- (1) *Rounding:* The amounts payable under the Terms and Conditions shall be rounded up or down to the smallest unit of the Specified Currency, with 0.5 of such unit being rounded upwards.
- (2) *Business day convention:* If the due date for any payment under the Securities (the "**Payment Date**") is not a Banking Day then the Security Holders shall not be entitled to payment until the next following Banking Day. The Security Holders shall not be entitled to further interest or other payments in respect of such delay.

- (3) *Manner of payment, discharge:* All payments shall be made to the Principal Paying Agent. The Principal Paying Agent shall pay the amounts due to the Clearing System to be credited to the respective accounts of the depository banks and to be transferred to the Security Holders. The payment to the Clearing System shall discharge the Issuer from its obligations under the Securities in the amount of such payment.
- (4) *Interest of default:* If the Issuer fails to make payments under the Securities when due, the amount due shall bear interest on the basis of the default interest rate established by law. Such accrual of interest starts on the day following the due date of that payment (including) and ends on the effective date of the payment (including).

§ 7

Market Disruptions

- (1) *Postponement:* Notwithstanding the provisions of § 8 of the Special Conditions, if a Market Disruption Event occurs on an Observation Date, the respective Observation Date shall be postponed to the next following Calculation Date on which the Market Disruption Event no longer exists.

Any Payment Date relating to such Observation Date shall be postponed if applicable. Interest shall not be payable due to such postponement.

- (2) *Discretionary valuation:* Should the Market Disruption Event continue for more than 8 consecutive Banking Days, the Calculation Agent shall determine in its reasonable discretion (§ 315 et seq. BGB) the respective Reference Price required for the calculations or, respectively, specifications described in the Terms and Conditions. Such Reference Price shall be the reasonable price determined in accordance with prevailing market conditions at 10:00 a.m. (Munich local time) on this 9th Banking Day, taking into account the financial position of the Security Holders.

If within these 8 Banking Days traded Underlying Linked Derivatives of the Underlying expire or are settled on the Determining Futures Exchange, the settlement price established by the Determining Futures Exchange for the there traded Underlying Linked Derivatives will be taken into account in order to conduct the calculations or, respectively, specifications described in the Terms and Conditions. In that case, the expiration date for those Underlying Linked Derivatives is the respective Observation Date.

§ 8

Adjustments, Type of Adjustment, New Index Sponsor and New Index Calculation Agent, Replacement Specification, Notifications, Legal Provisions

- (1) *Adjustments:* If an Adjustment Event occurs the Calculation Agent is authorised to adjust the Terms and Conditions (the "**Adjustment**"); whether an Adjustment is to be made shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

The goal of the Adjustment is to appropriately consider the economic impact of the circumstance that triggered the Adjustment Event, so that the economic characteristics of the Securities remain as unchanged as possible, taking into account the interests of the Security Holders as well as the Issuer ("**Adjustment Goal**"). A subsequent adverse change of the value of the Securities resulting from the Adjustment cannot be ruled out.

The Calculation Agent determines all Adjustments according to this § 8 in its reasonable discretion (§ 315 et seq. BGB), taking into account the Adjustment Goal. It will only make an Adjustment if such Adjustment is reasonable for the Security Holders as well as for the Issuer; whether this is the case shall be determined by the Calculation Agent in its reasonable discretion (§ 315 et seq. BGB).

- (2) *Type of Adjustment:* In the context of an Adjustment the Calculation Agent may, in particular and in accordance with paragraph (1) above, in particular, replace the Underlying with a Replacement Underlying and if necessary redefine the Adjustable Product Data. As a "**Replacement Underlying**" another index can be considered which is comparable to the original index with respect to the represented constituents, the consideration of returns and distributions of the constituents included in the Index (e.g. dividends) and, if applicable, fees and costs included in the Index.

If the Calculation Agent designates a Replacement Underlying, from the Adjustment Date on (as defined in paragraph 5 below), every reference to Underlying in the Terms and Conditions shall be a reference to the Replacement Underlying, unless the context requires otherwise.

- (3) *New Index Sponsor and New Index Calculation Agent:* If the Underlying is no longer determined by the Index Sponsor but rather by another person, company or institution (the "**New Index Sponsor**"), then all calculations or, respectively, specifications described in the Terms and Conditions shall occur on the basis of the Underlying as determined by the New Index Sponsor. In this case, any reference to the replaced Index Sponsor in the Terms and Conditions shall be deemed to refer to the New Index Sponsor. If the Underlying is no longer calculated by the Index Calculation Agent but rather by another person, company or institution (the "**New Index Calculation Agent**"), then all calculations or, respectively, specifications described in the Terms and Conditions shall occur on the basis of the Underlying as calculated by the New Index Calculation Agent. In this case, any reference to the replaced Index Calculation Agent in the Terms and Conditions shall be deemed to refer to the New Index Calculation Agent.
- (4) *Replacement Specification:* If a price of the Underlying published by the Index Sponsor or the Index Calculation Agent, as the case may be, pursuant to the Terms and Conditions is subsequently corrected and the correction (the "**Corrected Value**") will be published by the Index Sponsor or the Index Calculation Agent, as the case may be, after the original publication, but still within one Settlement Cycle, then the Calculation Agent will notify the Issuer of the Corrected Value without undue delay and shall again specify and publish pursuant to § 6 of the General Conditions the relevant value by using the Corrected Value (the "**Replacement Specification**").
- (5) *Notifications:* All Adjustments as described in this § 8 and undertaken by the Calculation Agent as well as the designation of the time of the first application (the "**Adjustment Date**") take place by notification of the Securities Holder according to § 6 of the General Conditions. Hereby reference is made to the aforementioned notifications.
- (6) *Legal Provisions:* The application of §§ 313, 314 BGB remains reserved.

What are the key risks that are specific to the Issuer?

Risks related to the Issuer's financial situation: Risk that HVB Group will not be able to meet its payment obligations on time or in full or to obtain sufficient liquidity when required as well as that liquidity will only be available at higher interest rates, and the risk that the bank will only be able to liquidate assets on the market at a discount could create liquidity problems for HVB Group and thus could result in a limited ability to fund its activities and meet its minimum liquidity requirements.

Risks related to the Issuer's specific business activities: Risks arising from the normal business activities of HVB Group, which involve credit risk in the lending business, market risk in the trading business as well as risks from other business activities such as the real estate business activities of HVB Group could have an adverse impact on HVB Group's operating results, its assets and its financial situation.

General risks related to the Issuer's business operations: Risks from inadequate or failed internal processes, systems and people or from external events, risks caused by adverse reactions of stakeholders due to their altered perception of the bank, risks from unexpected adverse changes in the future earnings of the bank as well as risks from concentrations of risk and/or earnings positions could result in financial losses, a downgrade of HVB's rating and an increase in the business risk of the HVB Group.

Legal and regulatory risk: Changes of the regulatory and statutory environment of HVB could result in higher capital costs and a rise of costs for the implementation of regulatory requirements. In cases of non-compliance with regulatory requirements, (tax) laws, regulations, statutory provisions, agreements, mandatory practices and ethical standards, the public perception of HVB Group as well as its earnings and financial situation could be negatively affected.

Strategic and macroeconomic risk: Risks resulting from management either not recognising early enough or not correctly assessing significant developments or trends in the bank's environment and risks arising from negative economic developments in Germany and on the international financial and capital markets could have a negative effect on the assets, liabilities, financial position and profit or loss of HVB Group. In particular, the consequences of the Russian-Ukrainian conflict, a strong rise in energy costs and raw material prices, severe supply bottlenecks and further political uncertainties such as the tensions between the US and China about trade and Taiwan could lead to a more severe slowdown. In addition, if any of the aforementioned risks materialises, turbulence could occur on financial and capital markets.

Adjustment right: The Terms and Conditions of the Securities may be adjusted by the Calculation Agent if an Adjustment Event occurs (for example, an Index Replacement Event occurs (for example a material change to the relevant index concept)).

What are the key risks that are specific to the Securities?

The specific risk factors related to the Securities, which in the view of the Issuer are material, are described below:

Risk related to the rank and characteristic of the Securities in the case of a failure of the Issuer: The Security Holders bear the risk of the insolvency of the Issuer. Moreover, Security Holders may become subject to resolution measures in relation to the Issuer if the Issuer is failing or likely to fail.

Specific Risks related to the payment profile of the Securities: There is the particular risk that the price of the Underlying falls and consequently the Security Holder will suffer a significant loss of his invested capital, depending on the Minimum Amount.

Risks arising from the Terms and Conditions of the Securities: The Security Holders bear a risk of loss if the Securities are converted by the Issuer. The Securities will then on the Final Payment Date not be redeemed at the Redemption Amount but the Settlement Amount of the Securities. This does not depend on the performance of the Underlying and may be less than the Nominal Amount even if the Underlying performs favourably. Moreover, the Security Holders bear a risk of loss if an adjustment of the Terms and Conditions is made or if a market disruption occurs.

Risks related to the investment in, the holding and selling of the Securities: The Security Holders bear the risk that the market price of the Securities may be subject to severe fluctuations during the term of Securities and that the Security Holder is not able to purchase or to sell the Securities at a specific time or for a specific price.

Risks related to Indices as Underlying: The Securities are associated with risks for Security Holders similar to those of direct investments in a comparable portfolio of the assets underlying the relevant Index. Changes in the value of the Index Components consequently directly affect the price of the Index.

Obecná rizika spojená s obchodními činnostmi Emitenta: Rizika z nepřiměřených nebo selhávajících interních procesů, systémů a lidí nebo z externích událostí, rizika způsobená nepříznivými reakcemi zainteresovaných stran v důsledku jejich pozměněného vnímání banky, jakož i z neočekávaných nepříznivých změn budoucích výnosů banky, jakož i rizika spojená s

koncentrací rizikových a/nebo výnosových pozic, by mohly mít za následek finanční ztráty, snížení ratingu skupiny HVB a zvýšení obchodního rizika pro skupinu HVB.

Právní a regulační riziko: Změny regulačního a zákonného prostředí HVB by mohly vést k vyšším kapitálovým nákladům a zvýšení nákladů na implementaci regulačních požadavků. V případě nedodržení regulačních požadavků, (daňových) zákonů, právních předpisů, zákonných ustanovení, dohod, závazných postupů a etických standardů by mohlo být negativně ovlivněno vnímání skupiny HVB, jakož i její zisků a finanční situace ze strany veřejnosti.

Strategická a makroekonomická rizika: Rizika plynoucí z toho, že management nedostatečně včas rozpozná nebo nesprávně vyhodnotí významný vývoj nebo trendy v prostředí banky a rizika vyplývající z negativního hospodářského vývoje v Německu a na mezinárodních finančních a kapitálových trzích, by mohly mít negativní vliv na aktiva, pasiva, finanční pozici a zisk nebo ztrátu skupiny HVB. Zejména důsledky rusko-ukrajinského konfliktu, výrazný nárůst cen energií a surovin, vážné omezení v zásobování a další politické nejistoty, jako např. napětí mezi USA a Čínou v otázkách obchodu a Tchaj-wanu by mohly vést k výraznějšímu zpomalení. Pokud by se navíc naplnilo některé z výše uvedených rizik, mohlo by dojít k otřesům na finančních a kapitálových trzích

Jaká jsou klíčová rizika specifická pro Cenné Papíry?

Specifické rizikové faktory spojené s Cennými Papíry, které jsou podle Emitenta klíčovými, jsou uvedeny níže:

Riziko spojené s postavením a charakteristikou Cenných papírů v případě selhání Emitenta: Držitelé Cenných Papírů nesou riziko platební neschopnosti Emitenta. Držitelé Cenných Papírů mohou navíc podléhat záchranným opatřením ve vztahu k Emitentovi, jestliže Emitent selže nebo je pravděpodobné, že selže.

Specifická rizika související s platebním profilem Cenných Papírů: Existuje zvláštní riziko, že cena Podkladového Aktiva poklesne a Držitel Cenných Papírů následně utrpí významnou ztrátu svého investovaného kapitálu, v závislosti na Minimální Částce.

Rizika vyplývající z Podmínek Cenných papírů: Držitelé Cenných Papírů nesou riziko ztráty, pokud Emitent provede konverzi Cenných Papírů. Cenné Papíry se pak zpětně odkoupí ke Dni Konečné Výplaty za Vypořádací Částku Cenných Papírů, nikoliv za Částku za Zpětný odkup. Tato částka nezáleží na výkonu Podkladového aktiva a může být nižší než Nominální Hodnota, i když Podkladové Aktivum vykazuje příznivou výkonnost. Držitelé Cenných Papírů navíc nesou riziko ztráty, pokud dojde k úpravě Podmínek nebo pokud dojde k narušení trhu.

Rizika spojená s investováním, držením a prodejem Cenných Papírů: Držitelé Cenných Papírů nesou riziko, že tržní cena Cenných Papírů může během doby platnosti Cenných Papírů podléhat výrazným výkyvům a že Držitel Cenných Papírů není schopen koupě nebo prodeje Cenných Papírů v konkrétním čase nebo za konkrétní cenu.

Rizika spojená s indexy jako Podkladovým Aktivem: Cenné Papíry jsou spojeny s podobnými riziky pro Držitele Cenných Papírů jako v případě přímé investice do srovnatelného portfolia podkladových aktiv příslušného Indexu. Změny hodnoty Složek Indexu následně přímo ovlivňují cenu Indexu.
