as Issuer, the following applies:

The obligations under the Securities constitute direct, unconditional, and unsecured obligations of the Issuer and rank, unless provided otherwise by law, at least *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer [that have the higher rank in insolvency proceedings of the Issuer as determined by § 46 f subsection (5) of the German Banking Act [(so called Senior Preferred Securities)]]].

[In the case of UniCredit as Issuer, the following applies:

- (1) The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and ratably without any preference among themselves.
- [(2) The Security Holders unconditionally and irrevocably waive any right of set-off, netting, counterclaim, abatement or other similar remedy which they might otherwise have under the laws of any jurisdiction or otherwise in respect of such Securities.]
- [(3) Claims arising from Securities are neither secured, nor subject to a guarantee or any other arrangement that enhances the seniority of the claims.]
- [(4) The value of the claim arising from Securities in cases of the insolvency and of the resolution of the Issuer is fixed or increasing, and does not exceed the initially paid-up amount of the Securities, under all relevant laws and regulations amended from time to time, which are and will be applicable to the Issuer.]
- [(5) The Security Holders are not entitled to accelerate the payments under the Securities, other than in the case of the insolvency or liquidation of the Issuer, under all relevant laws and regulations amended from time to time, which are and will be applicable to it. For the avoidance of doubt, resolution proceeding(s) or *moratoria* imposed by a resolution authority in respect of the Issuer

shall not constitute an event of default for the Securities for any purpose and shall not entitle to accelerate the payments under the Securities.]

[(6) There is no negative pledge in respect of the Securities.]]

§ 5

Substitution of the Issuer

- (1) The Issuer may without the consent of the Security Holders, if no payment of principal or interest on any of the Securities is in default, at any time substitute the Issuer for any Affiliate of the Issuer as principal debtor in respect of all obligations of the Issuer under the Securities (the "**New Issuer**"), provided that
- (a) the New Issuer assumes all obligations of the Issuer in respect of the Securities;
 - (b) the Issuer and the New Issuer have obtained all necessary authorisations and may transfer to the Principal Paying Agent in the currency required hereunder and without being obligated to deduct or withhold taxes or other duties of whatever nature levied by the country, in which the New Issuer or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Securities;
 - (c) the New Issuer has agreed to indemnify and hold harmless each Security Holder against any tax, duty or other governmental charge imposed on such Security Holder in respect of such substitution[;] [and]
 - (d) the Issuer guarantees proper payment of the amounts due under these Terms and Conditions[.]; [and]
 - [(e) (i) the proceeds are immediately available to the New Issuer, without limitation (ii) each Security Holder is treated as if the Substitution of the Issuer had not taken place [and (iii) the competent supervisory authority or resolution authority has granted its prior consent (if and to the extent required by law)].]

The Issuer shall be deemed to be authorised vis-à-vis the Registrar within the meaning of §§ 5 paragraph 2 no. 3, 14 paragraph 1 no. 2 lit. (c) eWpG to issue instructions, in order to authorise the necessary amendments to the deposited Terms and Conditions and to the registration particulars set-out in § 13 paragraph 1 no. 1 and 4 eWpG.

For purposes of this § 5 (1) "**Affiliate**" means an affiliated company (*verbundenes Unternehmen*) within the meaning of Section 15 of the German Stock Corporation Act (*Aktiengesetz*).

- (2) *Notice*: Any such substitution shall be notified in accordance with § 6 of the General Conditions.
- (3) *References*: In the event of any such substitution, any reference in these Terms and Conditions to the Issuer shall be deemed to refer to the New Issuer. Furthermore, any reference to the country, in which the Issuer is domiciled or resident for taxation purposes shall be deemed to refer to the country of domicile or residence for taxation purposes of the New Issuer.

§ 6

Notices

- [(1)] To the extent these Terms and Conditions provide for a notice pursuant to this § 6, these will be published on the Website for Notices (or another website communicated by the Issuer with at least six weeks advance notice in accordance with these provisions) and become effective vis-à-vis the Security Holders through such publication unless the notice provides for a later

effective date. If and to the extent that binding provisions of effective law or stock exchange provisions provide for other forms of publication, such publications must be made in addition and as provided for.

Other publications with regard to the Securities are published on the Website of the Issuer (or any successor website, which is notified by the Issuer in accordance with the above paragraph).

[In the case of Securities admitted to trading on the regulated market of, or listed on the official list of the Luxembourg Stock Exchange, the following applies:

All notices concerning the Securities shall also be published in electronic form on the website of the Luxembourg Stock Exchange (www.luxse.com).]

- [(2) In addition, the Issuer may deliver all notices concerning the Securities to the Clearing System for communication by the Clearing System to the Security Holders. Any such notice shall be deemed to have been given to the Security Holders on the [seventh] [●] [day] [Banking Day] after the day on which the said notice was given to the Clearing System.

For the avoidance of doubt, any notice published on the Website for Notices which has become effective shall prevail the notice via the Clearing System.]

§ 7

Issuance of additional Securities, Repurchase

- (1) *Issuance of additional Securities:* The Issuer reserves the right from time to time without the consent of the Security Holders to issue additional Securities with identical terms and conditions (except for the issue date and the issue price), so that the same shall be consolidated and form a single series (the "**Series**") with this Tranche. The term "**Securities**" shall, in the event of such increase, also comprise all additionally issued Securities.
- (2) *Repurchase:* The Issuer shall be entitled at any time to purchase Securities in the market or otherwise and at any price [subject to compliance with the then applicable MREL Requirements (including, without limitation, having obtained the prior permission of the competent supervisory authority or the resolution authority, if required)]. Securities repurchased by the Issuer may, at the Issuer's discretion, be held, resold or forwarded to the Principal Paying Agent for cancellation.

§ 8

Presentation Period

The presentation period provided in § 801 paragraph 1 sentence 1 BGB is reduced to ten years for the Securities. The presentation shall be made by payment demand (§ 29 paragraph 2 eWpG), which shall be accompanied by a deposit certificate within the meaning of § 6 paragraph 2 German Custody Act (*Depotgesetz*) issued in the name of the Security Holder making the payment demand.

§ 9

Partial Invalidity, Corrections[, Variations]

- (1) *Invalidity:* Should any provision of these Terms and Conditions be or become invalid or unenforceable in whole or in part, the remaining provisions are not affected thereby. Any gap arising as a result of invalidity or unenforceability of these Terms and Conditions is to be filled with a provision that corresponds to the meaning and intent of these Terms and Conditions and is in the interest of the parties.

- (2) *Corrections of manifest errors*: The Issuer may correct manifest errors in these Terms and Conditions. The correction is made by correcting the error with the obviously correct content. Manifest errors are recognisable typing errors as well as other comparable obvious inaccuracies. The Issuer will give notice to the Securities Holders about the correction pursuant to § 6 of the General Conditions.
- (3) *Incomplete or inconsistent provisions*: The Issuer is entitled to correct or amend incomplete or inconsistent provisions in these Terms and Conditions in its reasonable discretion (§ 315 et seq. BGB). Only corrections and amendments that are reasonable for the Security Holders taking into account the interests of the Issuer and that in particular do not materially impair the legal and financial situation of the Security Holders will be permitted. The Security Holders will be informed of such corrections and supplementations pursuant to § 6 of the General Conditions.
- (4) *Authorisation*: The Issuer shall be deemed to be authorised vis-à-vis the Registrar within the meaning of §§ 5 paragraph 2 no. 3, 14 paragraph 1 no. 2 lit. (c) eWpG to issue instructions, in order to authorise the necessary amendments provided for in this § 9 to the deposited Terms and Conditions and to the registration particulars set-out in § 13 paragraph 1 no. 1 and 4 eWpG.
- (5) *Adherence to corrected Terms and Conditions*: If the Security Holder was aware of typing or calculation errors or similar errors in these Terms and Conditions when purchasing the Securities, the Issuer is entitled to adhere to these Terms and Conditions amended accordingly irrespective of paragraphs (2) to (4) above.
- [(6) *Variation of the Terms and Conditions of the Securities*: If at any time a MREL Disqualification Event occurs, and/or in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, without consent or approval of the Security Holders, at any time vary these Terms and Conditions in such a way that the Securities remain Qualifying Securities (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall determine in its reasonable discretion (§ 315 BGB) whether a Variation shall be made and the extent of the Variation. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Securities Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). The Variation Notice shall be irrevocable and include details on the extent of the Variation and the date of its coming into effect.

"**Qualifying Securities**" means securities issued by the Issuer that:

- (a) other than in respect of the effectiveness and enforceability pursuant to §11 of the General Conditions, have terms not materially less favourable to the Security Holders (as determined by the Issuer in its reasonable discretion (§ 315 BGB)) than the terms of the Securities, and they shall also (A) contain terms which at such time result in such securities being eligible to count towards fulfilment of the Issuer's and/or the UniCredit Group's (as applicable) minimum requirements for own funds and eligible liabilities under the then applicable MREL Requirements; (B) include a ranking at least equal to that of the Securities; (C) have the same payment rights as the Securities; (D) preserve any existing rights of the Security Holders under the Securities to any accrued but unpaid amount in respect of the period from (and including) the payment date immediately preceding the effective date of the Variation and the date the Variation is coming into effect; and (E) are assigned (or maintain) the same or higher credit ratings as were assigned to the Securities immediately prior to such Variation, unless any negative effect on the ranking of, rating of or rights under the Securities as referred to in (B) to (E) is solely attributable to the effectiveness and enforceability of § 11 of the General Conditions; and
- (b) are listed on a recognised stock exchange if the Securities were listed immediately prior to such Variation.]
- [(7) For avoidance of doubt, any Variation pursuant to § 9 (6) of the General Conditions is subject to compliance by the Issuer with any conditions prescribed by the MREL Requirements at the

relevant time, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority.]

§ 10

Applicable Law, Place of Performance, Place of Jurisdiction

- (1) *Applicable law:* The Securities, as to form and content, and all rights and obligations of the Issuer and the Security Holder shall be governed by the laws of the Federal Republic of Germany.
- (2) *Place of performance:* Place of performance is Munich.
- (3) *Place of jurisdiction:* To the extent permitted by law, all legal disputes arising from or in connection with the matters governed by these Terms and Conditions shall be brought before the court in Munich.

[§ 11

Contractual Recognition of statutory bail-in powers

- (1) By the acquisition of the Securities, each Security Holder acknowledges and agrees to be bound by the exercise of any Bail-in Power by the Relevant Resolution Authority that may result in the write-down or cancellation of all or a portion of the amounts payable with respect to the Securities and/or the conversion of all or a portion of the amounts payable with respect to the Securities into ordinary shares or other obligations of the Issuer or another person, including by means of a Variation to these Terms and Conditions pursuant to § 9 of the General Conditions to give effect to the exercise by the Relevant Resolution Authority of such Bail-in Power. Each Security Holder further agrees that the rights of the Security Holders are subject to, and will be varied if necessary pursuant to § 9 of the General Conditions so as to give effect to, the exercise of any Bail-in Power by the Relevant Resolution Authority.

Upon the Issuer being informed or notified by the Relevant Resolution Authority of the actual exercise of the date from which the Bail-in Power is effective with respect to the Securities, the Issuer shall notify the Security Holders without delay pursuant to § 6 of the General Conditions. Any delay or failure by the Issuer to give notice shall not affect the validity and enforceability of the Bail-in Power nor the effects on the Securities described in this § 11.

- (2) The exercise of the Bail-in Power by the Relevant Resolution Authority with respect to the Securities shall not entitle the Security Holder to terminate the Securities for good cause (*aus wichtigem Grund*) in accordance with § 314 BGB or to request adjustments or to rescind in accordance with § 313 BGB and these Terms and Conditions shall continue to apply in relation to the redemption amounts payable with respect to the Securities subject to any modification of the amount of distributions or other ongoing payments payable to reflect the reduction of the redemption amounts payable, and any further modification of these Terms and Conditions that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of the Issuer and/or entities of the Group incorporated in the relevant Member State.

"Bail-in Power" means any statutory write-down, transfer and/or conversion power existing from time to time under any laws, regulations, rules or requirements, whether relating to the resolution or independent of any resolution action, of credit institutions, investment firms and/or entities of the Group incorporated in the relevant Member State in effect and applicable in the relevant Member State to the Issuer or other entities of the Group, including (but not limited to) any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of any European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms and/or within the context of a relevant Member State resolution regime or

otherwise, pursuant to which liabilities of the Issuer and/or any entities of the Group can be reduced, cancelled and/or converted into shares or obligations of the obligor or any other person.

"Group" means the UniCredit Banking Group, registered with the Register of Banking Groups held by the Bank of Italy pursuant to Article 64 of the Legislative Decree No. 385 of 1 September 1993 of the Republic of Italy, under number 02008.1;

"Relevant Resolution Authority" means the German resolution authority, the Italian resolution authority, the Single Resolution Board (SRB) established pursuant to the SRM Regulation and/or any other authority entitled to exercise or participate in the exercise of any bail-in power from time to time.]]

[Option 3: In the case of Securities governed by Italian law, the following applies:]

§ 1

Form, Book Entry, Clearing System

[In the case of Securities without a Nominal Amount, the following applies:]

- (1) *Form:* This tranche (the "**Tranche**") of securities (the "**Securities**") of [UniCredit S.p.A.] [UniCredit Bank AG] (the "**Issuer**") will be issued as [non-par value] [notes] [certificates] in dematerialized registered form pursuant to the Terms and Conditions in the Specified Currency.]

[In the case of Securities with Nominal Amount, the following applies:]

- (1) *Form:* This tranche (the "**Tranche**") of securities (the "**Securities**") of [UniCredit S.p.A.] [UniCredit Bank AG] (the "**Issuer**") will be issued as [notes] [certificates] in dematerialized registered form pursuant to these Terms and Conditions in the Specified Currency in a denomination equal to the Nominal Amount.]
- (2) *Book Entry:* The Securities are registered in the books of the Clearing System, in accordance with the Legislative Decree no. 58 of 24 February 1998, as amended (*Testo Unico della Finanza*, "**Consolidated Law on Financial Intermediation**") and with the rules governing central depositories, settlement services, guarantee systems and related management companies, issued by the Bank of Italy and by the Italian securities regulator 'Commissione Nazionale per le Società e la Borsa' (CONSOB) on 22 February 2008, as amended. No physical document of title will be issued to represent the Securities, without prejudice to the right of the Security Holder to obtain the issuance of the certification as per Sections 83-*quinquies* and 83-*novies*, paragraph 1, lett. b) of the Consolidated Law on Financial Intermediation. The transfer of the Securities operates by way of registration on the relevant accounts opened with the Clearing System by any intermediary adhering, directly or indirectly, to the Clearing System ("**Account Holders**"). As a consequence, the respective Security Holder who from time to time is the owner of the account held with an Account Holder will be considered as the legitimate owner of the Securities and will be authorised to exercise all rights related to them, in accordance with these Terms and Conditions and applicable provisions of law.

§ 2

Principal Paying Agent, Paying Agent, Calculation Agent

- (1) *Paying Agents:* The "**Principal Paying Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich, Germany] [UniCredit S.p.A., Piazza Gae Aulenti 3 - Tower A - 20154 Milan, Italy] [Citibank, N.A., London Branch, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, United Kingdom] [*Insert name and address of other paying agent*]. [The French Paying Agent for Euroclear France S.A. is CACEIS Bank S.A., 1-3 rue place Valhubert, 75206 Paris Cedex 13, France (the "**French Paying Agent**").] The Issuer may appoint additional paying agents (the "**Paying Agents**") and revoke such appointment. The appointment and revocation shall be published pursuant to § 6 of the General Conditions.
- (2) *Calculation Agent:* The "**Calculation Agent**" is [UniCredit Bank AG, Arabellastraße 12, 81925 Munich] [UniCredit S.p.A., Piazza Gae Aulenti 3 - Tower A - 20154 Milan, Italy] [*Insert name and address of other calculation agent*].
- (3) *Transfer of functions:* Should any event occur which results in the Principal Paying Agent[, French Paying Agent] or Calculation Agent being unable to continue in its function as Principal Paying Agent[, French Paying Agent] or Calculation Agent, the Issuer is obliged to appoint another bank of international standing as Principal Paying Agent[, French Paying Agent] or another person or institution with the relevant expertise as Calculation Agent. Any such transfer of the functions of the Principal Paying Agent[, French Paying Agent] or Calculation Agent shall be notified by the Issuer without undue delay pursuant to § 6 of the General Conditions.

- (4) *Agents of the Issuer:* In connection with the Securities, the Principal Paying Agent, the Paying Agents and the Calculation Agent act solely on behalf of the Issuer and do not assume any obligations towards or relationship of mandate or trust for or with any of the Security Holders. For the avoidance of doubt, Section 1395 of the Italian Civil Code (*Codice Civile*, "CC") shall not apply in respect of any acts of the Principal Paying Agent.

§ 3

Taxes

No gross up: Payments in respect of the Securities shall only be made after deduction and withholding of current or future taxes, to the extent that such deduction or withholding is required by law. In this regard the term "**Taxes**" includes taxes, levies or governmental charges, regardless of their nature, which are imposed, levied or collected under any applicable system of law or in any country which claims fiscal jurisdiction by or for the account of any political subdivision thereof or government agency therein authorised to levy Taxes, including a withholding tax pursuant to Section 871(m) of the United States Internal Revenue Code of 1986 ("**871(m) Withholding Tax**").

The Issuer shall in any case be entitled to take into consideration the 871(m) Withholding Tax by applying the maximum tax rate as a flat rate (plus value added tax, if applicable). In no case is the Issuer obliged to compensate with respect to any Taxes deducted or withheld.

The Issuer shall report on the deducted and withheld Taxes to the competent government agencies, except, these obligations are imposed upon any other person involved, subject to the legal and contractual requirements of the respective applicable tax rules.

§ 4

Status

[In the case of HVB as Issuer, the following applies:

The obligations under the Securities constitute direct, unconditional, and unsecured obligations of the Issuer and rank, unless provided otherwise by law, at least *pari passu* with all other unsecured and unsubordinated present and future obligations of the Issuer [that have the higher rank in insolvency proceedings of the Issuer as determined by § 46 f subsection (5) of the German Banking Act [(so called Senior Preferred Securities)]].

[In the case of UniCredit as Issuer, the following applies:

- (1) The obligations of the Issuer under the Securities constitute direct, unconditional, unsubordinated and unsecured obligations of the Issuer, ranking (subject to any obligations preferred by any applicable law (also subject to the bail-in instruments as implemented under Italian law)) *pari passu* with all other unsecured obligations (other than obligations ranking junior to the senior notes from time to time (including non-preferred senior notes and any further obligations permitted by law to rank junior to the senior notes following the Issue Date), if any) of the Issuer, present and future and, in the case of the senior notes, *pari passu* and rateably without any preference among themselves.
- [(2) The Security Holders unconditionally and irrevocably waive any right of set-off, netting, counterclaim, abatement or other similar remedy which they might otherwise have under the laws of any jurisdiction or otherwise in respect of such Securities.]
- [(3) Claims arising from Securities are neither secured, nor subject to a guarantee or any other arrangement that enhances the seniority of the claims.]
- [(4) The value of the claim arising from Securities in cases of the insolvency and of the resolution of the Issuer is fixed or increasing, and does not exceed the initially paid-up amount of the

Securities, under all relevant laws and regulations amended from time to time, which are and will be applicable to the Issuer.]

- [(5) The Security Holders are not entitled to accelerate the payments under the Securities, other than in the case of the insolvency or liquidation of the Issuer, under all relevant laws and regulations amended from time to time, which are and will be applicable to it. For the avoidance of doubt, resolution proceeding(s) or *moratoria* imposed by a resolution authority in respect of the Issuer shall not constitute an event of default for the Securities for any purpose and shall not entitle to accelerate the payments under the Securities.]
- [(6) There is no negative pledge in respect of the Securities.]]

§ 5

Substitution of the Issuer

- (1) The Issuer may without the consent of the Security Holders, if no payment of principal or interest on any of the Securities is in default, at any time substitute the Issuer for any Affiliate of the Issuer as principal debtor in respect of all obligations of the Issuer under the Securities (the "**New Issuer**"), provided that
- (a) the New Issuer assumes all obligations of the Issuer in respect of the Securities;
 - (b) the Issuer and the New Issuer have obtained all authorisations and have satisfied all other conditions as necessary to ensure that the Securities are legal, valid and enforceable obligations of the New Issuer;
 - (c) the Issuer and the New Issuer may transfer to the Principal Paying Agent in the currency required hereunder and without being obligated to deduct or withhold taxes or other duties of whatever nature levied by the country, in which the New Issuer or the Issuer has its domicile or tax residence, all amounts required for the fulfilment of the payment obligations arising under the Securities;
 - (d) the New Issuer has agreed to indemnify and hold harmless each Security Holder against any tax, duty or other governmental charge imposed on such Security Holder in respect of such substitution[;] [and]
 - (e) the Issuer irrevocably and unconditionally guarantees proper payment of the amounts due under these Terms and Conditions[.]; [and]
 - [(f) (i) the proceeds are immediately available to the New Issuer, without limitation (ii) each Security Holder is treated as if the Substitution of the Issuer had not taken place [and (iii) the competent supervisory authority or resolution authority has granted its prior consent (if and to the extent required by law)].]

[In the case of UniCredit as Issuer, the following applies:

For purposes of this § 5 (1) "**Affiliate**" means a company controlling, controlled by, or under common control with, the Issuer, provided that the term "controlled" ("*controllate*") shall have the meaning ascribed to it in Section 93 of the Consolidated Law on Financial Intermediation and the terms "controlling" and "common control" shall be interpreted accordingly.]

[In the case of HVB as Issuer, the following applies:

For purposes of this § 5 (1) "**Affiliate**" means an affiliated company (*verbundenes Unternehmen*) within the meaning of Section 15 of the German Stock Corporation Act (*Aktiengesetz*).]

- (2) *Notice:* Any such substitution shall be notified in accordance with § 6 of the General Conditions.
- (3) *References:* In the event of any such substitution, any reference in these Terms and Conditions to the Issuer shall from then on be deemed to refer to the New Issuer. Furthermore, any reference

to the country, in which the Issuer is domiciled or resident for taxation purposes shall from then on be deemed to refer to the country of domicile or residence for taxation purposes of the New Issuer.

§ 6

Notices

- [(1)] To the extent these Terms and Conditions provide for a notice pursuant to this § 6, these will be published on the Website for Notices (or another website communicated by the Issuer with at least six weeks advance notice in accordance with these provisions) and become effective vis-à-vis the Security Holders through such publication unless the notice provides for a later effective date or such later effective date is otherwise required under applicable law. If and to the extent that binding provisions of effective law or stock exchange provisions provide for other forms of publication, such publications must be made in addition and as provided for.

Other publications with regard to the Securities are published on the Website of the Issuer (or any successor website, which is notified by the Issuer in accordance with the above paragraph).

[In the case of Securities admitted to trading on the regulated market of, or listed on the official list of the Luxembourg Stock Exchange, the following applies:

All notices concerning the Securities shall also be published in electronic form on the website of the Luxembourg Stock Exchange (www.luxse.com).]

- [(2)] In addition, the Issuer may deliver all notices concerning the Securities to the Clearing System for communication by the Clearing System to the Security Holders. Any such notice shall be deemed to have been given to the Security Holders on the [seventh] [●] [day] [Banking Day] after the day on which the said notice was given to the Clearing System.

Any notice published on the Website for Notices which has become effective shall prevail the notice via the Clearing System.]

§ 7

Issuance of additional Securities, Repurchase

- (1) *Issuance of additional Securities:* The Issuer reserves the right from time to time without the consent of the Security Holders to issue additional Securities with identical terms and conditions (except for the issue date and the issue price), so that the same shall be consolidated and form a single series (the "**Series**") with this Tranche. The term "Securities" shall, in the event of such increase, also comprise all additionally issued Securities.
- (2) *Repurchase:* The Issuer shall be entitled at any time to purchase Securities in the market or otherwise and at any price [subject to compliance with the then applicable MREL Requirements (including, without limitation, having obtained the prior permission of the competent supervisory authority or the resolution authority, if required)]. Securities repurchased by the Issuer may, at the Issuer's discretion, be held, resold or forwarded to the Principal Paying Agent for cancellation.

§ 8

(intentionally omitted)

§ 9

Partial Invalidity, Corrections[, Variations]

- (1) *Invalidity*: Should any provision of these Terms and Conditions be or become invalid or unenforceable in whole or in part, the remaining provisions are not affected thereby. Any gap arising as a result of invalidity or unenforceability of these Terms and Conditions is to be filled with a provision that corresponds to the meaning and intent of these Terms and Conditions and is in the interest of the parties.
- (2) *Typing and calculation errors, inaccuracies and inconsistencies*: The Issuer may amend these Terms and Conditions without having to obtain the prior consent of the Security Holders, provided that such amendments (i) do not prejudice the rights or interests of the Security Holders and (ii) are aimed at correcting a manifest or obvious error, or at removing inaccuracies or inconsistencies from the text. Any notices to the Security Holders relating to the amendments referred to in the previous sentence shall be made in accordance with Section 6 of these Terms and Conditions.
- [(3) *Variation of the Terms and Conditions of the Securities*: If at any time a MREL Disqualification Event occurs, and/or in order to ensure or maintain the effectiveness and enforceability of § 11 of the General Conditions, the Issuer may, without any consent or approval of the Security Holders, at any time vary these Terms and Conditions in such a way that the Securities remain or, as appropriate, become, Qualifying Securities (the "**Variation**"). However, the Variation may not itself give rise to any right of the Issuer to redeem the varied Securities. The Issuer shall give not less than 30 nor more than 60 days' prior notice of the Variation to the Paying Agent and the Securities Holders in accordance with § 6 of the General Conditions (the "**Variation Notice**"). The Variation Notice shall be irrevocable and include details on the extent of the Variation and the date of its coming into effect.

"**Qualifying Securities**" means securities issued by the Issuer that:

- (a) other than in respect of the effectiveness and enforceability pursuant to §11 of the General Conditions, have terms not materially less favourable to the Security Holders (as reasonably determined by the Issuer) than the terms of the Securities, and they shall also (A) contain terms which at such time result in such securities being eligible to count towards fulfilment of the Issuer's and/or the UniCredit Group's (as applicable) minimum requirements for own funds and eligible liabilities under the then applicable MREL Requirements; (B) include a ranking at least equal to that of the Securities; (C) have the same payment rights as the Securities; (D) preserve any existing rights of the Security Holders under the Securities to any accrued but unpaid amount in respect of the period from (and including) the payment date immediately preceding effective date of the Variation and the date the Variation is coming into effect; and (E) are assigned (or maintain) the same or higher credit ratings as were assigned to the Securities immediately prior to such Variation, unless any negative effect on the ranking of, rating of or rights under the Securities as referred to in (B) to (E) is solely attributable to the effectiveness and enforceability of §11 of the General Conditions; and
 - (b) are listed on a recognised stock exchange if the Securities were listed immediately prior to such Variation.]
- [(4) For avoidance of doubt, any Variation pursuant to § 9 (3) of the General Conditions is subject to compliance by the Issuer with any conditions prescribed by the MREL Requirements at the relevant time, including, as relevant, the condition that the Issuer has obtained the prior permission of the Relevant Resolution Authority.]

§ 10

Applicable Law, Choice of Forum

- (1) *Applicable law:* The Securities, as to form and content, and all rights and obligations thereunder shall be governed by the laws of the Republic of Italy.
- (2) *Choice of Forum:* To the extent permitted by law, all disputes arising from or in connection with the matters governed by these Terms and Conditions shall be brought before the Tribunal of Milan, Italy.]

[§ 11

Contractual recognition of statutory bail-in powers

- (1) By the acquisition of the Securities, each Security Holder acknowledges and agrees to be bound by the exercise of any Bail-in Power by the Relevant Resolution Authority that may result in the write-down or cancellation of all or a portion of the amounts payable with respect to the Securities and/or the conversion of all or a portion of the amounts payable with respect to the Securities into ordinary shares or other obligations of the Issuer or another person, including by means of a Variation to these Terms and Conditions pursuant to § 9 of the General Conditions to give effect to the exercise by the Relevant Resolution Authority of such Bail-in Power. Each Security Holder further agrees that the rights of the Security Holders are subject to, and will be varied if necessary pursuant to § 9 of the General Conditions so as to give effect to, the exercise of any Bail-in Power by the Relevant Resolution Authority.

Upon the Issuer being informed or notified by the Relevant Resolution Authority of the actual exercise of the date from which the Bail-in Power is effective with respect to the Securities, the Issuer shall notify the Security Holders without delay pursuant to § 6 of the General Conditions. Any delay or failure by the Issuer to give notice shall not affect the validity and enforceability of the Bail-in Power nor the effects on the Securities described in this § 11.

- (2) The exercise of the Bail-in Power by the Relevant Resolution Authority with respect to the Securities shall not constitute an event of default, as applicable, or entail the Security Holders to terminate the Securities and these Terms and Conditions shall continue to apply in relation to the redemption amounts payable with respect to the Securities subject to any modification of the amount of distributions or other ongoing payments payable to reflect the reduction of the redemption amount payable, and any further modification of these Terms and Conditions that the Relevant Resolution Authority may decide in accordance with applicable laws and regulations relating to the resolution of the Issuer and/or entities of the Group incorporated in the relevant Member State.

"Bail-in Power" means any statutory write-down, transfer and/or conversion power existing from time to time under any laws, regulations, rules or requirements, whether relating to the resolution or independent of any resolution action, of credit institutions, investment firms and/or entities of the Group incorporated in the relevant Member State in effect and applicable in the relevant Member State to the Issuer or other entities of the Group, including (but not limited to) any such laws, regulations, rules or requirements that are implemented, adopted or enacted within the context of any European Union directive or regulation of the European Parliament and of the Council establishing a framework for the recovery and resolution of credit institutions and investment firms and/or within the context of a relevant Member State resolution regime or otherwise, pursuant to which liabilities of the Issuer and/or any entities of the Group can be reduced, cancelled and/or converted into shares or obligations of the obligor or any other person.

"Group" means the UniCredit Banking Group, registered with the Register of Banking Groups held by the Bank of Italy pursuant to Article 64 of the Legislative Decree No. 385 of 1 September 1993 of the Republic of Italy, under number 02008.1.

"Relevant Resolution Authority" means the German resolution authority, the Italian resolution authority, the Single Resolution Board (SRB) established pursuant to the SRM Regulation and/or any other authority entitled to exercise or participate in the exercise of any bail-in power from time to time.]

["**Variable Amount (Accrual) (m)**" means, with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m), the Variable Amount (*Accrual*) (m) as calculated by the Calculation Agent in accordance with the following formula:

[In the case of Option 1, the following applies:

Variable Amount (*Accrual*) (m) = Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Range Accrual*) (m)]

[In the case of **Option 2 (Memory)**, the following applies:

Variable Amount (*Accrual*) (m) = (Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Accrual*) (m)) - Sum of Additional Conditional Amounts (m)]

[In the case of **Securities with a Minimum Variable Amount (Accrual) (m)**, the following applies:

The Variable Amount (*Accrual*) (m) is not lower than the relevant Minimum Variable Amount (*Accrual*) (m).]

[In the case of **Securities with a Maximum Variable Amount (Accrual) (m)**, the following applies:

The Variable Amount (*Accrual*) (m) is not greater than the relevant Maximum Variable Amount (*Accrual*) (m).]]

["**Variable Amount (Range Accrual) (m)**" means, with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m), the Variable Amount (*Range Accrual*) (m) as calculated by the Calculation Agent in accordance with the following formula:

[In the case of **Option 1**, the following applies:

Variable Amount (*Range Accrual*) (m) = Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Range Accrual*) (m)]

[In the case of **Option 2 (Memory)**, the following applies:

Variable Amount (*Range Accrual*) (m) = (Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Range Accrual*) (m)) - Sum of Additional Conditional Amounts (m)]

[In the case of **Securities with a Minimum Variable Amount (Range Accrual) (m)**, the following applies:

The Variable Amount (*Range Accrual*) (m) is not lower than the relevant Minimum Variable Amount (*Range Accrual*) (m).]

[In the case of **Securities with a Maximum Variable Amount (Range Accrual) (m)**, the following applies:

The Variable Amount (*Range Accrual*) (m) is not greater than the relevant Maximum Variable Amount (*Range Accrual*) (m).]]

[In the case of a **Fund Share as Underlying**, the following applies:

"**VolComparator**" means the VolComparator as specified in § 2 of the Product and Underlying Data.

"**VolComparator Calculation Date**" means each day on which the VolComparator Reference Price is published by the VolComparator Sponsor.

["**VolComparator Replacement Event**" means each of the following events:

- (a) changes in the relevant index concept or the calculation of the VolComparator, that result in a new relevant index concept or calculation of the VolComparator being no longer economically equivalent to the original relevant index concept or the original calculation of the VolComparator; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*];

- (b) the calculation or publication of the VolComparator is discontinued indefinitely or permanently or replaced by another index;
- (c) due to circumstances for which the Issuer is not responsible, the Issuer is no longer entitled to use the VolComparator as basis for any calculation or specifications described in these Terms and Conditions;
- (d) any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the VolComparator; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

In cases of a VolComparator Replacement Event the Calculation Agent is entitled to determine [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith], which index should be used in the future as a VolComparator (the "**Replacement VolComparator**"). The Replacement VolComparator will be published in accordance with § 6 of the General Conditions. Any reference to the replaced VolComparator in these Terms and Conditions shall be deemed to refer to the Replacement VolComparator.

If the VolComparator is no longer determined by the VolComparator Sponsor but rather by another person, company or institution (the "**New VolComparator Sponsor**"), then any calculation described in these Terms and Conditions shall occur on the basis of the VolComparator as determined by the New VolComparator Sponsor. In this case, any reference to the replaced VolComparator Sponsor in these Terms and Conditions shall be deemed to refer to the New VolComparator Sponsor.]

"**VolComparator Reference Price**" means the closing price of the VolComparator as specified in § 1 of the Product and Underlying Data.

"**VolComparator Sponsor**" means the VolComparator Sponsor as specified in § 2 of the Product and Underlying Data.]

"**Website[s] for Notices**" means the Website[s] for Notices as specified in § 1 of the Product and Underlying Data.

["**Website[s] of the Issuer**" means the Website[s] of the Issuer as specified in § 1 of the Product and Underlying Data.]

*[In the case of Securities with **Worst-in Observation**, the following applies:*

"**Worst-in Period**" means [each Relevant Observation Date (initial)] [*Insert relevant day(s)*] between the Initial Observation Date (inclusive) and the Last Day of the Worst-in Period (inclusive).]

*[In the case of Securities with **Worst-out Observation**, the following applies:*

"**Worst-out Period**" means [each Relevant Observation Date (final)] [*Insert relevant day(s)*] between the First Day of the Worst-out Period (inclusive) and the Final Observation Date (inclusive).]

["**Y**" means the number of previous Additional Conditional Amount Payment Dates (m) for which no Additional Conditional Amount (m) was paid (after which such Additional Conditional Amount Payment Date(s) (m) shall be considered to have had paid Additional Conditional Amount(s) (m)).]

Interest [, Additional Amount]

[In the case of **non-interest bearing Securities**, the following applies:]

(1) *Interest:* The Securities do not bear interest.]

[In the case of **interest bearing Securities**, the following applies:]

(1) *Interest:* The Securities bear interest on their [Aggregate Nominal Amount] [Aggregate Calculation Amount] [Nominal Amount] [Calculation Amount] [per Security] [from the Interest Commencement Date to the Interest End Date] [for [the] [each] Interest Period] at the Interest Rate.

[In the case of **Securities with Fixed Interest Rate**, the following applies:]

(2) *Interest Rate:* "**Interest Rate**" means[, with respect to an Interest Period,] the Interest Rate [as specified in § 1 of the Product and Underlying Data.] [which is specified for the respective Interest Period in § 1 of the Product and Underlying Data.]]

[In the case of **Securities with Floating Interest Rate (Floater)**, the following applies:]

(2) *Interest Rate:* "**Interest Rate**" means, with respect to an Interest Period, the Reference Rate for the Designated Maturity as displayed on the respective Interest Determination Date on the Screen Page[,] [multiplied by the Factor] [[and] [plus] [minus] the [Positive Spread] [Negative Spread]].]

[In the case of **Securities with Floating Interest Rate (Spread Floater)**, the following applies:]

(2) *Interest Rate:* "**Interest Rate**" means, with respect to an Interest Period, the difference between the Reference Rate₁ and the Reference Rate₂, as displayed on the relevant Interest Determination Date on the Screen Page[,] [multiplied by the Factor] [[and] [plus] [minus] the [Positive Spread] [Negative Spread]].]

[In the case of **Securities with Digital Interest Rate (Digital Upside)**, the following applies:]

- (2) *Interest Rate:* "**Interest Rate**" means, with respect to an Interest Period, the Interest Rate, as determined by the Calculation Agent as follows:
- If the Reference Rate, as displayed on the relevant Interest Determination Date on the Screen Page, is greater than [or equal to] the Interest Rate Threshold, the Interest Rate for the relevant Interest Period is equal to the Fixed Interest Rate₁.
 - If the Reference Rate, as displayed on the relevant Interest Determination Date on the Screen Page, is lower than [or equal to] the Interest Rate Threshold, the Interest Rate for the relevant Interest Period is equal to the Fixed Interest Rate₂.

[In the case of **Securities with Digital Interest Rate (Digital Downside)**, the following applies:]

- (2) *Interest Rate:* "**Interest Rate**" means, with respect to an Interest Period, the Interest Rate, as determined by the Calculation Agent as follows:
- If the Reference Rate, as displayed on the relevant Interest Determination Date on the Screen Page, is lower than [or equal to] the Interest Rate Threshold, the Interest Rate for the relevant Interest Period is equal to the Fixed Interest Rate₁.
 - If the Reference Rate, as displayed on the relevant Interest Determination Date on the Screen Page, is greater than [or equal to] the Interest Rate Threshold, the Interest Rate for the relevant Interest Period is equal to the Fixed Interest Rate₂.]

[In the case of **Securities with a Maximum Interest Rate**, the following applies:]

If the Interest Rate calculated for an Interest Period pursuant to the aforementioned provisions is greater than the Maximum Interest Rate, the Interest Rate for this Interest Period shall be the Maximum Interest Rate.]

[In the case of **Securities with a Minimum Interest Rate**, the following applies:]

If the Interest Rate calculated for an Interest Period pursuant to the aforementioned provisions is lower than the Minimum Interest Rate, the Interest Rate for this Interest Period shall be the Minimum Interest Rate.]

- [(3) *Interest Amount*: The [respective] "**Interest Amount**" will be calculated by multiplying the Interest Rate and the [Aggregate Nominal Amount] [Aggregate Calculation Amount] [Nominal Amount] [Calculation Amount] [and the Day Count Fraction].

The [respective] Interest Amount becomes due for payment in the Specified Currency on the [relevant] Interest Payment Date in accordance with the provisions of § 6 of the Special Conditions.]]

[In the case of Securities with **Additional Conditional Amount (Accrual)**, the following applies:

- [(●)] *Additional Conditional Amount (Accrual)*: If with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m) an Additional Conditional Amount Payment Event (*Accrual*) has occurred, the respective Additional Conditional Amount (*Accrual*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Accrual*) (m) pursuant to the provisions of § 6 of the Special Conditions.

The respective Additional Conditional Amount (*Accrual*) (m) will be calculated by the Calculation Agent in accordance with the following formula:

[In the case of **Fixed Amount**, the following applies:

$$\text{Additional Conditional Amount (Accrual) (m)} = \text{Fixed Amount (Range Accrual) (m)} \times \text{d (Accrual) (m)} / \text{D (Accrual) (m).]}$$

[In the case of **Variable Amount**, the following applies:

$$\text{Additional Conditional Amount (Accrual) (m)} = \text{Variable Amount (Accrual) (m)} \times \text{d (Accrual) (m)} / \text{D (Accrual) (m).]}$$

[In the case of Securities with a **Minimum Additional Conditional Amount (Accrual) (m)**, the following applies:

The Additional Conditional Amount (*Accrual*) (m) is not lower than the relevant Minimum Additional Conditional Amount (*Accrual*) (m).

[In the case of Securities with a **Maximum Additional Conditional Amount (Accrual) (m)**, the following applies:

The Additional Conditional Amount (*Accrual*) (m) is not greater than the relevant Maximum Additional Conditional Amount (*Accrual*) (m).]

If with respect to an Additional Conditional Amount Observation Date (*Accrual*) (m) an Additional Conditional Amount Payment Event (*Accrual*) has not occurred, the respective Additional Conditional Amount (*Accrual*) (m) will not be paid on the corresponding Additional Conditional Amount Payment Date (*Accrual*) (m).]

[In the case of Securities with **Additional Conditional Amount (Range Accrual)**, the following applies:

- [(●)] *Additional Conditional Amount (Range Accrual)*: If with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m) an Additional Conditional Amount Payment Event (*Range Accrual*) has occurred, the respective Additional Conditional Amount (*Range Accrual*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Range Accrual*) (m) pursuant to the provisions of § 6 of the Special Conditions.

The respective Additional Conditional Amount (*Range Accrual*) (m) will be calculated by the Calculation Agent in accordance with the following formula:

[In the case of **Fixed Amount**, the following applies:

$$\text{Additional Conditional Amount (Range Accrual) (m)} = \text{Fixed Amount (Range Accrual) (m)} \times \text{d (Range Accrual) (m)} / \text{D (Range Accrual) (m).]}$$

[In the case of **Variable Amount**, the following applies:

Additional Conditional Amount (*Range Accrual*) (m) = Variable Amount (*Range Accrual*) (m) x d (*Range Accrual*) (m) / D (*Range Accrual*) (m).]

[In the case of **Securities with a Minimum Additional Conditional Amount (Range Accrual) (m)**, the following applies:

The Additional Conditional Amount (*Range Accrual*) (m) is not lower than the relevant Minimum Additional Conditional Amount (*Range Accrual*) (m).

[In the case of **Securities with a Maximum Additional Conditional Amount (Range Accrual) (m)**, the following applies:

The Additional Conditional Amount (*Range Accrual*) (m) is not greater than the relevant Maximum Additional Conditional Amount (*Range Accrual*) (m).]

If with respect to an Additional Conditional Amount Observation Date (*Range Accrual*) (m) an Additional Conditional Amount Payment Event (*Range Accrual*) has not occurred, the respective Additional Conditional Amount (*Range Accrual*) (m) will not be paid on the corresponding Additional Conditional Amount Payment Date (*Range Accrual*) (m).]

[In the case of **Securities with conditional Additional Conditional Amount (Cliquet)**, the following applies:

([●]) *Additional Conditional Amount (Cliquet)*: If with respect to an Additional Conditional Amount Observation Date (*Cliquet*) (m) an Additional Conditional Amount Payment Event (*Cliquet*) has occurred, the respective Additional Conditional Amount (*Cliquet*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Cliquet*) (m) pursuant to the provisions of § 6 of the Special Conditions.

[In the case of **Securities with conditional Additional Conditional Amount (Cliquet Performance)**, the following applies:

The respective Additional Conditional Amount (*Cliquet*) (m) will be calculated by the Calculation Agent in accordance with the following formula:

Additional Conditional Amount (*Cliquet*) (m) = Calculation Amount x Participation Factor (m) x Performance of the Underlying (m)

[In the case of **Securities with a Maximum Additional Conditional Amount (Cliquet) (m)**, the following applies:

However, the Additional Conditional Amount (*Cliquet*) (m) is not greater than the relevant Maximum Additional Conditional Amount (*Cliquet*) (m).]

[In the case of **Securities with a Minimum Additional Conditional Amount (Cliquet) (m)**, the following applies:

However, the Additional Conditional Amount (*Cliquet*) (m) is not lower than the relevant Minimum Additional Conditional Amount (*Cliquet*) (m).]

If with respect to an Additional Conditional Amount Observation Date (*Cliquet*) (m) an Additional Conditional Amount Payment Event (*Cliquet*) (m) has not occurred, the respective Additional Conditional Amount (*Cliquet*) (m) will not be paid.]

[In the case of **Securities with Additional Conditional Amount (Coupon)**, the following applies:

([●]) *Additional Conditional Amount (Coupon)*: If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the respective Additional Conditional Amount (*Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Coupon*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has not occurred, the respective Additional Conditional Amount (*Coupon*) (m) will not be paid.

[In the case of Securities with **Consolidation Feature** the following applies:

However, if with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the Additional Conditional Amount (*Coupon*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Coupon*) (m) will be paid on each Additional Conditional Amount Payment Date (*Coupon*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Coupon*) (m) has occurred. In this case the Additional Conditional Amount (*Coupon*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) occurs.]

[In the case of Securities with a **Lock-in Feature**, the following applies:

However, if with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) a Lock-in Event occurs, the respective Additional Conditional Amount (*Coupon*) (m) will be paid on each subsequent Additional Conditional Amount Payment Date (*Coupon*) (m), regardless of whether an Additional Conditional Amount Payment Event (*Coupon*) has occurred. In this case the Additional Conditional Amount (*Coupon*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) occurs.]]

[In the case of Securities with **Additional Conditional Amount (Range Coupon)**, the following applies:

- ([●]) *Additional Conditional Amount (Range Coupon)*: If with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has occurred, the respective Additional Conditional Amount (*Range Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Range Coupon*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has not occurred, the respective Additional Conditional Amount (*Range Coupon*) (m) will not be paid.

[In the case of Securities with **Consolidation Feature** the following applies:

However, if with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has occurred, the Additional Conditional Amount (*Range Coupon*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Range Coupon*) (m) will be paid on each Additional Conditional Amount Payment Date (*Range Coupon*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Range Coupon*) has occurred. In this case the Additional Conditional Amount (*Range Coupon*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) occurs.]]

[In the case of Securities with **Additional Conditional Amount (Switch Coupon)**, the following applies:

- ([●]) *Additional Conditional Amount (Switch Coupon)*: If with respect to an Additional Conditional Amount Observation Date (*Switch Coupon*) (m) an Additional Conditional Amount Payment Event (*Switch Coupon*) has occurred and if with respect to any Additional Conditional Amount Observation Date (*Switch Coupon*) (m) no Switch Event has occurred, the respective Additional Conditional Amount (*Switch Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Switch Coupon*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Switch Coupon*) (m) an Additional Conditional Amount Payment Event (*Switch Coupon*) has not occurred, or if with respect to any Additional Conditional Amount Observation Date (*Switch Coupon*) (m) a Switch Event has occurred, no Additional Conditional Amount (*Switch Coupon*) (m) will not be paid.]

[In the case of Securities with **Additional Conditional Amount (Digital)**, the following applies:

- ([●]) *Additional Conditional Amount (Digital)*: If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) an Additional Conditional Amount Payment Event (high) (*Digital*) (m) has occurred, the respective Additional Conditional Amount (high) (*Digital*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Digital*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) an Additional Conditional Amount Payment Event (low) (*Digital*) (m) has occurred, the respective Additional Conditional Amount (low) (*Digital*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Digital*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) no Additional Conditional Amount Payment Event (high) (*Digital*) (m) and no Additional Conditional Amount Payment Event (low) (*Digital*) (m) has occurred, neither the respective Additional Conditional Amount (high) (*Digital*) (m) nor the respective Additional Conditional Amount (low) (*Digital*) (m) will be paid.]

[In the case of Securities with an **Additional Conditional Amount (Geoscope)**, the following applies:

- ([●]) *Additional Conditional Amount (Geoscope)*: If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) has occurred, the respective Additional Conditional Amount (*Geoscope*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Geoscope*) (m) pursuant to the provisions of § 6 of the Special Conditions.

[In the case of Securities with a **Lock-in Feature**, the following applies:

However, if with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) a Lock-in Event occurs, the respective Additional Conditional Amount (*Geoscope*) (m) will be paid on each subsequent Additional Conditional Amount Payment Date (*Geoscope*) (m), regardless of whether an Additional Conditional Amount Payment Event (*Geoscope*) has occurred. In this case the Additional Conditional Amount (*Geoscope*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) occurs.]

The respective Additional Conditional Amount (*Geoscope*) (m) will be calculated by the Calculation Agent in accordance with the following formula:

Additional Conditional Amount (*Geoscope*) (m) = Calculation Amount x Participation Factor (m) x (Geometric Average Performance of the Underlying (m) – Strike Level (m)).

[In the case of Securities with a **Minimum Additional Conditional Amount (Geoscope) (m)**, the following applies:

The Additional Conditional Amount (*Geoscope*) (m) is not lower than the relevant Minimum Additional Conditional Amount (*Geoscope*) (m).

[In the case of Securities with a **Maximum Additional Conditional Amount (Geoscope) (m)**, the following applies:

The Additional Conditional Amount (*Geoscope*) (m) is not greater than the relevant Maximum Additional Conditional Amount (*Geoscope*) (m).]

If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) has not occurred, the respective

Additional Conditional Amount (*Geoscope*) (m) will not be paid on the corresponding Additional Conditional Amount Payment Date (*Geoscope*) (m).]

[In the case of Securities with an **Additional Conditional Amount (Geoscope with Barrier Observation)**, the following applies:

- ([●]) *Additional Conditional Amount (Geoscope)*: If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) has occurred and no Barrier Event has occurred on the respective Additional Conditional Amount Observation Date (*Geoscope*) (m) or on any previous Additional Conditional Amount Observation Date (*Geoscope*) (m), the respective Additional Conditional Amount (*Geoscope*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Geoscope*) (m) pursuant to the provisions of § 6 of the Special Conditions.

The respective Additional Conditional Amount (*Geoscope*) (m) will be calculated by the Calculation Agent in accordance with the following formula:

Additional Conditional Amount (*Geoscope*) (m) = Calculation Amount [x Participation Factor (m)] x (Geometric Average Performance of the Underlying (m) – Strike Level (m)).

[In the case of Securities with a **Minimum Additional Conditional Amount (Geoscope) (m)**, the following applies:

The Additional Conditional Amount (*Geoscope*) (m) is not lower than the relevant Minimum Additional Conditional Amount (*Geoscope*) (m).

[In the case of Securities with a **Maximum Additional Conditional Amount (Geoscope) (m)**, the following applies:

The Additional Conditional Amount (*Geoscope*) (m) is not greater than the relevant Maximum Additional Conditional Amount (*Geoscope*) (m).]

If with respect to an Additional Conditional Amount Observation Date (*Geoscope*) (m) an Additional Conditional Amount Payment Event (*Geoscope*) has not occurred and no Barrier Event has occurred on the respective Additional Conditional Amount Observation Date (*Geoscope*) (m) or on any previous Additional Conditional Amount Observation Date (*Geoscope*) (m), the respective Additional Conditional Amount (*Geoscope*) (m) will not be paid.

However, if a Barrier Event has occurred on a Additional Conditional Amount Observation Date (*Geoscope*) (m) or on any previous Additional Conditional Amount Observation Date (*Geoscope*) (m), the Rebate Amount will be paid on the respective Additional Conditional Amount Payment Date or on any previous Additional Conditional Amount Observation Date (*Geoscope*) (m) and on any following Additional Conditional Amount Payment Date (*Geoscope*) (m) regardless of whether an Additional Conditional Amount Payment Event (*Geoscope*) has occurred. In this case, the Rebate Amount will only be paid once on each Additional Amount Payment Date (*Geoscope*) (m), even if on any Additional Conditional Amount Observation Date (*Geoscope*) (m) following the occurrence of a Barrier Event an Additional Conditional Amount Payment Event (*Geoscope*) has occurred.]

[In the case of Securities with an **Additional Conditional Amount (Memory)**, the following applies:

- ([●]) *Additional Conditional Amount (Memory)*: If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has occurred, the respective Additional Conditional Amount (*Memory*) (m) will be paid on the respective Additional Conditional Amount Payment Date (*Memory*) (m) pursuant to the provisions of § 6 of the Special Conditions, less all Additional Conditional Amounts (m) paid on the preceding Additional Conditional Amount Payment Dates (m).

If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) no Additional Conditional Amount Payment Event (*Memory*) has occurred, the respective Additional Conditional Amount (*Memory*) (m) will not be paid.

[In the case of Securities with Consolidation Feature, the following applies:

However, if with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has occurred, the Additional Conditional Amount (*Memory*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Memory*) (m) less the sum of all Additional Conditional Amounts (*Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m) will be paid on each Additional Conditional Amount Payment Date (*Memory*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Memory*) has occurred. In this case the Additional Conditional Amount (*Memory*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) occurs.]

[In the case of Securities with a Lock-in Feature, the following applies:

However, if with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) a Lock-in Event occurs, the respective Additional Conditional Amount (*Memory*) (m) less the sum of all Additional Conditional Amounts (*Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m) will be paid on each subsequent Additional Conditional Amount Payment Date (*Memory*) (m), regardless of whether an Additional Conditional Amount Payment Event (*Memory*) has occurred. In this case the Additional Conditional Amount (*Memory*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) occurs.]]

[In the case of Securities with an Additional Conditional Amount (Switch Memory), the following applies:

([●]) *Additional Conditional Amount (Switch Memory)*: If with respect to an Additional Conditional Amount Observation Date (*Switch Memory*) (m) an Additional Conditional Amount Payment Event (*Switch Memory*) has occurred and if with respect to any Additional Conditional Amount Observation Date (*Switch Memory*) (m) no Switch Event has occurred, the respective Additional Conditional Amount (*Switch Memory*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Switch Memory*) (m) pursuant to the provisions of § 6 of the Special Conditions, less all Additional Conditional Amounts (*Switch Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Switch Memory*) (m).

If with respect to an Additional Conditional Amount Observation Date (*Switch Memory*) (m) an Additional Conditional Amount Payment Event (*Switch Memory*) has not occurred, or if with respect to any Additional Conditional Amount Observation Date (*Switch Memory*) (m) a Switch Event has occurred, the respective Additional Conditional Amount (*Switch Memory*) (m) will not be paid.]

[In the case of Securities with an Additional Conditional Amount (Performance), the following applies:

([●]) *Additional Conditional Amount (Performance)*: If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) an Additional Conditional Amount Payment Event (*Performance*) has occurred, the Additional Conditional Amount (*Performance*) (m) will be paid on the respective Additional Conditional Amount Payment Date (*Performance*) (m) pursuant to the provisions of § 6 of the Special Conditions.

The respective Additional Conditional Amount (*Performance*) (m) will be calculated by the Calculation Agent in accordance with the following formula:

[In the case of Upside Securities, the following applies:

[In the case of Option 1, the following applies:

Additional Conditional Amount (*Performance*) (m) = Calculation Amount x Participation Factor (m) x Performance of the Underlying (m).]

[In the case of **Option 2**, the following applies:

Additional Conditional Amount (*Performance*) (m) = Calculation Amount x Participation Factor (m) x (R (m) [[+] [-] Spread]).]

[In the case of **Downside Securities**, the following applies:

Additional Conditional Amount (*Performance*) (m) = Calculation Amount x Participation Factor (m) x Downside Performance of the Underlying (m).]

[In the case of **Securities with a Maximum Additional Conditional Amount (Performance) (m)**, the following applies:

However, the Additional Conditional Amount (*Performance*) (m) is not greater than the relevant Maximum Additional Conditional Amount (*Performance*) (m).]

[In the case of **Securities with a Minimum Additional Conditional Amount (Performance) (m)**, the following applies:

However, the Additional Conditional Amount (*Performance*) (m) is not lower than the relevant Minimum Additional Conditional Amount (*Performance*) (m).]

If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) no Additional Conditional Amount Payment Event (*Performance*) has occurred, the respective Additional Conditional Amount (*Performance*) (m) will not be paid.]

[In the case of **Securities with an Additional Conditional Amount (Telescope)**, the following applies:

([●]) *Additional Conditional Amount (Telescope)*: If with respect to an Additional Conditional Amount Observation Date (*Telescope*) (m) an Additional Conditional Amount Payment Event (*Telescope*) has occurred, the respective Additional Conditional Amount (*Telescope*) (m) will be paid on the respective Additional Conditional Amount Payment Date (*Telescope*) (m) pursuant to the provisions of § 6 of the Special Conditions.

The respective Additional Conditional Amount (*Telescope*) (m) will be calculated by the Calculation Agent in accordance with the following formula:

Additional Conditional Amount (*Telescope*) (m) = Calculation Amount x Participation Factor (m) x Performance of the Underlying (*Telescope*) (m) x 1/D (*Telescope*) (m).

[In the case of **Securities with a Maximum Additional Conditional Amount (Telescope) (m)**, the following applies:

However, the Additional Conditional Amount (*Telescope*) (m) is not greater than the relevant Maximum Additional Conditional Amount (m).]

[In the case of **Securities with a Minimum Additional Conditional Amount (Telescope) (m)**, the following applies:

However, the Additional Conditional Amount (*Telescope*) (m) is not lower than the relevant Minimum Additional Conditional Amount (m).]

[In the case of **Securities with EURIBOR as Reference Rate**, the following applies:

([●]) *Reference Rate*: "**Reference Rate**" means the offer rate (expressed as per cent. per annum) for deposits in the Reference Rate Currency for the respective Designated Maturity which appears on the Screen Page as of the Reference Rate Time[, on the respective [Interest Determination Date] [Observation Date] [Calculation Date]].

Subject to the occurrence of a Reference Rate Cessation Event, if the Screen Page is not available at the Reference Rate Time, or if such offer rate does not appear on the Screen Page, the Calculation Agent will [in the case of **Securities governed by German law**, insert: in its

reasonable discretion (§ 315 et seq. BGB)] *in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]

[(a)] request each of the Reference Banks in the Reference Rate Financial Centre to provide its rate at which deposits in the Reference Rate Currency are offered at the Reference Rate Time [on the respective [Interest Determination Date] [Observation Date] [Calculation Date]] to prime banks in the interbank market for the respective Designated Maturity in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the Reference Rate will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If [on an [Interest Determination Date] [Observation Date] [Calculation Date]] only one or none of the Reference Banks provides the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded as described above) of the rates quoted by major banks in the Reference Rate Financial Centre, determined by the Calculation Agent *in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] *in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith], at the Reference Rate Time[, on that [Interest Determination Date] [Observation Date] [Calculation Date]] for loans in the Reference Rate Currency to leading European banks for the respective Designated Maturity and in a representative amount[.]:]

[or, if the Reference Rate cannot be determined pursuant to (a) above or the determination procedure pursuant to (a) does no longer reflect current market practices for derivative instruments,]

[(b)] determine the Reference Rate based on the publication of the Reference Rate by an alternative authorised distributor or the Reference Rate-Administrator.

If the Calculation Agent [until [●] [on the [Interest Determination Date] [Observation Date] [Calculation Date]]] is unable to determine the Reference Rate on the basis of the publication of the Reference Rate by an alternative authorised distributor or the Reference Rate-Administrator, the Calculation Agent will determine the Reference Rate *in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] *in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]. In doing so, it may in particular

- (i) use an alternative rate for the Reference Rate formally recommended by the Reference Rate-Administrator or, alternatively, by the supervisor of the Reference Rate [or the central bank for the [Specified Currency] [Reference Rate Currency]], or in the absence thereof
- (ii) use the alternative rate for the Reference Rate implemented by a futures exchange or alternatively a central counterparty for the Reference Rate, provided that it is sufficiently representative of the Reference Rate; or in the absence thereof
- (iii) use the average value of the last Reference Rates published at the Reference Rate Time of the previous [five] *insert different number* [Banking Days] *other* [prior to the respective [Interest Determination Date] [Observation Date] [Calculation Date]].

In the case of floating rate Securities with an RFR as Reference Rate, the following applies:

In the case of all Securities with an RFR based on an RFR-Compounded Method, the following applies:

- ([●]) *Reference Rate: "Reference Rate"* means [in relation to an Interest Period] the compounded Risk Free Rate (expressed as a percentage per annum) calculated according to the following formula:

[Insert in the case of compounding with Observation Period Shift or Lockout:]

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{RFR} - \text{Level} \times n_i}{\text{DayCountBasis}} \right) - 1 \right] \times \frac{\text{DayCountBasis}}{d}$$

[Insert in the case of compounding with Lookback:]

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{RFR} - \text{Level} - \text{CD} \times n_i}{\text{DayCountBasis}} \right) - 1 \right] \times \frac{\text{DayCountBasis}}{d}$$

[The so determined Reference Rate will be rounded if necessary to the fourth decimal place, with 0.00005 per cent. being rounded upwards.]

Where:

"**d₀**" means the number of Calculation Days RFR in the [relevant] [Interest Period] [Observation Period RFR].

"**i**" means an index representing each Calculation Day RFR in the [relevant] [Observation] [Interest] Period [RFR].

"**n_i**" means for any Calculation Day RFR in the [relevant] [Interest Period] [Observation Period RFR] the number of calendar days from, and including, such Calculation Day RFR to, but excluding, the following Calculation Day RFR.

"**d**" means the number of calendar days in the [relevant] [Interest Period] [Observation Period RFR].]

[In the case of all Securities with an RFR-Index, the following applies:]

- ([●]) *Reference Rate: "Reference Rate"* means [in relation to the respective Interest Period] the compounded rate (expressed as a percentage per annum) calculated according to the following formula:

$$\left(\frac{\text{RRFR}_{\text{final}}}{\text{RRFR}_{\text{initial}}} - 1 \right) \times \frac{\text{DayCountBasis}}{d}$$

[If R RFR (final) [or R RFR (initial)] [with respect to any Interest Period] is not published, then the compounded rate (expressed as a percentage per annum) calculated according to the following formula shall be the Reference Rate:

$$\left[\prod_{i=1}^{d_0} \left(1 + \frac{\text{RFR} - \text{Level} \times n_i}{\text{DayCountBasis}} \right) - 1 \right] \times \frac{\text{DayCountBasis}}{d}$$

[The resulting percentage will be rounded if necessary to the fourth decimal place, with 0.00005 per cent. being rounded upwards.]

Where:

"**d₀**" means the number of Calculation Day RFRs in the [relevant] Observation Period RFR.

"**i**" means an index representing each Calculation Day RFR in the [relevant] Observation Period RFR.

"**n_i**" means for any Calculation Day RFR in the [relevant] Observation Period RFR the number of calendar days from, and including, such Calculation Day RFR to, but excluding, the following Calculation Day RFR.

"**d**" means the number of calendar days in the [relevant] Observation Period RFR.]]

[In the case of Securities with a CMS-Rate as Reference Rate, the following applies:

([•]) *Reference Rate:* "**Reference Rate**" means the rate (expressed as a percentage per annum) for swap transactions in the Reference Rate Currency for the corresponding Designated Maturity displayed on the [respective] Screen Page at the Reference Rate Time (local time of the Reference Rate Financial Centre) on the relevant [Interest Determination Date] [Observation Date] [Calculation Date]. If either the [respective] Screen Page is not available or no such swap rates are displayed at the time specified, the Calculation Agent will ask each of the Reference Banks to quote the mean annual swap rates at approximately the Reference Rate Time on the relevant [Interest Determination Date] [Observation Date] [Calculation Date]. If three or more such quotations are provided, the Reference Rate for the respective [Interest Determination Date] [Observation Date] [Calculation Date] shall be the arithmetic mean (rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with 0.000005 rounded upwards) of those quotations, with the highest (or if two or more are the same, one of the highest) and the lowest (or if two or more are the same, one of the lowest) having been eliminated. If fewer than three quotations are provided, the Calculation Agent will specify the Reference Rate *[in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)] [in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith].*

([•]) *Day Count Fraction:* "**Day Count Fraction**" for the purpose of calculating the Interest Amount for an Interest Period means:

[In the case of "30/360", "360/360" or "Bond Basis" in accordance with ISDA 2000 , the following applies:

[30/360] [360/360] [Bond Basis] in accordance with ISDA 2000, calculated as the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months (unless (i) the last day of the Interest Period is the 31st day of a month but the first day of the Interest Period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day month, or (ii) the last day of the Interest Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month)).]

[In the case of "30/360", "360/360" or "Bond Basis" in accordance with ISDA 2006, the following applies:

[30/360] [360/360] [Bond Basis] in accordance with ISDA 2006, calculated as the number of days in the Interest Period divided by 360, calculated using the following formula:

$$\text{DayCountFraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

Where:

"**Y₁**" is the year, expressed as a number, in which the first day of the Interest Period falls;

"**Y₂**" is the year, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"**M₁**" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"**M₂**" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"**D₁**" is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30.]

[In the case of "30E/360" or "Eurobond Basis" in accordance with ISDA 2000 (German interest calculation method), the following applies:

[30E/360] [Eurobond Basis] in accordance with ISDA 2000 (German interest calculation method), calculated as the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months, without regard to the date of the first day or last day of the Interest Period unless, in the case of the final Interest Period, the Final Payment Date is the last day of the month of February, in which case the month of February shall not to be considered to be lengthened to a 30-day month).]

[In the case of "30E/360" or "Eurobond Basis" in accordance with ISDA 2006, the following applies:

[30E/360] [Eurobond Basis] in accordance with ISDA 2006, calculated as the number of days in the Interest Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\text{DayCountFraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

Where:

"Y₁" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"D₁" is the first calendar day, expressed as a number, of the Interest Period unless such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number is 31, in which case D₂ would be 30.]

[In the case of "30E/360 (ISDA)" in accordance with ISDA 2006 (German interest calculation method), the following applies:

30E/360 (ISDA) in accordance with ISDA 2006 (German interest calculation method), calculated as the number of days in the Interest Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\text{DayCountFraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

Where:

"Y₁" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"D₁" is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February, or (ii) such number would be 31, in which case D₁ will be equal to 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Final Payment Date, or (ii) such number would be 31, in which case D₂ will be equal to 30.]

[In the case of "Act/360", the following applies:

Act/360, calculated as the actual number of days in the Interest Period divided by 360.]

[In the case of "Act/365" (Fixed), the following applies:

Act/365 (Fixed), calculated as the actual number of days in the Interest Period divided by 365.]

[In the case of "Act/Act (ISDA)", the following applies:

Act/Act (ISDA), calculated as the actual number of days in the Interest Period divided by 365 (or, if a portion of that Interest Period falls into a leap year, the total of (A) the actual number of days in the Interest Period that fall into the leap year divided by 366, and (B) the actual number of days in the Interest Period that do not fall into the leap year divided by 365).]]

[In the case of Act/Act (ICMA), the following applies:

([•]) Day Count Fraction: "Day Count Fraction" for the purposes of determining an Interest Amount in respect of an Accrual Period is Act/Act (ICMA), calculated as follows:

[[i) if the Accrual Period is equal to or shorter than the Interest Period during which it falls,] the number of days in the Accrual Period divided by [the product of (1)] the number of days in such Interest Period [and (2) the number of Interest Periods normally ending in any year].]

[[ii) if the Accrual Period is longer than the Interest Period:] the sum of

(A) the number of days in such Accrual Period falling in the Interest Period in which the Accrual Period begins, divided by [the product of (1)] the number of days in such Interest Period [and (2) the number of Interest Periods normally ending in one year], and

(B) the number of days in such Accrual Period falling in the next Interest Period divided by [the product of (1)] the number of days in such Interest Period [and (2) the number of Interest Periods normally ending in any year].]]

([•]) Notice: The Calculation Agent will make all specifications and calculations, which are provided in this § 2, and will notify the Issuer without undue delay, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange, for the respective Interest Period pursuant to § 6 of the General Conditions of the Securities.]]

*[In the case of Securities with an **Additional Unconditional Amount**, the following applies:*

([•]) Additional Unconditional Amount: The respective Additional Unconditional Amount (1) will be paid [moreover] on the [respective] Additional Unconditional Amount Payment Date (1) pursuant to the provisions of § 6 of the Special Conditions.

[If an Early Redemption Event occurs on an Observation Date (n), no more Additional Unconditional Amount (1) will be paid on any following Additional Unconditional Amount Payment Date (1).]]

§ 3

Redemption[, Instalment Payment][, Automatic Early Redemption]

[(1)] *Redemption*: [Unless redeemed early according to the following paragraph ([●]), the] [The] Securities shall be redeemed [upon automatic exercise on the Exercise Date] by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

[The Securities shall be deemed automatically exercised on the Exercise Date.]

[(2)] *Instalment payment*: [Provided that no Early Redemption Event (n) has occurred, the] [The] Security Holders are entitled to the payment of the [respective] Instalment Amount (f) on [each of] the Instalment Payment Date[s] (f) pursuant to the provisions of § 6 of the Special Conditions.]

[In the case of **Securities with Automatic Early Redemption**, the following applies:

[(●)] *Automatic early redemption*: If on an Observation Date (n) an Early Redemption Event (n) has occurred, the Securities will be automatically early redeemed by payment of the respective Early Redemption Amount (n) on the immediately following Early Payment Date (n) pursuant to the provisions of § 6 of the Special Conditions.]

§ 4

Redemption Amount[, Early Redemption Amount]

[(1)] *Redemption Amount*: The Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:

[In the case of **Protection Performance Securities**, the following applies:

[In the case of **Upside Protection Performance Securities**, the following applies:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Performance of the Underlying (final) [x FX (initial) / FX (final)] [x FX (final) / FX (initial)])

However, the Redemption Amount is not lower than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of **Downside Protection Performance Securities**, the following applies:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Downside Performance of the Underlying (final) [x FX (initial) / FX (final)] [x FX (final) / FX (initial)])

However, the Redemption Amount is not lower than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of **All Time High Protection Securities**, the following applies:

Redemption Amount = Calculation Amount x (Floor Level + Max (Final Participation Factor x Performance of the Underlying (final); Participation Factor_{best} x Best Performance of the Underlying (final) – Strike_{best}) [x FX (initial) / FX (final)] [x FX (final) / FX (initial)])

However, the Redemption Amount is not lower than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of **Cash Collect Protection Securities** the following applies:

[In the case of **Upside Cash Collect Protection Securities**, the following applies:

The Redemption Amount corresponds to the Minimum Amount.]

[In the case of **Downside Cash Collect Protection Securities**, the following applies:

The Redemption Amount corresponds to the Minimum Amount.]

[In the case of **Protection Barrier Securities** the following applies:

[In the case of **Upside Protection Barrier Securities**, the following applies:

- If no Barrier Event has occurred,

[In the case of **Option 1**, the following applies:

the Redemption Amount is equal to the Final Redemption Amount.]

[In the case of **Option 2**, the following applies:

the Redemption Amount is determined according to the following formula:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Performance of the Underlying (final))

However, in this case the Redemption Amount is not lower than the Minimum Amount.]

[In the case of **Option 3**, the following applies:

the Redemption Amount is equal to the [Adjusted Maximum Amount] [Adjusted Calculation Amount].]

- If a Barrier Event has occurred,

[In the case of **Option 4**, the following applies:

the Redemption Amount is equal to the [Minimum Amount] [Bonus Amount].]

[In the case of **Option 5**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied by the Performance of the Underlying (final) [and the Final Participation Factor].

The Redemption Amount will not be less than the Minimum Amount [and not higher than the Maximum Amount].]

[In the case of **Option 6**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Final Participation Factor multiplied by the Performance of the Underlying (final).

The Redemption Amount will not be less than the Minimum Amount [and not higher than the Maximum Amount].]

[In the case of **Option 7**, the following applies:

the Redemption Amount is equal to the Adjusted Calculation Amount multiplied by the Performance of the Underlying (final).

The Redemption Amount will not be higher than the Adjusted Calculation Amount.]]

[In the case of **Downside Protection Barrier Securities**, the following applies:

- If no Barrier Event has occurred,

[In the case of **Option 1**, the following applies:

the Redemption Amount is equal to the Final Redemption Amount.]

[In the case of **Option 2**, the following applies:

the Redemption Amount is determined according to the following formula:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Downside Performance of the Underlying (final))

However, in this case the Redemption Amount is not lower than the Minimum Amount.]

- If a Barrier Event has occurred:

[In the case of **Option 3**, the following applies:

The Redemption Amount is equal to the [Minimum Amount] [Bonus Amount].]

[In the case of **Option 4**, the following applies:

The Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor and the Downside Performance of the Underlying (final).

However, the Redemption Amount will not be lower than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of **Option 5**, the following applies:

The Redemption Amount is equal to the Calculation Amount multiplied by the difference between (a) the Floor Level plus the Final Participation Factor and (b) the Performance of the Underlying (final) multiplied by the Final Participation Factor.]

However, the Redemption Amount will not be lower than the Minimum Amount [and not greater than the Maximum Amount].]]

[In the case of **Protection Lock-in Securities** the following applies:

[In the case of **Option 1**, the following applies:

- If a Lock-in Event has occurred, the Redemption Amount corresponds to the Final Redemption Amount.
- If no Lock-in Event has occurred, the Redemption Amount is specified according to the following formula:

Redemption Amount = Calculation Amount x Performance of the Underlying (final).

However, the Redemption Amount in this case is not lower than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of **Option 2**, the following applies:

- If a Lock-in Event has occurred, the Redemption Amount corresponds to the Final Redemption Amount.]
- If no Lock-in Event and no Barrier Event have occurred, the Redemption Amount corresponds to the Final Redemption Amount.
- If no Lock-in Event but a Barrier Event have occurred, the Redemption Amount is specified according to the following formula:

Redemption Amount = Calculation Amount x Performance of the Underlying (final).

However, the Redemption Amount in this case is not lower than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of **Twin-Win Protection Securities**, the following applies:

[In the case of **Upside Twin-Win Protection Securities**, the following applies:

[In the case of **Option 1**, the following applies:

- If no Barrier Event has occurred, the Redemption Amount is determined according to the following formula:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x abs(Performance of the Underlying (final)))

- If a Barrier Event has occurred, the Redemption Amount is determined according to the following formula:

$$\text{Redemption Amount} = \text{Calculation Amount} \times (\text{Floor Level} + \text{Final Participation Factor} \times \text{Performance of the Underlying (final)})$$

However, the Redemption Amount will in no case be less than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of **Option 2**, the following applies:

- If R (final) is equal to or higher than the Strike, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Up and (ii) the difference of (x) R (final) divided by the Strike and (y) one.
- If R (final) is lower than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Down and (ii) the difference of (x) one and (y) R (final) divided by the Strike.
- If R (final) is lower than the Strike and a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor and the quotient of R (final) and the Strike.

However, the Redemption Amount will in no event be lower than the Minimum Amount [and not higher than the Maximum Amount].]

[In the case of **Option 3**, the following applies:

- If R (final) is equal to or higher than the Strike, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Up and (ii) the difference of (x) R (final) divided by the Strike and (y) one.

[However, in this case the Redemption Amount will [not be lower than the Minimum Amount] [and] [not be higher than the Maximum Amount Up].]

- If R (final) is lower than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Down and (ii) the difference of (x) one and (y) R (final) divided by the Strike.

[However, in this case the Redemption Amount will [not be lower than the Minimum Amount] [and] [not be higher than the Maximum Amount Down].]

- If R (final) is lower than the Strike and a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.]

[In the case of **Option 4**, the following applies:

- If R (final) is equal to or higher than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Up and (ii) the difference of (x) R (final) divided by the Strike and (y) one.

[However, in this case the Redemption Amount will [not be lower than the Minimum Amount] [and] [not be higher than the Maximum Amount Up].]

- If R (final) is lower than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Down and (ii) the difference of (x) one and (y) R (final) divided by the Strike.

[However, in this case the Redemption Amount will [not be lower than the Minimum Amount] [and] [not be higher than the Maximum Amount Down].]

- If a Barrier Event has occurred, the Redemption Amount is equal to the Minimum Amount.]

[In the case of **Downside Twin-Win Protection Securities**, the following applies:

- If R (final) is equal to or lower than the Strike, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Down and (ii) the difference of (x) one and (y) R (final) divided by the Strike.

[However, the Redemption Amount is not higher than the Maximum Amount.]

- If R (final) is higher than the Strike and no Barrier Event has occurred, the Redemption Amount equals the Calculation Amount multiplied by the sum of (a) one and (b) the product of the (i) Participation Factor Up and (ii) the difference of (x) R (final) divided by the Strike and (y) one.

[However, the Redemption Amount is not lower than the Minimum Amount [and not higher than the Maximum Amount.]

[In the case of **Protection Express Securities** the following applies:

[In the case of **Upside Protection Express Securities** the following applies:

[In the case of **Option 1**, the following applies:

- If a Final Redemption Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If no Final Redemption Event has occurred, the Redemption Amount is equal to:
 - (i) if no Barrier Event has occurred, the Final Redemption Amount;
 - (ii) if a Barrier Event has occurred:

the Calculation Amount multiplied by the Final Participation Factor and the Performance of the Underlying (final).

The Redemption Amount is in no event lower than the Minimum Amount.]

[In the case of **Option 2**, the following applies:

- If a Final Redemption Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If no Final Redemption Event has occurred, the Redemption Amount is equal to:
 - (i) if no Barrier Event has occurred, the Final Redemption Amount;
 - (ii) if a Barrier Event has occurred, the Minimum Amount.]

[In the case of **Option 3**, the following applies:

- If a Final Redemption Event and no Barrier Event have occurred, the Redemption Amount is equal to the Maximum Amount.

[In the case of **Option 5**, the following applies:

- If no Barrier Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount multiplied by the Performance of the Underlying (final).

However, in this case, the Redemption Amount is not lower than the Minimum Amount and not greater than the Calculation Amount.]

[In the case of **Option 6**, the following applies:

- If no Barrier Event has occurred, the Redemption Amount is equal to the Adjusted Maximum Amount.
- If a Barrier Event has occurred, the Redemption Amount is equal to the Adjusted Calculation Amount multiplied by the Performance of the Underlying (final).

However, in this case the Redemption Amount is not lower than the Adjusted Minimum Amount and not greater than the Adjusted Calculation Amount.]

[In the case of **Option 7**, the following applies:

- If no Barrier Event has occurred, the Redemption Amount is specified according to the following formula:

Redemption Amount = Calculation Amount + Calculation Amount x Max (Floor Level; Performance of the Underlying (final) x Participation Factor Up).

[However, in this case, the Redemption Amount is not greater than the Maximum Amount.]

- If a Barrier Event has occurred, the Redemption Amount is specified according to the following formula:

Redemption Amount = Calculation Amount – Calculation Amount x (Downside Performance of the Underlying (final) x Participation Factor Down.

[However, in this case, the Redemption Amount is not lower than the Minimum Amount.]]

[In the case of **Downside Protection Express Securities** the following applies:

- If a Final Redemption Event has occurred, the Redemption Amount is equal to the Maximum Amount.
- If a Final Redemption Event has not occurred, the Redemption Amount is equal to:
 - (i) if the Barrier Event has not occurred, the Final Redemption Amount;
 - (ii) if the Barrier Event has occurred,

[In the case of **Option 1**, the following applies:

the Calculation Amount multiplied by the Final Participation Factor and the Downside Performance of the Underlying (final).

However, in this case the Redemption Amount is not lower than the Minimum Amount.]

[In the case of **Option 2**, the following applies:

the Calculation Amount multiplied by the difference between (a) 1 plus the Final Participation Factor and (b) the Performance of the Underlying (final) multiplied by the Final Participation Factor.

However, in this case the Redemption Amount is not lower than the Minimum Amount.]

[In the case of **Option 3**, the following applies:

the Minimum Amount.]]

[In the case of **Protection Bonus Securities**, the following applies:

[In the case of **Upside Protection Bonus Securities**, the following applies:

- If no Barrier Event has occurred, the Redemption Amount is determined as follows:

[In the case of **Option 1a**, the following applies:

Redemption Amount = Calculation Amount [x Final Participation Factor [Up]] x Performance of the Underlying (final)

However, the Redemption Amount is not lower than the Bonus Amount [and not greater than the Maximum Amount].]

[In the case of **Option 2**, the following applies:

The Redemption Amount is equal to the Maximum Amount.]

- If a Barrier Event has occurred, the Redemption Amount is determined as follows:

[In the case of **Option 3**, the following applies:

Redemption Amount = Calculation Amount [x Final Participation Factor [Down]] x Performance of the Underlying (final)

However, the Redemption Amount is not lower than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of **Option 4**, the following applies:

The Redemption Amount is equal to the Minimum Amount.]

the Redemption Amount is equal to the Minimum Amount.]]]

[In the case of **Protection Securities**, the following applies:

[In the case of **Upside Protection Securities**, the following applies:

- if R (final) is higher than or equal to R (initial), the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) 1 and (ii) the Participation Factor Up multiplied by the Performance of the Underlying (final).
- If the R (final) is lower than R (initial)

[In the case of **Option 1**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied by the Final Participation Factor and the quotient of R (final) (as the numerator) and the Strike (as the denominator). In this case, the Redemption Amount is at least equal to the Minimum Amount.]

[In the case of **Option 2**, the following applies:

the Redemption Amount is equal to the Minimum Amount.]

[In the case of **Option 3**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied by the total of (i) the Floor Level and (ii) the Performance of the Underlying (final) multiplied by the Final Participation Factor. In this case, the Redemption Amount is at least equal to the Minimum Amount.]

["**Participation Factor Up**" means the Participation Factor Up as specified in § 1 of the Product and Underlying Data.]

"**Payment Date**" means the due date for any payment under the Securities.

["**Performance of the Basket Component_i (b)**" means the performance of the Basket Component_i (b) using the following formula:

$$\text{Performance of the Basket Component}_i \text{ (b)} = K_i \text{ (b)} / K_i \text{ (initial)}]$$

["**Performance of the Basket Component_i (final)**" means the performance of the Basket Component_i (final) according to the following formula:

[In the case of **Option 1**, the following applies:

$$\text{Performance of the Basket Component}_i \text{ (final)} = K_i \text{ (final)} / K_i \text{ (initial)}]$$

[In the case of **Option 2**, the following applies:

$$\text{Performance of the Basket Component}_i \text{ (final)} = (K_i \text{ (final)} - \text{Strike}_i) / K_i \text{ (initial)}]$$

[In the case of **Option 3**, the following applies:

$$\text{Performance of the Basket Component}_i \text{ (final)} = (K_i \text{ (final)} - \text{Strike}_i) / \text{Strike}_i]$$

[In the case of **Option 4**, the following applies:

$$\text{Performance of the Basket Component}_i \text{ (final)} = K_i \text{ (final)} / \text{Strike}_i]$$

[However, the Performance of the Basket Component_i (final) is in no event lower than zero (0).]

[In the case of Securities with **Rainbow Performance Determination**, the following applies:

"**Performance of the Basket Component_{i best} (final)**" means the performance of the Basket Component_{i best} (final) multiplied with the respective Weighting_{i best} ($W_{i best}$) according to the following formula:

$$\text{Performance of the Basket Component}_{i best} \text{ (final)} = (K_{i best} \text{ (final)} / K_{i best} \text{ (initial)}) \times W_{i best}]$$

["**Performance of the Basket Component_i (m)**" means the Performance of the Basket Component_i (m) using the following formula:

[In the case of **Option 1**, the following applies:

$$(K_i \text{ (m)} - \text{Strike}_i) / K_i \text{ (initial)}]$$

[In the case of **Option 2**, the following applies:

$$K_i \text{ (m)} / K_i \text{ (initial)} - \text{Strike Level}]$$

$$K_i \text{ (m)} / \text{Strike}_i - 1]$$

[In the case of **Option 4**, the following applies:

$$K_i \text{ (m)} / K_i \text{ (initial)}]$$

["**Performance of the Basket Component_i (n)**" means the performance of the Basket Component_i (n) using the following formula:

$$\text{Performance of the Basket Component}_i \text{ (n)} = K_i \text{ (n)} / K_i \text{ (initial)}]$$

["**Performance of the Underlying (b)**" means the Performance of the Underlying (b) using the following formula:

$$\begin{aligned} \text{Performance of the Underlying (b)} = \\ \sum_{i=1}^N (\text{Performance of the Basket Component}_i \text{ (b)} \times W_i) \end{aligned}$$

["**Performance of the Underlying (final)**"] means the Performance of the Underlying (final) according to the following formula:

[In the case of **Option 1**, the following applies:

$$\text{Performance of the Underlying (final)} = \sum_{i=1}^N (\text{Performance of the Basket Component}_i \text{ (final)} \times W_i)]$$

[In the case of **Option 2**, the following applies:

$$\text{Performance of the Underlying (final)} = \sum_{i=1}^N (\text{Performance of the Basket Component}_i \text{ (final)} \times W_i) - \text{Final Strike Level}]$$

[In the case of Securities with **Rainbow Performance Determination**, the following applies:

"**Performance of the Underlying (final)**" means the Performance of the Underlying (final) according to the following formula:

$$\text{Performance of the Underlying (final)} = \sum_{i=1}^N (\text{Performance of the Basket Component}_{i \text{ best}} \text{ (final)} \times W_i)]$$

["**Performance of the Underlying (m)**"] means the Performance of the Underlying (m) according to the following formula:

[In the case of **Option 1**, the following applies:

$$\text{Performance of the Underlying (m)} = \sum_{i=1}^N (\text{Performance of the Basket Component}_i \text{ (m)} \times W_i)]$$

[In the case of **Option 2**, the following applies:

$$\text{Performance of the Underlying (m)} = \sum_{i=1}^N (\text{Performance of the Basket Component}_i \text{ (m)} \times W_i) - \text{Strike Level}]$$

["**Performance of the Underlying (n)**"] means the Performance of the Underlying (n) according to the following formula:

$$\text{Performance of the Underlying (n)} = \sum_{i=1}^N (\text{Performance of the Basket Component}_i \text{ (n)} \times W_i)]$$

["**Preceding Business Day Convention**"] means that if, with respect to a Payment Date, the respective Payment Date is not a Banking Day, the Security Holders shall be entitled to payment on the immediately preceding Banking Day.]

"**Principal Paying Agent**" means the Principal Paying Agent as specified in § 2 (1) of the General Conditions.

["**Relevant Performance (b)**" means the Performance of the Underlying (b).]

["**Relevant Performance (final)**" means the Performance of the Underlying (final).]

["**Relevant Performance (final)**" means the Downside Performance of the Underlying (final).]

["**Relevant Performance (k)**" means the Performance of the Underlying (k).]

["**Relevant Performance (m)**" means the Performance of the Underlying (m).]

[In the case of Securities with **Additional Conditional Amount (Telescope)**, the following applies:

"**Relevant Performance (Telescope) (m)**" means the Performance of the Underlying (m) – Strike Level.]

["**Relevant Performance (n)**" means the Performance of the Underlying (n).]]

[In the case of **Best-of Performance Determination**, the following applies:

["**Relevant Performance (b)**" means the Best Performance (b).]

["**Relevant Performance (final)**" means the Best Performance (final).]

["**Relevant Performance (k)**" means the Best Performance (k).]

["**Relevant Performance (m)**" means the Best Performance (m).]

[In the case of Securities with **Additional Conditional Amount (Telescope)**, the following applies:

"**Relevant Performance (Telescope) (m)**" means the Best Performance (m) – Strike Level.]

["**Relevant Performance (n)**" means the Best Performance (n).]

[In the case of Worst-of Performance Determination, the following applies:

["**Relevant Performance (b)**" means the Worst Performance (b).]

["**Relevant Performance (final)**" means the Worst Performance (final).]

["**Relevant Performance (k)**" means the Worst Performance (k).]

["**Relevant Performance (m)**" means the Worst Performance (m).]

[In the case of Securities with Additional Conditional Amount (Telescope), the following applies:

"**Relevant Performance (Telescope) (m)**" means the Worst Performance (m) – Strike Level.]

["**Relevant Performance (n)**" means the Worst Performance (n).]

[In the case of Rainbow Performance Determination, the following applies:

"**Relevant Performance (final)**" means the Performance of the Underlying (final).]

[In the case of Dispersion Performance Determination, the following applies:

"**Relevant Performance (final)**" means the Dispersion of the Underlying (final).]

["**Residual Redemption Factor (final)**" means the Residual Redemption Factor (final) as specified in § 1 of the Product and Underlying Data.]

["**Residual Redemption Factor (n)**" means the Residual Redemption Factor (n) as specified in § 1 of the Product and Underlying Data.]

["**Screen Page_i**" means the Screen Page_i as specified in § 1 of the Product and Underlying Data.]

["**Security Holder**" means the holder of a Security.]

["**Settlement Cycle**" means, with respect to a Basket Component_i, the period of Clearance System Business Days following a transaction on the respective Relevant Exchange_i in [the components of] the relevant Basket Component_i, during which settlement will customarily take place according to the rules of [the such Relevant Exchange_i] [that Clearance System [for subscriptions or redemptions of the respective Fund Shares_i]].]

["**Share Conversion Event**" means, with respect to a Basket Component_i, each of the following events:

(a) the quotation of the Basket Component_i at the respective Relevant Exchange_i is suspended indefinitely or permanently discontinued and no suitable Replacement Exchange is available or can be determined; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];

"**Specified Currency**" means the Specified Currency as specified in § 1 of the Product and Underlying Data.

["**Strike_i**" means, with respect to the Basket Component_i [the Strike_i as specified in § 1 of the Product and Underlying Data] [Strike Level x K_i (initial)].

["**Strike Level**" means the Strike Level as specified in § 1 of the Product and Underlying Data.]

[In the case of a **Fund Share** as Basket Component_i, the following applies:

"**Successor Fund_i**" means, with respect to the Fund_i, the fund of which a shareholder of the respective Fund Shares_i receives shares as a result of a merger or similar event.]

["**Terms and Conditions**" means the terms and conditions of these Securities as set out in the General Conditions (Part A), the Product and Underlying Data (Part B) and the Special Conditions (Part C).]

"**Underlying**" means a basket consisting of the Basket Components.

[In the case of a **Fund Share** as Basket Component_i, the following applies:

"**VolComparator_i**" means, with respect to the Basket Component_i, the VolComparator_i as specified in § 1 of the Product and Underlying Data.

"**VolComparator Calculation Date_i**" means, with respect to the Basket Component_i, each day on which the respective VolComparator Reference Price_i is published by the respective VolComparator Sponsor_i.

["**VolComparator Replacement Event**" means, with respect to a Basket Component_i, each of the following events:

- (a) changes in the relevant index concept or the calculation of the respective VolComparator_i, that result in a new relevant index concept or calculation of the respective VolComparator_i being no longer economically equivalent to the original relevant index concept or the original calculation of the respective VolComparator_i; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];
- (b) the calculation or publication of the respective VolComparator_i is discontinued indefinitely or permanently or replaced by another index;
- (c) due to circumstances for which the Issuer is not responsible, the Issuer is no longer entitled to use the respective VolComparator_i as basis for any calculation or specifications described in these Terms and Conditions;
- (d) any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the respective VolComparator_i; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

In cases of a VolComparator Replacement Event the Calculation Agent is entitled to determine [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith], which index should be used in the future as a VolComparator_i (the "**Replacement VolComparator**"). The Replacement VolComparator will be published in accordance with § 6 of the General Conditions. Any reference to the replaced VolComparator_i in these Terms and Conditions shall be deemed to refer to the Replacement VolComparator.

If the respective VolComparator_i is no longer determined by the respective VolComparator Sponsor_i but rather by another person, company or institution (the "**New VolComparator Sponsor**"), then any calculation described in the Terms and Conditions shall occur on the basis

of the respective VolComparator_i as determined by the New VolComparator Sponsor. In this case, any reference to the replaced VolComparator Sponsor_i in these Terms and Conditions shall be deemed to refer to the New VolComparator Sponsor.]

"**VolComparator Reference Price_i**" means, with respect to the Basket Component_i, the closing price of the respective VolComparator_i as specified in § 1 of the Product and Underlying Data.

"**VolComparator Sponsor_i**" means, with respect to the Basket Component_i, the respective VolComparator Sponsor_i as specified in § 1 of the Product and Underlying Data.]

"**Website[s] for Notices**" means the Website[s] for Notices as specified in § 1 of the Product and Underlying Data.

["**Website[s] of the Issuer**" means the Website[s] of the Issuer as specified in § 1 of the Product and Underlying Data.]

["**Weighting_i (W_i)**" (with $i = 1, \dots, N$) means the weighting of the Basket Component_i as specified in § 1 of the Product and Underlying Data.]

[In the case of Securities with **Rainbow Performance Determination**, the following applies:

"**Weighting_{i best} (W_{i best})**" (with $i = 1, \dots, N$) means the weighting applicable to the respective Basket Component_{i best} as specified in § 1 of the Product and Underlying Data.]

[In the case of **Worst-of Performance Determination**, the following applies:

["**Worst Performance (b)**" means the Worst Performance (b) as specified as follows:

[In the case of **Upside Securities**, the following applies:

Worst Performance (b) = $\min_{i=1, \dots, N}$ [Performance of the Basket Component_i (b)]]

[In the case of **Downside Securities**, the following applies:

Worst Performance (b) = $\max_{i=1, \dots, N}$ [Performance of the Basket Component_i (b)]]

["**Worst Performance (final)**" means the Worst Performance (final) as specified as follows:

[In the case of **Upside Securities**, the following applies:

[In the case of **Option 1**, the following applies:

Worst Performance (final) = $\min_{i=1, \dots, N}$ [Performance of the Basket Component_i (final)]]

[In the case of **Option 2**, the following applies:

Worst Performance (final) = $\min_{i=1, \dots, N}$ [Performance of the Basket Component_i (final)] – Final Strike Level]

[In the case of **Downside Securities**, the following applies:

[In the case of **Option 1**, the following applies:

Worst Performance (final) = $\max_{i=1, \dots, N}$ [Performance of the Basket Component_i (final)]]

[In the case of **Option 2**, the following applies:

Worst Performance (final) = Final Strike Level - $\max_{i=1, \dots, N}$ [Performance of the Basket Component_i (final)]]

["**Worst Performance (k)**" means the Worst Performance (k) as specified as follows:

[In the case of **Upside Securities**, the following applies:

Worst Performance (k) = $\min_{i=1, \dots, N}$ [Performance of the Basket Component_i (k)]]

[In the case of **Downside Securities**, the following applies:

Worst Performance (k) = $\max_{i=1, \dots, N}$ [Performance of the Basket Component_i (k)]]

["**Worst Performance (m)**"] means the Worst Performance (m) as specified as follows:

[In the case of **Upside Securities**, the following applies:

Worst Performance (m) = $\min_{i=1, \dots, N}$ [Performance of the Basket Component_i (m)]]

[In the case of **Downside Securities**, the following applies:

Worst Performance (m) = $\max_{i=1, \dots, N}$ [Performance of the Basket Component_i (m)]]

[In the case of Securities with **Worst-in Observation**, the following applies:

"**Worst-in Period**" means [Insert relevant day(s)] between the Initial Observation Date (inclusive) and the Last Day of the Worst-in Period (inclusive).]

[In the case of Securities with **Worst-out Observation**, the following applies:

"**Worst-out Period**" means [Insert relevant day(s)] between the First Day of the Worst-out Period (inclusive) and the Final Observation Date (inclusive).]

§ 2

Interest[, Additional Amount]

[In the case of **non-interest bearing Securities**, the following applies:

[(1)] *Interest*: The Securities do not bear interest.]

[In the case of **interest bearing Securities**, the following applies:

- (1) *Interest*: The Securities bear interest on their [Aggregate Nominal Amount] [Aggregate Calculation Amount] [Nominal Amount] [Calculation Amount] [per Security] [from the Interest Commencement Date to the Interest End Date] [for [the] [each] Interest Period] at the Interest Rate.
- (2) *Interest Rate*: "**Interest Rate**" means the Interest Rate [as specified in § 1 of the Product and Underlying Data.] [which is specified for the respective Interest Period in § 1 of the Product and Underlying Data.]
- (3) *Interest Amount*: The [respective] "**Interest Amount**" will be calculated by multiplying the Interest Rate and the [Aggregate Nominal Amount] [Aggregate Calculation Amount] [Nominal Amount] [Calculation Amount] [and the Day Count Fraction].

The [respective] Interest Amount becomes due for payment in the Specified Currency on the [relevant] Interest Payment Date in accordance with the provisions of § 6 of the Special Conditions.]

[In the case of Securities with **Additional Conditional Amount (Coupon)**, the following applies:

[(●)] *Additional Conditional Amount (Coupon)*: If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the respective Additional Conditional Amount (*Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Coupon*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has not occurred, the respective Additional Conditional Amount (*Coupon*) (m) will not be paid.

[In the case of Securities with **Consolidation Feature** the following applies:

However, if with respect to an Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) has occurred, the Additional Conditional Amount (*Coupon*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Coupon*) (m) will be paid on each Additional Conditional Amount

Payment Date (*Coupon*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Coupon*) (m) has occurred. In this case the Additional Conditional Amount (*Coupon*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Coupon*) (m) an Additional Conditional Amount Payment Event (*Coupon*) occurs.]]

[In the case of Securities with **Additional Conditional Amount (Digital)**, the following applies:

([●]) *Additional Conditional Amount (Digital)*: If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) an Additional Conditional Amount Payment Event (high) (*Digital*) has occurred, the respective Additional Conditional Amount (high) (*Digital*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Digital*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) an Additional Conditional Amount Payment Event (low) (*Digital*) has occurred, the respective Additional Conditional Amount (low) (*Digital*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Digital*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Digital*) (m) no Additional Conditional Amount Payment Event (low) (*Digital*) and no Additional Conditional Amount Payment Event (high) (*Digital*) has occurred, neither the respective Additional Conditional Amount (low) (*Digital*) (m) nor the respective Additional Conditional Amount (high) (*Digital*) (m) will be paid.]

[In the case of Securities with an **Additional Conditional Amount (Memory)**, the following applies:

([●]) *Additional Conditional Amount (Memory)*: If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has occurred, the respective Additional Conditional Amount (*Memory*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Memory*) (m) pursuant to the provisions of § 6 of the Special Conditions less all Additional Conditional Amounts (*Memory*) (m) paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m).

If with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has not occurred, the respective Additional Conditional Amount (*Memory*) (m) will not be paid.

[In the case of Securities with **Consolidation Feature** the following applies:

However, if with respect to an Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) has occurred, the Additional Conditional Amount (*Memory*) (m) with respect to each subsequent Additional Conditional Amount Payment Date (*Memory*) (m) less the sum of all Additional Conditional Amounts (*Memory*) (m) which have been paid on the preceding Additional Conditional Amount Payment Dates (*Memory*) (m) will be paid on each Additional Conditional Amount Payment Date (*Memory*) (m) thereafter, regardless of whether an Additional Conditional Amount Payment Event (*Memory*) (m) has occurred. In this case the Additional Conditional Amount (*Memory*) (m) will be paid only once, even if on any following Additional Conditional Amount Observation Date (*Memory*) (m) an Additional Conditional Amount Payment Event (*Memory*) occurs.]

[In the case of Securities with **Additional Conditional Amount (Performance)**, the following applies:

([●]) *Additional Conditional Amount (Performance)*: If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) an Additional Conditional Amount Payment Event (*Performance*) has occurred, the respective Additional Conditional Amount

(*Performance*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Performance*) (m) pursuant to the provisions of § 6 of the Special Conditions.

The respective Additional Conditional Amount (*Performance*) (m) on the respective Additional Conditional Amount Payment Date (*Performance*) (m) will be determined using the following formula and may also be equal to zero:

Additional Conditional Amount (*Performance*) (m) = Calculation Amount x Participation Factor (m) x Relevant Performance (m).

[However, the Additional Conditional Amount (*Performance*) (m) is not greater than the Maximum Additional Conditional Amount (*Performance*) (m).]

[However, the Additional Conditional Amount (*Performance*) (m) is not lower than the Minimum Additional Conditional Amount (*Performance*) (m).]

If with respect to an Additional Conditional Amount Observation Date (*Performance*) (m) no Additional Conditional Amount Payment Event (*Performance*) has occurred, the respective Additional Conditional Amount (*Performance*) (m) will not be paid.]

[In the case of Securities with **Additional Conditional Amount (Range Coupon)**, the following applies:

([●]) *Additional Conditional Amount (Range Coupon)*: If with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has occurred, the respective Additional Conditional Amount (*Range Coupon*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Range Coupon*) (m) pursuant to the provisions of § 6 of the Special Conditions.

If with respect to an Additional Conditional Amount Observation Date (*Range Coupon*) (m) an Additional Conditional Amount Payment Event (*Range Coupon*) has not occurred, the respective Additional Conditional Amount (*Range Coupon*) (m) will not be paid.]

[In the case of Securities with an **Additional Conditional Amount (Step-up Memory)**, the following applies:

([●]) *Additional Conditional Amount (Step-up Memory)*: If with respect to an Additional Conditional Amount Observation Date (*Step-up Memory*) (m) any of the following events occurs, the respective Additional Conditional Amount (*Step-up Memory*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Step-up Memory*) (m) pursuant to the provisions of § 6 of the Special Conditions:

- If the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level₁ (*Step-up Memory*) (m), the Additional Conditional Amount (*Step-up Memory*) (m) is equal to the Additional Conditional Amount₁ (*Step-up Memory*) (m) less all the Additional Conditional Amounts₁ (*Step-up Memory*) (m) paid on the preceding Additional Conditional Amount Payment Dates (*Step-up Memory*) (m);
- if the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level₂ (*Step-up Memory*) (m), the Additional Conditional Amount (*Step-up Memory*) (m) is equal to the Additional Conditional Amount₁ (*Step-up Memory*) (m) plus the Additional Conditional Amount₂ (*Step-up Memory*) (m) less all the Additional Conditional Amounts₁ (*Step-up Memory*) (m) and all the Additional Conditional Amounts₂ (*Step-up Memory*) (m) paid on the preceding Additional Conditional Amount Payment Dates (*Step-up Memory*) (m);
- if the respective Relevant Performance (m) is equal to or greater than the Additional Conditional Amount Payment Level₃ (*Step-up Memory*) (m), the Additional Conditional Amount (*Step-up Memory*) (m) is equal to the Additional Conditional Amount₁ (*Step-up Memory*) (m) plus the Additional Conditional Amount₂ (*Step-up Memory*) (m) plus the Additional Conditional Amount₃ (*Step-up Memory*) (m) less all the Additional Conditional Amounts₁ (*Step-up Memory*) (m), all the Additional Conditional Amounts₂ (*Step-up Memory*) (m);

Memory) (m) and all the Additional Conditional Amounts₃ (*Step-up Memory*) (m) paid on the preceding Additional Conditional Amount Payment Dates (*Step-up Memory*) (m).

Otherwise, no Additional Conditional Amount (*Step-up Memory*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Step-up Memory*) (m).]

[In the case of Securities with an **Additional Conditional Amount (Telescope)**, the following applies:

- ([●]) *Additional Conditional Amount (Telescope)*: If with respect to an Additional Conditional Amount Observation Date (*Telescope*) (m) an Additional Conditional Amount Payment Event (*Telescope*) (m) has occurred, the Additional Conditional Amount (*Telescope*) (m) will be paid on the corresponding Additional Conditional Amount Payment Date (*Telescope*) (m) pursuant to the provisions of § 6 of the Special Conditions.

The Additional Conditional Amount (*Telescope*) (m) will be determined using the following formula:

Additional Conditional Amount (*Telescope*) (m) = Calculation Amount x Relevant Performance (m) x Participation Factor (m) x 1/D (*Telescope*) (m).

[In the case of Securities with a **Maximum Additional Conditional Amount (Telescope) (m)**, the following applies:

However, the Additional Conditional Amount (*Telescope*) (m) is not greater than the relevant Maximum Additional Conditional Amount (*Telescope*) (m).]

[In the case of Securities with a **Minimum Additional Conditional Amount (Telescope) (m)**, the following applies:

However, the Additional Conditional Amount (*Telescope*) (m) is not lower than the relevant Minimum Additional Conditional Amount (*Telescope*) (m).]

If with respect to an Additional Conditional Amount Observation Date (*Telescope*) (m) an Additional Conditional Amount Payment Event (*Telescope*) has not occurred, the respective Additional Conditional Amount (*Telescope*) (m) will not be paid.]

[In the case of **interest bearing Securities**, the following applies:

- ([●]) *Day Count Fraction*: "**Day Count Fraction**" for the purpose of calculating the Interest Amount for an Interest Period means:

[In the case of "30/360", "360/360" or "Bond Basis" in accordance with ISDA 2000 , the following applies:

[30/360] [360/360] [Bond Basis] in accordance with ISDA 2000, calculated as the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months (unless (i) the last day of the Interest Period is the 31st day of a month but the first day of the Interest Period is a day other than the 30th or 31st day of a month, in which case the month that includes that last day shall not be considered to be shortened to a 30-day month, or (ii) the last day of the Interest Period is the last day of the month of February, in which case the month of February shall not be considered to be lengthened to a 30-day month)).]

[In the case of "30/360", "360/360" or "Bond Basis" in accordance with ISDA 2006, the following applies:

[30/360] [360/360] [Bond Basis] in accordance with ISDA 2006, calculated as the number of days in the Interest Period divided by 360, calculated using the following formula:

$$\text{DayCountFraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

Where:

"Y₁" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"D₁" is the first calendar day, expressed as a number, of the Interest Period, unless such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30.]

[In the case of "30E/360" or "Eurobond Basis" in accordance with ISDA 2000 (German interest calculation method), the following applies:

[30E/360] [Eurobond Basis] in accordance with ISDA 2000 (German interest calculation method), calculated as the number of days in the Interest Period divided by 360 (the number of days to be calculated on the basis of a year of 360 days with 12 30-day months, without regard to the date of the first day or last day of the Interest Period unless, in the case of the final Interest Period, the Final Payment Date is the last day of the month of February, in which case the month of February shall not to be considered to be lengthened to a 30-day month).]

[In the case of "30E/360" or "Eurobond Basis" in accordance with ISDA 2006, the following applies:

[30E/360] [Eurobond Basis] in accordance with ISDA 2006, calculated as the number of days in the Interest Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\text{DayCountFraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

Where:

"Y₁" is the year, expressed as a number, in which the first day of the Interest Period falls;

"Y₂" is the year, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"M₁" is the calendar month, expressed as a number, in which the first day of the Interest Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"D₁" is the first calendar day, expressed as a number, of the Interest Period unless such number would be 31, in which case D₁ will be 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless such number is 31, in which case D₂ would be 30.]

[In the case of "30E/360 (ISDA)" in accordance with ISDA 2006 (German interest calculation method), the following applies:

30E/360 (ISDA) in accordance with ISDA 2006 (German interest calculation method), calculated as the number of days in the Interest Period in respect of which payment is being made divided by 360, calculated on a formula basis as follows:

$$\text{DayCountFraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

Where:

"Y₁" is the year, expressed as a number, in which the first day of the Interest Period falls;

"M₂" is the calendar month, expressed as a number, in which the day immediately following the last day included in the Interest Period falls;

"D₁" is the first calendar day, expressed as a number, of the Interest Period, unless (i) that day is the last day of February, or (ii) such number would be 31, in which case D₁ will be equal to 30; and

"D₂" is the calendar day, expressed as a number, immediately following the last day included in the Interest Period, unless (i) that day is the last day of February but not the Final Payment Date, or (ii) such number would be 31, in which case D₂ will be equal to 30.]

[In the case of "Act/360", the following applies:

Act/360, calculated as the actual number of days in the Interest Period divided by 360.]

[In the case of "Act/365" (Fixed), the following applies:

Act/365 (Fixed), calculated as the actual number of days in the Interest Period divided by 365.]

[In the case of "Act/Act (ISDA)", the following applies:

Act/Act (ISDA), calculated as the actual number of days in the Interest Period divided by 365 (or, if a portion of that Interest Period falls into a leap year, the total of (A) the actual number of days in the Interest Period that fall into the leap year divided by 366, and (B) the actual number of days in the Interest Period that do not fall into the leap year divided by 365).]]

[In the case of Act/Act (ICMA), the following applies:

([•]) Day Count Fraction: "Day Count Fraction" for the purposes of determining an Interest Amount in respect of an Accrual Period is Act/Act (ICMA), calculated as follows:

[[i) if the Accrual Period is equal to or shorter than the Interest Period during which it falls,] the number of days in the Accrual Period divided by [the product of (1)] the number of days in such Interest Period [and (2) the number of Interest Periods normally ending in any year].]

Redemption Amount = Calculation Amount x (Final Participation Factor x Relevant Performance (final))

The Redemption Amount is not lower than the Minimum Amount [and not higher than the Maximum Amount].]

[In the case of **Option 2**, the following applies:

Redemption Amount = Calculation Amount x (Floor Level + Relevant Performance (final))

The Redemption Amount is not lower than the Minimum Amount [and not higher than the Maximum Amount].]

[In the case of **Option 3**, the following applies:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Relevant Performance (final))

However, the Redemption Amount is not lower than the Minimum Amount [and not greater than the Maximum Amount].]]

[In the case of **Option 4**, the following applies:

Redemption Amount = Nominal Amount x (Floor Level + Final Participation Factor x (Relevant Performance (final) – Final Strike Level))

However, the Redemption Amount is not lower than the Minimum Amount [and not greater than the Maximum Amount].]]

[In the case of **Cash Collect Protection Securities with Multi-Underlying**, the following applies:

The Redemption Amount corresponds to the Minimum Amount.]

[In the case of **Protection Securities with Multi-Underlying**, the following applies:

- If the Relevant Performance (final) is equal to or higher than the Final Strike Level, the Redemption Amount is determined as follows:

Redemption Amount = Calculation Amount x (Strike Level + Participation Factor Up x (Relevant Performance (final) – Strike Level))

- If the Relevant Performance (final) is lower than the Final Strike Level, the Redemption Amount is determined as follows:

Redemption Amount = Calculation Amount x (Strike Level + Participation Factor Down x (Relevant Performance (final) – Strike Level))

The Redemption Amount is not lower than the Minimum Amount [and not higher than the Maximum Amount].]

the Redemption Amount is equal to the Calculation Amount.

[In the case of **Option 3**, the following applies:

the Redemption Amount is equal to the Adjusted Calculation Amount.

- If a Barrier Event has occurred,

[In the case of **Option 4**, the following applies:

the Redemption Amount is equal to the Calculation Amount multiplied by the Relevant Performance (final) divided by the Final Strike Level.

However, the Redemption Amount is not greater than the Calculation Amount and not lower than the Minimum Amount.]

[In the case of **Option 5**, the following applies:

the Redemption Amount is equal to the Adjusted Calculation Amount multiplied by the Relevant Performance (final) divided by the Final Strike Level.

However, the Redemption Amount is not greater than the Adjusted Calculation Amount and not lower than the Adjusted Minimum Amount.]

[In the case of **Option 6**, the following applies:

the Redemption Amount will be calculated according to the following formula:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Relevant Performance (final)).

However, the Redemption Amount is not greater than the Calculation Amount and not lower than the Minimum Amount.]

[In the case of **Option 7**, the following applies:

the Redemption Amount will be calculated according to the following formula:

Redemption Amount = Calculation Amount x (Floor Level + (Final Participation Factor x (Relevant Performance (final) – Final Strike Level))).

However, the Redemption Amount is not greater than the Maximum Amount and not lower than the Minimum Amount.]]

[In the case of **Downside Protection Barrier Securities with Multi-Underlying**, the following applies:

- If no Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount.

- If a Barrier Event has occurred:

Redemption Amount = Calculation Amount x (2 - Relevant Performance (final) / Final Strike Level)

However, the Redemption Amount is not greater than the Calculation Amount and not lower than the Minimum Amount.]]

[In the case of **Protection Express Securities with Multi-Underlying**, the following applies:

[In the case of **Option 1**, the following applies:

- If a Final Redemption Event and no Barrier Event have occurred, the Redemption Amount is equal to the Maximum Amount.

["Increased Costs of Hedging" means that the Issuer has to pay a substantially higher amount of taxes, duties, expenditures and fees (with the exception of broker fees) compared to the First Trade Date in order to

- (a) close, continue or carry out transactions or acquire, exchange, hold or sell assets (respectively) which are needed in order to hedge price risks or other risks with regard to its obligations under the Securities; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] or
- (b) realise, reclaim or pass on proceeds from such transactions or assets[.

whereas cost increases due to a deterioration of the credit-worthiness of the Issuer [or other reasons for which the Issuer is solely responsible] are not considered as Increased Costs of Hedging].]

["Initial Strategy Calculation Date" means the [first] Initial Observation Date.]

"Issue Date" means the Issue Date as specified in § 1 of the Product and Underlying Data.

["Issuing Agent" means the Issuing Agent as specified in § 1 of the Product and Underlying Data.]

"j" means an integer number representing each number from and including the number 1 to and including the [VOP] [VOPL].

["k" means an integer number representing each number from and including the number 1 to and including the VOP.]

["K (t)" means the Reference Price with respect to the Calculation Date_t.]

["K (t-1)" means the Reference Price with respect to the Calculation Date immediately preceding the Calculation Date_t.]

["L" means the number of Observation Dates (l).]

["**Length of the Volatility Observation Period**" means the Length of the Volatility Observation Period as specified in § 1 of the Product and Underlying Data.]

["**Level of the Strategy**" means the Level of the Strategy as calculated or specified pursuant to § 2 (3) of the Special Conditions]

["**Level of the Target Vol Strategy**" means the Level of the Target Vol Strategy as specified or calculated by the Calculation Agent pursuant to § 4 (2) of the Special Conditions.

"**Level of the Target Vol Strategy_t (TVL_t)**" means the Level of the Target Vol Strategy on the Calculation Date_t.

"**Level of the Target Vol Strategy_{t-1} (TVL_{t-1})**" means the Level of the Target Vol Strategy on the Calculation Date immediately preceding Calculation Date_t.]

"Ln ()" means the natural logarithm of the base in brackets.

["**LnPerf_{i-VOPO-VOPL+j}**" means in relation to a VOP Calculation Date_{i-VOPO-VOPL+j} the log return calculated according to the following formula:

$$\text{Ln} (R (t_i\text{-VOPO-VOPL+j}) / R (t_i\text{-VOPO-VOPL+j-1})).]$$

["**Local Cap (l)**" means the Local Cap (l) as specified in § 1 of the Product and Underlying Data with respect to the Observation Date (l).]

["**Local Floor (l)**" means the Local Floor (l) as specified in § 1 of the Product and Underlying Data with respect to the Observation Date (l).]

"**Management Company**" means the Management Company [as specified in § 2 of the Product and Underlying Data] [as specified in the Fund Documents] of the Fund. If the Fund specifies another person, company or institution as the Management Company of the Fund, each and every reference to the Management Company in the Terms and Conditions shall be deemed, depending on the context, to refer to the new Management Company.

"**Market Disruption Event**" means each of the following events:

- [(a) the failure to calculate or the non-publication of the calculation of the NAV;]
- [[[•]] the temporary suspension or restriction of the redemption or issuance of Fund Shares at the NAV;]
- [[[•]] the failure of the Relevant Exchange [or the Determining Futures Exchange] to open for trading on a scheduled trading day during its regular trading sessions;
- [[[•]] the suspension or restriction of trading of the Underlying on the Relevant Exchange [or the trading of Underlying Linked Derivatives on the Determining Futures Exchange] during its regular trading sessions;
- [[[•]] an early closing of trading by the Relevant Exchange [or Determining Futures Exchange] prior to the scheduled closing of trading, unless such early closing is announced by the Relevant Exchange [or Determining Futures Exchange] no later than one hour prior to the earlier of the following dates:
 - (i) the actual closing of trading on the Relevant Exchange [or Determining Futures Exchange] on that day and
 - (ii) the actual last time possible for the placement of orders in the system of the Relevant Exchange [or Determining Futures Exchange] on that day;

to the extent that such Market Disruption Event is material; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

["**Maximum Amount**" means the Maximum Amount as specified in § 1 of the Product and Underlying Data.]

["**Maximum Additional Conditional Amount (m)**" means the Maximum Additional Conditional Amount (m) attributed to the respective Observation Date (m) as specified in § 1 of the Product and Underlying Data.]

["**Maximum Permissible Value Range for Fee_{Strat}**" means the Maximum Permissible Value Range for Fee_{Strat} as specified in § 1 of the Product and Underlying Data.]

["**Maximum Permissible Value Range for Fee_{UL}**" means the Maximum Permissible Value Range for Fee_{UL} as specified in § 1 of the Product and Underlying Data.]

"**Maximum Weight**" means the Maximum Weight as specified in § 1 of the Product and Underlying Data.

"**Minimum Amount**" means the Minimum Amount as specified in § 1 of the Product and Underlying Data.

["**Minimum Additional Conditional Amount (m)**" means the Minimum Additional Conditional Amount (m) attributed to the respective Observation Date (m) as specified in § 1 of the Product and Underlying Data.]

"**Minimum Weight**" means the Minimum Weight as specified in § 1 of the Product and Underlying Data.

["**Modified Average Performance**" means the Modified Average Performance as calculated by the Calculation Agent in accordance with the following formula:

$$\left[\frac{1}{L} \times \sum_{l=1}^L \min \left(\text{Local Cap}(l), \max \left(\text{Local Floor}(l), \frac{R(l)}{R(\text{initial})} \right) \right) \right]$$
$$\left[\frac{1}{L} \times \sum_{l=1}^L \max \left(\text{Local Floor}(l), \frac{R(l)}{R(\text{initial})} \right) \right]$$

"**NAV**" means the official net asset value (the "**Net Asset Value**") for a Fund Share as published by the Fund or the Management Company or by a third person on their behalf and at which it is actually possible to redeem Fund Shares.

["**Nominal Amount**" means the Nominal Amount as specified in § 1 of the Product and Underlying Data.]

["**Nominated Replacement Reference Rate**" means the rate or benchmark as specified in § 1 of the Product and Underlying Data.]

"**Observation Date**" means each of the following Observation Dates:

"**Initial Observation Date**" means the Initial Observation Date as specified in § 1 of the Product and Underlying Data. If the Initial Observation Date is not a Calculation Date, the immediately following [Banking Day which is a] Calculation Date shall be the Initial Observation Date.]

["**Observation Date (l)**" means the Observation Date (l) specified in § 1 of the Product and Underlying Data. If an Observation Date (l) is not a Calculation Date the immediately following Banking Day, which is a Calculation Date shall be the respective Observation Date (l).]

["**Observation Date (m)**" means the Observation Date (m) as specified in § 1 of the Product and Underlying Data. If an Observation Date (m) is not a Calculation Date, the immediately following Calculation Date shall be the respective Observation Date (m). The respective Additional Amount Payment Date (m) shall be postponed accordingly. Interest shall not be payable due to such postponement.]

["**Final Observation Date**" means the [last] Observation Date (l). If the Final Observation Date is not a Calculation Date, the immediately following Banking Day which is a Calculation Date

shall be the Final Observation Date. [If the last Final Observation Date is not a Calculation Date, then the Final Payment Date shall be postponed accordingly.]. Interest shall not be payable due to such postponement.]

["**Final Observation Date**" means the last Observation Date (m). If such date is not a Calculation Date, the immediately following Calculation Date shall be the Final Observation Date. The Final Payment Date shall be postponed accordingly. Interest shall not be payable due to such postponement.]

["**Offset of the Volatility Observation Period**" means the Offset of the Volatility Observation Period as specified in § 1 of the Product and Underlying Data.]

"**Participation Factor**" means the Participation Factor as specified in § 1 of the Product and Underlying Data.

["**Performance of the Strategy (m)**" means in relation to an Observation Date (m) the result of the quotient of S (m), as the numerator, and S (initial), as the denominator.]

["**Performance of the Underlying_i**" means the Performance of the Underlying, calculated by the Calculation Agent with respect to the Calculation Date_i, as the quotient of K (t), as the numerator, and K (t-1), as the denominator.]

"**Principal Paying Agent**" means the Principal Paying Agent as specified in § 1 of the Product and Underlying Data.

[In the case of Securities where **R (initial)** has already been specified, the following applies:

"**R (initial)**" means R (initial) as specified in § 1 of the Product and Underlying Data.]

[In the case of Securities with **Initial Reference Price Observation**, the following applies:

"**R (initial)**" means the Level of the Target Vol Strategy on the Initial Observation Date.]

["**R (I)**" means the Level of the Target Vol Strategy on the Observation Date (I).]

["**R (t_i)**" means the Reference Price on Strategy Calculation Date_i.]

"**R (t_{i-1})**" means in relation to a Strategy Calculation Date_i the Reference Price for Strategy Calculation Date_{i-1}.

"**R (t_{i-VOPO-VOPL+j})**" means the Reference Price on VOP Calculation Date_{i-VOPO-VOPL+j}.

"**R (t_{i-VOPO-VOPL+j-1})**" means in relation to a VOP Calculation Date_{i-VOPO-VOPL+j} the Reference Price on the Calculation Date immediately preceding VOP Calculation Date_{i-VOPO-VOPL+j}.]

["**Rate_{t-1}**" means the Reference Rate determined on the Reference Rate Reset Date with respect to the Calculation Date immediately preceding Calculation Date_i.]

"**Redemption Amount**" means the Redemption Amount as calculated or, respectively, specified by the Calculation Agent pursuant to § 4 of the Special Conditions.

["**Reference Currency**" means the Reference Currency as specified in § 1 of the Product and Underlying Data.]

"**Reference Price**" means the Reference Price as specified in § 1 of the Product and Underlying Data [and expressed in the main unit of the Underlying Currency].

"**Reference Rate**" means the [offered rate (expressed as a percentage per annum) for deposits in [the Specified Currency] [*Insert other currency*] with the corresponding Designated Maturity] [*insert Risk Free Rate*] displayed on the Screen Page [around [*insert time*]] on the relevant Reference Rate Reset Date. If either the Screen Page is not available [or no such offered rate is displayed at the time specified], then [the Calculation Agent shall determine another Reuters or Bloomberg page [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*], where a comparable offered rate (expressed as a percentage per annum)

is displayed or determine such comparable offered rate by reference to such sources as it may select [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] in respect of such date. Such determinations will be published by means of a notice given in accordance with § 6 of the General Conditions] [the value of the relevant Reference Rate does not so appear for such Reference Rate Reset Date, then the most recent published value will be Reference Rate in respect of such date].

"Reference Rate Cessation Event" means each of the following events:

- (a) it becomes unlawful for the Issuer to use the Reference Rate as reference rate for the Securities;
- (b) the Reference Rate-Administrator ceases to calculate and publish the Reference Rate on a permanent basis or for an indefinite period of time;
- (c) the Reference Rate-Administrator becomes illiquid or an insolvency, bankruptcy, restructuring or similar procedure (regarding the administrator) has been set up by the Reference Rate-Administrator or the relevant supervisory authority;
- (d) the Reference Rate otherwise ceases to exist; or
- (e) the relevant central bank or a supervisory authority determines and publishes a statement that the relevant central bank or supervisory authority has determined that such Reference Rate no longer represents the underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored [("**no longer representative**")],

whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

"Reference Rate Conversion Event" means [each of] the following event[s]:

- [(a)] no suitable Replacement Reference Rate (as specified in § 9 (1) of the Special Conditions) is available; [or]
- [(b)] an adjustment pursuant to § 9 (2) [or (3)] of the Special Conditions is not possible or unreasonable for the Issuer and/or the Security Holders;]

whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

"Reference Rate Reset Date" means [the [[*insert number of days*] Calculation Date immediately preceding the] Calculation Date,][*insert*.]

"Reference Rate Reset Date" means [in relation to a Strategy Calculation Date [the [second] [*insert number*] Calculation Date immediately preceding] the Strategy Calculation Date. If such date is not a Calculation Date for the Reference Rate, the Reference Rate Reset Date shall be the immediately preceding Calculation Date for the Reference Rate that is a Calculation Date]] [*insert*.]

"Reference Rate Time" means the Reference Rate Time as specified in § 1 of the Product and Underlying Data.]

"Registered Reference Rate-Administrator" means that the [Reference Rate][Risk Free Rate] is administered by an administrator who is registered in a register pursuant to Article 36 of the Benchmark Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and

Regulation (EU) No 596/2014 (the "**Benchmark-Regulation**") as specified in § [●] of the Product and Underlying Data.]

"**Relevant Exchange**" means the [Relevant Exchange as specified in § 2 of the Product and Underlying Data] [exchange, on which the components of the Underlying are traded], such exchange shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith][by notice pursuant to § 6 of the General Conditions] in accordance with their liquidity.

In the case of a material change in the market conditions at the Relevant Exchange, such as a final discontinuation of the quotation of the [components of the] Underlying at the Relevant Exchange and the quotation at a different stock exchange or a considerably restricted liquidity, the Relevant Exchange shall be substituted as the Relevant Exchange by another exchange that offers satisfactorily liquid trading in the Underlying [or, respectively, its components] (the "**Replacement Exchange**"); such exchange shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]. In the event of such substitution, any reference to the Relevant Exchange in these Terms and Conditions shall be deemed to refer to the Replacement Exchange.

["**Return of the Underlying_t**," means the Return of the Underlying_t as calculated by the Calculation Agent with respect to the Calculation Date_t in accordance with the following formula Return of the Underlying_t = Performance of the Underlying - 1 "Return of the Underlying_{t-VOP-Offset+j}" means the Return of the Underlying as calculated by the Calculation Agent for the Calculation Date falling VOP-Offset+j Calculation Dates prior to the respective Calculation Date_t.]

["**Return of the Underlying_i**," means in relation to a Strategy Calculation Date_i the result of the following formula:

$$(R(t_i) - R(t_{i-1})) / R(t_{i-1}).]$$

["**Return of the Underlying_{t-VOP-Offset+k}**" means the Return of the Underlying as calculated by the Calculation Agent for the Calculation Date falling VOP-Offset+k Calculation Dates prior to the respective Calculation Date_t.]

["**Risk Free Rate**" or "**RFR**" means the risk free rate as specified in § 1 of the Product and Underlying Data.]

["**S (initial)**" means the Start Level of the Strategy.

["**S (m)**" means the Level of the Strategy on the Observation Date (m).]

["**Screen Page**" means the Screen Page and, if applicable, the corresponding heading as indicated in § 1 of the Product and Underlying Data.]

["**Security Holder**" means the holder of a Security.]

["**Settlement Cycle**" means the period of Clearance System Business Days [following a transaction on the Relevant Exchange in [the components of] the Underlying during which period settlement will customarily take place according to the rules of [such Relevant Exchange][that Clearance System [for subscription or redemption of the Fund Shares]].]

["**Specified Currency**" means the Specified Currency as specified in § 1 of the Product and Underlying Data.

["**Start Level of the Strategy**" means the Start Level of the Strategy as specified in § 1 of the Product and Underlying Data.

["**Strategy Calculation Date**" means each Calculation Date between the Initial Strategy Calculation Date and the Final Strategy Calculation Date (both included).

"**Strategy Calculation Date_i**" means the Strategy Calculation Date that corresponds to the i-th Calculation Date after the Initial Strategy Calculation Date.

"**Strategy Calculation Date_{i-1}**" means the Strategy Calculation Date immediately preceding the Strategy Calculation Date_i.

"**Strategy Fee (based on the Level of the Strategy)**" means an annual fee considered for the determination of the Level of the Strategy that is based on the Level of the Strategy. The annual rate corresponds to Fee_{Strat}.

"**Strategy Fee (based on the Underlying)**" means an annual fee considered for the determination of the Level of the Strategy that is based on a portion of the Level of the Strategy in accordance with the Dynamic Weight. The annual rate corresponds to Fee_{UL}.]

["**Strike**" means the Strike as specified in § 1 of the Product and Underlying Data.]

["**Strike Level**" means the Strike Level as specified in § 1 of the Product and Underlying Data.]

"**Successor Fund**" means the fund of which a shareholder of Fund Shares receives Shares as a result of a merger or similar event.

"**Target Volatility**" means the Target Volatility as specified in § 1 of the Product and Underlying Data.

["**Terms and Conditions**" means the terms and conditions of these Securities as set out in the General Conditions (Part A), the Product and Underlying Data (Part B) and the Special Conditions (Part C).]

"**Underlying**" means [the Underlying][the Fund Share] as specified in § 1 of the Product and Underlying Data.

"**Underlying Currency**" means the Underlying Currency as specified in § 2 of the Product and Underlying Data.

["**Underlying Volatility**" means the Underlying Volatility as calculated by the Calculation Agent pursuant to § 4 (4) of the Special Conditions.]

["**Underlying Volatility**" means the Underlying Volatility as calculated or specified pursuant to § 2 (5) of the Special Conditions.]

["**Volatility Observation Period_i**" means in relation to a Strategy Calculation Date_i a period of the Length of the Volatility Observation Period and the last Calculation Date of this period is the Calculation Date that precedes the Strategy Calculation Date_i according to the Offset of the Volatility Observation Period.

For the avoidance of doubt: The Volatility Observation Period_i may encompass Calculation Dates that precede the Initial Strategy Calculation Date and the Initial Observation Date, respectively.]

["**Volatility Observation Period (VOP)**" means the Volatility Observation Period as specified in § 1 of the Product and Underlying Data.]

["**Volatility Observation Period Offset (Offset)**" means the Volatility Observation Period Offset as specified in § 1 of the Product and Underlying Data.]

"**VolComparator**" means the VolComparator as specified in § 1 of the Product and Underlying Data.

"**VolComparator Calculation Date**" means each day on which the VolComparator Reference Price is published by the VolComparator Sponsor.

["**VolComparator Replacement Event**" means each of the following events:

- (a) changes in the relevant index concept or the calculation of the VolComparator, that result in a new relevant index concept or calculation of the VolComparator being no longer economically equivalent to the original relevant index concept or the original calculation

of the VolComparator; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];

- (b) the calculation or publication of the VolComparator is discontinued indefinitely or permanently or replaced by another index;
- (c) due to circumstances for which the Issuer is not responsible, the Issuer is no longer entitled to use the VolComparator as basis for any calculation or specifications described in these Terms and Conditions;
- (d) any event which is economically equivalent to one of the above-mentioned events with regard to its consequences on the VolComparator; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

In cases of a VolComparator Replacement Event the Calculation Agent is entitled to determine [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith], which index should be used in the future as a VolComparator (the "**Replacement VolComparator**"). The Replacement VolComparator will be published in accordance with § 6 of the General Conditions. Any reference to the replaced VolComparator in these Terms and Conditions shall be deemed to refer to the Replacement VolComparator.

If the VolComparator is no longer determined by the VolComparator Sponsor but rather by another person, company or institution (the "**New VolComparator Sponsor**"), then any calculation described in these Terms and Conditions shall occur on the basis of the VolComparator as determined by the New VolComparator Sponsor. In this case, any reference to the replaced VolComparator Sponsor in these Terms and Conditions shall be deemed to refer to the New VolComparator Sponsor.]

"**VolComparator Reference Price**" means the closing price of the VolComparator as specified in § 1 of the Product and Underlying Data.

"**VolComparator Sponsor**" means the VolComparator Sponsor as specified in § 1 of the Product and Underlying Data.

["**Vol_i**" means the Underlying Volatility in relation to the Strategy Calculation Date_i.]

["**VOP Calculation Date_i -VOPO-VOPL_{+j}**" means in relation to a Strategy Calculation Date_i the Calculation Date that corresponds to the j-th Calculation Date of the Volatility Observation Period_i.

"**VOPL**" means the numerical value of Calculation Dates that corresponds to the Length of the Volatility Observation Period.

"**VOPO**" means the numerical value of Calculation Dates that corresponds to the Offset of the Volatility Observation Period.]

"**Website[s] for Notices**" means the Website[s] for Notices as specified in § 1 of the Product and Underlying Data.

["**Website[s] of the Issuer**" means the Website[s] of the Issuer as specified in § 1 of the Product and Underlying Data.]

§ 2

Interest[, Additional Conditional Amount, Level of the Strategy, Dynamic Weight, Underlying Volatility]

- [(1)] The Securities do not bear interest.

- [(2) *Additional Conditional Amount (m)*: If the Performance of the Strategy (m) is greater than the Strike Level, the Additional Conditional Amount (m) shall be paid on the respective Additional Conditional Amount Payment Date (m) pursuant to the provisions of § 6 of the Special Conditions. The Additional Conditional Amount (m) is calculated according to the following formula:

$$\text{Additional Conditional Amount(m)} = \text{Calculation Amount} \times \text{Participation Factor} \times \frac{\text{Performance of the Strategy(m)} - \text{Strike Level}}{\text{D(km)}}$$

If the Performance of the Strategy (m) is less than or equal to the Strike Level, no Additional Conditional Amount (m) is paid.]

- [(2) *Additional Conditional Amount (m)*: The Additional Conditional Amount (m) shall be paid on the respective Additional Conditional Amount Payment Date (m) pursuant to the provisions of § 6 of the Special Conditions. The Additional Conditional Amount (m) is calculated according to the following formula:

$$\text{Additional Conditional Amount(m)} = \text{Calculation Amount} \times \text{Participation Factor} \times \frac{\text{Performance of the Strategy(m)} - \text{Strike Level}}{\text{D(m)}}$$

However, the Additional Conditional Amount (m) is not lower than the relevant Minimum Additional Conditional Amount (m).]

[However, the Additional Conditional Amount (m) is not greater than the Maximum Additional Conditional Amount (m).]

- (3) *Level of the Strategy (S_i)*: The Calculation Agent shall determine or specify the Level of the Strategy as follows:
- In respect of the Initial Strategy Calculation Date, the Level of the Strategy corresponds to the Start Level of the Strategy.
 - In respect of a Strategy Calculation Date_i after the Initial Strategy Calculation Date, the Level of the Strategy is calculated according to the following formula:

[In the case that the Strategy is calculated as excess return to a reference rate, the following applies:

$$S_i = S_{i-1} \times \left[1 - \text{Fee}_{\text{Strat}} \times \frac{\text{Days}_{i-1,i}}{360} + DW_{i-1} \times \left(\text{Return of the Underlying}_i - \text{Rate}_{i-1} \times \frac{\text{Days}_{i-1,i}}{360} - \text{Fee}_{\text{UL}} \times \frac{\text{Days}_{i-1,i}}{360} \right) \right]$$

[In the case that the Strategy is calculated with a reference rate, the following applies:

$$S_i = S_{i-1} \times \left[1 - \text{Fee}_{\text{Strat}} \times \frac{\text{Days}_{i-1,i}}{360} + DW_{i-1} \times \left(\text{Return of the Underlying}_i - \text{Fee}_{\text{UL}} \times \frac{\text{Days}_{i-1,i}}{360} \right) + (1 - DW_{i-1}) \times \text{Rate}_{i-1} \times \frac{\text{Days}_{i-1,i}}{360} \right]$$

[In the case that the Strategy is calculated without a reference rate, the following applies:

$$S_i = S_{i-1} \times \left[1 - \text{Fee}_{\text{Strat}} \times \frac{\text{Days}_{i-1,i}}{360} + DW_{i-1} \times \left(\text{Return of the Underlying}_i - \text{Fee}_{\text{UL}} \times \frac{\text{Days}_{i-1,i}}{360} \right) \right]$$

- (4) *Dynamic Weight (DW_i)*: The Calculation Agent shall calculate the Dynamic Weight in respect of a Strategy Calculation Date_i according to the following formula:

$$DW_i = \frac{\text{Target Volatility}}{\text{Vol}_i}$$

However, the Dynamic Weight is not lower than the Minimum Weight and not greater than the Maximum Weight.

- (5) *Underlying Volatility (Vol_i):* The Calculation Agent shall calculate the Underlying Volatility in respect of a Strategy Calculation Date_i according to the following formula:

$$\text{Vol}_i = \sqrt{\frac{\sum_{j=1}^{\text{VOPL}} (\text{LnPerf}_{i-\text{VOPO}-\text{VOPL}+j})^2 - \frac{1}{\text{VOPL}} \times \left(\sum_{j=1}^{\text{VOPL}} \text{LnPerf}_{i-\text{VOPO}-\text{VOPL}+j} \right)^2}{\text{VOPL}-1}} \times \sqrt{252}$$

§ 3

Redemption

Redemption: The Securities shall be redeemed by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.]

§ 4

Redemption Amount[, Level of the Target Vol Strategy, Dynamic Weight, Underlying Volatility]

[In the case of **Protection Telescope Securities linked to Target Vol Strategies**, the following applies:

Redemption Amount: The Redemption Amount corresponds to the Minimum Amount.]

[In the case of **Protection Securities linked to Target Vol Strategies with Locally Floored/Capped Asian Out**, the following applies:

- (1) *Redemption Amount:* The Redemption Amount equals an amount in the Specified Currency, which is calculated or specified by the Calculation Agent as follows:

Redemption Amount = Calculation Amount x (Floor Level + Participation Factor x (Modified Average Performance – Strike)).

However, the Redemption Amount is not lower than the Minimum Amount [and not more than the Maximum Amount].

- (2) *Level of the Target Vol Strategy:* On the Initial Strategy Calculation Date, the Level of the Target Vol Strategy (= TVL_{Initial}) shall be defined as follows:

$$\text{TVL}_{\text{Initial}} = 100$$

The Level of the Target Vol Strategy on each Calculation Date_t (= TVL_t) from but excluding the Initial Strategy Calculation Date to and including the Final Strategy Calculation Date shall be determined by the Calculation Agent in accordance with the following formula:

$$\begin{aligned} \text{TVL}_t = & \text{TVL}_{t-1} \times (1 \\ & - (\text{Fee}_{\text{TVL}} + \text{Fee}_{\text{StratFix}} + \text{Fee}_{\text{StratVariable},t-1}) \times \text{Days}_{t-1,t} / 360 \\ & + \text{DW}_{t-1} \times \text{Return of the Underlying} \\ & + (1 - \text{DW}_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{RateVariable},t-1}) \times \text{Days}_{t-1,t} / 360) \end{aligned}$$

This means: The Level of the Target Vol Strategy on each Calculation Date_t will be calculated by the Calculation Agent as the product of (a) the Level of the Target Vol Strategy with respect to the Calculation Date immediately preceding Calculation Date_t and (b) the sum of (i) one and (ii) the dynamically weighted Return of the Underlying with respect to the Calculation Date_t and (iii) the dynamically weighted daily fraction (Act/360) of the Reference Rate. [The calculation takes into account [the Fee_{TVL}] [,] [and] [the Fee_{Underlying}] [,] [and] [the Fee_{TVL}] [,] [and] [the Fee_{StratFix}] [,] [and] [the Fee_{StratVariable}] [,] [and] [the Fee_{RateFix}] [,] [and] [the Fee_{RateVariable}] by way of deduction.]

- (3) *Dynamic Weight*: The Calculation Agent shall determine the Dynamic Weight on each Calculation Date_t (= DW_t) from and including the Initial Strategy Calculation Date as follows:

$$DW_t = \frac{\text{Target Volatility}}{\text{Underlying Volatility}_t}$$

However, DW_t is not lower than the Minimum Weight and not greater than the Maximum Weight.

- (4) *Underlying Volatility*: The Calculation Agent shall determine the Underlying Volatility_t in respect of the Volatility Observation Period on each Calculation Date_t from and including the Initial Strategy Calculation Date in accordance with the following formula:

$$\text{Underlying Volatility}_t =$$

$$\sqrt{\frac{1}{\text{VOP} - 1} \times \sum_{j=1}^{\text{VOP}} (\text{LnUnderlyingPerformance}_{t-\text{VOP}-\text{Offset}+j} - \text{LnAverageUnderlyingPerformance}_{t-\text{Offset}})^2} \times \sqrt{252}$$

Where:

LnUnderlyingPerformance_{t-VOP-Offset+j} means Ln(1 + Return of the Underlying_{t-VOP-Offset+j})

LnAverageUnderlyingPerformance_{t-Offset} means $\frac{1}{\text{VOP}} \times \sum_{k=1}^{\text{VOP}} \text{Ln}(1 + \text{Return of the Underlying}_{t-\text{VOP}-\text{Offset}+k})$

[(1)] *Interest:* The Securities do not bear interest.

[In the case of Securities with an Additional Unconditional Amount, the following applies:

(2) *Additional Unconditional Amount:* The respective Additional Unconditional Amount (I) will be paid on the Additional Unconditional Amount Payment Date (I) pursuant to the provisions of § 6 of the Special Conditions.]

§ 3

Redemption

Redemption: The Securities shall be redeemed upon automatic exercise on the Exercise Date by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

The Securities shall be deemed automatically exercised on the Exercise Date.

§ 4

Redemption Amount, Level of the Target Vol Strategy, Dynamic Weight, Underlying Volatility

(1) *Redemption Amount:* The Redemption Amount equals an amount in the Specified Currency, which is calculated by the Calculation Agent as follows:

If no Barrier Event has occurred, then the Redemption Amount will be calculated pursuant to the following formula:

$$\text{Redemption Amount} = \text{Calculation Amount} \times (\text{Floor Level} + \text{Participation Factor} \times \max(\text{R (final)} / \text{R (initial)} - \text{Strike}; 0)).$$

If a Barrier Event has occurred, then the Redemption Amount will be calculated pursuant to the following formula:

$$\text{Redemption Amount} = \text{Calculation Amount} \times (\text{R (final)} / \text{R (initial)}).$$

However, the Redemption Amount is in no event less than the Minimum Amount [and not greater than the Maximum Amount].

(2) *Level of the Target Vol Strategy:* On the Initial Strategy Calculation Date, the Level of the Target Vol Strategy (= $\text{TVL}_{\text{Initial}}$) shall be defined as follows:

$$\text{TVL}_{\text{Initial}} = 100$$

The Level of the Target Vol Strategy on each Calculation Date_t (= TVL_t) from but excluding the Initial Strategy Calculation Date to and including the Final Strategy Calculation Date shall be determined by the Calculation Agent in accordance with the following formula:

$$[TVL_t = TVL_{t-1} \times (1 + DW_{t-1} \times \text{Return of Underlying A}_t + (1 - DW_{t-1}) \times \text{Return of Underlying B}_t [x \text{ Days}_{t-1,t} / 360])]$$

$$[TVL_t = TVL_{t-1} \times (1 [- \text{Fee}_{TVL} \times \text{Days}_{t-1,t} / 360] + DW_{t-1} \times (\text{Return of Underlying A}_t [- \text{Fee}_{ULA} \times \text{Days}_{t-1,t} / 360]) + (1 - DW_{t-1}) \times (\text{Return of Underlying B}_t [- \text{Fee}_{ULB} [x \text{ Days}_{t-1,t} / 360]]) [x \text{ Days}_{t-1,t} / 360]) [- \text{Fee}_{Strat} \times \text{Days}_{t-1,t} / 360])]$$

This means: The Level of the Target Vol Strategy on each Calculation Date_t will be calculated by the Calculation Agent as the product of (a) the Level of the Target Vol Strategy with respect to the Calculation Date immediately preceding Calculation Date_t and (b) the sum of (i) one, (ii) the dynamically weighted Return of Underlying A with respect to the Calculation Date_t and (iii) the dynamically weighted [daily fraction (Act/360) of the] relevant Return of Underlying B_t. [The calculation takes into account [the Fee_{ULA}] [,][and] [the Fee_{TVL}] [,][and] [the Fee_{ULB}] [and] [the Fee_{Strat}] by way of deduction.]

- (3) *Dynamic Weight*: The Calculation Agent shall determine the Dynamic Weight on each Calculation Date_t (= DW_t) from and including the Initial Strategy Calculation Date as follows:

$$DW_t = \frac{\text{TargetVolatility}}{\text{UnderlyingVolatility}}$$

However, DW_t is not lower than the Minimum Weight and not greater than the Maximum Weight.

- (4) *Underlying Volatility*: The Calculation Agent shall determine the Underlying Volatility_t in respect of the Volatility Observation Period on each Calculation Date_t from and including the Initial Strategy Calculation Date in accordance with the following formula:

UnderlyingVolatility_t

$$= \sqrt{\frac{1}{VOP - 1} \times \sum_{j=1}^{VOP} (\text{LnUnderlyingPerformance}_{t-VOP-Offset+j} - \text{LnAverageUnderlyingPerformance}_{t-Offset})^2} \times \sqrt{252}$$

Where:

LnUnderlyingPerformance_{t-VOP-Offset+j} means :

$$\text{Ln}(1 + \text{Return of Underlying A}_{t-VOP-Offset+j})$$

LnAverageUnderlyingPerformance_{t-Offset} means :

$$\frac{1}{VOP} \times \sum_{k=1}^{VOP} \text{Ln}(1 + \text{Return of Underlying A}_{t-VOP-Offset+k})$$

"**Designated Maturity**" means the Designated Maturity as specified in § 1 of the Product and Underlying Data.]

"**Dynamic Weight_t (DW_t)**" means the Dynamic Weight with respect to Calculation Date_t as calculated by the Calculation Agent pursuant to § 4 (3) of the Special Conditions.

"**Dynamic Weight_{t-1} (DW_{t-1})**" means the Dynamic Weight on the Calculation Date immediately preceding Calculation Date_t.

"**Expiry Date [(Data di Scadenza)]**" means the Expiry Date as specified in § 1 of the Product and Underlying Data.]

"**Fee_{Basket} (Fee_{Basket})**" means the Fee_{Basket} as specified in § 1 of the Product and Underlying Data.]

"**Fee_{Rate} (Fee_{Rate})**" means the Fee_{Rate} as specified in § 1 of the Product and Underlying Data.]

"**Fee_{Strat} (Fee_{Strat})**" means the Fee_{Strat} as specified in § 1 of the Product and Underlying Data.]

"**Fee_{TVL} (Fee_{TVL})**" means the Fee_{TVL} as specified in § 1 of the Product and Underlying Data.]

"**Final Payment Date**" means the Final Payment Date as specified in § 1 of the Product and Underlying Data.

"**Final Strategy Calculation Date**" means the [last] Final Observation Date.

"**First Trade Date**" means the First Trade Date as specified in § 1 of the Product and Underlying Data.

"**Floor Level**" means the Floor Level as specified in § 1 of the Product and Underlying Data.

"**Fund_i**" means, in relation to a Fund Share_i, the investment fund issuing that Fund Share_i or the investment fund in whose assets the respective Fund Share_i represents a proportional interest.]

"**Fund Conversion Event**" means, with respect to a Basket Component_i, each of the following events:

- (a) a Fund Replacement Event occurred and no suitable Replacement Basket Component_i is available or can be determined; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its

reasonable discretion (§ 315 et seq. BGB)][in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith];

- (b) payments in respect of a redemption of Fund Shares_i being made wholly or partly in kind or not wholly in cash by no later than the date on which, according to the Fund Documents_i, a full payment in cash is normally to be made; whether the conditions are fulfilled shall be determined by the Calculation Agent [in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)][in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith];
- (c) (i) an order or valid resolution for a winding-up and/or liquidation or an event with similar effects in relation to the Fund_i or the Fund Shares_i, (ii) the initiation of composition, bankruptcy or insolvency proceedings in relation to the Fund_i, (iii) a requirement to transfer all the Fund Shares_i to a trustee, liquidator, insolvency administrator or similar office-holder or (iv) transfers of the Fund Shares_i by the shareholders are legally prohibited; whether the conditions are fulfilled shall be determined by the Calculation Agent [in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)][in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith];
- (d) a nationalisation of the Fund_i or the Fund Shares_i to the extent that the respective Basket Component_i is thereby affected; whether the conditions are fulfilled shall be determined by the Calculation Agent [in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)][in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith];]
- [(e) the quotation of the Basket Component_i on the respective Relevant Exchange_i is discontinued and no Replacement Exchange can be determined; whether this is the case shall be determined by the Calculation Agent [in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)][in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith];]
- [[[•]] fees, premiums, discounts, charges, commissions or taxes are levied for the issue or redemption of Fund Shares_i, which result in the purchase of Fund Shares_i at a higher value by [•] % or, respectively, the redemption of Fund Shares_i at a lower value by [•] % than the NAV_i; whether the conditions are fulfilled shall be determined by the Calculation Agent [in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)][in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith];]
- [[[•]] the total net assets under management in the Fund_i fall below a value of [*insert amount with currency*]; whether the conditions are fulfilled shall be determined by the Calculation Agent [in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)][in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith];]
- [[[•]] the Determining Futures Exchange_i terminates the there traded Underlying Linked Derivatives of the respective Basket Component_i early].]

["**Fund Documents_i**"] means, with respect to the Fund_i, if any, irrespective of the actual designation and in each case in the respective valid version, the prospectus, the investment conditions, the articles of association or memorandum and all other documents of the Fund_i which specify the terms and conditions of the Fund_i and the Fund Shares_i.]

["**Fund Management_i**" means, with respect to the Fund_i, the persons responsible for the portfolio and/or risk management of the Fund_i.]

["**Fund Replacement Event**" means, with respect to a Basket Component_i, each of the following events:

Changes:

- (a) a material change with respect to (i) the risk profile of the Fund Shares_i or the Fund_i, (ii) the investment objectives or investment strategy or investment restrictions of the Fund_i, (iii) the method of calculating the [NAV_i][Reference Price_i]; whether the conditions are fulfilled shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];
- (b) (i) the withdrawal of voting rights regarding the Fund Shares_i or the Fund_i or (ii) the exclusion of the right of the Fund Shares_i to participate in the performance of the Fund_i's assets; whether the conditions are fulfilled shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];
- (c) (i) the restriction of the issuance of further Fund Shares_i or the redemption of existing Fund Shares_i or the announcement of such restriction or another non-execution or (ii) a change regarding the timetable for the subscription or issue, redemption and/or transfer of the Fund Shares_i; whether the conditions are fulfilled shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];
- (d) the Management Company_i [or another Fund Services Provider_i] discontinues its services for the Fund_i or loses its required licence, registration, approval or authorisation to manage the Fund_i [or to provide the service] and is not immediately replaced by another Management Company_i [or another services provider]; whether the conditions are fulfilled shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];
- (e) changes in the distribution policy of the Fund_i which could have a substantial negative effect on the amount of the distributions per Fund Share_i as well as distributions which diverge significantly from the Fund_i's normal distribution policy to date; whether the conditions are fulfilled shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];
- [(f) the creation of so-called side pockets for segregated assets; w whether the conditions are fulfilled shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];]
- [(•)] after the Issue Date, the Fund_i or the Management Company_i significantly changes any compensation components or rebates contractually granted to the Issuer for the purchase of the respective Basket Component_i for hedging purposes to the disadvantage of the Issuer or removes them completely (including by way of contractual termination). A significant change to the disadvantage of the Issuer is given if the

compensation components or rebates are reduced by more than [●] compared to the Issue Date;]

Violations and legal supervision:

- [(●)] a material breach by the Fund_i or the Management Company_i of (i) the investment objectives, the investment strategy or the investment restrictions of the Fund_i (as described in the Fund Documents_i), (ii) statutory or regulatory publication requirements, or (iii) other material duties regarding the Fund Documents_i; whether the conditions are fulfilled shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];
- [(●)] investigatory proceedings relating to the activities of the Fund_i, the Fund Management_i or the Management Company_i by the supervisory authorities, or by a court as a result of a presumed misconduct, a presumed violation of the law or for similar reasons; whether the conditions are fulfilled shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith];
- [(●)] due to circumstances for which the Issuer is not responsible, the Issuer is no longer able to use the respective Basket Component_i as basis for any calculation or specifications of the Calculation Agent described in these Terms and Conditions;

Discontinuation:

- [(●)] the discontinuation or a delay lasting more than [8][●] Calculation Dates of the publication of the [NAV_i][Reference Price_i] as scheduled or customary;]
- [(●)] the [NAV_i] [Reference Price_i] [or the quotation of the respective Basket Component_i] [at the respective Relevant Exchange_i] is no longer published in the Currency of the respective Basket Component_i;]

Volatility:

- [(●)] [the Historic Volatility of the respective Basket Component_i [exceeds][falls below] a volatility level of [Insert]% on a Calculation Date.][the Historic Volatility of the respective Basket Component_i [exceeds][falls below] the Historic Volatility of the VolComparator_i on a Calculation Date which is also a respective VolComparator Calculation Date_i by [Insert] percentage points.]

The "**Historic Volatility of the respective Basket Component_i**," is calculated on a Calculation Date on the basis of the daily logarithmic returns of the respective Basket Component_i over the immediately preceding [Insert number of days] Calculation Dates

[which are also respective VolComparator Calculation Dates_i] in each case using the following formula:

$$\sigma(t) = \sqrt{\frac{\sum_{p=1}^P \left[\ln \left[\frac{NAV_i(t-p)}{NAV_i(t-p-1)} \right] - \frac{1}{P} \times \left(\sum_{q=1}^P \ln \left[\frac{NAV_i(t-q)}{NAV_i(t-q-1)} \right] \right) \right]^2}{P-1}} \times \sqrt{252}$$

Where:

"t" is the relevant Calculation Date which is also a respective VolComparator Calculation Date_i;

"P" is [Insert number of days];

"NAV_i (t-k)" (with k = p, q) is the [NAV_i] [Reference Price_i] of the respective Basket Component_i on the k-th Calculation Date preceding the relevant Calculation Date (t) [, which at the same time is a respective VolComparator Calculation Date_i];

"ln [x]" denotes the natural logarithm of x;

"p" and "q" each represent a natural number from one to P (respectively including).

[The "**Historic Volatility of the VolComparator_i**" is calculated on any day that is a respective VolComparator Calculation Date_i and a Calculation Date on the basis of the daily logarithmic returns of the respective VolComparator_i over the immediately preceding [Insert number of days] VolComparator Calculation Dates_i which are also Calculation Dates in each case using the following formula:

$$\sigma(t) = \sqrt{\frac{\sum_{p=1}^P \left[\ln \left[\frac{BRP_i(t-p)}{BRP_i(t-p-1)} \right] - \frac{1}{P} \times \left(\sum_{q=1}^P \ln \left[\frac{BRP_i(t-q)}{BRP_i(t-q-1)} \right] \right) \right]^2}{P-1}} \times \sqrt{252}$$

Where:

"t" is the relevant VolComparator Calculation Date_i which is also a Calculation Date;

"P" is [Insert number of days];

"BRP_i (t-k)" (with k = p, q) is the respective VolComparator Reference Price_i on the k-th VolComparator Calculation Date_i preceding the relevant VolComparator Calculation Date_i (t);

"ln [x]" denotes the natural logarithm of x.]]];

"p" and "q" each represent a natural number from one to P (respectively including)].]

["**Fund Services Provider_i**" means, with respect to the Fund_i, in each case, if any, irrespective of the actual designation of the respective function in the respective Fund Documents_i, each auditor, administrator, investment adviser, portfolio manager, custodian bank or management company of the respective fund.]

["**Fund Share_i**" means, with respect to the Fund_i, a unit or share of the Fund_i and of the class set out in § 1 of the Product and Underlying Data.]

["**Hedging Disruption**" means that under conditions which are economically substantially equivalent to those on the First Trade Date, the Issuer is not able to

- (a) close, continue or carry out transactions or acquire, exchange, hold or sell assets (respectively) which are needed in order to hedge price risks or other risks with regard to its obligations under the Securities; or
- (b) realise, reclaim or pass on proceeds from such transactions or assets;

whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)][*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].]

["**Increased Costs of Hedging**"] means that the Issuer has to pay a substantially higher amount of taxes, duties, expenditures and fees (with the exception of broker fees) compared to the First Trade Date in order to

- (a) close, continue or carry out transactions or acquire, exchange, hold or sell assets (respectively) which are needed in order to hedge price risks or other risks with regard to its obligations under the Securities; or
- (b) realise, reclaim or pass on proceeds from such transactions or assets;

whereas cost increases due to a deterioration of the credit-worthiness of the Issuer [or other reasons for which the Issuer is solely responsible] are not considered as Increased Costs of Hedging].]

["**Index Calculation Agent_i**"] means, with respect to the Basket Component_i, the Index Calculation Agent_i as specified in § 2 of the Product and Underlying Data.]

$$\text{TVL}_{\text{Initial}} = 100$$

The Level of the Target Vol Strategy on each Calculation Date_t (= TVL_t) from but excluding the Initial Strategy Calculation Date to and including the Final Strategy Calculation Date shall be determined by the Calculation Agent in accordance with the following formula:

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1 + \text{DW}_{t-1} \times \text{Return of Basket}_t + (1 - \text{DW}_{t-1}) \times \text{Rate}_{t-1} \times \text{Days}_{t-1,t} / 360)]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1 + \text{DW}_{t-1} \times \text{Return of Basket}_t + (1 - \text{DW}_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{Rate}}) \times \text{Days}_{t-1,t} / 360)]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1 - \text{Fee}_{\text{TVL}} \times \text{Days}_{t-1,t} / 360 + \text{DW}_{t-1} \times \text{Return of Basket}_t + (1 - \text{DW}_{t-1}) \times \text{Rate}_{t-1} \times \text{Days}_{t-1,t} / 360)]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1 + \text{DW}_{t-1} \times \text{Return of Basket}_t + (1 - \text{DW}_{t-1}) \times \text{Rate}_{t-1} \times \text{Days}_{t-1,t} / 360 - \text{Fee}_{\text{Strat}} \times \text{Days}_{t-1,t} / 360)]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1 - \text{Fee}_{\text{TVL}} \times \text{Days}_{t-1,t} / 360 + \text{DW}_{t-1} \times \text{Return of Basket}_t + (1 - \text{DW}_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{Rate}}) \times \text{Days}_{t-1,t} / 360)]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1 + \text{DW}_{t-1} \times \text{Return of Basket}_t + (1 - \text{DW}_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{Rate}}) \times \text{Days}_{t-1,t} / 360 - \text{Fee}_{\text{Strat}} \times \text{Days}_{t-1,t} / 360)]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1 + \text{DW}_{t-1} \times (\text{Return of Basket}_t - \text{Fee}_{\text{Basket}} \times \text{Days}_{t-1,t} / 360)]$$

$$+ (1 - DW_{t-1}) \times \text{Rate}_{t-1} \times \text{Days}_{t-1,t} / 360]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1$$

$$+ DW_{t-1} \times (\text{Return of Basket}_t - \text{Fee}_{\text{Basket}} \times \text{Days}_{t-1,t} / 360)$$

$$+ (1 - DW_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{Rate}}) \times \text{Days}_{t-1,t} / 360)]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1$$

$$- \text{Fee}_{\text{TVL}} \times \text{Days}_{t-1,t} / 360$$

$$+ DW_{t-1} \times (\text{Return of Basket}_t - \text{Fee}_{\text{Basket}} \times \text{Days}_{t-1,t} / 360)$$

$$+ (1 - DW_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{Rate}}) \times \text{Days}_{t-1,t} / 360)]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1$$

$$+ DW_{t-1} \times (\text{Return of Basket}_t - \text{Fee}_{\text{Basket}} \times \text{Days}_{t-1,t} / 360)$$

$$+ (1 - DW_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{Rate}}) \times \text{Days}_{t-1,t} / 360)$$

$$- \text{Fee}_{\text{Strat}} \times \text{Days}_{t-1,t} / 360]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1$$

$$- \text{Fee}_{\text{TVL}} \times \text{Days}_{t-1,t} / 360$$

$$+ DW_{t-1} \times (\text{Return of Basket}_t - \text{Fee}_{\text{Basket}} \times \text{Days}_{t-1,t} / 360)$$

$$+ (1 - DW_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{Rate}}) \times \text{Days}_{t-1,t} / 360)$$

$$- \text{Fee}_{\text{Strat}} \times \text{Days}_{t-1,t} / 360]$$

$$[\text{TVL}_t = \text{TVL}_{t-1} \times (1$$

$$- (\text{Fee}_{\text{TVL}} + \text{Fee}_{\text{StratFix}} + \text{Fee}_{\text{StratVariable},t-1}) \times \text{Days}_{t-1,t} / 360$$

$$+ DW_{t-1} \times \text{Return of Basket}_t$$

$$+ (1 - DW_{t-1}) \times (\text{Rate}_{t-1} - \text{Fee}_{\text{RateVariable},t-1}) \times \text{Days}_{t-1,t} / 360)]$$

This means: The Level of the Target Vol Strategy on each Calculation Date_t will be calculated by the Calculation Agent as the product of (a) the Level of the Target Vol Strategy with respect to the Calculation Date immediately preceding Calculation Date_t and (b) the sum of (i) one, (ii) the dynamically weighted Return of the Basket with respect to the Calculation Date_t and (iii) the dynamically weighted daily fraction (Act/360) of the Reference Rate. [The calculation takes into account [the Fee_{TVL}] [,] [and] [the Fee_{Basket}] [,] [and] [the Fee_{Rate}] [and] [the Fee_{Strat}] by way of deduction.]

- (3) *Dynamic Weight*: The Calculation Agent shall determine the Dynamic Weight on each Calculation Date_t (= DW_t) from and including the Initial Strategy Calculation Date as follows:

$$DW_t = \frac{\text{Target Volatility}}{\text{Basket Volatility}_t}$$

However, DW_t is not lower than the Minimum Weight and not greater than the Maximum Weight.

- (4) *Basket Volatility*: The Calculation Agent shall determine the Basket Volatility_t in respect of the Volatility Observation Period on each Calculation Date_t from and including the Initial Strategy Calculation Date in accordance with the following formula:

Basket Volatility_t

$$= \sqrt{\frac{1}{VOP - 1} \times \sum_{j=1}^{VOP} (\text{LnBasketPerformance}_{t-VOP-Offset+j} - \text{LnAverageBasketPerformance}_{t-Offset})^2} \times \sqrt{252}$$

Where:

$\text{LnBasketPerformance}_{t-VOP-Offset+j}$ means $\text{Ln}(1 + \text{Return of Basket}_{t-VOP-Offset+j})$

$\text{LnAverageBasketPerformance}_{t-Offset}$ means $\frac{1}{VOP} \times \sum_{k=1}^{VOP} \text{Ln}(1 + \text{Return of Basket}_{t-VOP-Offset+k})$

[In the case of Securities with **EURIBOR** as Reference Rate, the following applies:

"**Reference Rate**" means the offer rate (expressed as per cent. per annum) for deposits in the Reference Rate Currency for the respective Designated Maturity which appears on the Screen Page as of the Reference Rate Time, on the respective Observation Date.

Subject to the occurrence of a Reference Rate Cessation Event, if the Screen Page is not available at the Reference Rate Time, or if such offer rate does not appear on the Screen Page, the Calculation Agent will [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]

[[a)] request each of the Reference Banks in the Reference Rate Financial Centre to provide its rate at which deposits in the Reference Rate Currency are offered at the Reference

Rate Time on the respective Observation Date to prime banks in the interbank market for the respective Designated Maturity in a representative amount.

If at least two of the Reference Banks provide the Calculation Agent with such quotations, the Reference Rate will be the arithmetic mean (rounded if necessary to the nearest one thousandth of a percentage point, with 0.0005 being rounded upwards) of such quotations.

If on an Observation Date only one or none of the Reference Banks provides the Calculation Agent with such quotations, the respective Reference Rate will be the arithmetic mean (rounded as described above) of the rates quoted by major banks in the Reference Rate Financial Centre, determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith], at the Reference Rate Time, on that Observation Date for loans in the Reference Rate Currency to leading European banks for the respective Designated Maturity and in a representative amount[.];]

[or, if the Reference Rate cannot be determined pursuant to (a) above or the determination procedure pursuant to (a) does no longer reflect current market practices for derivative instruments,]

[(b)] determine the Reference Rate based on the publication of the Reference Rate by an alternative authorised distributor or the Reference Rate-Administrator.

If the Calculation Agent [until [●] [on the Observation Date]] is unable to determine the Reference Rate on the basis of the publication of the Reference Rate by an alternative authorised distributor or the Reference Rate-Administrator, the Calculation Agent will determine the Reference Rate [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]. In doing so, it may in particular

- (i) use an alternative rate for the Reference Rate formally recommended by the Reference Rate-Administrator or, alternatively, by the supervisor of the Reference Rate [or the central bank for the [Specified Currency] [Reference Rate Currency]], or in the absence thereof
- (ii) use the alternative rate for the Reference Rate implemented by a futures exchange or alternatively a central counterparty for the Reference Rate, provided that it is sufficiently representative of the Reference Rate; or in the absence thereof
- (iii) use the average value of the last Reference Rates published at the Reference Rate Time of the previous [five] [*insert different number*] [Banking Days] [*other*] prior to the respective Observation Date].]

[In the case of Securities with a CMS-Rate as Reference Rate, the following applies:

"**Reference Rate**" means the rate (expressed as a percentage per annum) for swap transactions in the Reference Rate Currency for the corresponding Designated Maturity displayed on the [respective] Screen Page at the Reference Rate Time (local time of the Reference Rate Financial Centre) on the relevant Observation Date. If either the [respective] Screen Page is not available or no such swap rates are displayed at the time specified, the Calculation Agent will ask each of the Reference Banks to quote the mean annual swap rates at approximately the Reference Rate Time on the relevant Observation Date. If three or more such quotations are provided, the Reference Rate for the respective Observation Date shall be the arithmetic mean (rounded, if necessary, to the nearest one hundred thousandth of a percentage point, with 0.000005 rounded upwards) of those quotations, with the highest (or if two or more are the same, one of the highest) and the lowest (or if two or more are the same, one of the lowest) having been

eliminated. If fewer than three quotations are provided, the Calculation Agent will specify the Reference Rate [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*].]

["Reference Rate-Administrator" means the administrator of the Reference Rate as registered in a register pursuant to Article 36 of the Regulation (EU) 2016/1011, as amended from time to time. The Reference Rate-Administrator is indicated in § 2 of the Product and Underlying Data.]

["Reference Rate Cessation Event" means, with respect to the Reference Rate, each of the following events:

- (a) it becomes unlawful for the Issuer to use the Reference Rate as reference rate for the Securities;
- (b) the Reference Rate-Administrator ceases to calculate and publish the Reference Rate on a permanent basis or for an indefinite period of time;
- (c) the Reference Rate-Administrator becomes illiquid or an insolvency, bankruptcy, restructuring or similar procedure (regarding the administrator) has been set up by the Reference Rate-Administrator or the relevant supervisory authority;
- (d) the Reference Rate otherwise ceases to exist; or
- (e) the relevant central bank or a supervisory authority determines and publishes a statement that the relevant central bank or supervisory authority has determined that such Reference Rate no longer represents the underlying market and economic reality that such Reference Rate is intended to measure and that representativeness will not be restored [**("no longer representative")**],

whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*].]

["Reference Rate Conversion Event" means, with respect to the Reference Rate, [each of] the following event[s]:

- [(a)] no suitable Replacement Reference Rate (as specified in § [9] [10] (1) of the Special Conditions) is available; [or]
- [(b)] an adjustment pursuant to § [9] [10] (2) [or (3)] of the Special Conditions is not possible or unreasonable for the Issuer and/or the Security Holders;]

whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)*] [*in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith*].]

["Reference Rate Currency" means, with respect to the Reference Rate, the Reference Rate Currency as specified in § 2 of the Product and Underlying Data.]

investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark-Regulation**") as specified in § 2 of the Product and Underlying Data.]

["**Registered Reference Rate-Administrator**" means that the Reference Rate is administered by an administrator who is registered in a register pursuant to Article 36 of the Regulation (EU) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds and amending Directives 2008/48/EC and 2014/17/EU and Regulation (EU) No 596/2014 (the "**Benchmark-Regulation**") as specified in § 2 of the Product and Underlying Data.]

"**Relevant Exchange**" means, with respect to the Financial Index, the exchange on which the components of the Financial Index are traded; such exchange shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] [by notice pursuant to § 6 of the General Conditions] in accordance with their liquidity.

In the case of a material change in the market conditions at the Relevant Exchange, such as a final discontinuation of the quotation of the [components of the] Financial Index at the Relevant Exchange and the quotation at a different stock exchange or a considerably restricted liquidity, the Relevant Exchange shall be substituted as the Relevant Exchange by another exchange that offers satisfactorily liquid trading in the Financial Index [or, respectively, its components] (the "**Replacement Exchange**"); such exchange shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]. In the event of such substitution, any reference to the Relevant Exchange in these Terms and Conditions shall be deemed to refer to the Replacement Exchange.

["**Related Bond**" means, with respect to the Inflation Index, the Related Bond as specified in § 2 of the Product and Underlying Data.]

["**Screen Page**" means, with respect to the Reference Rate, the Screen Page and, if applicable, the corresponding heading as indicated in § 2 of the Product and Underlying Data. Should this page be replaced or the respective service cease to be available, the Calculation Agent will, [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith], determine another Screen Page displaying the Reference Rate. Such new Screen Page shall be notified pursuant to § 6 of the General Conditions.]

["**Security Holder**" means the holder of a Security.]

"**Settlement Cycle**" means, with respect to the Financial Index, the period of Clearance System Business Days following a transaction on the Relevant Exchange in [the components of the] Financial Index, during which period settlement will customarily take place according to the rules of [such Relevant Exchange] [that Clearance System].

["**Website[s] of the Issuer**"] means the Website[s] of the Issuer as specified in § 1 of the Product and Underlying Data.]

§ 2

Interest, Additional Conditional Amount

- (1) *Interest*: The Securities do not bear interest.
- (2) *Inflation-linked Additional Conditional Amount (m)*: If, with respect to an Additional Conditional Amount Observation Date (m), [no Additional Conditional Amount Payment Event (*Coupon*) (m) has occurred and if] an Additional Conditional Amount Payment Event (*Cliquet*) (m) has occurred, the Additional Conditional Amount (*Cliquet*) (m) will be paid on the respective Additional Conditional Amount Payment Date (m) pursuant to the provisions of § 6 of the Special Conditions.

The Additional Conditional Amount (*Cliquet*) (m) corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent according to the following formula:

Additional Conditional Amount (*Cliquet*) (m) = Calculation Amount x Participation Factor (m) x Performance of the Inflation Index (m)

Otherwise, no Additional Conditional Amount (*Cliquet*) (m) will be paid.

[In the case of Securities with a **Maximum Additional Conditional Amount (m)**, the following applies:

However, the Additional Conditional Amount (*Cliquet*) (m) is not greater than the relevant Maximum Additional Conditional Amount (m).]

[In the case of Securities with a **Minimum Additional Conditional Amount (m)**, the following applies:

However, the Additional Conditional Amount (*Cliquet*) (m) is not lower than the relevant Minimum Additional Conditional Amount (m).]

- (3) [*Index*] [*Reference Rate*]-linked *Additional Conditional Amount (m)*: If, with respect to an Additional Conditional Amount Observation Date (m), an Additional Conditional Amount Payment Event (*Coupon*) (m) has occurred, the respective Additional Conditional Amount (*Coupon*) (m) will be paid on the respective Additional Conditional Amount Payment Date (m) pursuant to the provisions of § 6 of the Special Conditions.

Otherwise, no Additional Conditional Amount (*Coupon*) (m) will be paid on the respective Additional Conditional Amount Payment Date (m).]

[In the case of Securities with an **Additional Unconditional Amount**, the following applies:

- ([•]) *Additional Unconditional Amount*: The respective Additional Unconditional Amount (l) will be paid moreover on the [respective] Additional Unconditional Amount Payment Date (l) pursuant to the provisions of § 6 of the Special Conditions.]

§ 3

Redemption

Redemption: The Securities shall be redeemed [upon automatic exercise on the Exercise Date] by payment of the Redemption Amount on the Final Payment Date pursuant to the provisions of § 6 of the Special Conditions.

[The Securities shall be deemed automatically exercised on the Exercise Date.]

§ 4

Redemption Amount

[In the case of *Hybrid Protection Securities* the following applies:

Redemption Amount: The Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Performance of the Financial Index (final))

However, the Redemption Amount is not lower than the Minimum Amount [and not greater than the Maximum Amount].]

[In the case of *Hybrid Cash Collect Protection Securities* the following applies:

Redemption Amount: The Redemption Amount corresponds to the Minimum Amount.]

[In the case of *Hybrid Protection Barrier Securities* the following applies:

Redemption Amount: The Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:

- If no Barrier Event has occurred, the Redemption Amount is equal to the Calculation Amount.

- If a Barrier Event has occurred, the Redemption Amount corresponds to an amount in the Specified Currency calculated or specified by the Calculation Agent as follows:

Redemption Amount = Calculation Amount x (Floor Level + Final Participation Factor x Performance of the Financial Index (final))

However, the Redemption Amount is not lower than the Minimum Amount [and not greater than the Maximum Amount].]

[Special Conditions that apply to all product types:

§ 5

[In the case of Securities with a Conversion Right of the Issuer, the following applies:

[Issuer's Regular Call Right][,] Issuer's Conversion Right

[In the case of Securities where the Issuer has a Regular Call Right, the following applies:

- [(1)] *Issuer's Regular Call Right:* The Issuer may at each Call Date call the Securities completely but not partially (the "**Regular Call Right**") and redeem the Securities by payment of the Call Redemption Amount [in the Specified Currency].

The Issuer shall give notice of such call at least [*insert notice period*] prior to the relevant Call Date pursuant to § 6 of the General Conditions. Such notice shall be irrevocable and shall specify the relevant Call Date.]

- [(2)] *Issuer's Conversion Right:* Upon the occurrence of a Conversion Event the Securities shall be redeemed at the Settlement Amount on the Final Payment Date.

The "**Settlement Amount**" shall be the market value of the Securities, with accrued interest for the period until the Final Payment Date at the market rate of interest being traded at such time for liabilities of the Issuer with the same remaining term as the Securities within ten Banking Days following the occurrence of the Conversion Event; it shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]. The fair market value, as calculated by the Calculation Agent, is calculated based on the redemption profile of the Securities which has to be adjusted taking into consideration the following parameters as of the [[*tenth*] [*insert number of days*] Banking Day before] [the day when] the conversion becomes effective: the price of the [Underlying][and][Basket Component[s]], the remaining time to maturity, the volatility, the dividends (if applicable), the current interest rate as well as the counterparty risk and any other relevant market parameter that can influence the value of the Securities. However, the Settlement Amount shall not be less than the Minimum Amount. If it is not possible to determine the market value of the Securities, the Settlement Amount corresponds to the Minimum Amount. The Settlement Amount shall be notified pursuant to § 6 of the General Conditions. [The application of §§ 313, 314 BGB remains reserved.]

[The right for payment of any [Additional Conditional Amount (m)] [and] [Additional Unconditional Amount (l)] ceases to exist in relation to all [Additional Conditional Amount Payment Dates (m)] [and] [Additional Unconditional Amount Payment Dates (l)] following the occurrence of a Conversion Event.]

The Settlement Amount will be paid pursuant to the provisions of § 6 of the Special Conditions.]

[In the case of Securities without an Issuer's Conversion Right, the following applies:

(intentionally omitted)

§ 6

Payments

[In the case of Securities where the Specified Currency is the Euro, the following applies:

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the nearest EUR 0.01, with EUR 0.005 being rounded upwards.]

[In the case of Securities where the Specified Currency is not the Euro, the following applies:

- (1) *Rounding:* The amounts payable under these Terms and Conditions shall be rounded up or down to the smallest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.]

[(2) *Business day convention*: If a Payment Date is not a Banking Day then the [Following] [Modified Following] [Preceding] Business Day Convention shall apply. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.]

[(●)] *Manner of payment, discharge*: All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.

[In the case of Securities governed by German law, the following shall apply:

[(●)] *Interest of default*: If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).]

[In the case of Securities governed by Italian law, the following shall apply:

[(●)] *Interest of default*: If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the legal interest rate ('*Saggio degli Interessi legali*'), pursuant to Section 1284 CC, without prejudice to any other mandatory provisions under Italian law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).]

[In the case of Securities with a Temporary Global Note which will be exchangeable for a Permanent Global Note, the following applies:

[(●)] Payments of Interest Amounts on the Securities shall be made only upon delivery of the Non-U.S. Beneficial Ownership Certificates (as described in § 1 of the General Conditions) by the relevant participants to the Clearing System.]

[In the case of Securities where a Market Disruption Event is specified in the relevant Final Terms, the following applies:

§ 7

Market Disruptions

(1) *Postponement*: Notwithstanding the provisions of § 8 of the Special Conditions, if[, with respect to an Underlying] a Market Disruption Event occurs on an Observation Date [(m)], the respective Observation Date [(m)] will be postponed [for [all Basket Components] [the respective Basket Component,] to the next following [Calculation Date] [Banking Day that is a Calculation Date [for the [respective] [Basket Component,] [Underlying]]] on which the Market Disruption Event no longer exists. [Insert in the case of Securities with an averaging observation: If, as a result of such a postponement, several Observation Dates fall on the same day, then each of those Observation Dates shall be deemed to be an Observation Date for averaging purposes. [The FX Observation Date (final) will be postponed accordingly.]]

[If a FX Market Disruption Event occurs on a FX Observation Date, the respective FX Observation Date will be postponed to the next following FX Calculation Date on which the FX Market Disruption Event no longer exists.]

Any Payment Date relating to such Observation Date [(m)] [or FX Observation Date, as the case may be] shall be postponed if applicable. [Interest shall not be payable due to such postponement.]

[(2) *Omission*: Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on [a Calculation Date] [a Strategy Calculation Date] that is not an Observation Date, the Level of the [Target Vol] Strategy, the Dynamic Weight and the Return [of Basket] [of the Underlying [A]] [and] [of the Underlying B] shall not be calculated with

respect to such date and such date shall not be considered in the calculation of the [Underlying Volatility][Basket Volatility].]

- [(●)] *Discretionary valuation:* Should the Market Disruption Event [on the [(●)] Calculation Date before the]] [last trading day] [(●)] of the Underlying on the Reference Market] continue for more than [Insert number of Banking Days] consecutive Banking Days, the Calculation Agent shall determine [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] the respective [Reference Price_i][FX_i] required for the calculations or, respectively, specifications described in these Terms and Conditions. Such [Reference Price_i][FX_i] shall be determined in accordance with prevailing market conditions at [Insert time and financial centre] [on this [Insert number of following Banking Day] Banking Day [or, if earlier,] [on the [(●)] Calculation Date before the]] [last trading day] [(●)] of the Underlying on the Reference Market] [*insert other date*]].

[In the case of a Share, an Index (other than an Inflation Index) or a Commodity as Underlying or Basket Component, the following applies:

If within these [Insert number of Banking Days] Banking Days traded Underlying Linked Derivatives [of the respective Basket Component_i] expire and are settled on the [respective] Determining Futures Exchange_i, the settlement price established by the [respective] Determining Futures Exchange_i for the there traded Underlying Linked Derivatives [of the respective Basket Component_i] will be taken into account in order to conduct the calculations or, respectively, specifications described in these Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives [of the respective Basket Component_i] is the respective Observation Date.]

[Should the FX Market Disruption Event continue for more than [Insert number of Banking Days] consecutive Banking Days, the Calculation Agent shall determine [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] the respective FX. The FX required for the calculations or, respectively, specifications described in the Terms and Conditions shall be determined in accordance with prevailing market conditions at [Insert time and financial centre] on this [Insert number of following Banking Day] Banking Day.]

[In the case of Securities where no Market Disruption Event is specified in the relevant Final Terms, the following applies:

(intentionally omitted)

[In the case of Securities linked to a Share, an Index, a Fund Share, a Commodity, an Exchange Traded Commodity, a Currency Exchange Rate or a Debt Security or in the case of Compo Securities, the following applies:

§ 8

[Adjustments, Type of Adjustment,] [New Index Sponsor [and New Index Calculation Agent,]
[Replacement Reference Market,] [Replacement Reference Price,] [New ETC Issuer,]
[Replacement of the [Underlying] [Basket Component_i],] [Replacement Specification,] [Reversal
of Adjustments,] Notifications[, Authorisation][, Legal Provisions]

[In the case of Securities linked to a Share, an Index, a Fund Share, a Currency Exchange Rate or a Debt Security or in the case of Compo Securities, the following applies:

- (1) *Adjustments:* If[, with respect to [an Underlying] [a Basket Component_i],] an Adjustment Event occurs the Calculation Agent is authorised to adjust these Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion

(§ 315 et seq. BGB)] *[in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith]*.

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 *[in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)]* *[in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith]*, taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent *[in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)]* *[in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith]*.

[In the case of Securities linked to a Share, Debt Security or a ETF (provided that a Determining Futures Exchanges applies), the following applies:

[In addition, with respect to a [share] [or] [ETF] as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data), the following applies:]

Within the context of an Adjustment the Calculation Agent proceeds as follows:

- (a) *Adjustment in accordance with the Determining Futures Exchange:* In general, the Calculation Agent will undertake the Adjustment in terms of content and timing in a way that to the greatest extent matches the designated Adjustment by the [respective] Determining Futures Exchange_[i] regarding the [respective] Underlying Linked Derivatives [of the respective Basket Component_i]. The Calculation Agent is, however, also authorised to make an Adjustment if there is no adjustment made to the [respective] Underlying Linked Derivatives [of the respective Basket Component_i] by the [respective] Determining Futures Exchange_[i]. In this case the Calculation Agent will make the Adjustment, if any, in accordance with the rulebook of the [respective] Determining Futures Exchange_[i] with respect to the [respective] Underlying Linked Derivatives [of the respective Basket Component_i].
- (b) *Deviating Adjustments:* In particular in the following cases the Calculation Agent is authorised to make Adjustments deviating from the adjustments made by the [respective] Determining Futures Exchange_[i] in order to take into account the Adjustment Goal in an appropriate manner:
 - (i) The Adjustment envisaged by the [respective] Determining Futures Exchange_[i] regarding the [respective] Underlying Linked Derivatives [of the respective Basket Component_i] is impossible for the Issuer or the Calculation Agent or technically not feasible within reasonable economic efforts; whether this is the case shall be determined by the Calculation Agent *[in the case of Securities governed by German law, insert: in its reasonable discretion (§ 315 et seq. BGB)]* *[in the case of Securities governed by Italian law, insert: acting in accordance with relevant market practice and in good faith]*.
 - (ii) The adjustment envisaged by the [respective] Determining Futures Exchange_[i] regarding the [respective] Underlying Linked Derivatives [of the respective Basket Component_i] is unreasonable for Securities Holders, the Calculation Agent or the Issuer (e.g. because the Issuer would have to breach internal trading restrictions in order to hedge its payment obligations under the Securities); whether this is the case shall be determined by the Calculation

Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

- (iii) The adjustment envisaged by the [respective] Determining Futures Exchange_[i] regarding the [respective] Underlying Linked Derivatives [of the respective Basket Component_i] is not suitable to meet the Adjustment Goal; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].]

(2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may undertake in particular the following measure[s] in accordance with paragraph (1) above:

[In the case of Securities linked to a Share, the following applies:

[(A) With respect to a share as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data), the following applies:]

- (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the [Underlying] [respective Basket Component_i] or a third party, that impacts the computed value of the [Underlying] [respective Basket Component_i] not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).
- (b) *Replacement of the [Underlying] [Basket Component]:* In case of a take-over or a merger or similar measure with respect to the [Underlying] [respective Basket Component_i] the Calculation Agent can replace the [Underlying] [respective Basket Component_i] with the share of the successor of the issuer of the original [Underlying] [respective Basket Component_i] or with another share of – inter alia – comparable liquidity and industry affiliation as the original [Underlying] [respective Basket Component_i] (the "**Replacement [Underlying] [Basket Component]**"). Furthermore, until completion of the take-over or merger (excluding), the Calculation Agent may determine that either the shares submitted for sale or submitted for exchange are to be the Replacement [Underlying] [Basket Component].

In case of a split or a similar measure with respect to the [Underlying] [respective Basket Component_i] the Calculation Agent may determine (i) a basket of shares and/or securities or (ii) a basket of shares and/or securities and a cash component to be the Replacement [Underlying] [Basket Component]. The Calculation Agent may exclusively select, in deviation from the Adjustment made by the [respective] Determining Futures Exchange_[i], the share with the highest market capitalisation or another share from the basket of shares determined by the [respective] Determining Futures Exchange_[i] with – inter alia – comparable liquidity and industry affiliation as the original [Underlying] [Basket Component_i] to be the Replacement [Underlying] [Basket Component]. In this case the Calculation Agent will, if necessary, determine an adjustment factor by itself to meet the Adjustment Goal and will undertake an Adjustment according to paragraph (1) above.

If the Calculation Agent designates a Replacement [Underlying] [Basket Component], from the Adjustment Date on (as defined in paragraph ([●]) below), every reference to the [respective] [Underlying] [Basket Component] in these Terms and Conditions shall be a reference to the Replacement [Underlying] [Basket Component], unless the context requires otherwise.]

[In the case of Securities linked to a **Financial Index**, the following applies:

[(●)] With respect to [[a financial index] [or] [a fund index] as [Underlying] [Basket Component];] (see § 2 of the Product and Underlying Data) [the Financial Index], the following applies:]

Replacement of the [Underlying] [Basket Component];: In the case of an Index Replacement Event, the Calculation Agent may replace the [respective] [Underlying] [Basket Component] with a Replacement [Underlying] [Basket Component] and if necessary redefine the Adjustable Product Data. As a "**Replacement [Underlying] [Basket Component]**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the index (e.g. dividends) and, if applicable, fees and costs included in the index. If the Calculation Agent designates a Replacement [Underlying] [Basket Component], from the Adjustment Date on (as defined in paragraph ([●]) below), every reference to [respective] [Underlying] [Basket Component] in these Terms and Conditions shall be a reference to the Replacement [Underlying] [Basket Component], unless the context requires otherwise.]

[In the case of Securities linked to an **Inflation Index**, the following applies:

[(●)] With respect to the Inflation Index, the following applies:]

Replacement of the Underlying: In the case of an Inflation Index Replacement Event, the Calculation Agent may replace the Inflation Index with a Replacement Inflation Index and if necessary redefine the Adjustable Product and Underlying Data. As a "**Replacement Inflation Index**" another index can be considered which is comparable to the original index with respect to its methodology, in particular an Inflation Index, which will be specified by the respective Index Sponsor_[Inflation] as substitute. If the Calculation Agent designates a Replacement Inflation Index, from the Adjustment Date on (as defined in paragraph ([●]) below), every reference to Inflation Index in these Terms and Conditions shall be a reference to the Replacement Inflation Index, unless the context requires otherwise.]

[In the case of Securities linked to a **Fund Share**, the following applies:

[(●)] With respect to a fund share as [Underlying] [Basket Component];] (see § 2 of the Product and Underlying Data), the following applies:]

- (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a split or a merger of Fund Shares).
- (b) *Successor Fund:* If the Fund is replaced by a Successor Fund, all calculations or determinations described in these Terms and Conditions shall be made on the basis of the successor fund. In such case, any reference in these Terms and Conditions to the Fund shall be deemed to be a reference to the Successor Fund. If necessary, the Calculation Agent is also entitled to adjust the Product and Underlying Data against the background of the changed [Underlying] [Basket Component] and the associated economic impact.]

[In the case of Securities linked to a **Currency Exchange Rate** or in the case of **Compo Securities** the following applies:

- [(●)] With respect to a [(currency exchange rate)] as [(Underlying)] [(Basket Component_i)] (see § 2 of the Product and Underlying Data) [(FX Exchange Rate_i)], the following applies:]
- (a) *Replacement of [the] [a] FX Exchange Rate:* The Calculation Agent may, in the event of a currency reform or currency conversion with respect to [the] [a] [respective] FX Exchange Rate_[i], replace the [respective] FX Exchange Rate_[i] by a Replacement Exchange Rate and, if necessary, redefine the Product and Underlying Data. "**Replacement Exchange Rate**" can be another exchange rate which is composed of the currency of the original FX Exchange Rate_[i] not affected by the Adjustment Event and the new or amended currency of the country, region or jurisdiction affected by the currency reform or currency conversion in its function as legal means of payment and/or official currency unit. The Calculation Agent may, if available, take into account an [officially published] conversion rate. If the Calculation Agent determines a Replacement Exchange Rate with regard to the [respective] FX Exchange Rate_[i], any reference in these Terms and Conditions to the [respective] FX Exchange Rate_[i] shall be deemed to be a reference to the Replacement Exchange Rate as of the Adjustment Date (as defined in paragraph [(●)] below), unless the context requires otherwise.
 - (b) *Replacement of FX:* In the event that the method of determination and/or publication of the fixing of [the] [a] [respective] FX Exchange Rate_[i], by the [respective] Fixing Sponsor_[i] is changed in a manner that is not merely insignificant, the Calculation Agent may replace the [respective] FX_[i] by another method for the fixing and publication of the [respective] FX Exchange Rate_[i] (the "**Replacement FX**") and, if necessary, redefine the Product and Underlying Data. "**Replacement FX**" may be, in particular, a fixing for the [respective] FX Exchange Rate_[i] officially published by a central bank or any other determination and publication of the [respective] FX Exchange Rate_[i] by an established provider of market data. If the Calculation Agent determines a Replacement FX, any reference in these Terms and Conditions to the replaced FX shall be deemed to be a reference to the Replacement FX as of the Adjustment Date (as defined in paragraph (4) below), unless the context requires otherwise.
 - (c) *Replacement of the Fixing Sponsor:* In the event that [the] [a] [respective] FX Exchange Rate_[i] is no longer determined and published by the [respective] Fixing Sponsor_[i], the Calculation Agent has the right to determine the calculations or determinations described in these Terms and Conditions on the basis of the determinations and publications of another person, company or institution (the "**New Fixing Sponsor**"). If necessary, the Calculation Agent may also determine a Replacement FX in accordance with subparagraph (b) above. If the Calculation Agent determines a New Fixing Sponsor, then, as of the Adjustment Date (as defined in paragraph (4) below), any reference in these Terms and Conditions to the replaced Fixing Sponsor_[i] shall be deemed to be a reference to the New Fixing Sponsor, unless the context indicates otherwise.]]

[In the case of Securities linked to a **Debt Security**, the following applies:

- [(●)] With respect to a debt security as [(Underlying)] [(Basket Component_i)] (see § 2 of the Product and Underlying Data), the following applies:]
- (a) *Adjustment of Adjustable Product Data:* The Calculation Agent may redefine the Adjustable Product Data based on an adjustment factor (e.g. in case of a

capital increase against cash contribution, issue of securities with options or conversion rights in shares, a capital increase from company funds, a distribution of special dividends or other measures undertaken by the company, that issued the [Underlying] [respective Basket Component_i] or a third party, that impacts the computed value of the [Underlying] [respective Basket Component_i] not only in an insignificant way, based on a change of a legal or economic situation, in particular a change of the fixed assets or equity of the company).

- (b) *Replacement of the [Underlying] [Basket Component_i]*: In the case of a Debt Security Replacement Event, the Calculation Agent may replace the [respective] [Underlying] [Basket Component_i] with a Replacement [Underlying] [Basket Component] and if necessary redefine the Adjustable Product Data. As a "**Replacement [Underlying] [Basket Component]**" another debt security can be considered which is comparable to the original debt security (in particular with respect to the issuer sector, ranking, term, rating, coupon type, redemption type, issuer country, currency or yield-to-maturity). If the Calculation Agent designates a Replacement [Underlying] [Basket Component], from the Adjustment Date on (as defined in paragraph ([●]) below, every reference to [respective] [Underlying] [Basket Component_i] in these Terms and Conditions shall be a reference to the Replacement [Underlying] [Basket Component], unless the context requires otherwise.]

If the Calculation Agent designates a Replacement [Underlying] [Basket Component], from the Adjustment Date on (as defined in paragraph ([●]) below, every reference to [respective] [Underlying] [Basket Component_i] in these Terms and Conditions shall be a reference to the Replacement [Underlying] [Basket Component], unless the context requires otherwise.]

[In the case of Securities linked to an **Index**, the following applies:

- (3) *New Index Sponsor [and New Index Calculation Agent]*: If [the Underlying] [a Basket Component_i] is no longer determined by the Index Sponsor_[i] but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the [Underlying] [respective Basket Component_i] as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor_[i] in these Terms and Conditions shall be deemed to refer to the New Index Sponsor.

[If the [Underlying] [respective Basket Component_i] is no longer calculated by the Index Calculation Agent_[i] but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in these Terms and Conditions shall occur on the basis of the [Underlying] [respective Basket Component_i] as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent_[i] in these Terms and Conditions shall be deemed to refer to the New Index Calculation Agent.]]

[In the case of Securities linked to a **Commodity**, the following applies:

- ([●]) *Replacement Reference Market*: If[, with respect to a Basket Component_i,] a Reference Market Replacement Event occurs, the Calculation Agent is authorised to replace the [respective] Reference Market_[i] with a Replacement Reference Market. As "**Replacement Reference Market**" another market can be considered on which there is usually sufficient liquid trading in the commodity which forms the [Underlying] [respective Basket Component_i]; whether a replacement is to be made and which Replacement Reference Market is to be used shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

If the Calculation Agent designates a Replacement Reference Market, from the Adjustment Date on (as defined in paragraph ([●]) below), every reference in these Terms and Conditions to [respective] Reference Market_[i] shall be a reference to the Replacement Reference Market, unless the context requires otherwise.

- ([●]) *Replacement Reference Price:* If[, with respect to a Basket Component_i,] a Reference Price Replacement Event occurs, the Calculation Agent is authorised to replace the [respective] Reference Price_[i] with another official reference price published by the [respective] Reference Market_[i] (the "**Replacement Reference Price**") and, if necessary, redefine the Adjustable Product Data of these Securities; whether a replacement is to be made and which Replacement Reference Price is to be used shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]. If the Calculation Agent designates a Replacement Reference Price, from the Adjustment Date on (as defined in paragraph ([●]) below), every reference in these Terms and Conditions to Reference Price_[i] shall be a reference to the Replacement Reference Price, unless the context requires otherwise.]

[In the case of Securities linked to a **Exchange Traded Commodity**, the following applies:

- ([●]) *New ETC Issuer:* If the ETC Issuer as obligor of the [Underlying] [respective Basket Component_i] is replaced, all of the calculations or determinations set out under these Terms and Conditions will be carried out on the basis of the [Underlying] [respective Basket Component_i] as determined by the new ETC Issuer. In this case from the replacement onwards, each reference in these Terms and Conditions to the ETC Issuer shall be deemed to refer to the new ETC Issuer.]

[In the case of Securities linked to a **Fund Share**, the following applies:

- ([●]) *Replacement of the [Underlying] [Basket Component_i]:* If[, with respect to a Basket Component_i,] a Fund Replacement Event occurs, the Calculation Agent may replace the [Underlying] [respective Basket Component_i] with a Replacement [Underlying] [Basket Component] and if necessary redefine the Adjustable Product Data based on the adjusted [Underlying] [Basket Component_i] and the associated economic effects. As a "**Replacement [Underlying] [Basket Component]**" another fund (or the corresponding shares) or fund share can be considered which is comparable to the original [Underlying] [Basket Component_i] or the corresponding Funds in terms of its risk profile, investment objectives, investment strategy, currency of the [respective] Fund Shares and calculation frequency of the [NAV] [Reference Price]; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith]. The economic characteristics of the Securities shall remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer. The Calculation Agent will only make a replacement if the replacement is reasonable for the Security Holders as well as the Issuer; whether this is the case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

If the Calculation Agent designates a Replacement [Underlying] [Basket Component], from the Adjustment Date on (as defined in paragraph ([●]) below), every reference to the [Underlying] [respective Basket Component_i] in these Terms and Conditions shall be a reference to the Replacement [Underlying] [Basket Component], unless the context requires otherwise.]

- ([●]) *Replacement Specification:* If a published [price] [,] [or] [NAV] [or] [rate] of [the] [an] [a] [Underlying] [Basket Component_i] [Financial Index] [or] [FX Exchange Rate] as required pursuant to these Terms and Conditions is subsequently corrected [the following applies:]

[In the case of Securities linked to a **Share**, the following applies:

[(A) With respect to a share as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data), the following applies:]

[If] [and] the correction (the "**Corrected Value**") will be published by the [respective] Relevant Exchange_[i] after the original publication, but still within one Settlement Cycle_[i], then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.]

[In the case of Securities linked to a **Financial Index**, the following applies:]

[(•) With respect to [[a financial index] [or] [a fund index] as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data)] [the Financial Index], the following applies:]

[If] [and] the correction (the "**Corrected Value**") will be published by the [respective] Index Sponsor or Index Calculation Agent, as the case may be, after the original publication, [but still within one Settlement Cycle_[i],] [but before the Final Payment Date], then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**"). [However, if the Corrected Value is notified to the Calculation Agent less than two Banking Days before the day on which a payment shall occur that is partially or entirely determined by reference to the value of the [respective] [Underlying] [Basket Component_i] [Financial Index], then the relevant value is not specified again.]]

[In the case of Securities linked to an **Inflation Index**, the following applies:]

[(•) With respect to the Inflation Index, the following applies:]

[If] [and] the correction (the "**Corrected Value**") will be published by the Index Sponsor_[Inflation] after the original publication then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify the respective value by using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions.

[However, if the Corrected Value is notified to the Calculation Agent less than [two] [•] Banking Days before the day on which a payment shall occur that is partially or entirely determined by reference to the value of the Inflation Index, then the relevant value is not specified again.]]

[In the case of Securities linked to a **Fund Share**, the following applies:]

[(•) With respect to a fund share as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data), the following applies:]

[If] [and] the correction (the "**Corrected Value**") is published by the [respective] [Management Company_[i]] [Relevant Exchange_[i]] after the original publication but [still within a Settlement Cycle_[i]] [prior to the Final Payment Date], then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall specify the relevant value again using the Corrected Value (the "**Replacement Specification**") and publish it pursuant to § 6 of the General Conditions. However, if the Calculation Agent is informed of the Corrected Value less than two Banking Days prior to the date on which a payment whose amount is determined wholly or partly with reference to this price of the [Underlying] [respective Basket Component_i] is to be made, then the relevant value will not be specified again.]

[In the case of Securities linked to a Commodity, the following applies:]

[(•)] With respect to a commodity as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data), the following applies:]

[If] [and] the correction (the "**Corrected Value**") is published by the [respective] Reference Market_i] within [30] [90] [•] calendar days after the original publishing[, but before the Final Payment Date], the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value pursuant to § 6 of the General Conditions by using the Corrected Value (the "**Replacement Specification**").]

[In the case of Securities linked to a Exchange Traded Commodity, the following applies:]

[(•)] With respect to an exchange traded commodity as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data), the following applies:]

[If] [and] the correction (the "**Corrected Value**") will be published by the Relevant Exchange_i] after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value pursuant to § 6 of the General Conditions by using the Corrected Value (the "**Replacement Specification**"). [However, if the Calculation Agent is informed of the Corrected Value less than two Banking Days prior to the date on which a payment is to be made whose amount is determined wholly or partly with reference to this price of the [Underlying] [respective Basket Component_i], then the relevant value will not be specified again.]]

[In the case of Securities linked to a Currency Exchange Rate, the following applies:]

[(•)] With respect to a currency exchange rate as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data), the following applies:]

[If] [and] the correction (the "**Corrected Value**") will be published by the [respective] Fixing Sponsor_i] after the original publication but prior to the Redemption Date, the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again determine the respective value by using the Corrected Value (the "**Replacement Specification**") and notify the Issuer pursuant to § 6 of the General Conditions. [However, if the Corrected Value is notified to the Calculation Agent less than [two] [•] Banking Days before the day on which a payment shall occur that is partially or entirely determined by reference to the rate of the [respective] FX Exchange Rate_i], then the relevant value is not specified again.]]

[In the case of Securities linked to a Debt Security, the following applies:]

[(•)] With respect to a debt security as [Underlying] [Basket Component_i] (see § 2 of the Product and Underlying Data), the following applies:]

[If] [and] the correction (the "**Corrected Value**") will be published by the Relevant Exchange_i] after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish the respective value pursuant to § 6 of the General Conditions by using the Corrected Value (the "**Replacement Specification**"). [However, if the Calculation Agent is informed of the Corrected Value less than two Banking Days prior to the date on which a payment is to be made whose amount is determined wholly or partly with reference to this price of the [Underlying] [respective Basket Component_i], then the relevant value will not be specified again.]]

[(•)] *Reversal of Adjustment:* If an Adjustment Event that has occurred subsequently ceases to exist (for example, if the effectiveness of a merger subsequently ceases to exist due to the agreement on the merger or a sovereign prohibition or lack of approval), the Calculation Agent shall be

entitled to reverse a previously made Adjustment pursuant to this § 8 if this corresponds to the Adjustment Goal.]

- [(●)] *Notifications*[, *Authorisation*]: All adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.

[Further, the Issuer shall be deemed to be authorised vis-à-vis the Registrar within the meaning of §§ 5 paragraph 2 no. 3, 14 paragraph 1 no. 2 lit. c) eWpG to issue instructions, in order to authorise the necessary amendments to the deposited Terms and Conditions and to the registration particulars set-out in § 13 paragraph 1 no. 1 and 4 eWpG.]

[In the case of Securities governed by German law, insert:

- [(●)] *Legal Provisions*: The application of §§ 313, 314 BGB remains reserved.]]

[In the case of Securities linked to a Reference Rate, the following applies:

(intentionally omitted)]

[§ 9

Replacement Reference Rate, Adjustments, Interest Rate Adjustment Factor or Spread, Notifications[, Authorisation][, Legal Provisions]

[[1)] *Replacement Reference Rate*: Upon the occurrence of a Reference Rate Cessation Event [in relation to an Underlying] on or preceding an [Interest Determination Date] [Observation Date], the Reference Rate will be replaced by the Calculation Agent with an economically suitable reference rate (the "**Replacement Reference Rate**"). The Reference Rate should be replaced by [the Nominated Replacement Reference Rate] [or, if as of the relevant point in time the Nominated Replacement Reference Rate is no longer available, ceased to exist or may not be used under the Securities,] [a Replacement Reference Rate] that pursuant to the following sequence of adjustment methods (each an "**Adjustment Method Level**")

- (a) has been publicly and permanently declared as the replacement for the original Reference Rate by the Reference Rate-Administrator, the relevant central bank or a supervisory authority and may be used as a Replacement Reference Rate in accordance with the governing law of the Securities, or – in the event and as long as this is not the case –
- (b) is typically used as a replacement reference rate for comparable securities (in particular with a view to the [Specified Currency][Reference Rate Currency], the type of interest payment and the term), or – in the event and as long as this is not the case –
- (c) is typically used as a reference rate for (x) interest rate swaps (fixed/floating interest) in the [Specified Currency][Reference Rate Currency] or (y) exchange traded interest futures with a comparable term, or – in the event and as long as this is not the case –
- (d) is determined by the Calculation Agent [*in the case of Securities governed by German law, insert*: in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert*: acting in accordance with relevant market practice and in good faith] with a view to the [Specified Currency][Reference Rate Currency] and the Designated Maturity in a reasonable economical manner, based on the general interest rate level at the relevant point in time in [Germany][●].

The Replacement Reference Rate is – subject to the occurrence of a new Reference Rate Cessation Event – applicable to all subsequent interest periods. With respect to subsequent [Interest Determination Dates] [Observation Dates], however, a new adjustment may be made

with respect to the preceding Reference Rate Cessation Event if an adjustment based on a prior ranking Adjustment Method Level pursuant to the sequence (a) to (d) is then possible at that time. This includes the change from a daily interest rate previously selected under a specific Adjustment Method Level to a previously unpublished term-based interest rate.

- (2) *Adjustments*: If necessary, the Calculation Agent will make further adjustments to these Terms and Conditions [*in the case of Securities governed by German law, insert*: in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert*: acting in accordance with relevant market practice and in good faith]. This includes in particular:
- (a) the method of calculation or determination of the [Interest Rate] [Additional Conditional Amount (m)]; [this includes the application of an interpolation or an interest rate on the Securities by means of a formula on a daily interest basis;]
 - (b) the method for determination of the Reference Rate (including any rounding rules);
 - (c) the Designated Maturity, which can be shortened or extended;
 - (d) the relevant Screen Page, Reference Rate Time and/or Reference Rate Financial Centre;
 - [(e) the Day Count Fraction;]
 - [(●) the Interest Determination Date (including the relevant Banking Days), which may be postponed from the beginning of the relevant Interest Period to the end thereof;] and/or
 - [(●) the business day convention according to § 6 (2) of the Special Terms and Conditions.
- Such adjustments shall enable the Calculation Agent
- (i) to use the Replacement Reference Rate in accordance with the then prevailing market practice
or – to the extent that the Calculation Agent determines that the application of any part of such prevailing market practice is not technically feasible, a prevailing market practice for the Replacement Reference Rate does not exist or does not lead to economically meaningful results –
 - (ii) to use the Replacement Reference Rate in such a manner as determined by the Calculation Agent necessary for its use as the Replacement Reference Rate for the Securities; whether this is the case shall be determined by the Calculation Agent at [*in the case of Securities governed by German law, insert*: in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert*: acting in accordance with relevant market practice and in good faith].
- (3) *Interest rate adjustment factor or spread*: In addition to an adjustment under paragraph (2), the Calculation Agent may also determine an interest rate adjustment factor or spread for the purpose of determining or calculating the Interest Rate or Interest Amount [in order to achieve, as far as possible, a result that reflects the economic substance of the Securities prior to the occurrence of the Reference Rate Cessation Event. What is appropriate to reflect the economic substance of the Securities in a given case shall be determined by the Calculation Agent [*in the case of Securities governed by German law, insert*: in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert*: acting in accordance with relevant market practice and in good faith].] [in such a way that the financial position of the Security Holders remains unchanged to the greatest extent possible.]
- (4) *Notifications*[, *Authorisation*]: The Calculation Agent shall notify the Issuer without undue delay of the Replacement Reference Rate pursuant to paragraph (1) and the adjustments and determinations made pursuant to paragraphs (2) [and (3)] as well as the date of first application, who will notify the Security Holders and any exchange, on which the Securities are listed and whose provisions require a notification to the exchange pursuant to § 6 of the General Conditions of the Securities.

[The Issuer shall be deemed to be authorised vis-à-vis the Registrar within the meaning of §§ 5 paragraph 2 no. 3, 14 paragraph 1 no. 2 lit. (c) eWpG to issue instructions, in order to authorise the necessary amendments to the deposited Terms and Conditions and to the registration particulars set-out in § 13 paragraph 1 no. 1 and 4 eWpG.]

[If a RFR is applicable to the Securities, the following applies:

§ 9

Replacement RFR, Adjustments, Notifications[, Authorisation][, Legal Provisions]

(1) *Replacement RFR:* Upon the occurrence of a Reference Rate Cessation Event, the RFR will be replaced by a rate selected by the Calculation Agent in accordance with the provisions below (the "**Replacement RFR**"):

The Replacement RFR shall be the replacement rate of interest (inclusive of any spreads or adjustments) that has been officially selected or recommended by any relevant institution or authority or a committee officially endorsed or convened by such institution or authority (the "**Recommended Rate**").

Should no Recommended Rate be officially selected or recommended, the Replacement RFR shall be then determined by the Calculation Agent [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith] giving due consideration to any industry accepted rate of interest as a replacement for the RFR.

The replacement shall first become effective on the Replacement Effective Date RFR.

(2) *Adjustments:* If necessary, the Calculation Agent will make further adjustments to these Terms and Conditions [*in the case of Securities governed by German law, insert:* in its reasonable discretion (§ 315 et seq. BGB)] [*in the case of Securities governed by Italian law, insert:* acting in accordance with relevant market practice and in good faith].

(3) *Notifications.* The Replacement RFR and the adjustments made as well as the time of its first application will be published in accordance with § 6 of the General Conditions. From the first application of the Replacement RFR on, any reference to the replaced RFR in these Terms and Conditions shall be deemed to refer to the Replacement RFR. References to the Reference Rate-Administrator shall refer to the administrator of the Replacement RFR and references to the Screen Page shall refer to the website that is used as determination basis for such Replacement RFR.

[The Issuer shall be deemed to be authorised vis-à-vis the Registrar within the meaning of §§ 5 paragraph 2 no. 3, 14 paragraph 1 no. 2 lit. (c) eWpG to issue instructions, in order to authorise the necessary amendments to the deposited Terms and Conditions and to the registration particulars set-out in § 13 paragraph 1 no. 1 and 4 eWpG.]

[In the case of Securities with an early redemption at the option of the Issuer, the following applies:

§ [9] [10]

Early redemption at the option of the Issuer

[In the case of an **Optional Redemption Right**, the following applies:

- (1) The Securities may be early redeemed at [the] [any] Optional Redemption Date in whole but not in part at the option of the Issuer at their Optional Redemption Amount (the “**Optional Redemption Right**”). In order to exercise the Optional Redemption Right, the Issuer must give notice to the Security Holders not [more than [●] nor] less than [[●] calendar days] [*insert other notice period*] prior to the relevant Optional Redemption Date pursuant to the provisions of paragraph ([●]) of this § [●] below[, but subject to compliance with the then applicable MREL Requirements (including, without limitation, the Issuer having obtained the prior permission of the competent supervisory authority or the resolution authority, in each case to the extent required by provisions of law).]

[In the case of an **Regulatory Redemption Right**, the following applies:

- [(●)] The Securities may be early redeemed at any time in whole but not in part, at the option of the Issuer, [upon the occurrence of the MREL Disqualification Event,][but subject to compliance with the then applicable MREL Requirements (including, without limitation, the Issuer having obtained the prior permission of the competent supervisory authority or the resolution authority, in each case to the extent required by provisions of law),] upon not more than [●] days' nor less than [●] days' prior notice of such early redemption, at their Optional Redemption Amount[, in accordance with the MREL Requirements].

["**MREL Requirements**" means the laws, regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities applicable to the Issuer and/or the Group, from time to time, (including any applicable transitional or grandfathering provisions), including, without limitation to the generality of the foregoing, any delegated or implementing acts (such as regulatory technical standards) adopted by the European Commission and any regulations, requirements, guidelines, rules, standards and policies relating to minimum requirements for own funds and eligible liabilities adopted by the Federal Republic of Germany or the Republic of Italy, a relevant resolution authority or the European Banking Authority from time to time (whether or not such requirements, guidelines or policies are applied generally or specifically to the Issuer and/or the Group), as any of the preceding laws, regulations, requirements, guidelines, rules, standards, policies or interpretations may be amended, supplemented, superseded or replaced from time to time.]

["**MREL Disqualification Event**" means that, at any time, all or part of the Series of Securities is or will be excluded fully or partially from the eligible liabilities available to meet the MREL Requirements provided that: (a) the exclusion of a Series of such Securities from the MREL Requirements due to the remaining maturity of such Securities being less than any period prescribed thereunder, does not constitute a MREL Disqualification Event; (b) the exclusion of all or some of a Series of Securities due to there being insufficient headroom for such Securities within a prescribed exception to the otherwise applicable general requirements for eligible liabilities does not constitute a MREL Disqualification Event; and (c) the exclusion of all or some of a Series of Securities as a result of such Securities being purchased by or on behalf of the Issuer or as a result of a purchase which is funded directly or indirectly by the Issuer, does not constitute a MREL Disqualification Event.]

- [(●)] The right for payment of any [Additional Conditional Amount (m)] [and] [Additional Unconditional Amount (l)] ceases to exist in relation to all [Additional Conditional Amount Payment Dates (m)] [and] [Additional Unconditional Amount Payment Dates (l)] following the early redemption of the Securities in accordance with paragraph (1) [or (2), as the case may be].]
- [(●)] The right for payment of any Interest Amount ceases to exist in relation to all Interest Payment Dates following the early redemption of the Securities in accordance with paragraph (1) [or (2), as the case may be].]
- [(●)] The Optional Redemption Amount will be paid [on the corresponding Optional Redemption Date] pursuant to the provisions of § 6 of the Special Conditions.]

([●]) Any notice in accordance with this paragraph ([●]) shall be given by a notice in accordance with § 6 of the General Conditions. It shall be irrevocable, must specify the [relevant Optional Redemption Date] [or the] [date fixed for redemption] and must set forth a statement that the redemption is made in accordance with this §[●].]

TAX WARNING

The Issuer assumes no responsibility for deducting any withholding taxes. The taxation of income received from the Securities is subject to the tax laws in the Republic of Italy (in the case of UniCredit as Issuer) and in the Federal Republic of Germany (in the case of HVB as Issuer), where the Issuer has its registered seat. In addition, the taxation of income received from the Securities may be subject to the tax laws of the country, where the Principal Paying Agent has its registered seat or any other national law of a country, where any other paying agent has its registered seat, as well as any national law to the extent investors in the Securities are subject to such laws (i.e. law of Luxembourg, Germany, Austria, Italy, the Republic of Croatia, the Czech Republic, Hungary, Poland, the Slovak Republic, Bulgaria, France, Portugal or Spain).

U.S. Withholding Tax

Payments under index-linked Securities and equity-linked Securities may be subject to U.S. withholding tax.

U.S. tax rules stipulate that for certain financial instruments (such as for the Securities) a withholding tax (of up to 30% depending on the application of income tax treaties) may be imposed if the payment (or deemed payment) on the financial instruments is contingent upon, or determined by reference to, the payment of a dividend from sources within the United States.

This tax liability may apply even if pursuant to the terms and conditions of the Securities no actual dividend-related amount is paid or a dividend-related adjustment is made and thus investors can only determine with difficulty or not at all any connection to the payments to be made in respect of the Securities.

The Issuer or the custodian of the Security Holder is entitled to deduct from payments made under the Securities any withholding tax accrued in relation to payments made under the Securities.

Furthermore, the Issuer is entitled to take any tax liability pursuant to section 871(m) of the IRC into account in original and continuous pricing of the Securities and to comply with the withholding obligation using provisions that have to be made accordingly. Moreover, a 30% tax rate is generally applied, also when taking account of the tax liability in continuously adjusting amounts, due to the necessity of using a uniform rate for all investors in all cases mentioned. A double taxation may occur in relation to payments made under the Securities in that payments on the Securities may be subject to both U.S. tax and local tax, with no tax credit for the U.S. tax.

If U.S. dividend equivalent taxes are withheld, neither the Issuer nor any paying agent, the custodian of the Security Holder or any other person would be obliged to pay additional amounts to the Security Holders as a result of the deduction or withholding.

GENERAL INFORMATION

SELLING RESTRICTIONS

General

No action has been or will be taken in any jurisdiction by the Issuer that would permit a public offer of the Securities, or possession or distribution of any offering material in relation thereto, in any country or jurisdiction where action for that purpose is required other than the approval of the Base Prospectus by the CSSF and a notification to the countries set forth in the Final Terms under "Terms and conditions of the offer".

The distribution of the Base Prospectus and the offering of Securities may be subject to statutory restrictions in certain jurisdictions. This may in particular affect the offer, sale, possession and/or distribution of Securities as well as the distribution, publication or possession of the Base Prospectus. Persons having access to the Securities and/or the Base Prospectus are required to obtain information on and comply with such restrictions on their own responsibility.

No offers, sales or deliveries of any Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligation on the Issuer other than the approval and notification(s) mentioned above.

In particular, the Base Prospectus may not be used for the purpose of an offer or advertisement (i) in a country where the offer or advertisement has not been approved provided that such approval is required and/or (ii) to a person to whom such offer or advertisement may not legally be made.

The Base Prospectus including possible supplements thereto and the Final terms do not constitute an offer or an invitation to purchase Securities to any person and may not be viewed as recommendations by the Issuer to purchase Securities.

European Economic Area

In relation to each member state of the European Economic Area (each a "**Member State**"), the Securities may not be offered to the public in that relevant Member State, except that an offer of the Securities to the public may be made in that Member State:

- (a) if the Final Terms in relation to the Securities specify that an offer of those Securities may be made in that Member State in accordance with the Prospectus Regulation (as defined below) and the conditions of the offer applicable to the offer of the Securities set out in the Base Prospectus or in the relevant Final Terms, as the case may be, in the period beginning and ending on the dates specified in such Final Terms, provided that the Issuer has consented in writing to the use of the Base Prospectus for the purpose of such offer;
- (b) at any time if it is addressed solely to qualified investors as defined in the Prospectus Regulation (the "**Qualified Investors**");
- (c) at any time if it is addressed to fewer than 150 natural or legal persons (other than Qualified Investors) per Member State, subject to obtaining the prior consent of the Issuer or the relevant person or entity placing or offering the Securities nominated by the Issuer for any such offer; and/or
- (d) at any time in any other circumstances falling within Article 1 (4) of the Prospectus Regulation, provided that no such offer of Securities referred to in (b) to (d) above shall require the Issuer to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement the Base Prospectus at least one banking day prior to the respective offer.

For the purposes of this provision, the expression an "offer of Securities to the public" in relation to any Securities in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Securities to be offered so as to enable an investor to decide to purchase or subscribe the Securities.

The expression "**Prospectus Regulation**" means the Regulation (EU) 2017/1129.

United States of America

The Securities have not been and will not be registered under the Securities Act of 1933, as amended ("**Securities Act**"), and, except as provided in the applicable Final Terms with respect to Securities with a maturity on the issue date of one year or less, may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in accordance with Regulation S under the Securities Act or pursuant to another exemption from, or in a transaction otherwise not subject to, the registration requirements of the Securities Act.

Any person when purchasing the Securities agrees with the Issuer and, if different, the seller of such Securities that (i) it will not at any time offer, sell, resell or deliver, directly or indirectly, any Securities so purchased in the United States or to, or for the account or benefit of, any U.S. person, (ii) it is not purchasing any Securities for the account or benefit of any U.S. person and (iii) it will not make offers, sales, re-sales or deliveries of any Securities (otherwise acquired), directly or indirectly, in the United States or to, or for the account or benefit of, any U.S. person.

Terms used above have the meanings given to them by Regulation S.

CLEARING SYSTEM

Securities may be cleared, separately or jointly, through Euroclear Bank SA/NV as operator of the Euroclear system (1 Boulevard du Roi Albert IIB, 1210 Brussels, Belgium) ("**Euroclear Bank**"), Clearstream Banking S.A., Luxembourg (42 Avenue JF Kennedy, L-1855 Luxembourg, Luxembourg) ("**Clearstream Banking SA**" or "**CBL**"), Clearstream Banking AG, Frankfurt am Main (Mergenthalerallee 61, 65760 Eschborn, Germany) ("**Clearstream Banking AG**" or "**CBF**"), Euroclear France S.A. (66 Rue de la Victoire, 75009 Paris, France) ("**Euroclear France**"), Monte Titoli S.p.A. (Piazza degli Affari no. 6, Milan, Italy) ("**Monte Titoli**") and/or any alternative clearing system as specified in the Final Terms. The appropriate security identification codes for each Series of Securities will be contained in the Final Terms. The Issuer may decide to deposit, or otherwise arrange for the clearance of, Securities issued under the Programme with or through an alternative clearing system. The relevant details of such alternative clearing system will be specified in the Final Terms.

AGENTS

Principal Paying Agents under the Programme are UniCredit Bank AG, Arabellastraße 12, 81925 Munich, Germany and (for Securities deposited with Clearstream Banking SA and Euroclear Bank) Citibank, N.A., London Office, Citigroup Centre, Canada Square, Canary Wharf, London E14 5LB, United Kingdom or UniCredit S.p.A., Piazza Gae Aulenti 3 - Tower A - 20154 Milan, Italy.

French Paying Agent for Euroclear France S.A. is CACEIS Bank S.A., 1-3 rue place Valhubert, 75206 Paris Cedex 13, France.

Calculation Agent under the Programme is UniCredit Bank AG, Arabellastraße 12, 81925 Munich, Germany or UniCredit S.p.A., Piazza Gae Aulenti 3 - Tower A - 20154 Milan, Italy.

The relevant Luxembourg Listing Agent under the Programme is BNP Paribas Securities Services, Luxembourg Branch, 60, avenue J.F. Kennedy, L-2085 Luxembourg.

The Issuer may decide to appoint another Principal Paying Agent and/or Calculation Agent for the Securities issued under the Base Prospectus. The relevant details of such alternative Principal Paying Agent and/or Calculation Agent will be specified in the Final Terms.

INTEREST OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE/OFFER

Other transactions

The Issuer is active on a daily basis in the international and Italian securities, currency, credit derivatives and commodities markets. The Issuer can accordingly conclude transactions for the own account or for the account of customers that directly or indirectly relate to the Securities.

Furthermore, the Issuer may conclude transaction in relation to the relevant Underlying or Basket Component. When concluding these transactions, the Issuer can act without considering the interests of the Security Holders. Such transaction can have a negative effect on the performance of the relevant Underlying or Basket Component. The Issuer can pursue economic interests which are contrary to the interests of the investors when doing so. This includes transactions of the Issuer that hedge its obligations under the Securities. The value of the Securities may also be affected by the dissolution of some or all of these hedging transactions. The Issuer can purchase and sell Securities for the own account or for the account of third parties and issue other Securities. In particular, the Issuer, a distribution partner and their affiliates may issue securities in relation to an Underlying or Basket Component on which they have already issued securities.

Business relationships

Every distribution partner and/or its affiliates may be customers or borrower of the Issuer or its affiliates. Furthermore, these distribution partner and their affiliates may have entered into investment banking and/or (commercial bank) transactions with the Issuer and its affiliates. They may also continue to enter into such transactions in the future and may render services to the Issuer and its affiliates in the ordinary course of business. For this reason, the distribution partners and/or their affiliates may have a special interest in the commercial success of the Issuer and in continuing their business relations with the Issuer.

In addition, conflicts of interest of the Issuer or the persons involved in the offer may arise from the following reasons and may lead to decisions unfavourable for the Security Holder being made:

The Issuer itself or any affiliate determines the Issue Price.

Distribution partners may receive certain financial rewards from the Issuer or any affiliate in the form of sales-dependant placement provisions and/or portfolio commissions.

The Issuer, a distribution partner, as well as any of their affiliates may act as Calculation Agent or Paying Agent under the Securities.

The Issuer, a distribution partner, as well as any of their affiliates maintains business relations with other issuers of financial instruments, their affiliates, competitors or guarantors.

The Issuer, a distribution partner, as well as any of their affiliates act as syndicate bank, financial advisor or bank of another issuer of financial instruments. The Issuer or one of its affiliates may itself act as an index sponsor, index calculator, consultant or index committee of an index compiled by it or by a legal entity belonging to the same group.

The Issuer as well as any of their affiliates might be acting as advisor of funds.

Information in relation to the Underlying or Basket Component

The Issuer and its affiliates may possess or obtain material, non-public information on the Underlying or Basket Component. The Issuer and its affiliates are not obliged to disclose such information to the Security Holders. Potential investors therefore depend on public information when analysing the Underlying or Basket Components. The Underlying or Basket Component may be issued by the Issuer or another company belonging to the UniCredit Group.

Pricing by the Issuer

The Issuer or its affiliates can act as the Market Maker for the Securities. The prices are then not directly determined by supply and demand. Therefore the setting of the price for the Securities differs from exchange trading, where the price relies on supply and demand. The Issuer and its affiliates may also act as Market Maker for the Underlying or Basket Component. Market Making can influence the price of the Underlying or Basket Component and thereby the value of the Securities. The prices set by the Market Maker will not always correspond to the prices which would develop in a liquid market. Bid and ask prices quoted by the Market Maker on the secondary market are determined on the basis of the fair value of the Securities. The fair value depends, among other things, on the value of the Underlying or Basket Component.

The Market Maker sets the spread between the bid and ask prices. The bid price is the price at which the Market Maker buys the Securities. The ask price is the price at which the Market Maker sells the Securities. The spread depends both on supply and demand for the Securities and on certain yield considerations. Some costs are deducted when pricing the Securities over the life of the Securities. However, this is not always done evenly over the term. Costs can be deducted in full from the fair value of the Securities at an early stage as determined by Market Maker. The prices quoted by the Market Maker may therefore deviate significantly from the fair value or the economically expected value of the Securities. In addition, the Market Maker may at any time change the method by which it determines the prices quoted. For example, the Market Maker may increase or decrease the spread between bid and ask prices.

Other potential conflicts of interest

- Any of the Distributors and their affiliates may be customers or borrowers of the Issuer and its affiliates. In addition, any of such Distributors or any of its affiliates may have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for the Issuer, or its affiliates in the ordinary course of business.
- The Issuer and/or the Distributor may have a conflict of interest with regard to the Securities as/if they belong to UniCredit Group.
- The Issuer may be the Distributor of the Securities.
- The Issuer or a Distributor may be the Calculation Agent of the Securities.
- The Issuer or a Distributor may also be the (Principal) Paying Agent of the Securities.
- The Issuer or a Distributor may also be the arranger of the Securities.
- The Issuer or a Distributor may have a conflict of interest with regard to the Securities if they act as systematic internalizer in the execution of customer orders.
- The Issuer or the Distributor may act as index sponsor, index calculation agent, index advisor and index committee with respect to the Underlying or Basket Component of the Securities.
- With regard to trading of the Securities the Issuer, a swap counterparty or a Distributor may have a conflict of interest being also the Market Maker on any regulated or equivalent or other market(s) or trading venue(s) where the Securities are listed or admitted to trading.
- Any relevant regulated or equivalent or other market(s) or trading venue(s) where the Securities are listed or admitted to trading may be organised and managed by the the Issuer or a Distributor or a company in which Issuer has a stake or is related to.
- The Issuer, a Distributor or one of their affiliates may act as an investment advisor or manager of a fund used as Underlying or Basket Component.
- The relevant Distributor may receive from the relevant Issuer an implied placement commission comprised in the Issue Price, while the Issuer or another person may receive an implied structuring commission and/or other commissions or charges.

THIRD PARTY INFORMATION

Where information has been sourced from a third party, the Issuer confirms that to the best of its knowledge this information has been accurately reproduced and that so far as the Issuer is aware and able to ascertain from information published by such third party no facts have been omitted which would render the reproduced information inaccurate or misleading.

To the extent additional information is included in the Final Terms (for example, with regard to information about the Underlying or Basket Component), the respective source for the corresponding information is stated at the relevant place.

Reference may also be made to websites for information about the Underlying or Basket Component and the respective Final Terms. These websites can be used as a source of information for the

description of the Underlying or Basket Component. The Issuer assumes no warranty for the accuracy of the content and the completeness of the data shown on the websites.

USE OF PROCEEDS AND REASONS FOR THE OFFER

The net proceeds from each issue of Securities by the Issuer will be used for its general corporate purposes, i.e. making profit and/or hedging certain risks.

The relevant Final Terms may specify further details in relation to the use of the proceeds of a specific issuance of Securities.

Where applicable, the estimated total expenses of the issue/offer and the estimated net amount of the proceeds will be disclosed in the relevant Final Terms.
